Message from the Vice Chancellor

I am pleased to present the 2022-23 Annual Report for the Division of Finance and Administration at the University of Wisconsin-Eau Claire. Despite facing unprecedented challenges, we have demonstrated resilience and unwavering dedication to our mission.

Throughout the year, our Division has remained committed to providing an exceptional educational experience for our students while effectively managing resources. We have embraced the evolving higher education landscape, implementing strategies and initiatives to foster growth and innovation.

Financial responsibility has been a priority. By streamlining processes and seeking efficiencies, we have allocated resources responsibly, ensuring the University's financial stability without compromising quality.

Collaboration has been integral to our success. We have actively engaged with campus partners, fostering strong relationships and open communication. Together, we have developed creative solutions to meet evolving needs and seize new opportunities.

Our sustainability efforts have yielded significant progress. Through energy conservation, waste reduction, and sustainable practices, we continue to reduce our environmental footprint and promote responsible stewardship of resources.

I extend my heartfelt appreciation to our remarkable team. Your dedication, professionalism, and commitment to excellence have been instrumental in our success. Thank you for serving our students and the University community with unwavering devotion.

Looking ahead, we approach the future with optimism and excitement. The Division of Finance and Administration will adapt, evolve, and tackle challenges head-on. Our aim is to ensure the University of Wisconsin-Eau Claire remains a leader in providing a transformative educational experience.

Thank you for your ongoing support and dedication to our shared vision. I encourage you to explore this Annual Report, which showcases our accomplishments and initiatives. Together, let us continue working towards a brighter future.

Grace Crickette

Budget & Resource Planning

Strategic Highlights

Budget and Resource Planning serves UW-Eau Claire by providing financial information, analysis, and planning support to assist in decision making that advances the mission and goals of the University.

Financial Highlights

The budget department assists the entire campus to advance the mission with the financial resources available. We do this by:

- Facilitating the annual budget development process
- Providing consistent, credible, and unbiased financial information and analysis internally and externally
- Supporting financial planning efforts through forecasting, modeling, and scenario planning
• Providing reports, tools, and training to enhance budget management throughout the university
• Promoting budget transparency by providing a centralized resource for budget information and collaborating with stakeholders
• Encouraging creativity and innovation through continuous process improvement

Operating Highlights
Submitting annual budget
Creating forecasts and other tools to help with decision making
Collaborated to create UW-Eau Claire’s first published financial plan

Budget & Resource Planning plays a crucial role in allocating financial resources effectively and strategically to support academic programs, faculty, staff and infrastructure, ultimately influencing UW-Eau Claire’s overall performance and ability to provide quality education and research opportunities.

2021-22 Budget Book (previous Budget Books)
FY22 & 23 Financial Plan
Financial Snapshot
Annual Report
PR Fund Balance 3-Year Summary

Looking Ahead
The Budget team will be working with all divisions to create a budget plan to eliminate the structural deficit by FY25. This will include identifying budget expense reductions and revenue generation opportunities. The budget team will also be tracking the progress of these plans. Budget will be heavily involved with the upcoming transition to Workday. All current financial operations, including the budget will be migrating to the new system. An additional system for budgeting, Adaptive Planning, will also be implemented to replace Plan UW. Budget will be involved with the design, testing, training, and updating of business processes.

Tracy Drier, executive director of finance & administration
Strategic Highlights
The Children’s Nature Academy provides care and learning to children of UW-Eau Claire students, faculty, staff and the greater Eau Claire community. Our highly qualified staff also provide mentoring and support to University students through hands-on learning and student employment. Embedding intentional elements of the strategic plan into our daily practices, our work with UW-Eau Claire’s youngest Blugolds, creates a mutually beneficial situation for our many stakeholders. We have created a unique program where quality is second to none.

The Children’s Nature Academy is recognized as a 5-Star Provider by the Wisconsin Department of Children & Families’ YoungStar child care quality rating and improvement system.

### Goal  
**Contribution**  
**Additional Information**

| **Achieve our Guidepost Goals** | • Awarded $9,000.00 in student scholarships |
| **Invest in Faculty & Staff** | • Provided over 1,465 continuing education hours to staff |

### Financial Highlights
1. Increased revenue through expanded programming.
2. Supported staff, student and permanent, raises through grant funding to manage inflation and build reserves.
3. Worked with the program’s advisory board and community leadership class to brainstorm ideas for cost savings throughout the spring 2023 semester. Working with the advisory board on cost savings, rather than just raising our user fees to cover inflation, empowers families in the program.

### Operating Highlights
**Grant funding for staff training**
Diversified staff expertise by utilizing grant funding to help them attain specialized certifications, including:

- Nature-Based Teacher Certification
- Wisconsin Registry Inclusion Credential
- CVTC Autism Certificate
- Family Infant Mental Health Specialist

**Increased wages for student employees**

"*Increasing wages helped me pay my rent. Although money does not mean a lot to me, making more money puts me in a better position.*" -Steven

"*As a student you have a lot going on. There is not a lot of time to work so making more money helps.*" -Marissa

**Expanded infant programming to meet the needs of UW-Eau Claire student parents**

"*This program has helped me tremendously because it's allowed me to really focus on school rather than needing to do work and school.*" -Student Parent
The Children’s Nature Academy provides a vital service by offering a safe and nurturing environment for children of faculty, staff and students, allowing parents to balance their academic and professional responsibilities while fostering the wellbeing and development of their children.

Key Reports & Resources
- National Early Childhood Program Accreditation (NECPA) Accreditation Certificate
- Institute for Women’s Policy Research: Evaluating the Role of Campus Child Care in Student Parent Success

Looking Ahead
Expansion
The UWEC Children’s Nature Academy is currently in the design process for expansion. This expansion will increase the capacity of the program from 180 to 240 children. The new space will be on the existing property in a building adjacent to the current building. We hope that this expansion will help ease the stress of families looking for care in times when childcare is limited.

Continue to support the wellbeing of children, families and staff
Post pandemic stress has impacted the overall health of children, families, and staff. The Children’s Nature Academy is committed to seeking solutions that will help children, families and staff thrive.

Expand leadership opportunities for UW-Eau Claire students
Students are an important part of the Children’s Nature Academy’s success. Currently, we have a student advisory board, but we believe we can do more in student leadership.

---

Lisa Coen, director of the children’s nature academy
Strategic Highlights
The Department of Facilities provides services to support university students, faculty, staff, and administration by maintaining, managing, repairing, planning, and constructing the University's infrastructure.

Departmental Units include:
- Custodial
- Grounds
- Heating Plant
- Maintenance Operations
- Pablo Center at the Confluence
- Planning & Construction
- Surplus/Stores/Mail
- UWEC-Barron County Facilities

**Financial Highlights**

The Facilities department manages many finances for the campus including utilities, minor maintenance and repair of grounds, buildings and building systems, annual certifications for building systems including fire suppression, fire alarms, fire and smoke detection, elevators, backflow preventers, air/fuel, stormwater, waste, etc. Facilities also is the unit that requests funding from the state for larger repair items or state funded campus improvements and buildings.

Collaborate with auxiliary units through use of an assessment to provide consistent and streamlined custodial and maintenance services.
Custodial services generated revenue by providing restorative floor care services to Pablo Center.

Operating Highlights
- 24/7 Utility production
- 24/7 Critical Services and Emergency Response
- 10,000 work orders processed annually
- KT Hall and Putnam Hall demo completed to ready site for new Science/Health Sciences Building
- Managed new Science/Health Sciences Building design process to get to final design phase

Facilities continues to search for operational and organizational efficiencies. Since 2015 staff and budget reductions, five buildings totaling 420,909 gross square feet have been added to the inventory and under Facilities responsibility without increasing FTE or services and supplies budget!

Key Reports & Resources
- Campus Physical Development 2022
- Current UW-Eau Claire Facilities Projects
- Master Planning Documents
- Project Evaluations (Space Modification) Practice Directive
- Building Floor Plans
- Campus Furniture
- Blugold Cleaning Standards
- Snow Removal Procedures

Looking Ahead
Implementation of Business Management Software (TMA) update to include customer work order look up capabilities, required tech notes and work order survey.

Complete final design of Science/Health Sciences Building and begin 3-year building construction.

New Supply Store catalogue in ShopUW+ as part of integration with Workday for FY24.
Complete Energy Master Planning Study.

Troy Terhark, director of facilities & chief facilities officer

Financial Highlights
The Department of Human Resources continues to be cognitive of managing a reasonable budget and making efforts to reduce costs. This past year a restructuring was done between Human Resources and Budget & Resource Planning to realign the leadership of both divisions and redistribute work duties. This resulted in budget savings of over $100,000 that will be ongoing. Staff are proactive in applying for annual wellness grants.

Operating Highlights
**Tuition Reimbursement Program**
Thank Goodness It’s Summer! (TGIS)
Refreshed Human Resources website
**Human Resources** plays a pivotal role in managing UW-Eau Claire’s workforce, from recruitment and hiring to training and development, ensuring effective employee engagement, satisfaction, and compliance with policies and regulations, ultimately contributing to the overall success and well-functioning of our university community.

Key Reports & Resources

- [Human Resources website](#)
  - Exit and Stay interviews – this is an internal report to bring awareness to overall issues. Connection has been a theme this year and TGIS was developed to provide wellness and connection.
  - Workforce dashboard
  - Hanover Equity Study
  - Payroll and CBC audits

Looking Ahead

Our goals for the upcoming year are to create a recurring welcoming/onboarding event for new employees to attend in person. This will help to create more community and connection and be able to provide resources for new employees. We are also working on publishing an employee handbook that all employees can access on the website. This will be a single point of truth to help both supervisors and employees answer employment questions. Finally, the entire team will be working on the transition to Workday. Human Resources is looking forward to many efficiencies and improvements with recruiting, onboarding and training in the new system.

---

## Procurement & Strategic Sourcing

### Strategic Highlights

<table>
<thead>
<tr>
<th>Goal</th>
<th>Contribution</th>
<th>Additional Information</th>
</tr>
</thead>
</table>
| **Integrated Undergraduate Research & Creative Activity in all Disciplines** | • Supported NCUR activities by conducting an RFB for transportation services  
• Reviewed contracts for other services related to NCUR  
• Ensured proper procurement authority for NCUR purchases | |
| **An Exemplary Education** | • Support faculty and staff to ensure necessary supplies and equipment are available for classes | |
| **Sustainable Campuses** | • Sourced fixtures from a retail store going out of business to be used in the Blugold Store at the County Materials Complex | |
| **Invest in Faculty & Staff** | • Procurement staff member currently serves on the ShopUW+ Triage team  
• Participated in the design and implementation of the ShopUW+ Sourcing module | |

### Financial Highlights

- Procurement has provided data for the various spend analytics groups.
- Evaluation of P/PT card spend reports have provided insight to opportunities for future contracts.
- Working with one faculty member and the Department of Administration saved the University over $12,000 in ONE lab modification project.
- Issued Requests for Bids and Requests for Proposals resulting in contracted value of over $2 million.
• Collaborated with other UW System campuses on multiple solicitations to increase our buying power.

Operating Highlights

• The Procurement team is becoming more knowledgeable about the reports available from the US Bank portal, resulting in auditing improvements and efficiencies.

• Filled vacant positions. New employees all completed their 40 hours of training required by the Department of Administration.

• 95% of all purchase orders were issued to non-catalog suppliers, resulting in $25.8 million of purchases flowing through the Procurement department. (Actually more, since any catalog order over $5,000 also comes to our department.)

Procurement & Strategic Sourcing plays a critical role in the efficient acquisition of goods and services, managing vendor relationships, ensuring compliance with procurement policies and regulations, and optimizing cost-effectiveness, ultimately supporting UW-Eau Claire’s operations, research and educational objectives while maximizing financial resources and fostering a transparent and fair procurement process.

Key Reports & Resources
Procurement & Strategic Sourcing website

Looking Ahead

• UW Eau Claire will be hosting the 2023 Fall UW System Procurement Conference.

• Working with campus departments to help them understand State of Wisconsin public procurement rules and why they exist. Foster relationships so departments come to Procurement at the beginning of the purchasing process.

• Redesign the P/PT card program in preparation for ATP.

Cheri Falkner, director of procurement & strategic sourcing
Strategic Highlights

The Department of Risk Management, Safety and Sustainability ("RMSS") works to identify areas of risk, develop response strategies to mitigate loss and to maximize opportunities. RMSS strives to incorporate the University’s Strategic goals into everything we do.

Financial Highlights
The Department of Risk Management, Safety and Sustainability continues to be cognitive of managing a reasonable budget and makes efforts at reducing costs. Staff are proactive in applying for grants and searching for resources or available funds to continue making the campus safe and sustainable.

RMSS received a $1,000 grant through the Wisconsin Department of Administration's “Injury Reduction Grant” program. Anti-slip tape was purchased and installed at various locations to help deter or reduce injuries from slips on stairs.

Worker’s Compensation is a benefit program that can help employees with recovery after a work-related injury or illness. UWEC was able to successfully reduce the number of claims, cost of claims and lag time in FY23.
Operating Highlights

In 2022, UW-Eau Claire purchased two hydroponics units in response to students advocating for the availability of more local, fresh produce.

RMSS created a new program, offering free First Aid/CPR/AED certification training to all University employees. Staff learn how to use critical lifesaving skills to help make UW-Eau Claire safer.

Narcan boxes, or Nalox-Zone boxes, were installed throughout campus in the fall of 2022. These boxes contain resources used to help save a life during an opioid overdose.

All youth-related activities at UW-Eau Claire are registered through the Youth Protection Program. This office assists activity organizers in complying with System policies on youth protection and employee screening.

The vision of Risk Management, Safety & Sustainability is to promote a culture of risk awareness by involving all University stakeholders in the day-to-day management of risks.

Financial Highlights

- Continually generate innovative ways to “grow olive trees” and think differently about expense reduction, cost avoidance, revenue generation and reduction of overall operating costs.
- Created a Sales Development Position to **generate revenue** to offset expenses.
- University Centers applied for and received two **new grants** this year.
- Combined 2 positions to one ultimately **eliminating** a .5 FTE position.
- Repurpose, reuse and redistribute equipment, supplies and more to financially align with the greater **campus’ sustainability** strategic plan.

Operating Highlights

Top achievements

1. Each year University Centers successfully operates an 18 million dollar enterprise.
2. Annually host between **700K and 1M people** through the doors.
3. Supports and executes over **5,000 events annually**.
4. Feeds over **10,000 meals weekly** to our campus community w/ Blugold Dining.
5. Mobile credentialing for **10,000 campus stakeholders** w/ Blugold Card Office/LTS.
6. **Sold nearly 40K tickets** for campus events through the Service Center.
7. Over **3,000 customer interactions** through Printing Services.
8. Purchase, house and maintain two **hydroponics units** in response to students advocating for the availability of more local, fresh produce.

As well as directing the programs, services and facilities of the Davies Student Center, the administration and staff of University Centers manages the unit budget and accounting operations, and oversees contracted services including dining, banking, bookstore, textbook rental and vending.

Campus Physical Development 2022

Looking Ahead
In the next year, successfully research and implement a new scheduling software unique to the needs of University Centers, our partners and spaces.

In the next year, engage in emergency response tabletop exercise training for University Centers staff and units/personnel housed in WR Davies Student Center.

Kristin Fitzsimmons, director of university centers
Strategic Highlights
The UW-Eau Claire Police Department is committed to providing quality public safety and law enforcement services to students, faculty, staff and visitors. Our trained law enforcement officers are prepared for any emergency or situation on campus, but if you ask them "what is your job?" they would say it is to keep campus safe and maintain an environment where all can learn and prosper.

| Achieve our Guidepost Goals  | • With a priority to keep campus safe and maintain an environment where all can learn and prosper, University Police responsibilities may lead to recruitment and retention. Furthermore, high impact experiences include:  
  o Criminal Justice Internships  
  o Campus Safety Officers  
  o Residence Hall Liaison Program | CJ Internships  
  Campus Safety Officer |
| Grow Enrollment to 10,200     | • With a priority to keep campus safe and maintain an environment where all can learn and prosper, University Police responsibilities may lead to recruitment and retention |                       |
| Invest in Faculty & Staff    | • Peer Support Program  
  • Departmental Wellness Team  
  • Training opportunities for all, including FBI-Law Enforcement Executive Development Association (FBI-LEEDA) | PEER Support  
  Wellness Solutions  
  FBI-LEEDA |

Financial Highlights
Despite increasing operational expenses and stagnant budget allocations, University Police have been good stewards of the department’s reasonable operating budget. In FY23, making small but effective changes to our operations, University Police were able to save approximately $2,500 in
expenses. In addition, we were reimbursed $1,500 for critical training expenses in police officers’ response to mental health incidents through the National Alliance on Mental Illness.

In FY23, we received a $2,224 grant from the Edward Byrne Memorial Justice Assistance Grant (JAG) Program. We also received a $23,758 Law Enforcement Agency Grant from the Wisconsin Department of Administration.

Operating Highlights
For several years University Police have been offering in-person active threat training using the ALICE Training Solutions model. In-person training can be challenging for some to accommodate, and continuous active threat incidents across the country sparked University Police to introduce a self-paced Active Threat Response Training Course through Canvas. Monthly drawings for a University Bookstore $25 gift card are held for both students and faculty/staff who complete the course in its entirety.

Scheduling a small group of dedicated police officers for a 24/7/365 operation is challenging. In January 2023, University Police discarded our paper and 3-ring binder scheduling system for a web-based application solution called PACE Scheduler. PACE Scheduler allows work schedules to be built years in advance. Additionally, paid time off requests, sick leave requests and other shift adjustments are handled at any time of day using this application, ensuring round-the-clock public safety coverage for campus.

In collaboration with Housing + Residence Life - combining the previous Campus Cab and Student Patrol Programs - the Campus Safety Officer SafeWalk/SafeRide Program launched in fall of 2021. This free safety escort service, provided by student staff, is offered to all students, faculty and staff. The program services all on-campus locations and a large area...
where many off-campus students reside. Since the program’s inception, the use of this service has increased nearly 100%, with utilization of the program on 2,858 occasions during the 2022-23 academic year.

**University Police** play a crucial role in ensuring the safety and security of the campus community, responding to emergencies, providing crime prevention and awareness programs, and fostering a secure environment that allows students, faculty, staff and visitors to focus on their educational pursuits and campus activities with peace of mind.

Looking Ahead

University Police are planning for expanded public safety operations for the anticipated 2024 completion of the County Materials Complex and Simpson Field Complex.

We are also planning on training the last of our newly hired police officers in Fair and Impartial Policing, and offering numerous professional development opportunities to all University Police staff members.

Jay Dobson, director of university police & chief of police
Collaboration
Highlights
Risk events are interconnected across the University and execution of UW-Eau Claire’s Strategic Plan is impacted daily by a variety of risk and compliance issues and challenges. The Compliance, Audit, Risk and Ethics (CARE) Committee was established to systematically share risk and internal control data, information, knowledge and solutions across all UW-Eau Claire colleges and departments, and achieve optimal and best practice driven results in support of the University’s mission.

The CARE Committee collaborates to identify and manage the full range of risks that UW-Eau Claire faces. The committee champions the resultant successful strategies and is charged with communicating them to the campus for broader application. A common language for managing risk and identifying appropriate controls has been established with a balanced view - one that attempts to minimize hazards, recognize and influence uncertainties, and achieve collaborative success.

Highlights

Working Smarter is UW-Eau Claire’s cost savings and revenue generation initiative, designed to propel the university into a new era of financial sustainability and academic excellence.

Committed to maximizing operational efficiency and fostering innovation, this transformative initiative focuses on strategically identifying areas for cost reduction and implementing sustainable revenue-generating strategies, including streamlining administrative processes, optimizing resource allocation, and harnessing untapped revenue streams. With a holistic approach that encompasses the collective efforts of faculty, staff, and students, this program strives to secure a brighter and more prosperous future for UW-Eau Claire while upholding our unwavering commitment to Excellence.

Through the efforts of leaders, faculty, and staff from across the university, we have already begun identifying and implementing opportunities.

Leaders in each Division, College and department are working collaboratively to identify one-time and on-going opportunities for expense reductions, cost avoidance and revenue increases. These efforts will help us as we work towards the UW System goal of eliminating structural financial deficits at UW-Eau Claire and in all units.

Spend Analytics is the process of examining and analyzing spending patterns and data to gain insights into expenses and financial performance. It involves collecting and analyzing data from various sources, such as invoices, purchase orders, and contracts, to understand where and how money is being spent. Our goal is to identify cost-saving opportunities, improve procurement processes and optimize overall financial decision-making. Workgroups have been formed, with a goal of finding opportunities for revenue generation, cost savings, cost avoidance and efficiency.

The Administrative Transformation Program (ATP) is dedicated to standardizing finance, human resources, and research administration business processes and implementing Workday and Huron Research Suite, integrated, cloud-based technology systems, at all UW System campuses. The end result will be a more resilient administrative environment that advances the UW’s mission of research, teaching, and outreach.

The **Administrative Office of Sustainability**, working alongside the Student Office of Sustainability, is the catalyst for sustainability projects on campus. Located within the department of Risk Management, Safety and Sustainability in the Division of Finance and Administration, the AOS works to implement sustainability initiatives across campus.

The **Chancellor’s Advisory Council on Sustainability & Climate Action** evolved out of the Chancellor’s Task Force on Sustainability and Climate Action and consists of a group of experienced and knowledgeable participants to help foster collaborations for the purpose of increasing awareness of sustainability concepts throughout the campus community and educating/engaging students, faculty, staff and community members.

Highlights

UW-Eau Claire's 2025 Strategic Plan affirms our commitment to achieving distinction in health and wellbeing by: increasing collaborations across disciplines and colleges in support of health and wellbeing; expanding national partnerships to enhance opportunities for students, faculty and staff in health and wellbeing; developing new, nationally competitive academic and cocurricular programs; identifying ways to enhance the wellbeing of faculty, staff and students.

Supported by the Vice Chancellor for Finance & Administration, the Chancellor's Advisory Council on Wellbeing advises the Chancellor and the executive team, communicates with all campus stakeholders and champions UW-Eau Claire's wellbeing initiatives in order to create a healthier workplace, foster a campus culture of wellbeing, encourage collaboration and engagement among faculty & staff within and across divisions, provide a communication “link” among faculty & staff and with University leaders, and form workgroups to execute and support initiatives that create a wellbeing benefit.
