THE UNIVERSITY OF WISCONSIN - EAU CLAIRE

105 Garfield Ave.
Eau Claire, Wisconsin 54702-4004
UW-Eau Claire website: http://www.uwec.edu/

Situated at the confluence of the Eau Claire and Chippewa rivers, the city of Eau Claire originated as a lumber town in the 1840s. Today, with a population of more than 69,000, Eau Claire is a commercial, medical, technological and educational center for the west-central region of Wisconsin. Eau Claire is located 90 miles east of Minneapolis/St. Paul and 247 miles northwest of Milwaukee. The city and the surrounding countryside abound in rivers, lakes and wooded areas of great natural beauty, where seasonal sports, camping and other recreational activities may be enjoyed throughout the year.

University of Wisconsin-Eau Claire

The University of Wisconsin-Eau Claire was founded in 1916 as the Eau Claire State Normal School, occupying a single building on land donated to the state by the city of Eau Claire. The academic history of the institution is reflected in its subsequent changes of name and mission. As the Eau Claire State Teachers College (1927-51), it awarded baccalaureate degrees in education; as the Wisconsin State College at Eau Claire (1951-64), it added degree programs in liberal arts. The state colleges were granted university status in 1964, and the Wisconsin State University-Eau Claire was organized into the schools of Arts and Sciences, Education and Graduate Studies. The School of Nursing was created in 1965 and the School of Business in 1966. The institution became the University of Wisconsin-Eau Claire in 1971 with the merger of the two state-supported university systems to form the University of Wisconsin System, which includes 13 universities, 13 freshman-sophomore colleges and state-supported university systems to form the University of Wisconsin System, which includes 13 universities, 13 freshman-sophomore colleges and UW-Extension. In 2004, an administrative restructuring created four colleges at the University of Wisconsin-Eau Claire: the College of Arts and Sciences, the College of Business, the College of Education and Human Sciences, and the College of Nursing and Health Sciences. Graduate programs are administered by each of the colleges.

The University of Wisconsin-Eau Claire today serves more than 10,000 students, offering a variety of undergraduate and graduate programs, and serving regionally as a center for continuing education. The main campus includes 30 major buildings located on a 333-acre, two-level campus, which embraces Putnam Park on the south bank of the Chippewa River and is connected by a footbridge to the Haas Fine Arts Center and the Human Sciences and Services building on the north bank. The university campus also includes The Priory, a facility three miles south of the main campus, and Haymarket Landing, a student apartment complex in downtown Eau Claire.

UW-Eau Claire – Barron County

Effective July 1, 2018, the 13 two-year campuses formerly known as University of Wisconsin Colleges were integrated as branch campuses with seven of the University of Wisconsin System’s four-year comprehensive or research institutions. As part of this restructuring, the former UW-Barron County became a branch campus of UW-Eau Claire and is now known as UW-Eau Claire – Barron County.

Select Mission of the University of Wisconsin-Eau Claire

In addition to the University of Wisconsin System mission and the core mission of the university cluster institutions, the University of Wisconsin-Eau Claire has the following select mission:

We foster in one another creativity, critical insight, empathy and intellectual courage, the hallmarks of a transformative liberal education and the foundation for active citizenship and lifelong inquiry.

We fulfill our mission through a pervasive university commitment to provide:

- Rigorous, intentional and experiential undergraduate liberal education for life and livelihood.
- Strong, distinctive professional and graduate programs that build on and strengthen our proud tradition of liberal education.
- Multicultural and international learning experiences for a diverse world.
- Exemplary student-faculty research and scholarship that enhance teaching and learning.
- An inclusive campus community that challenges students to develop their intellectual, personal, cultural and social competencies.
- Educational opportunities responsive to the needs of our communities, state, region and beyond.
- Academic leadership in transforming liberal education.

Organization of the university

The chancellor is the university’s chief administrative officer, responsible for all phases of university activity and accountable to the Board of Regents and UW System president. In the discharge of these obligations, the chancellor is assisted by other administrators and advised by the faculty, staff and students of the university.

Subject to the powers of the Board of Regents, the UW System president and the chancellor:

- University faculty has primary responsibility for academic and educational activities and faculty personnel matters.
- University academic staff has primary responsibility for academic staff personnel matters.
- University students have primary responsibility for policies concerning student life, services and extracurricular activities. They share responsibility with the chancellor and Board of Regents for the disposition of student fees constituting substantial support for student activities.

Administrative Organization and Personnel

**CHANCELLOR**

James C. Schmidt

**PROVOST AND VICE CHANCELLOR FOR ACADEMIC AFFAIRS**

Patricia A. Kleine

- Academic Affairs Budget Planner
  - Stephanie Jamelske
- Chief Information Officer and Director of Learning and Technology Services
  - Kent Gerberich
- Director of Academic Planning and Assessment
  - Mary Hoffman
- Director of Data Management, Analytics, and Reporting
  - Casey Rozowski
- Executive Director of the Office of Research and Sponsored Programs
  - Erica Benson (Interim)

**Associate Vice Chancellor for Academic Affairs and Dean of Graduate Studies**

Mary Hoffman (Interim)

- Director of Academic Skills Center
  - Audrey Robinson
- Director of Center for Excellence in Teaching and Learning
  - Angie Stombaugh
- Director of Center for Writing Excellence
  - Jonathan Rylander
- Director of Human Development Center
  - Michael Axelrod
- Director of McIntyre Library
  - Jill Markgraf
- Director of University Honors Program
  - Heather Fielding

UW-Eau Claire Campus

Campus Information Services: 715-836-2637
Toll-free: 888-463-6893

Parking and Transportation Services: Parking and Transportation Services strives to find an equitable way to manage the parking spaces available to all members of the university community. Therefore, parking policies and regulations at UW-Eau Claire are aimed at easing the parking crunch on
campus and in the neighborhoods adjacent to the campus. These policies and regulations are part of an overall parking plan, which incorporates a multifaceted approach to managing the parking spaces available on campus. It includes a differentiated pricing system for parking permits, penalties for violations and a free citywide transit service. Detailed and current parking information can be obtained from Parking and Transportation Services located within Blugold Central, 715-836-3000, or parking@uwec.edu.

Visitor Parking: If you are planning to visit the UW-Eau Claire campus, you can obtain a free visitor parking permit by contacting the Flesch Family Welcome Center.

Visiting the Campus: If you are a prospective student and/or family member wishing to schedule a campus visit, tours may be arranged through the Office of Admissions at 715-836-5415. Visitors may obtain a brochure describing the campus and its facilities from the Service Center, in the east lobby of Davies Center, or from the Flesch Family Welcome Center.

### Academic Buildings

**Schofield Hall (1916)**, Garfield Avenue. Named for Harvey Schofield, first president of the Eau Claire State Normal School.

**L.E. Phillips Science Hall (1964; addition, 1969; a major renovation, 2002)**, lower campus, spanning Little Niagara Creek. Named for the Eau Claire industrialist whose major gift made possible the acquisition of special equipment.

**Nursing (1969; addition, 1985)**, lower campus at edge of Putnam Park.

**Haas Fine Arts Center (1970)**, Water Street, with footbridge spanning the Chippewa River to the main lower campus. Named for former chancellor Leonard Haas (1959-1980) and his wife, Dorellen.

**Human Sciences and Services (1982)**, Water Street, north campus overlooking the Chippewa River.

**Centennial Hall (2014)**, Park Avenue. Named to honor UW-Eau Claire’s Centennial in 2016.

### Residence Halls

**Aspenson Mogensen Hall (2017)**, just across from lower campus on Water Street, 200-plus students. Named for Eau Claire business owners John Mogensen, his daughter Michelle Mogensen, and Lisa Aspenson in recognition of their gifts of more than $1 million to the UW-Eau Claire Foundation.

**Chancellors Hall (2000)**, upper campus. 81 apartments for 324 students. Named in honor of past, present, and future chancellors.

**Governors Hall (1962)**, upper campus. 134 men and 208 women.

**Haymarket Landing (2016)**, downtown Eau Claire. 417 students. Located next door to Pablo Center at the Confluence, a new campus-community arts center opened in fall 2018.

**Emmet Horan Hall (1961)**, upper campus. 206 men. Named for the businessman who was the first Eau Claire appointee to the Board of Regents of State Normal Schools.

**Karlgaard Towers Hall (1967; renovated 2017-18 and 2018-19)**, upper campus. 435 men and 897 women. Named for alumnus David Karlgaard, a 1967 mathematics graduate, and his wife, Marilyn, in recognition of their gifts of more than $6 million to the UW-Eau Claire Foundation.

Oak Ridge Hall (1969), upper campus. 64 men and 282 women.

Priory Hall (renovated 2014), three miles south of UW-Eau Claire’s main campus at The Priory. 48 single rooms for men or women. Located on 112 mostly wooded acres owned by a subsidiary of the UW-Eau Claire Foundation.

Laura E. Sutherland Hall (1965), upper campus. 144 men and 260 women. Named for a faculty member (History, 1921-1959; dean of women, 1939-1947).

University Centers

Flesch Family Welcome Center (2021), lower campus. Named in honor of Tom and Jeannie Flesch, UW-Eau Claire alumni who made a lead gift to the Foundation in support of this privately funded building. Houses the university’s Admissions, Foundation and Alumni Association offices. Serves as the main entry point for the more than 17,000 prospective students, parents and guests who typically visit campus during the year.

W.R. Davies Student Center (2012), lower campus. Named for the second president (1941-1959) of the Eau Claire State Teachers College. Davies Center is the hub of social and cultural interaction on the lower campus. Offering a number of meeting and program spaces, dining facilities and service areas, Davies Center is the administrative core of the University Centers. It is also home to the Student Senate, the primary vehicle for student involvement in university governance; the University Bookstore; Blugold Dining/Catering Services; Marketplace, The Cabin and Dulany Inn dining facilities; U.S. Bank; Blugold Card Services; the Gender & Sexuality Resource Center; Woodland Theater; Event Services; and Activities, Involvement and Leadership.

Crest Wellness Center (1965), upper campus. Home of Student Health Service, Crest Fitness Center, University Police and Eagle’s View Challenge Ropes Course.

Hilltop Recreation Center (1968), upper campus. Offering a number of recreation spaces; dining facilities including the main cafeteria and the Riverview Café; and program spaces and service areas. Hilltop Center is the home base for Recreation and Sport Operations. It is equipped with a billiards center, lounge space, bouldering wall, group fitness studios and the Environmental Adventure Center, which offers indoor archery as well as outdoor adventure equipment rental.

Schofield Auditorium (1916; renovated in 2009), Schofield Hall, lower campus. Renovated in 2009 through a collaborative effort of Student Senate, University Centers, the Chancellors Office and UW-Eau Claire Foundation. Managed by University Centers, Schofield Auditorium is the largest fixed-seat venue on campus. With its state-of-the-art lighting, sound, video and seating, the facility is used by classes in the physics and astronomy department. A limited number of public events also are held at the planetarium.

The Priory, formerly known as St. Bede’s Monastery, was purchased in 2011 by Blugold Real Estate LLC, a subsidiary of the UW-Eau Claire Foundation, as an ideal facility for expanding UW-Eau Claire academic programming. Located three miles south of UW-Eau Claire’s main campus, the property includes 112 mostly wooded acres in the Town of Washington and three building complexes totaling approximately 80,000 square feet.

The Children’s Nature Academy is located at The Priory, with UW-Eau Claire students who are parents as the primary users of its child care services, including the infant and toddler care program. In addition to students who use the academy’s child care services, hundreds of students either work, volunteer or engage in observation activities at the academy annually.

The Priory also is the site of Priory Hall, offering renovated and modernized housing for 48 students in single-occupancy rooms.

Putnam Park, a 230-acre nature preserve in the midst of the campus and the only urban state natural area in Wisconsin, provides an area for the study of flora and fauna within easy walking distance of classrooms, as well as a place for relaxation and hiking. The park is traversed by Putnam Drive and by a nature trail, for which printed guides are available at the Service Center in Davies Center. For more information, contact the biology department at 151-836-4166 or biology@uwec.edu.

The S.W. Casey Observatory, located atop Phillips Science Hall, contains a computer-controlled, seven-inch Maksutov-Cassegrain telescope with a charge-coupled-device (CCD) camera. The observatory is adjacent to an

Sites and Collections Supporting Instruction and Research

On Campus:

The John L. Buchholz Jazz Library is a rare and extensive collection of jazz charts and recordings donated in 2012 to the UW-Eau Claire Foundation in honor of John L. Buchholz, professor emeritus of English. The longtime jazz musician was among the founding members of the UW-Eau Claire Jazz Ensemble in 1962 and performed throughout the region. This one-of-a-kind collection of more than 1,000 charts and 900 recordings includes works by Count Basie, Sammy Nestico, Bill Holman, Tommy Dorsey, Benny Goodman and many more legends of jazz. It is located in Archives and Special Collections in McIntyre Library.

In 2014, the UW-Eau Claire Foundation acquired the Frederick G. and Joan Christopherson Schmidt Robert Frost Collection, a rare assemblage of works by the 20th-century American poet. The collection, which is housed in Special Collections and Archives in McIntyre Library, contains approximately 44 books authored by Frost, including several that have been signed and inscribed by the poet; dozens of books about Frost; and manuscript materials containing Frost’s handwritten poetry, Christmas cards and pamphlets.

The James Newman Clark Bird Museum, circular in shape, surrounds the planetarium in Phillips Science Hall. The collection of approximately 530 specimens and four dioramas depicting native birds in their natural habitats is used by students in biology. The museum is open to the public from 8 a.m. to 4:30 p.m. Monday through Friday, and at other times by appointment. For more information, contact the biology department at 175-836-4166 or biology@uwec.edu.

The L.E. Phillips Planetarium, located in the James Newman Clark Museum in Phillips Science Hall, contains a Spitz model A-3-P planetarium with a seating capacity of 50. The facility is used by classes in the physics and astronomy department. A limited number of public events also are held at the planetarium.

The Priory, formerly known as St. Bede’s Monastery, was purchased in 2011 by Blugold Real Estate LLC, a subsidiary of the UW-Eau Claire Foundation, as an ideal facility for expanding UW-Eau Claire academic programming. Located three miles south of UW-Eau Claire’s main campus, the property includes 112 mostly wooded acres in the Town of Washington and three building complexes totaling approximately 80,000 square feet.

The Children’s Nature Academy is located at The Priory, with UW-Eau Claire students who are parents as the primary users of its child care services, including the infant and toddler care program. In addition to students who use the academy’s child care services, hundreds of students either work, volunteer or engage in observation activities at the academy annually.

The Priory also is the site of Priory Hall, offering renovated and modernized housing for 48 students in single-occupancy rooms.

Putnam Park, a 230-acre nature preserve in the midst of the campus and the only urban state natural area in Wisconsin, provides an area for the study of flora and fauna within easy walking distance of classrooms, as well as a place for relaxation and hiking. The park is traversed by Putnam Drive and by a nature trail, for which printed guides are available at the Service Center in Davies Center. For more information, contact the biology department at 175-836-4166 or biology@uwec.edu.

The S.W. Casey Observatory, located atop Phillips Science Hall, contains a computer-controlled, seven-inch Maksutov-Cassegrain telescope with a charge-coupled-device (CCD) camera. The observatory is adjacent to an
observing deck with 11 stations for student use in astronomy laboratory classes. These stations use eight-inch telescopes.

**Off Campus — Wisconsin:**

The Hobbs Observatory, located 15 miles east of the campus at the Beaver Creek Reserve, contains a 24-inch computer-controlled telescope, a 14-inch Schmidt-Cassegrain telescope, a CCD camera and a classroom. This observatory is open to the public on Saturday nights, when clear, from May through October.

The James and Joan Leary Family Environmental Education Center consists of 168 acres located in a popular four-season recreational area at the confluence of the Flambeau and Chippewa rivers. The land is surrounded by Chippewa County forest land. The Leary Family Environmental Education Center will become an integral part of the university’s public health and environmental studies department. Information about the Leary Environmental Education Center is available from the public health and environmental studies department at phes@uwec.edu.

Nature Conservancy Tracts, owned by the UW-Eau Claire Foundation, include 320 acres of forest and marshland that are available for scientific investigations and class use. One of these, the Schmidt Tract, is approximately 30 miles east of Eau Claire in Clark County, and two are in Washburn County near Sarona and Spooner. More specific information concerning location and use of this land can be obtained from Dr. Winnifred Bryant, biology department, at bryantwm@uwec.edu.

**Off-Campus — Mississippi:**

The Gulf Coast Research Laboratory (GCRL), Ocean Springs, Mississippi, is an out-of-state institution affiliated with the University of Wisconsin-Eau Claire. The GCRL offers two summer terms and provides students instruction in a marine environment. For more specific information contact Dr. David Lonzarich, biology department, at lonzard@uwec.edu.

**Accreditation and Memberships**

The University of Wisconsin-Eau Claire is accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools. Address:

230 South LaSalle Street
Suite 7-500
Chicago, Illinois 60604
Specific programs or individual units of the University are accredited or approved by the following agencies, as explained in appropriate sections of the catalog:

AACSB International—the Association to Advance Collegiate Schools of Business
Accrediting Council on Education in Journalism and Mass Communication
American Chemical Society
American-Speech-Language-Hearing Association
Commission on Accreditation of Athletic Training Education
Commission on Collegiate Nursing Education
Council on Social Work Education
National Association of Boards of Examiners of Long Term Care Administrators
National Association of School Psychologists
National Association of Schools of Music
National Association for the Education of Young Children
National Environmental Health Science and Protection Accreditation Council
State Authorization Reciprocity Agreement
Wisconsin Department of Health and Social Services
Wisconsin Department of Public Instruction
Wisconsin State Board of Nursing

The university is a member of the American Association of Colleges of Nursing, the American Association of Colleges for Teacher Education, the American Association of State Colleges and Universities, the American Association of University Women, the American Council on Education, the Association of American Colleges and Universities, the Council for Graduate Schools, the Council for Opportunities in Education, the Council on Undergraduate Research, the Wisconsin Campus Compact and the Wisconsin Institute for Peace and Conflict Studies.

Continuing Education and Extended Campus

The “Wisconsin Idea”

The “Wisconsin Idea,” a concept named after the state that pioneered its development, holds that the function of a university is not only to educate full-time students on its home campus, but also to extend educational opportunities and services to all citizens of the state. The Wisconsin Idea is incorporated into the general mission of the University of Wisconsin System and into the particular missions of the various institutions.

The University of Wisconsin-Eau Claire has long supported the Wisconsin Idea and the related idea of education as a process continuing throughout the lifetime of an individual. The university welcomes contemporary learners who wish to attend credit and non-credit courses for personal or professional reasons.

University of Wisconsin-Extended Campus

To increase the availability of educational opportunities both on and off campus, the University of Wisconsin-Eau Claire and University of Wisconsin-Extended Campus cooperate in providing noncredit continuing education programs and credit courses designed for contemporary learners.

Continuing Education – Connecting Campus and Community

UW-Eau Claire Continuing Education is dedicated to supporting people seeking education to improve their lives by providing innovative programming in a variety of areas. Utilizing resources from UW-Eau Claire and UW-Extended Campus we develop our programming through collaboration with communities and professionals working in their fields. All our programs are designed with inclusivity in mind and are focused on providing the best educational value.

Here are a few things we do:

• We offer an extensive array of professional development programming helping professionals learn new skills and, in some cases, earn credits toward a certification or recertification.
• We provide support for several UW-Eau Claire graduate programs whether it is helping students get the courses they need to qualify for graduate programs to offering full certificate and degree programs.
• Through our Small Business Development Center, we support job growth by providing free counseling to small businesses whether they are just starting out or looking to expand.
• We provide personal enrichment programming for the community.

We believe in spreading the power of education no matter what stage of life you are in or where you want to go.

Information about current offerings may be obtained from the Office of Continuing Education (http://www.uwec.edu/ce/) at 715-836-3636, or toll-free 866-893-2423.
ABOUT THE CATALOG

A Bulletin of the University of Wisconsin-Eau Claire
Volume 107

The Undergraduate Catalog is available on the UW-Eau Claire website (http://www.uwec.edu/) and is supplemented by the following official publications of the University.

The class schedule (https://www.uwec.edu/blugold-central/academic-planning/register-classes/class-schedules/), course catalog, and information about fees, is available prior to each term on the Registrar's website and Campus.

The Your Right to Know publication, from the Student Affairs and Dean of Students Office contains additional information about campus life, activities, services, policies and regulations, safety, student rights, and the various offices through which they are administered.

The Graduate Catalog (http://catalog.uwec.edu/graduate/) contains information about graduate programs including admission and degree requirements.

The provisions of this catalog do not constitute a contract between a student at UW-Eau Claire and the University. The sole purpose of the catalog is to provide regulations, course listings, degree programs, and fee schedules which are in effect at the time of publication. UW-Eau Claire reserves the right to change the regulations in this catalog at any time during the period for which it is in effect and to add, modify, or withdraw courses at any time. UW-Eau Claire, with the concurrence of the System Administration and the Board of Regents of the University of Wisconsin System, also reserves the right to change fees and to add, modify, or withdraw degree programs at any time. Effective dates of changes will be determined by the proper University authorities and published through class schedules or other official publications of the University.

The University further reserves the right to ask the student to withdraw for cause at any time.

The University of Wisconsin-Eau Claire is committed to a policy of providing equal educational and employment opportunity for all persons in accordance with Board of Regents Policy and applicable law. Discrimination or harassment based on any protected category that has the purpose and effect of adversely affecting any aspect or condition of a person’s education, employment, housing, or participation in a university activity or program is prohibited.

As a part of its continuing commitment to eliminate discrimination and harassment, the university has established procedures for providing prompt and fair resolution of complaints. All complaints, questions, or requests for information should be referred to the Affirmative Action Office (http://www.uwec.edu/affirm/), Schofield 217, 715-836-2387, affirm01@uwec.edu.

The University of Wisconsin-Eau Claire makes available to the public, upon request, all consumer information required by Office of Education Rules and Regulations 178.1 through 178.8. Consumer information about the University includes, but is not necessarily limited to, the following: academic programs, educational costs, financial aid, academic progress requirements, student retention rates, career development, and employment data. Inquiries regarding this information may be made to the Student Affairs and Dean of Students Office, Schofield 240.

The University ensures students access to their official University records and maintains the confidentiality of personally identifiable information in accord with federal law. A Notice of Student Rights Under the Family Educational Rights and Privacy Act is available in the Your Right to Know (https://www.uwec.edu/kb/article/your-right-to-know-your-right-to-know/) publication.
### ACADEMIC CALENDAR

#### Fall Semester 2023

**August**
- 21 Monday: First Day of Faculty Contractual Period
- 30 Wednesday: Advising and Registration
- 31 Thursday: Advising and Registration

**September**
- 1 Friday: Advising and Registration
- 4 Monday: Labor Day Holiday-University Closed
- 6 Wednesday: Classes Begin

**November**
- 22 Wednesday: Fall Recess Begins- No Classes- University Open
- 23 Thursday: Thanksgiving Day Holiday-University Closed
- 24 Friday: Classes Resume

**December**
- 15 Friday: Last Day of Classes
- 16 Saturday: Commencement
- 23 Tuesday: Last Day of Classes

#### Winterim 2024

**January**
- 1 Monday: Last Day of Classes
- 3 Wednesday: Classes Begin
- 15 Monday: Martin Luther King Jr. Holiday-University Closed
- 23 Tuesday: Last Day of Classes

#### Spring Semester 2024

**January**
- 25 Thursday: Advising and Registration
- 26 Friday: Advising and Registration
- 29 Monday: Classes Begin

**March**
- 18 Monday through 22 Friday: Spring Break
- 25 Monday: Classes Resume

**May**
- 10 Friday: Last Day of Classes
- 13 Monday through 17 Friday: Final Examinations Week
- 17 Friday: UW-Eau Claire- Barron County Commencement
- 18 Saturday: UW-Eau Claire Commencement
- 19 Sunday: Last Day of Faculty Contractual Period
- 27 Monday: Memorial Day Holiday-University Closed

#### Three-Week Summer Session 2024

**May**
- 20 Monday: Classes Begin
- 27 Monday: Memorial Day Holiday-University Closed

**June**
- 7 Friday: Last Day of Classes

#### Eight-Week Summer Session 2024

**June**
- 10 Monday: Classes Begin

**July**
- 4 Thursday: Independence Day Holiday-University Closed

**August**
- 2 Friday: Last Day of Classes

Additional calendar information with dates and deadlines can be found on the Registrar’s website. ([https://www.uwec.edu/blugold-central/academic-planning/academic-registration-calendars/](https://www.uwec.edu/blugold-central/academic-planning/academic-registration-calendars/))
By department faculty, chairs, and deans. Action plans are then designed to drive program improvement.

Students, alumni, and employers may be asked to participate in a wide range of assessment activities designed to provide useful information about the effectiveness of academic and co-curricular programs. From time to time during their courses of study, students may be asked to demonstrate the breadth and depth of their knowledge, skills, beliefs and attitudes in the areas related to the outcomes of their degree programs. All of our assessment efforts combine to improve student learning and program quality and form the basis of our culture of continuous improvement in support of UW-Eau Claire’s commitment to excellence.

The School Year

Each regular academic semester (Fall and Spring) consists of approximately 15 weeks, including days reserved for registration and final examinations.

The Summer Session is offered in two periods. Students may enroll for courses during a three-week period in late May and early June, during which three credits may be taken. Offerings include regular courses adapted to an intensive presentation as well as specially designed courses and study trips. An eight-week period is scheduled in June, July, and August. Although many courses run for the full eight weeks, others are scheduled in shorter blocks of time (two, four, or six weeks) for the convenience of summer students. Offerings include regular courses and special workshops or institutes at undergraduate and graduate levels.

The Winterim Session is offered during a period between the fall and spring semesters. Offerings primarily include regular courses and may include travel seminars and field experiences.

With the exception of certain professional programs, curricula for baccalaureate degrees are designed to be completed by full-time students in eight regular semesters. Many students attend summer sessions in order to graduate earlier or take advantage of special offerings. Others, especially teachers in the area, find in the Summer Session an opportunity to strengthen professional competencies and to work toward graduate degrees.

The Calendar (http://www.uwec.edu/Registrar/calendar/) in this catalog is supplemented by more detailed calendars, including official academic deadlines, registration dates, etc., which are available on the Registrar’s webpage.

Admission

All persons who wish to pursue a degree program at the University must provide the following documentation: an application for admission and any specific application fee, a high school transcript, test scores (when applicable), and official transcript(s) of all previous post-secondary work attempted or completed. Priority dates for applications are established each year. Please see https://www.uwec.edu/admissions/ for additional information.

Preparation for University Study

A successful University experience depends upon the student’s prior educational coursework in high school and post-secondary school, as well as other professional and personal experiences. Previous coursework and experiences should include a breadth of subject areas including English, both composition and literature; mathematics, natural science, history, and other social studies areas.
Admission of Freshmen

Freshmen admission is competitive and selective. Academic preparation and success are the primary considerations for admission, although non-academic factors are also considered. Each application for admission is given a comprehensive review. Freshman applicants are considered using the following guidelines:

1. Applicants must present evidence of graduation from a recognized high school or equivalent certificate.
   a. A recognized high school is one which either
      i. is operated by public school districts, or
      ii. is a private school accredited by an association that is certified by the U.S. Department of Education to accredit private schools, and those whose names appear in the Federal Register as an approved accreditation association, or
      iii. is a private school not accredited under (2) but may be “recognized” by an institution in the System based on the performance of previously admitted graduates from the high school.
   b. An applicant who has not graduated from a recognized high school must provide evidence of ability to begin college work. Such evidence may include General Education Development (GED) test scores or High School Equivalency Diploma (HSED) test scores, transcripts of course work completed in high school, high school rank-in-class before leaving high school, written recommendations, ACT/SAT test scores, and other evidence deemed appropriate by the University.

2. Applicants should complete a rigorous college preparatory curriculum. Applicants who take courses beyond the minimum will be considered strong candidates for admission. Applicants must complete a minimum of 17 units (one unit equals one year of high school study or equivalent) distributed as follows:
   - English (at least three composition and literature) 4
   - Mathematics (algebra, geometry, advanced college preparatory math) 3
   - Natural Science 3
   - Social Science (one must be world or American history) 3
   - Additional course work in any of the above areas as well as foreign language, art, music, speech, computer science, or other academic areas. 4
   - Total Credits 17

In almost all high school curricula, algebra II or higher/advanced algebra is the third college preparatory mathematics course required.

Students who begin taking high school course work prior to high school (e.g., mathematics, foreign language in grade 8) are encouraged to continue rigorous course selection from core areas during grades 9-12. Some prior coursework may not satisfy the University admission requirements. For information on applicability of courses to admission requirements, contact the Admissions Office.

3. In addition to a rigorous high school curriculum, academic factors include high school class rank, high school GPA, trends in grades, course rigor, and test scores. Secondary non-academic factors may include, but are not necessarily limited to, leadership; community service; and diversity in personal background and experience.

4. Test scores from The American College Testing Program (ACT) or Scholastic Aptitude Test (SAT) must be on file for all new freshmen under the age of 22. ACT is the preferred test. Students will not be disadvantaged in the admission process by taking one test rather than the other. That, upon the Board of Regents Resolution 11430 adopted May 7, 2020, temporarily suspending the requirement for test scores, UW-Eau Claire temporarily suspends the requirement in the admissions policy that all freshman applicants provide an ACT or SAT score as part of their application. The suspension of this requirement applies to all freshman applications for the 2020-2021 academic year and the 2021-2022 academic year. Resolution 11754 adopted December 10, 2021 - This action extends the suspension for all UW System campuses through the 2024-2025 academic year. The last term that students would be able to opt out of submitting an ACT/SAT score would be spring 2025.

5. Particular consideration in admission will be given to applicants who have been out of school for two or more years; service veterans, as defined by state and federal policies; and students who have been challenged by a lack of educational opportunities.

6. Requirements for out-of-state students will be the same as those of resident students, except that special requirements may be adopted for international applicants.

7. Final admission requires that students maintain their high school academic standing and successfully complete course work in progress as outlined on the application. The final (eighth semester) official transcript provided by the high school provides the required certification that the applicant has fulfilled this obligation. It is the student’s responsibility to ensure that the proper supporting documents have been delivered to the Admissions Office.

Competency-Based Admissions

High school students from schools that use a competency-based evaluation system may be considered for admission. High schools that use an alternative system such as this must complete the UW System Competency-Based Admission Profile. Contact the Admissions Office for additional information on the process and procedure.

Admission of Home-Schooled Students

Home-schooled students seeking admission as freshmen must have excelled academically in high school course work. They must have completed the minimum array of 17 units of rigorous college preparatory course work. Academic preparation and success are the primary considerations for admission, although non-academic factors are also considered. Each application for admission is given a comprehensive review.

Transfer Applicants

Transfer applicants will be considered for admission if their previous academic record qualifies them as students in acceptable standing when equated to the UW-Eau Claire standards in the Academic Standing and Progress policy. Transfer students are encouraged to apply for admission as early as possible prior to the semester in which they plan to enroll. Priority application dates, after which admission of qualified student cannot be guaranteed, may be established each year. Information about specific dates can be found on the UW-Eau Claire transfer admission website (https://www.uwec.edu/admissions/transfer-student/).

In addition to a rigorous college-level course curriculum, academic factors considered include cumulative GPA and trend in grades. Students with fewer than two semesters of college-level coursework (24 transferable credits) will be considered for admission based on both their college and high school records. Academic preparation and success are the primary considerations for admission, although non-academic factors are also considered. Higher
academic expectations or earlier priority dates may be determined for specific majors to keep enrollments in line with program capacities.

Final deadlines to accept applications and supporting documents will be determined by the Admissions Office each semester and published on the UW-Eau Claire transfer admission website. It is the student’s responsibility to ensure that the proper supporting documents have been delivered to the Admissions Office.

Students who have registered at other colleges and universities may not disregard their records at those institutions. Failure to list previous college attendance on the application for admission is sufficient cause for cancellation of the student’s admission, of any credits earned, or both.

Transfer students who do not meet institutional admission criteria and are denied admission may appeal in writing to the Office of Admissions.

**Transfer of Credits**

Credits earned at an institution accredited by a regional or national accrediting organization recognized by the Council for Higher Education Accreditation (CHEA) may be considered for transfer and applied toward a degree if they are similar in content and rigor to the curriculum at UW-Eau Claire. The Admissions Office will prepare a transfer credit evaluation for admitted students. Appeal of the evaluation may be made to the Office of Admissions, the Chair of the academic department, the Dean of that College, and if necessary, to the Provost/Vice Chancellor. Students seeking a second baccalaureate degree or additional certifications are not given a transfer credit evaluation for their first degree; they receive specific advising from their academic department.

Associate of Arts and Sciences degrees from the University of Wisconsin System institutions satisfy the breadth of the UW-Eau Claire Liberal Education Core. Liberal Arts Associate of Arts and Science degrees from the Wisconsin Technical College System (earned in 2004 or thereafter), Associate in Arts degrees and completion of Minnesota Transfer Curriculum from the Minnesota Colleges and Universities system (earned in 1994 or thereafter) satisfy the breadth of the UW-Eau Claire Liberal Education Core except for the Design for Diversity (DDIV) requirement within R1. Competency requirements, levels of proficiency, and specific courses are still required. Because individual baccalaureate degree programs stipulate specific courses, students should be attentive to the requirements of an intended major in planning their course selection prior to transferring. In certain fields, credits that were earned more than ten years prior to admission or readmission may be invalid as degree credits.

Students who transfer from the Wisconsin Technical College System or other accredited two-year institutions may transfer a maximum of 72 credits from those institutions.

Credit may be granted for post-secondary coursework at a foreign institution if the institution is recognized as a degree-granting institution by the country’s Ministry of Education. Professional organizations such as the American Association of Collegiate Registrars and Admissions Officers (AACRAO) and NAFSA: Association of International Educators are utilized for information about best practices regarding evaluation of foreign credits and credentials.

**Transfer of WTCS Applied Associate Degree Credits**

UW-Eau Claire may transfer and apply coursework in general studies from the Wisconsin Technical College System within areas of communications, behavioral sciences, social sciences, mathematics, and natural sciences from programs leading to an applied associate degree. Credits that are occupational and technical in nature may be considered for transfer on a case-by-case basis.

To be considered for transfer, credit must have been earned after September 1989.

**Reentry**

All students who have been away from the University for two consecutive full-term semesters or more must file a reentry application. Students seeking reentry are encouraged to submit an application as early as possible prior to the semester in which they wish to return. Reentry after the term starts is not guaranteed. Students returning after an absence of two or more consecutive full-term semesters must meet the degree requirements of the catalog in effect upon their return, or a subsequent catalog.

**Non-Degree-Seeking (Special) Student**

Persons who have graduated from a recognized high school, or have the educational equivalent, but who are not interested in seeking a degree, may attend the University as Non-Degree-Seeking (special) students.

Non-Degree-Seeking (special) students may enroll for a maximum of twelve credits per semester, and must meet the academic standards of the University (see Academic Standing and Progress). Non-Degree-Seeking (special) students register during special student registration on a space available basis, are not eligible for financial aid, but may be eligible for veterans benefits. If you would like to audit courses, please see Auditing Courses.

**Admission as a High School Special Student**

If students are looking to enroll in college courses while still in high school, there are options available:

**Early College Credit:** If approved by the school district, a reduced tuition cost with 75% or more of the cost covered by the school district and state. Student assumes 100% of the cost if the student fails the course(s).

**High School Special Program:** The student/family is responsible for the cost of the courses.

**Admissions criteria:**

Typically must be a high school junior or senior in the top 25% of the class OR in the top 50% of their class with an ACT composite of 24 or greater (SAT total of 1160 or greater). If the high school student doesn’t meet the above criteria, he/she will need to provide substantial and convincing letters of recommendation and/or data demonstrating high ability in a specific area of University study. For more information, contact the UW-Eau Claire Admission Office ([https://www.uwec.edu/admissions/contact-us/](https://www.uwec.edu/admissions/contact-us/)).

Once admitted, High School Special students will be contacted by Advising, Retention and Career Center to set up a meeting with an advisor. Placement tests may be required before meeting with an advisor. High School Special students are limited to twelve credits per semester and must meet the academic standards of the University (see Academic Standing and Progress). High School Special students register during special student registration on a space available basis.

**Admission to University of Wisconsin- Eau Claire - Barron County**

As a campus of access, students may be admitted to UW-Eau Claire - Barron County as a first-year, transfer, re-entry, high school special, or international
student based on the published criteria. However, exceptions can be made to these requirements.

**Admission of Veterans**

Veterans and certain eligible dependents may be entitled to educational benefits under various programs administered by the Veterans Administration (see Veteran Benefits (https://www.uwec.edu/tuition-financial-aid/veteran-benefits/)). Veterans and eligible dependents may obtain these benefits while pursuing a course of study at UW-Eau Claire. Students enrolled as undergraduates, under these programs must typically carry 12 hours of credit during each semester of the academic year to be considered full time for Federal VA education benefit allotments. Graduate students must typically carry 9 credits to be considered full time for VA education benefits. Summer Session allotments are determined by class contact hours and total credits. Part-time and full-time study grants are available to eligible Wisconsin veterans.

Credit may be awarded for educational preparation acquired while in service. Veterans will be asked to submit official transcripts of their records. (This is done by submitting an official copy of the Joint Service Transcript or official transcript from the Community College of the Air Force to the Admissions Office for review). In granting credit, the University considers recommendation of the American Council on Education. No credit will be granted if such credit would constitute repetition of credit already earned.

**Admission for Residents of U.S. Territories**

Residents from Territories of the United States are admitted on the same basis as United States Citizens.

**Admission of Permanent Residents and Refugees**

Permanent residents and refugees are admitted on the same basis as United States Citizens. Students are required to provide copies of both sides of their permanent resident cards or documentation of refugee status.

**Admission for International Students**

UW-Eau Claire welcomes applications from students from other countries. International students must complete an application for admission, pay the application fee, provide evidence of English proficiency, confirm financial sponsorship, and submit academic records and examination results. Further information about the application process and required documents is available on the UW-Eau Claire international admissions website (https://www.uwec.edu/admissions/international-students/).

Final deadlines to accept applications and supporting documents will be determined by the Admissions Office each semester and published on the UW-Eau Claire admissions website (https://www.uwec.edu/admissions/international-students/).

**Paying for College**

**Tuition and Fees**

Fees

A fee schedule is established each year. The fees and procedures described in this section are estimates. Prospective students should refer to the Class Schedule, which will contain links to up-to-date information about fees. Fee information can be found on the Tuition and Fee website (https://www.uwec.edu/tuition-financial-aid/tuition-fees/).

The payment of fees entitles a student to a student identification (ID) card. This card entitles the student to attend most University activities and to make use of University facilities (see Your Right to Know handbook (https://www.uwec.edu/about/accreditation/student-right-to-know/) and Blugold Card Services (https://www.uwec.edu/blugold-card/) section). Undergraduate students receive most of their required textbooks on a rental basis (see Textbook Rentals).

**Tuition and Residency**

A Wisconsin Statute requires the payment of nonresident tuition by students who are residents of states other than Wisconsin or who have not been bona fide residents of Wisconsin for one year (12 months) immediately preceding the beginning of the semester for which they are registering.

For undergraduate and graduate students, determination of resident status for tuition purposes is made by the Office of Admissions at the time of admission.

If the original residence status for tuition purposes is designated as nonresident, this status remains in effect unless the student requests and is granted reclassification. Such requests should be addressed to the Office of Admissions prior to the beginning of the semester in which reclassification is to take effect.

**Minnesota-Wisconsin Tuition Reciprocity**

The current reciprocity agreement between Minnesota and Wisconsin enables Minnesota residents to attend Wisconsin public institutions of higher education at rates approximating tuition prevailing in the Minnesota State University System. Those wishing to take advantage of this tuition remission must apply well in advance of their initial enrollment at a Wisconsin System institution. Approval covers the full year (including Summer Session) and is automatically renewed each year for the campus initially approved. Information is available from the State of Minnesota Office of Higher Education Reciprocity Program, 1450 Energy Park Drive, Suite 350, St. Paul, MN 55108-5227. Phone: (651) 642-0567 or toll-free (800) 657-3866. Assistance in obtaining application forms is available at Minnesota high schools. Students may print an application or apply for reciprocity online (https://www.ohe.state.mn.us/ssl/reciprocity2020/).

**Miscellaneous Fees**

Fees for certain special courses are listed in CampS and can be found by using the class search feature located under self service. A $25 fee must accompany each application for admission to an undergraduate program. A $56 fee must accompany each application for admission to a graduate program.

**Fee Schedule**

Important Note: Fee schedules were not determined at the time this catalog was printed. The amounts given here are estimates for full-time students, that is, undergraduates taking 12 to 18 credits or graduates taking nine credits. All estimates are for one semester. These amounts include segregated fees.

**UW-Eau Claire:**

<table>
<thead>
<tr>
<th>Fee</th>
<th>Resident</th>
<th>Non-Resident</th>
</tr>
</thead>
<tbody>
<tr>
<td>Undergraduate</td>
<td>$4640</td>
<td>$9260</td>
</tr>
<tr>
<td>Graduate</td>
<td>$5065</td>
<td>$10,550</td>
</tr>
<tr>
<td>Room and Board</td>
<td>$4400</td>
<td>$4400</td>
</tr>
</tbody>
</table>

Undergraduates taking more than 18 credits are assessed an additional per credit fee. Please refer to the Blugold Central (https://www.uwec.edu/blugold-central/) website for up-to-date fee information.

**UW-Eau Claire Barron County:**
Partial Payment Plan
All students must electronically sign a Payment Plan Agreement/Email Authorization form prior to enrollment each term. Payments will be due according to the published schedule and will be subject to a finance charge on the unpaid balance (see the Payment Information and Due Dates (http://www.uwec.edu/Busoff/studentfinancials/PayInfo.htm) website for due dates and finance charge rates). Failure to make installment payments on time will result in a hold on academic records and on registration for future terms.

Refund of Fees
Refunds may be made as the result of withdrawal from the University or a reduction in the number of enrolled credits. Degree-seeking students wishing to withdraw from all their classes are required to meet with their Advisor prior to withdrawing from classes. In determining the academic withdrawal date, the University will use the date that the student notified the University of his or her intent to withdraw. The dates and corresponding amounts of refund can be found on the Refund Schedule / Financial Aid Repayment Notice (https://www.uwec.edu/blurgolds-central/student-finances/refund-schedule/) website. A credit balance of less than $3.00 will not be refunded unless requested.

Refund of Room and Board Payments
Students who are granted permission to cancel their residence hall contract without withdrawing from the University will be refunded room and board charges on a prorated basis. The room deposit will be forfeited.

Students who are suspended by the University will be refunded room and board fees, including the room deposit, on a prorated basis. A credit balance of less than $3.00 will not be refunded unless requested.

The above policies apply to all persons who reside in University housing.

Deposits
A enrollment deposit is required for first year students entering in the fall and spring. The deposit will be applied to fees when the student completes registration. The amount, date due, and refund policy are specified in the orientation brochure, which is sent to each new freshman prior to the Summer Orientation session.

A $75 room deposit/advance payment is required for all students applying for housing. The deposit is in addition to the room fees and is intended to serve as a reservation deposit for the contract. The money is held in escrow and applied to second semester fees. If the student does not complete the contract for the full academic year, the deposit is forfeited. If the contract is for a new student, the deposit will be refunded if the Housing and Residence Life Office receives a written request from the student prior to May 1 of the preceding year. Returning students will have their advance deposits refunded if the Housing and Residence Life Office receives a written request from the student prior to May 1 of the preceding academic year. Those students who voluntarily cancel their contracts after these dates shall forfeit the deposit.

A $75 room deposit is also required for room reservations for students entering at spring semester.

### Financial Aid

The University of Wisconsin-Eau Claire offers financial assistance through scholarships, grants, loans, and student work experience. The majority of this assistance is awarded based on financial need. There are, however, resources available through scholarships, unsubsidized loans, and student employment for students who do not qualify for need-based aid.

Financial need is based on the student's educational expenses and the contribution that is calculated using the financial information provided on the Free Application for Federal Student Aid (FAFSA). For detailed information on financial aid, visit the UW-Eau Claire Financial Aid website (https://www.uwec.edu/tuition-financial-aid/financial-aid/).

**How to Apply**

Students must complete the Free Application for Federal Student Aid (FAFSA) (https://studentaid.gov/h/apply-for-aid/ffas/) each year in order to apply for all need-based programs as well as for the Direct Unsubsidized Ford Loan, the Parent Loan for Undergraduate Students, and the Graduate PLUS Loan. CampS (https://my.uwec.edu/) is a resource for specific information about current financial aid status and financial aid disbursed on students' accounts.

**Deadlines**

To assure first consideration for funding, the FAFSA should be submitted by April 15 (First year students should apply by March 15 to receive financial aid information by May 1). Late applications will be considered for aid based on funds available. Students who apply late or who do not turn in the required additional paperwork need to be prepared to pay their institutional charges by the due date if their financial aid is not available.

A separate financial aid application is required for Winterim and Summer Session and is available through CampS (https://my.uwec.edu/). A current FAFSA must be on file to apply for Winterim or summer aid.

**Enrollment Status**

Students must be enrolled at least half-time to qualify for most types of aid, although undergraduate students who have very high need may qualify for a small Pell Grant at less than half-time status. Enrollment status for financial aid purposes is determined by the student's total credits at the end of the tenth day of classes. Financial aid is adjusted at that point, if necessary. Six credits is considered half-time for undergraduate students for the academic year and summer.

Students participating in a full-time equivalent internship may be considered for aid as a full-time student even though actual enrolled credits are less than full-time. Costs of attendance for financial aid will be calculated on actual tuition costs.

Students admitted as Special Students are not eligible for financial aid.

**Standards of Satisfactory Academic Progress for Financial Aid**

Federal regulations require students to maintain satisfactory academic progress toward a degree in order to receive financial aid. The University of Wisconsin-Eau Claire is required to develop and apply a consistent and reasonable standard of satisfactory progress for all students receiving federal financial aid. These standards are applied to all periods of attendance, regardless of whether a student has received financial aid in the past. A complete copy of the University of Wisconsin-Eau Claire’s Financial Aid Satisfactory Academic Progress policy (https://www.uwec.edu/tuition-financial-aid/financial-aid/satisfactory-academic-progress/) is available at the Financial Aid Office.
Aid website under “Policies.” There are three standards or components of satisfactory progress:

- minimum GPA,
- minimum credits completed (Pace), and
- maximum time frame.

**Standard for Grade Point Average**
Students need to maintain a cumulative GPA of 2.00.

**Standard for Minimum Credits Completed (Pace)**
Students must successfully complete 67 percent of their enrolled credits. A grade of F, W, XF, U, or IN is not considered successfully completing the class.

**Standard for Maximum Time Frame**
Students must complete a degree within 150% of the published length of the degree program. Undergraduate students may receive financial aid for a maximum of 180 attempted credits when enrolled in degree programs which have a published minimum requirement for graduation of 120 credits. A degree program that requires more than 120 credits is an exception, and financial aid may be further extended. An additional 90 credits of financial aid eligibility is allowed for undergraduate students seeking a second degree. Graduate students are allowed 54 credits.

**Monitoring Procedures and Reestablishment Options**
These standards are monitored once per year at the end of spring semester using Registrar’s information. Future financial aid will be denied for students who fail to meet the standards of academic progress.

Students may reestablish their financial aid eligibility by earning an academic standing which meets the above criteria. Students may also file an appeal. Students with extenuating circumstances that prevented them from making satisfactory progress are encouraged to describe and document those circumstances in writing. Their appeal will be reviewed by the Financial Aid Appeals Committee to determine whether financial aid eligibility should be reinstated. Students will be notified of the appeal decision in writing.

**Return of Financial Aid Funds When a Student Withdraws**
When a student withdraws from the University during the semester, federal regulations require that the University determine whether a portion of the student’s federal financial aid (other than work-study) must be returned. The amount of aid the student may keep when withdrawing is in direct proportion to the length of time the student remained enrolled during the semester. If the student was enrolled for 20 percent of the semester before withdrawing, 80 percent of the federal financial aid must be returned to aid programs. If the student stays through 50 percent of the semester, 50 percent of the aid must be returned. Once the student completes at least 60 percent of the semester, the student may keep 100 percent of the aid received.

Consequently, if a student withdraws before completing at least 60 percent of the semester, the student may owe a repayment. The student will be billed for any balance owed to the University as a result of the University returning the financial aid funds, and the University will notify the student of the dollar amount owed.

Any financial aid that must be returned to the federal aid programs will be used first to reimburse loans received for the semester and then grant funds.

The specific repayment priority is:

1. Unsubsidized Ford Loan
2. Subsidized Ford Loan
3. Parent’s Loan for Undergraduate Students
4. Pell Grant
5. Supplemental Educational Opportunity Grant
6. Other federal aid programs

For information about the refund calculations, contact Blugold Central.

**For state funds, institutional funds, and outside resources:**
Financial aid received from state, institutional, and outside resources is not part of the federal return of funds repayment calculation. If remaining funds are available from the institutional refund after the federal return of funds requirements are satisfied, the remaining refund will be distributed in the following priority order:

1. State aid programs
2. Institutional programs
3. Outside financial aid resources, if appropriate
4. Student

**Credit Drop (but not withdrawal from the University)**
If a student drops credits before financial aid has been disbursed, the aid must be adjusted, if necessary, to correctly reflect the current enrollment status before aid can be disbursed. Final aid eligibility is based on enrollment status on the 10th day of classes. If a student changes enrolled credits after aid is disbursed, resulting in a change in the student’s eligibility, aid will be adjusted. This could result in a student having to repay some of the aid received for the term.

**Additional Sources of Financial Assistance**
Veterans Administration Grants, G.I. Bill® Benefits, National Guard Tuition Grants, Wisconsin Veterans Grant, Veterans’ Work Study: A Veterans Counselor is available in Blugold Central for students seeking information or assistance with these programs.

Vocational Rehabilitation: Various financial programs are available to students who qualify. Further information is available from area Vocational Rehabilitation offices.

**Scholarships**
A combination of federal, state, university, and private scholarships are available to UW-Eau Claire students on the basis of academic excellence or special talent. Some scholarship programs also specify financial need as a requirement of eligibility. Award amounts and student eligibility requirements vary depending on the individual scholarship criteria.

**UW-Eau Claire Foundation Scholarships and Awards**
Each year, the UW-Eau Claire Foundation provides over $3.4 million in scholarships, grants, and awards to UW-Eau Claire students. Over 850 different awards benefiting more than 2,000 students are available, all provided through the generosity of alumni and friends of the university.
Employment Opportunities

Employment opportunities are available through the University and in the local community. Available positions are posted on the online Student Employment portal. For more details about student employment opportunities, see the Student Employment (https://www.uwec.edu/tuition-financial-aid/student-employment/) section of the Financial Aid website.

Student Resources

Students can leverage a wide scope of resources on campus to reach their full potential. The campus provides a variety of services and resources to guide students through their academic careers.

Library and Technology Resources

Classroom instruction at the University is supplemented by services provided to the entire academic community and by the specialized resources of individual departments, including a number of facilities and collections which are made available to the public.

McIntyre Library

McIntyre Library supports students, faculty, staff and the public through its collections, spaces, and services. For more information, please visit the Library’s (http://www.uwec.edu/library/) webpage (https://library.uwec.edu/).

Spaces

- Blugold Makerspace with 3d printers, laser cutter, sewing machines, vinyl cutter, tools, art supplies, and more, for student academic or personal use
- Digital Studio: a multimedia lab with equipment and support in video and audio recording, photography, graphic design and virtual reality
- quiet study areas of the 4th and 5th floor
- group and individual study rooms, collaborative and individual computer stations, an interview room
- Variety of individual and collaborative study areas in a 6-story structure
- a 24-hour study area
- McIntyre Library houses the Honors Center, the Center for Writing Excellence, and the university Test Center. Additionally, the library provides amenities supporting mind-body wellness, including exercise equipment, a SADD light station, yoga classes, and the “Rest Nest” relaxation space (a service of Student Health Services)

Services

- Research assistance, virtual and in-person. Meet with a librarian on a drop-in basis or by appointment.
- Makerspace and Digital Studio workshops and one-on-one training
- Fine-free checkout on most materials
- Borrowing services from other libraries, including all UW System libraries
- Events including therapy dog visits, yoga classes, After Dark welcome party, art installations, sustainability and recycling drives

Collections

- online databases providing access to millions of articles, e-books, streamed videos, statistical resources and more
- more than 500,000 print books, journals and media items
- popular reading collection
• Special Collections and Archives, including historical manuscripts, artifacts, documents, public records, maps, and photographs; rare books; university records and theses; and distinct digital collections
• Equipment for checkout, such as laptop computers, cameras and video/audio recording equipment, data projectors, device chargers, portable PA system and more
• children’s and young adult literature collection (Educational Materials Collection)

Learning and Technology Services
Through collaboration with others, we continue to develop innovative solutions to enhance information technology, learning, and teaching. Whether we lend our support to technology, infrastructure, or people, we are committed to the goal of excellence in education at UW-Eau Claire. For more information, visit the LTS (http://www.uwec.edu/lts/) website.

LTS Help Desk
In addition to providing effective and responsive resolution of information technology questions through telephone, email, and walk-in consultation, the LTS Help Desk is the front line of support regarding learning and technology services. Call the LTS Help Desk at 715-836-5711 (or any LTS staff member) for assistance with these services.

Primary service areas include the following:

Communications
• Maintain access to the voice and data communications network, including wireless
• Provide for the security and integrity of data
• Administer email
• Maintain information systems
• Administer voice communications, including Voice over Internet Protocol (VoIP)
• Design, maintain, and support University websites

Learning Spaces
• Repair and provide operational support for equipment
• Design, maintain and modernize classroom technology
• Manage and provide support for general access and curricular computing labs

Distance Learning
• Design and support distance learning technologies for the delivery of synchronous and asynchronous instruction
• Administer and support course management systems (Desire2Learn)
• Provide streaming media capability

Housing and Residence Life
• Support for the computing and networking infrastructure within residence halls

Media and Production
• Record audio and produce soundtracks
• Record and edit video
• Support the campus academic cable system
• Provide instructional and campus photographic needs

• Provide graphic arts support for academic endeavors
• Produce instructional materials

Technical Assistance and Training
• One-on-one technology training
• Group technology training by request
• Curriculum support
• Scheduled technology workshops
• Assist with poster development and printing

Computing Services
(Vicki Lord Larson Hall 1106)
UW-Eau Claire continues to transition to the use of technologies which can put more control into users’ hands, speed up processes for students, and increase the efficient use of resources.

MyBlugold CampS allows students web-based access to registration, schedules, course information, and other common links. Students can access grades, request degree audits, and change personal information such as their address and password. MyBlugold CampS also provides links to academic, career, computing, and other resources for students.

All students are automatically assigned an email account, username, ID#, and PIN (Personal Identification Number) upon enrolling in any credit course. If a student enrolls in consecutive terms, the email account will remain continuously in effect.

UW-Eau Claire uses email as a primary means of communication. It is a student’s responsibility to activate the University email account since the University distributes grades, bills, and some financial aid information via email. Many instructors and advisers use email to contact students about class assignments and/or require students to correspond or participate via email in some way.

Some courses have web-based components which allow students to not only receive course information on the Web and/or use it for research, but also to communicate with the instructor or other class members, and to collaborate on group projects online. To feel comfortable using the system, an introduction is offered and the LTS Help Desk will provide support.

General Access and Residence Hall labs provide students with access to these campus computing resources as well as standard (e.g., Microsoft) and curricular-specific software. Students may also check out a laptop computer at no charge at the circulation desk in the Library. Students are provided with 200 MB of personal file storage space (the H drive). DeptDir (the W drive) is a network space that professors and students can use to exchange files.

Blugold Insider, MyBlugold CampS, Webmail, and Canvas are available on the university homepage (http://www.uwec.edu).

Academic Opportunities
Blugold Fellowship Program
The Blugold Fellowship program recruits high school students to come to UW-Eau Claire and perform research with a faculty member during their first and second years. The fellowship is awarded to incoming freshmen based on research interest and merit and includes a scholarship and work-stipend. The program places students with faculty mentors and allows them to perform research in order to expose them to scholarship early in their university careers.

The program highlights the opportunities available at UW-Eau Claire, including those provided through the UW System Center of Excellence for Faculty and
Undergraduate Student Research Collaboration. Visit the website (http://www.uwec.edu/blugoldfellows/).

**Student Success Program**

Student Success is a one-year academic support program that provides small classes and a structural introduction to the university. Participants are admitted to the University of Wisconsin-Eau Claire through the Student Success Program because they demonstrate the potential to succeed and may need additional support as they transition to college. The program is a collaborative effort among individuals, departments, and units across campus. Visit our website (https://www.uwec.edu/asc/ourservices/gencourses.htm).

**Developmental Education Program**

The Developmental Education Program, coordinated by the Academic Skills Center, provides courses designed to strengthen students’ college level learning strategies and critical thinking skills. It also serves to familiarize students with a wide range of academic support services and increase academic self-confidence. These courses are designed to meet the needs of students who are entering college with concerns about their academic learning strategies and are available on a preassigned basis. Further information may be obtained from the Coordinator for Developmental Education or visit this website (http://www.uwec.edu/academic-skills-center/programs/).

**Educational and Community Services**

**Academic Intervention Clinic**

The Academic Intervention Clinic, a program sponsored by the Human Development Center, provides school-aged children and adolescents with educational support in the areas of math, reading, and written language. Undergraduate student clinicians, under the supervision of faculty and graduate students, conduct state-of-the-art academic evaluations, develop and implement a comprehensive intervention program, provide on-going progress monitoring, and consult with parents and teachers. The program is housed within the Human Development Center with student clinicians also providing services in local elementary schools. The Academic Intervention Clinic also supports summer reading and math intervention programs for children with learning challenges. Faculty-student collaborative research experiences that focus on applied practice are available to undergraduate students.

**Center for Communication Disorders**

The Center for Communication Disorders provides diagnostic and intervention services to clients ranging in age from infants to the elderly. Graduate and undergraduate student clinicians, under faculty supervision, work in the clinic with clients who have communication disorders of all types including problems with voice, stuttering, speech sound production, hearing, and language. The Center is located on the first floor of the Human Sciences and Services building and provides services at no cost to clients. Visit the website (https://www.uwec.edu/academics/college-education-human-sciences/departments-programs/communication-sciences-disorders/about/community-resources/center-communication-disorders/) or call 715-836-4185 for additional information or to make appointments.

**Human Development Center**

The Human Development Center (HDC) is an interprofessional program that works with individuals and families from western Wisconsin. Under the direct supervision of faculty supervisors, student clinicians from Communication Sciences and Disorders (Speech Language Pathology), Education and Learning, Nursing, Psychology, Special Education, and Family Assessment provide assessment, intervention, and consultation services to children, adolescents, young adults, and families referred from the community. Undergraduate and graduate students from these disciplines work collaboratively on interprofessional teams to provide high quality services to clients. The HDC also sponsors research programs involving academic assessment and intervention, behavioral health, and child and school psychology. The HDC is located on the first floor of the Human Sciences and Services building. Visit the website (http://www.uwec.edu/HDC/) or call 715-836-5604 for more information.

**Psychological Services Center**

The Psychological Services Center, a clinic staffed by faculty members from the Department of Psychology’s School Psychology Program, is located within the Human Development Center. The center provides psychological and family assessment and intervention, parent training, and academic and behavioral consultation services to clients referred from the community. Allied disciplines also participate in the center, providing a variety of consulting services, including health, education, and assessment.

**Intercultural Immersion Experiences**

UW-Eau Claire’s Intercultural Immersions Office provides students with short-term experiential opportunities to enhance their cultural, social, and equity awareness through financial support from the University. Immersion programs are guided, critically-reflective, domestic intercultural and international experiences that aim to deepen students’ intercultural competence through global engagement, study, and experience. Short-term programs (about 30-35 each academic year) take students to various locations within the United States and internationally, led by UW-Eau Claire faculty and staff with curriculum that satisfies UW-Eau Claire’s Liberal Education Learning Outcomes. As part of the University’s commitment to providing high-impact learning experiences for all students, Blugold Commitment Differential Tuition supports three different categories of intercultural immersion programs by providing funding to decrease student costs and thus increase access to high-impact learning experiences for all students. Every UW-Eau Claire full-time undergraduate student is eligible to receive Blugold Commitment funding support for one Immersion experience in each category listed below. These categories are:

1. The **Faculty-Led International Immersion Experiences (FLIE) Program** offers short-term (2-6 weeks over Summer or during Winterim) international immersion programs led by UW-Eau Claire faculty and staff. Each program includes pre-experience preparation and orientation, cognitively rigorous in-country experiential learning activities that allow students to immerse themselves into local cultures, and post-experience guidance to bring learning and the application of their experience back to campus. ALL FLIE programs meet the Responsibility (R2) learning outcome criteria and some FLIE programs include a service-learning component.

2. The **Domestic Intercultural Immersion (DII) Program** prepares students to take part in an increasingly diverse and interconnected world by offering short-term programs (1-2 weeks during Fall semester, Winterim, Spring Break, and Summer term) within the United States. By engaging firsthand with underrepresented and historically marginalized populations, communities, and environments within the U.S., participants develop new understandings of prevailing power structures and privilege and how these institutions are embedded in race, gender, class, ethnicity, religion, and other forms of identity to help expand students’ interpersonal and intercultural skill set and awareness. All DII programs meet the Responsibility (R1) learning outcome criteria and some DII programs include a service-learning component.

3. The **International Fellows Program (IFP) for Research, Service, and Creative Activity** supports international student-faculty collaborative research, creative activity, and research projects. This program enhances student research skills and international cultural competency, as well as develops faculty expertise in global research topics. Some IFP Immersions include a service-learning component.
For detailed information about each program, visit the website (http://www.uwec.edu/undergrad/immersionexperiences.htm).

International Education (Center for)

International Education (Center for)
The Center for International Education (CIE) provides high quality study abroad programs that challenge students to integrate academically, socially, and culturally into a host institution and community and provides support services to international students and scholars. Additionally, the CIE supports campus internationalization initiatives and advocates for intercultural competency and lifelong inquiry. The CIE’s innovative work has twice been recognized by the Institute of International Education (IIE) for diversifying participation in study abroad and campus internationalization.

Two units within the Center for International Education work to support UW-Eau Claire students and faculty/staff:

Study Abroad

The Center for International Education (CIE) strives to make study abroad affordable and integrated into the curriculum so that it is accessible and promotes timely degree completion to all UW-Eau Claire students. To that end, the CIE offers programs around the world during all terms, works with academic departments to evaluate host university curriculums, and offers students the opportunity to fulfill Integrated (II) liberal education through the study abroad experience. Students will live and study with host country students and other international students from around the world. Interested students are encouraged to plan for study abroad as early as possible, in consultation with their academic and faculty advisers and CIE study abroad staff. Credits and grades earned on UW-Eau Claire programs abroad are considered resident credits and are applied directly to the student’s record. Additionally, regular financial aid may be used on UW-Eau Claire programs abroad.

Two programs administered by the CIE are the National Student Exchange (NSE) and the Ronald McNair Postbaccalaureate Achievement Program (McNair). Additional information on all CIE programs is available online (https://studyabroad.apps.uwec.edu/).

International Students and Scholar Services

The University of Wisconsin-Eau Claire welcomes students and scholars from around the world to western Wisconsin for degree completion and short-term study. Center for International Education staff manage the following core services: immigration advising and compliance, Sino-American Dual Dual Degree (CHEPD 1+2+1) dual degree management and student support, exchange and sponsored student programs, international student support programs (e.g., Host Friend Program and International Buddy Program). International students should be aware of the following policies that apply to their experience:

- International students must seek permission for all employment while in the United States due to U.S. immigration limits and regulations on employment.
- All international students are expected to live in University residence halls during their first year. A formal written appeal to the housing requirement may be made to the Director of the Center for International Education.
- All international students are required by the University of Wisconsin System to enroll in the International Student Health Insurance Plan.

Additionally, the CIE staff provides guidance and immigration support to academic departments on hosting international visiting scholars who advance the scholarly work of the University.

Further information is available from the Center for International Education website (http://www.uwec.edu/cie/).

National Student Exchange

National Student Exchange (NSE) allows students to study at universities throughout the United States, Canada, Guam, Puerto Rico, and U.S. Virgin Islands. NSE inspires academic enrichment, personal exploration, and student development by facilitating accessible collegiate study away among member colleges and universities. Students pay tuition to UWEC, experience a new campus in a different region, take classes and earn credits, while staying on track to graduate on time from UW-Eau Claire. All grades and completed course work are incorporated in the student’s UW-Eau Claire transcript, and are considered resident credits.

To qualify, a student must

- be currently enrolled as a full-time undergraduate student at UW-Eau Claire in the term prior to exchange;
- have a minimum 2.50 GPA;
- be in good academic, personal, and financial standing at UW-Eau Claire.

For more information about NSE, contact (715) 836-2003 or visit their website (http://www.uwec.edu/DOS/programs/nse/).

Ronald E. McNair Postbaccalaureate Achievement Program

The Ronald McNair Postbaccalaureate Achievement Program is a graduate school preparatory program funded by the U.S. Department of Education and sponsored by UW-Eau Claire. Named after American astronaut Dr. Ronald McNair, the McNair program aims at leveling the playing field in graduate education to diversify the American research community by class, socio-economic status, and ethnicity.

The mission of the McNair Program is to prepare scholars for research based graduate studies, and ultimately, a doctoral degree. Annually, up to 27 undergraduates participate in the UW-Eau Claire McNair Program. At least two-thirds of the participants meet federal income guidelines and are from a family in which neither parent graduated from a four-year postsecondary educational institution and up to one-third of the participants come from groups that are traditionally underrepresented in graduate studies. (The federal government defines “underrepresented” to include: Black (non-Hispanic); Hispanic; and American Indian/Alaskan Native, Native Hawaiians and other Pacific Islanders.)

Along with the McNair staff, a dedicated mentor in the scholar’s primary field of research works with the scholar over a two-year time period on research and materials that will assist the student in securing a place in a doctoral program. Some of the activities that McNair scholars participate in include developing an understanding of the research process, developing an understanding of the grant writing process, working one-on-one on preparing CVs and personal statements, applying for graduate school, and presenting research at the McNair Symposium.

Visit the website (http://www.uwec.edu/mcnair/) to learn more about the McNair program and for contact information.
Undergraduate Research
UW-Eau Claire is the Center of Excellence for Faculty and Undergraduate Student Research Collaboration. Many students work with a faculty mentor in their discipline to engage in scholarly projects. Results of these projects are presented on-campus at the Celebration of Excellence in Research and Creative Activity (CERCA) each spring, and many are also shared at professional conferences or through publication. Students involved in these activities develop a host of skills that prepare them for graduate studies and/or professional employment. Through the Blugold Commitment Differential Tuition program, funding is available to support student participation in research and scholarly projects that produce research results and creative works, and to travel to professional conferences to present their results.

The mission of the Office of Research and Sponsored Programs (ORSP) is to maintain a supportive environment for research and scholarly and creative endeavors of the faculty, staff and students. This is accomplished through events that showcase research, such as the annual Celebration of Excellence in Research and Creative Activity (CERCA), the Faculty/Staff Forum and the Authors Celebration, through funding programs that support research activities, through publications about campus research activities, and through services such as seminars, workshops and individual consultations on grant-seeking and undergraduate research collaboration. For more information, contact the Office of Research and Sponsored Programs (Schofield 17) at 715 836-3405 or visit the website (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/).

Academic Services

Academic Advising
Advising, Retention + Career Center

Advising:

Students will have an academic advisor and a faculty advisor from their major to assist them in developing academic and career goals based on their interests and abilities. If a student is unsure of a major, an academic advisor can recommend courses that explore various majors while keeping curricular options open to the extent possible. A student can expect advisors to be knowledgeable about university policies, procedures, and a wide variety of campus resources available for assistance.

Advisors in the Advising, Retention + Career Center also work with transfer students to help them understand requirements, policies, and procedures related to transferring to UW-Eau Claire. Academic advisors review transfer course evaluations with new transfer students to identify issues students need to address to best use their transfer work to meet UW-Eau Claire’s requirements.

The Advising, Retention + Career Center also provides advising for high school and non-degree seeking students taking college courses at UW-Eau Claire.

Visit the Advising, Retention and Career Center website (https://www.uwec.edu/academics/academic-support/arcc/).

Academic Testing: The Advising, Retention + Career Center administers English, mathematics, and world language placement tests for the university. Advanced Placement, International Baccalaureate, CLEP, DANTES, and PRAXIS results are also processed by the Advising, Retention + Career Center. Visit the Academic Testing website (https://www.uwec.edu/academics/academic-support/advising/testing/) for more information.

New Student Orientation:

First Year Students
All new first-year students are required to participate in a New Student Orientation program prior to starting classes. The hybrid orientation experience features virtual advising and registration sessions, and opportunities to come on-campus for additional programming. New first-year students starting in the summer or fall semester will participate in their orientation programming throughout the summer. New first-year students starting in winter or the spring semester attend a session before spring classes begin in January. During New Student Orientation, students and their guests have an opportunity to meet with staff members, tour the campus, and obtain information on a variety of topics related to both academics and student life.

Transfer Students
Advising and registration meetings for new transfer students are flexible, with the option to meet in-person, by phone or by video. The Admissions Office performs the initial transfer evaluation after a student has applied and been admitted. Academic advisors help transfer students understand policies and procedures related to transferring and identify transfer course issues students need to address to best use their transfer work to meet UW-Eau Claire’s requirements. New transfer students will have the opportunity to attend a formal orientation program either before classes begin in the fall (for summer/fall transfers) or in the spring (for winter/spring transfers).

Questions regarding transfer advising and registration should be addressed to the Assistant Director for Orientation. Visit this website (https://www.uwec.edu/academics/academic-support/advising/orientation/transfer-students/) for more details.

First Year Experience: The First Year Experience program at UW-Eau Claire helps new first-year students transition to college life. Many new students take a course that is designated as “first year only.” These sections are regular university courses that are open only to new first-year students. Many first year only classes have an experienced UW-Eau Claire student mentor who works closely with the instructor to help students adjust to college. New freshmen may also register for special "linked" courses that are designed to help with transition to UWEC or to explore a topic, major or career of interest. In addition, all new first-year students are invited to participate in the Blueprint for a Blugold program, which are online modules designed to help students learn valuable information about college life. Visit this website (http://www.uwec.edu/fye/) for more details.

Nontraditional Student Services:
Nontraditional students comprise an important component of the university community. The Advising, Retention + Career Center provides a variety of offerings that address the needs and experiences of adults returning to college. Working adult students, students with children or other family responsibilities, veterans, and adults in various life transitions, will find resources to support them. Further information may be obtained from the Advising, Retention + Career Center.

Visit the ARCC website (https://www.uwec.edu/academics/academic-support/arcc/).

Undergraduate Advising
Advising Philosophy
Academic advising is an important component of a student’s undergraduate experience. The university has established a structure intended to bring each student into a collaborative relationship with an academic advisor and a faculty advisor. The partnership with these advisors empowers students to establish connections to campus and their field of study, graduate in a timely fashion, and develop a portfolio of skills and experiences that will help them achieve
their academic and professional goals. Advising is most effective when viewed as a developmental process in which the students and advisors work together. Students have the ultimate responsibility for monitoring their progress toward graduation and they should work closely with their advisors to develop a corresponding academic and career plan. Advisors serve as a resource for students, providing accurate information and referring them to appropriate sources of help offered by the university.

Advising Structure
There are seven advising clusters comprised of 5-10 majors that are similar in nature. A student who has declared a major is assigned an academic advisor from that cluster and a faculty advisor in their specific major (some majors may assign faculty advisors after students are admitted to their program). To view the majors in each cluster, visit this website (https://www.uwec.edu/academics/academic-support/arcc/advising-model/).

Students who have not decided on a major will work with an undeclared advisor. Once a student declares a major, they will be assigned an academic advisor from that cluster and a faculty advisor in that major.

Students who wish to change their major, minor, or certificate must first consult with an academic advisor, so students should plan ahead. If a student switches to a new major that is in the same advising cluster, their academic advisor will remain the same, but a new faculty advisor may be assigned to reflect the student’s new major. If a student switches to a major outside of their current advising cluster, they will be assigned to a new academic advisor and a new faculty advisor.

Roles of Academic and Faculty Advisors:

Academic Advisors: An academic advisor provides holistic and comprehensive academic and career advising for students in a specific advising cluster. They provide students with guidance regarding course selections, graduation requirements, major exploration, academic policies and procedures, referrals to other campus resources, and High Impact Practices. Academic advisors collaborate with faculty advisors and career counselors to serve students.

Faculty Advisors: A faculty advisor provides ongoing consultation for the student on long-range academic and career plans, monitors progress towards specific major degree requirements, assists in the selection of major courses, and connects students to High Impact Practices available in their department/field. Students are encouraged to meet with their faculty advisor each term to discuss major-related opportunities. Faculty advisors collaborate with academic advisors and career counselors to serve students.

Students must see an academic advisor at the following times:

- Students must meet with their academic advisor prior to registration for fall and spring semesters. Students are encouraged to discuss summer and winterim courses with their academic advisor.
- All readmitted students must meet with an academic advisor prior to registering.
- All new transfer students must meet with an academic advisor prior to registering.
- All students must consult with an academic advisor prior to withdrawing from a course or withdrawing from the university.
- Students should meet with their faculty advisor to discuss major-related High Impact Practices (such as internships, Service-Learning, research, study abroad, National Student Exchange, etc.) and major course selection that may affect future career or academic opportunities.

Advising Responsibilities

Student Responsibility

It is the responsibility of all students to:

- Meet with their academic advisor at least once per semester.
- Read and respond to all emails sent from academic and faculty advisors in a timely manner.
- Be prepared for meetings with their academic and faculty advisor.
- Learn to read and use the degree audit; become familiar with graduation requirements; fulfill all degree requirements.
- Develop plans for taking courses required for graduation.
- Keep track of their own academic records.
- Develop plans for achieving academic, career and personal goals.
- Utilize their academic and faculty advisors to address questions about High Impact Practices (such as internships, service-learning, research, study abroad, National Student Exchange, etc.).
- Utilize their faculty advisor to address questions about opportunities in the major, major courses and the influence on career choices, and educational opportunities beyond their undergraduate degree.
- After registering for their final term, apply for graduation in CampS.
- See their academic advisor, faculty advisor, and course instructor at the first sign of academic difficulty.
- Understand academic policies and become familiar with important deadlines.
- Utilize the full range of campus resources: career planning, counseling, tutoring, Services for Students with Disabilities, the Writing Center, and other resources available at the university.

Advisor Responsibility

It is the responsibility of academic and faculty advisors to:

- Be accessible to students on a regular, predictable basis.
- Encourage students in self-direction, learning, and assuming responsibility for their own educational plans.
- Reinforce the responsibilities of students.
- Assist students with course selections.
- Help students with academic and career planning and re-evaluate plans regularly.
- Empower students to achieve academic, career and personal goals.
- Know graduation requirements and other institutional policies outlined in the catalog.
- Refer students to appropriate campus resources.
- Help students learn about academic policies and procedures.
- Increase advising skills through regular training and professional development.
- Helps students understand the value of their liberal arts education.

Academic Skills Center

The Academic Skills Center is a resource for students needing individual assistance to enhance learning strategies and skills in college reading and study methods, critical thinking, and problem solving. Group and individual tutoring is also available for selected entry-level foreign language courses, as well as several physical and social science courses. Diagnostic evaluation is available in reading and study strategies. Supplemental instruction is a guided study program that is available for selected courses particularly in Arts and Science. Further information may be obtained from the Academic Skills Center staff or the ASC website (http://www.uwec.edu/asc/).
Career Services
Career Services is a resource to students, offering opportunities for them to connect with the arts education with future career and professional goals. We partner with employers, faculty, and staff to provide opportunities to help students realize fulfilling careers. Career Services helps students understand the relationship between their educational choices and career fields. Specific services include: career counseling appointments and group workshops, internship and job search assistance, resume and cover letter reviews, networking coaching, interview preparation, and salary negotiation. Career Services is the liaison between employers and campus, connecting students, faculty, staff, and alumni with employers in the region and across the country. The Career Services office is responsible for collecting and reporting data for the annual First Destination Survey.

Handshake: UW-Eau Claire’s online jobs and internship search platform used by students and alumni. Employers who recruit UW-Eau Claire students utilize this platform to assist in meeting their workforce needs by posting part-time, internship, and full-time positions. Students can search for opportunities and upcoming career events. They can also participate in campus interviews and receive invitations to employer events.

Career Events: Each year Career Services sponsors a variety of events designed to allow students to explore career and internship options including:
- Accounting and Finance Career Fair
- Fall and Spring Career Conferences
- Nursing and Health Care Professional Career Fair
- Part-Time Job Fair

Services for Students with Disabilities
Services for Students with Disabilities (SSD) facilitates the provision of academic accommodations for eligible students with documented disabilities. Disability-related accommodations address the need for both program access (i.e., exam accommodations, note taking, interpreters, alternative format course materials, etc.) and physical access. Verification of the need for accommodations is based on current disability documentation provided by the student. Students with disabilities who wish to request accommodations must provide disability documentation to the SSD Office and make their requests known in a timely manner so that arrangements for accommodations can be initiated. A Test Center is available for testing accommodations. Information about required documentation and procedures for arranging services can be obtained by contacting the SSD Office or visiting the SSD website (http://www.uwec.edu/SSD/).

TRIO Project AIM
TRIO Project AIM, Ability in Motion, is a federally funded Student Support Services Grant program. Due to federal eligibility requirements, the students served must have documented disabilities and be registered with the Office of Services for Students with Disabilities. The mission of this program is to provide individualized assistance toward academic achievement and retention, empowering students to accomplish their educational and career goals. Eligible students receive a variety of supplemental services such as student-specific advising, career exploration, financial literacy, tutoring, mentoring, leadership development, and a variety of cultural and educational activities. Some students qualify for additional federal grant aid based on participation in the program. Further information may be obtained from the TRIO Project AIM website (https://www.uwec.edu/equity-diversity-inclusion/edi-services-programs/services-for-students-with-disabilities/ssd-current-students/trio-project-aim/).

Center for Service-Learning
All candidates for the baccalaureate degree at the University of Wisconsin-Eau Claire must satisfactorily complete 30 hours of approved service-learning activity. UW-Eau Claire’s Service-Learning requirement fosters habits of public engagement and service to society. This requirement is intended to provide students with an opportunity to serve their community, apply knowledge gained in the classroom, enhance their critical thinking skills, and become informed, active, and responsible citizens. The Center for Service-Learning works with community partners to create meaningful projects for students and helps students and staff to develop projects.

Within the first few weeks of the fall semester, the Service-Learning & Community Engagement Fair is held. At this come and go event, community partners come to the fair with the expectation of talking directly to students about volunteer, service-learning, internship or job opportunities they have at their specific organizations.

Visit the Service-Learning App (https://servicelearning.apps.uwec.edu/) for information on available projects, the website (http://www.uwec.edu/service-learning/#news, resources and procedures and the Service-Learning Guidebook (https://www.uwec.edu/files/1183/ServiceLearningGuidebook.pdf) for current policies. For catalog information, view the University Graduation Requirements (http://catalog.uwec.edu/undergraduate/graduation-requirements/#universityrequirements).

Student Support Services
Funded by a TRIO grant from the U.S. Department of Education, the Student Support Services program provides a variety of supplemental services for qualified students. Due to federal eligibility requirements, the students served must be from a low-income household, be a first-generation college student, or have a documented disability. The staff assists eligible students in assessing their academic skills and in developing individual goals that promote their academic and career success. The program provides participants with free tutoring, career exploration opportunities, comprehensive academic advising, mentoring services, graduate school preparation, financial aid information, and a variety of educational activities. Some students qualify for additional federal grant aid based on their participation in the program. Further information may be obtained from the Student Support Services staff. Visit the SSS website (http://www.uwec.edu/sss/).

Upward Bound
Upward Bound is a federal TRIO program awarded to UW-Eau Claire by the U.S. Department of Education. All participants are from public high schools in Eau Claire (North High School and Memorial High School). Most students are recommended by school counselors during the last semester of middle school. Once enrolled in the program, students continue through high school graduation. The program serves 73 high school students who face barriers to the completion of high school and the attainment of post-secondary education. During the academic year, students receive tutoring, counseling, and study skills support. The summer six-week residency program, for which students receive high school credit, provides an academic core enhanced with field trips and cultural, social, and athletic activities. Upward Bound develops career exploration and decision-making skills and assists students in selecting appropriate post-secondary educational options. Assistance is given in completing college admission and financial aid applications. Further information may be obtained from the Upward Bound Office or by visiting the...
William J. and Marian A. Klish Health Careers Center

The William J. and Marian A. Klish Health Careers Center is a specialized career center for students who are interested in a career in the health sciences. The resources available through the Health Careers Center help students explore a wide range of health careers and create a personalized, interdisciplinary pathway to graduation and admission to professional schools. UW-Eau Claire offers pre-professional programs in Pre-Medicine, Pre-Veterinary Medicine, Pre-Physician Assistant, Pre-Dentistry, Pre-Physical Therapy, Pre-Occupational Therapy, Pre-Pharmacy, Pre-Optometry, Pre-Chiropractic, and Pre-Athletic Training. The Health Careers Center offers resources for academic and health career advising, connections to health-related clinical, research and volunteer opportunities, and workshops designed to build effective tools for career development and competitive applications. Further information may be obtained by visiting the Health Careers Center website (https://www.uwec.edu/academics/institute-health-sciences/health-careers-center/).

Student Services, Activities and Organizations

Equity, Diversity, and Inclusion

Equity, Diversity, and Inclusion professionals, in conjunction with faculty colleagues and community partners, assist University of Wisconsin-Eau Claire students to reach their unique potential in the areas of intellectual, personal, social, and cultural development. This is achieved by providing a variety of student services that include information sharing and advocacy, curricular and co-curricular offerings, professional development and training opportunities. These activities occur in the context of a liberal education enhanced by experiential learning and civic engagement.

The Division for EDI works to create a campus climate where all students, faculty and staff feel welcome and can thrive and feel like they can be successful here. Within the Division, students and faculty will find the services and programs aimed at providing support, information, assistance and leadership bringing equity and inclusion for all campus demographics. The work of staff in the Division will create a more welcoming and inclusive environment, increase the cultural competencies of the university community, and advance institutional goals of recruiting and retaining under-represented students, faculty, and staff. Units in the Division include: Affirmative Action, Center for EDI Training, Development, & Education, Center for Racial & Restorative Justice, Gender & Sexuality Resource Center, Multicultural Student Services, Ronald E. McNair Undergraduate Research Program, Services for Students with Disabilities, Student Support Services, and Upward Bound. The EDI administrative office is located in Schofield 101, 715-836-2387, or visit the website (https://www.uwec.edu/edi-student-affairs/).

Athletics

The University’s intercollegiate athletics program challenges students physically, mentally, and emotionally. The various athletic practice and playing fields are really classrooms where leadership, self-discipline, commitment, work ethic, teamwork, fair play, problem solving, time management, motivation, and cooperation are taught. This fits in with the University’s commitment to a rigorous, intentional and experiential undergraduate liberal arts education for education and livelihood. A well-conducted program, based on sound educational principles and practices, fulfills the educational mission by ensuring that every student has an opportunity to be involved in competitive athletics as a participant or spectator.

The programs are organized to meet the needs of the highly skilled and competitive student-athlete. The women’s program consists of varsity teams in basketball, cross country, golf, gymnastics, ice hockey, soccer, softball, swimming and diving, tennis, track and field, and volleyball. The men’s program consists of varsity teams in basketball, cross country, football, golf, ice hockey, swimming and diving, tennis, track and field, and wrestling.

Both men and the women compete on the national level as members of the National Collegiate Athletic Association (NCAA) Division III. On a state level, the men and the women belong to the Wisconsin Intercollegiate Athletic Conference (WIAC). The women’s gymnastics program belongs to the National Collegiate Gymnastics Association (NCGA) in the sport of gymnastics.

All student-athletes must conform to university academic policies and standards to be eligible. In addition, there are conference and national regulations which affect a student-athlete’s eligibility status. Entering freshmen are eligible for varsity competition if enrolled as full-time students. Transfers and students who have not been in continuous enrollment at UW-Eau Claire...
should contact Athletics for a determination of their eligibility status. All other student-athletes must earn 24 degree credits for each season of competition they complete. Once a student-athlete has completed two terms of attendance, one season of competition, or earned 24 credits, there is a 2.00 resident grade point requirement.

All men’s and women’s sports are administered by the Director of Athletics. They are supervised by the Vice Chancellor for Enrollment Management in consultation with the Athletic Committee.

**Awareness of Sexual Assault (Center for)**

The Center for Awareness of Sexual Assault (CASA) is a sexual assault support service that maintains a victim-centered approach. We provide a safe place for people to come and talk about any issues that they may have surrounding their sexual assault, or those of someone close to them. Even if you are not sure about a sexual experience and are now feeling uncomfortable with what happened, CASA would be glad to talk with you. We provide a variety of services that are confidential and free: crisis counseling, emergency room support, legal advocacy, assistance with campus reporting, information and referral, and a 24-hour crisis hotline at 715-836-HELP. For additional information, visit the website (http://www.uwec.edu/CASA/). To make an appointment, call 715-836-4357 or email casa@uwec.edu. The CASA office is located in the Hibbard Humanities Hall 311C.

**Center for Racial & Restorative Justice**

Preparing graduates to foster equity in all areas of society. The newly established Center for Racial and Restorative Justice, a clearinghouse for research, scholarship, , and action, aims to educate students and the greater Eau Claire community about the history of race in America and the barriers to upward mobility for people of color in areas such as education, criminal justice, health care, commerce, and housing.

Through a multi-pronged approach, the center will ensure that UW-Eau Claire is preparing graduates for life in a truly changing landscape. Understanding the concepts of race, justice, equity, equality, restorative justice, and critical identity theories will help our graduates stand above their counterparts as well as become leaders in ongoing social and cultural change.

**Children's Nature Academy (The Priory)**

The UW-Eau Claire Children’s Nature Academy (CNA), is a five-star (Youngstar) nature based early learning program, licensed by the state of Wisconsin. The program provides care and learning to children ages six weeks through age ten, on the University’s beautiful 112-acre Priory Campus. Priority enrollment is given to UWEC students. However, all families from the UWEC and surrounding community are welcome. The center operates from 7:00 a.m. to 5:30 p.m. Monday through Friday and some evening care upon request. The CNA offers flexible scheduling and special student discounted rates. The CNA also works with the Eau Claire Area School District to offer four-year-old kindergarten (EC4T) and AmeriCorps to offer ECLIPSE, a literacy and social skills program for preschool age (3-5) children. Please contact the Director at 715-836-2178 or children@uwec.edu for more information on enrollment. Online interest forms (https://www.uwec.edu/children/) are also available.

**Counseling Services**

Therapists in Counseling Services assist students in overcoming problems which may interfere with their educational, social, and emotional development. This is accomplished through individual, couple, and group counseling; psycho-educational workshops; and outreach services. Among the issues that students may bring to counseling are personal development, adjustment to college, depression, anxiety, stress management, relationship/abuse issues, alcohol and drug use, goal setting, time management training, and other personal concerns and psychological problems.

Confidential and free counseling is available to any student of the University of Wisconsin-Eau Claire. Scheduling is easy, call 715-836-5521 or stop by our office located in Vicki Lord Larson Hall 2122.

For more information on our services visit the website (http://www.uwec.edu/counsel/).

**Cultural and Social Activities**

**Artist Series** (http://www.uwec.edu/Activities/programs/artists/), The Artist Series presents quality regional, national, and international artists in the areas of music, dance, and theater to the University community. Through the performing arts, the Artist Series seeks to develop aesthetic awareness, promote interdisciplinary appreciation, and cultivate multicultural experience.

The Forum (http://www.uwec.edu/Activities/programs/forum/tradition/). Since 1942 The Forum lecture series has presented many of the world’s greatest minds and imaginations. Speakers have ranged from Sinclair Lewis to Maya Angelou, Margaret Mead to Cornel West, William Westmoreland to Noam Chomsky, Buckminster Fuller to Carl Sagan, and Bennett Cerf to Garrison Keillor.

The International Film Society (https://www.uwec.edu/activities-involvement-leadership/programs-events/international-film-society/) presents foreign and domestic films on campus for UW-Eau Claire students and faculty/staff, and for community members who purchase film passes. Since 1956 the series has represented various countries, cinematic styles, directorial methods, genres, and points of view in films that help to foster a better understanding of other people and cultures as well as a lifelong appreciation for the art of film.

Student Organizations and Leadership Center (http://www.uwec.edu/Activities/). This area in the Davies Center provides services and a home base for the more than 230 campus organizations at UW-Eau Claire. Students may learn more about organizations they are interested in joining through the Activities, Involvement & Leadership Office. Organization members may use the workshop space, supplies and resources. The Student Organizations and Leadership Center is also home for the Student Senate.

**Summer Events**. Free entertainment and films for the Eau Claire community is provided throughout the Summer Session.

**University Activities Commission (UAC)**. The largest standing commission of the Student Senate, the UAC is the exclusively student-operated campus activities programming board. In selecting and producing high-quality, diverse, and accessible educational and entertainment programs for the university community, UAC members gain valuable leadership experience and develop personal skills such as exercise of responsibility, decision-making, and teamwork.

Five committees make up the commission. The Cabin Committee programs musical and performance arts events in an intimate setting. The Concert Committee presents on-the-rise regional bands, nationally and internationally touring artists, and cutting-edge performers. The Festivals Committee coordinates Homecoming, Winter Carnival, and Springfest activities. The Film Committee alternates with the International Film Society in screening contemporary and classic films throughout the academic year. The Late-Night Activities Committee provides social late-night activities for students, using spaces on upper campus and lower campus. The UAC also offers lecture-
and-discussion programs, performing and visual arts events, tours to regional cultural events, comedy nights, and novelty programming.

Viennese Ball ([http://www.uwec.edu/centers/vball/](http://www.uwec.edu/centers/vball/)). Documented as the largest Viennese ball presented outside of Vienna, the Viennese Ball is a formal event recalling the romance and elegance of 19th-century Vienna. The program promotes positive university, community, and international relations by expanding an awareness of the culture, history, and music of Vienna, Austria. Proceeds from the annual two-night event have thus far provided more than $2 million in music, service, and international study scholarships for UW-Eau Claire students.

**Department of Art & Design.** Student shows comprise a significant aspect of the annual calendar of exhibitions. A visiting artist is invited to serve as juror in the selection of works for the Annual Juried Student Art Show in the Foster Gallery of the Haas Fine Arts Center. Candidates for the Bachelor of Fine Arts degree present senior shows in their emphasis at the conclusion of each semester. Other exhibitions present the work of outstanding contemporary artists who frequently visit the campus at the time of their show and meet informally with students. Gallery and museum directors, graphic designers, and art historians also visit the Department of Art & Design to present lectures and participate in seminars and workshops on a wide range of subjects.

Paintings, sculpture, prints, and drawings from the UW-Eau Claire permanent art collection may be viewed in numerous campus locations.

**Forensics.** A complete program of competitive intercollegiate speaking activities is offered. Categories include prose interpretation, poetry interpretation, dramatic interpretation, dramatic duo, impromptu speaking, extemporaneous speaking, persuasion, informative speaking, after dinner speaking, and communication analysis. CJ 100, Introduction to Forensics, allows students to obtain credit for participating in the activity. Students do not have to enroll in the course to participate.

UW-Eau Claire possesses one of the longest traditions of national excellence in forensics in the nation. The University competes against colleges of all sizes, yet is typically among the top programs in the country. The local chapter of Pi Kappa Delta sponsors several tournaments and workshops on campus for high schools and colleges. Any student, regardless of background in forensics, is welcome to take part in this activity. For further information contact the Director of Forensics, Hibbard 174, or visit the website ([https://www.uwec.edu/academics/forensics](https://www.uwec.edu/academics/forensics)).

**Department of Music and Theatre Arts.** Each year the Department sponsors more than 225 recitals, concerts, and special musical programs by students, faculty, and guest artists. Many student musical ensembles have distinguished national reputations. Ensemble participation is open to all qualified students and includes the following organizations: University Symphony Orchestra, Chamber Orchestra, Wind Ensemble, Symphony Band, University Band, Marching Band, Jazz Ensembles, Concert Choir, Symphonic Choir, Women’s Chorus, Men’s Glee Club (Statesmen), Women’s Concert Chorale, Opera-Musical Theater Workshop, Concert Dance Company, and numerous small ensembles.

University Theatre annually casts five main-stage productions by open audition, including a Theatre for Young Audiences production. In addition to the main-stage plays, there are 20 to 30 student productions ranging from the classics to contemporary theatre.

Department performing spaces include the 600-seat Gantner Concert Hall used for concerts, recitals, opera, dance, and musical theatre; Phillips Recital Hall, seating 200 for solo recitals and chamber music; Riverside Theatre, a 200-seat thrust-stage facility used for main-stage theatre and studio productions; and Kjer Theatre, a proscenium facility seating 400 for main-stage plays and dance.

FM Radio ([https://www.wpr.org/wupec-fm-897-eau-claire/](https://www.wpr.org/wupec-fm-897-eau-claire/)). WUEC (at 89.7 on the dial) is a student-assisted FM station broadcasting from studios in the Hibbard Humanities Hall. WUEC is affiliated with Wisconsin Public Radio and National Public Radio. Programming includes classical, jazz, blues, and folk music; news; information; and public affairs programs.

**Campus TV.** Students enrolled in Advanced Broadcast TV News (CJ 426) prepare newscasts in the Broadcast TV News Laboratory, Hibbard Humanities Hall 105.

**Residence Hall TV-10.** Students living in the residence halls produce and direct live and taped television programs originating in the studio and control room located in Towers Residence Hall. These programs are sent out on the residence hall cable system and received on channel 10.

**Dean of Students**

The Dean of Students Office staff plays an important role in helping all students navigate the campus environment and provide programs and services that enrich students’ personal and educational development. The staff works with programs and services to create a learning environment that integrates co-curricular and classroom experiences.

Services provided by staff in the Dean of Students Office include:

1. Student advocacy, counseling, advising, and crisis intervention to students experiencing personal, medical/mental health and academic problems.
2. Supportive response, accommodations, investigation and adjudication of complaints of sexual assault, stalking, dating/domestic violence, and hate/bias incidents.
3. Administration and coordination of the National Student Exchange Program.
4. Support and advising for student government and campus organizations and the administration of student conduct procedures.

Students are encouraged to seek assistance related to student life concerns and to use the office as a referral resource. Staff assist students to make positive connections with faculty, staff, other students, and services. The Dean of Students Office is located in Schofield 240, dos@uwec.edu, 715-836-5626, fax 715-836-5911, or visit the website ([https://www.uwec.edu/dos/](https://www.uwec.edu/dos/)).

**Gender & Sexuality Resource Center**

The Gender & Sexuality Resource Center is dedicated to creating a safe and inclusive campus for all students, while advocating for and celebrating those identities that have historically been and continue to be marginalized. We believe in education and inspiration, not alienation, and that is reflected in all curricular and classroom experiences.

The Gender & Sexuality Resource Center’s staff provides resources, information, and programming in collaboration with existing departments, advisory committees, organizations, and offices; we foster a supportive campus environment through the development and sponsorship of intellectual, personal, and cultural programming.

For more information, visit the website ([http://www.uwec.edu/speakout/](http://www.uwec.edu/speakout/)).

**Housing and Residence Life**

The University provides accommodations for 3,974 students in on-campus residence halls. Except for those who are married, living with parents or guardians, or veterans of the United States Armed Forces, all freshmen and
sophomores are required to live in University-operated residence halls when such accommodations are available.

Information about living on campus is automatically sent to candidates for admission to the University. Room assignments are based on the date all properly completed housing contract items are submitted, including a $75 deposit. The deposit is refundable through May 1 (see Deposits, under Tuition and Fees). It is beneficial to apply as soon as possible after acceptance to the University. Whenever possible, specific room assignments will be made prior to freshman orientation in mid-June.

Each residence hall is staffed by a hall director and resident assistants selected from qualified continuing students. Insofar as demand permits, students are given a choice among the kinds of on-campus accommodations available. The residents of each hall determine, in accordance with the Wisconsin Administrative Code, certain policies and regulations for the governance of their hall.

All students living in traditional University residence halls are required to participate in the contract meal plan (see Dining Service). Certain buildings may be identified as exempt from the contract meal plan.

The University has no housing facilities for married students and students with children. Further information concerning all housing and residence life policies and services is provided in the Residence Hall Information booklet, available upon acceptance by the University or upon request to the Housing and Residence Life Office, phone 715-836-3674, or online (http://www.uwec.edu/housing/).

**Multicultural Student Services**

Multicultural Student Services (MSS) provides quality services and programs that support and enhance the collegiate experience, particularly for students of color. MSS provides direct support to students who identify as African American, American Indian/Native American, Asian & Southeast Asian, Latinx, and multiracial/multietnic students. In doing so, MSS not only advocates for multicultural students, but also assists them in areas such as community engagement, employment, financial aid, scholarships, housing, leadership development, and supplemental advising.

In addition, MSS supports campus-wide programming for all faculty, staff, and students through cultural programs, heritage month awareness activities, guest speakers, and classroom presentations and other training on EDI issues.

MSS is dedicated to an equitable, diverse, and inclusive campus community that helps students excel individually and collectively. MSS builds relationships, fosters a sense of belonging and community, creates relevance to learning, and connects multicultural students to resources that will enhance their leadership skills, equity/diversity/inclusion skills, academic growth, and personal growth at UW-Eau Claire.

All UW-Eau Claire students are encouraged to participate in the variety of opportunities and events sponsored by Multicultural Student Services. Learn more about MSS events and services by visiting the website (https://www.uwec.edu/equity-diversity-inclusion/edi-services-programs/multicultural-affairs/).

**Recreation and Sport Facilities**

Recreation and Sport Facilities provides a wide array of opportunities for students to engage in healthy activities that promote learning, leadership development, health, wellness and fun! Opportunities for students and staff include: A wide variety of outdoor and indoor Intramural Sports, 27 unique Club Sport teams, Group Exercise class offerings seven days per week, Open Recreation (free-time use of gyms, pool, indoor track and racquetball courts), two state-of-the-art work-out facilities (Crest Fitness Center and the McPhee Strength & Performance Center), the Environmental Adventure Center (Outdoor Equipment Rental, Adventure Trips, Indoor Archery Range, Eagle’s View Challenge Ropes Course, Indoor Climbing Wall, Campus Biking Program and the Campus 9 Disc Golf Course), Massage Therapy, Special Events, Wellness Classes and the Hilltop Recreational Area (exercise and cycling studios, bouldering cave, billiards, games and TV).

Recreation and Sport Facilities also oversees the management and scheduling of all upper campus sport facilities including: McPhee/Ade Olson (gyms, pool, indoor track, racquetball courts, dance studio, equipment and laundry operations and classrooms), Simpson Outdoor Track and Field, Bollinger Fields Complex, Towers Field & Sand Volleyball Courts, Hilltop Outdoor Tennis and Basketball Courts and the Hilltop Recreational spaces.

Recreation and Sport Facilities is one of the largest employers of students on campus, offering enriching work experiences that provide opportunities for leadership development and learning.

For more information about Recreation and a complete list of opportunities, visit the Recreation and Sport Facilities website (http://www.uwec.edu/recreation/).

**Student Government**

The University of Wisconsin-Eau Claire has long been committed to the active participation of students in institutional governance. Significant responsibility is accorded to qualified students who serve with faculty on departmental and College committees and on administrative committees of the University.

The Student Senate is the primary vehicle for the involvement of students in University governance. It has initial responsibility for recommendations on matters pertaining directly to student life, services, and interests, including the allocation of that portion of the educational costs designated as the segregated fee. In elections held each year, the student body elects eligible students from two geographical districts—one and off campus—to serve as senators.

Through the United Hall Council and the Coeducational Residence Hall Judicial Board, students also participate, with the Director of Housing and Residence Life, in the operation and development of residence hall programs and policies.

For further information, students may contact the Student Senate Office or the Dean of Students Office. Visit the website (http://www.uwec.edu/studentsenate/).

**Student Health Service**

UW-Eau Claire’s Student Health Service fosters a healthy campus community through high quality health care, inclusive and accessible service, and health promotion/advocacy. Student Health Service is the primary health care center for UWEC students.

Clinical services provided include mental health evaluations and follow-up care, evaluation and treatment of illnesses and injuries including those of the respiratory, gastrointestinal, and musculoskeletal systems. Physical examinations, minor surgical procedures, laboratory services, and reproductive health services, including contraceptive exams and supplies, are also offered. Diagnosis and treatment of sexually transmitted diseases is also available. Some services are prepaid by student segregated fees, and some services and supplies are provided for a nominal fee. Additional information about Student Health Service is available on the website or by calling the clinic at 715-836-5360.

The Health Promotion Office works as an educational arm of Student Health Service. Located on lower campus in Schofield 26, this office works on health
advocacy projects to make UW-Eau Claire’s campus a healthier living place for learning and living, including developing and implementing strategies and programs to reduce high-risk drinking. This office also offers educational programming for residence halls and classrooms on topics such as nutrition, life/work/school balance, making healthy changes, and other topics.

For more information on our services, hours and locations, visit the website (http://www.uwec.edu/shs/).

Student Publications
The Spectator (http://www.spectatornews.com), an award-winning student newspaper is published in print each Thursday of the regular academic year and daily online. at. The paper has offices in Hibbard 104. Paid staff positions are available for interested students in editorial, production, and advertising departments. The Spectator is a member of the Associated Collegiate Press.

NOTA (None of the Above), the campus creative arts magazine published once per semester, provides an outlet for student writing, photography, artwork, and original music performance; in addition, NOTA publishes “Pocket NOTA,” a magazine designated for pieces of longer prose. NOTA sponsors public readings by students, faculty, and professional writers and holds contests for fiction and poetry writers. Interested students may inquire at the NOTA Office in the English Department or via email: nota@uwec.edu.

University Centers
The University Centers (http://www.uwec.edu/centers/) comprises two buildings that are the center of campus life: The W. R. Davies Student Center and the Hilltop Center. University Centers programs and services operate within these facilities. The University Centers also manages the Zorn Arena and the Schofield Auditorium — multipurpose facilities that are heavily used by the university community for meetings, recreation, performances, dining, conferences, workshops and other curricular and co-curricular activities.

The University Centers develops and implements a variety of involvement and leadership experiences, volunteer opportunities, student employment and internships, diversity and cultural growth initiatives, and community outreach. These varying experiences help students to develop new skills, reflect on their personal identity and place in the world, and become engaged citizens. The University Centers builds and sustains partnerships with faculty/staff and community members, to ultimately enhance the quality of the experiences provided. The University Centers is funded by space, equipment and labor rentals (including those for meetings, programs, private weddings, camps, conferences and other special community events), student fees and commissions.

The University Centers provides services that are integral to campus life, including the undergraduate textbook rental program, the meal plan required for nearly all campus residents, and the official university ID card. The unit is responsible for all non-academic reservations on campus and ticketing of campus events. The University Centers administers bookstore services, dining, catering and vending services campus-wide, manages all printing services and provides the central source of campus information through the Service Center.

W.R. Davies Student Center. The 177,000 sq. ft. W. R. Davies Student Center opened its doors in July 2012. This student center, like its predecessor, is named in memory of William R. Davies (1893–1959), the university’s second president. Its design was inspired by nature surrounding the Eau Claire campus — the Chippewa River, the woods, the stone formations, and the Little Niagara Creek. W. R. Davies Student Center occupies a site that was the historic meeting grounds of the Dakota and Ojibwe people, who made peace in the 1850s after a bitter war that spanned 150 years. The treaty line is thought to be at the mouth of the Little Niagara Creek on the Chippewa River. Names of meeting spaces in the original and the present Davies Center honor the Ojibwe and Dakota and other native people of Wisconsin, including the Ho-Chunk, Menominee and Potawatomi tribal members who used the Council Oak tree and its surroundings as a shelter and gathering place. Davies Center was planned as an expression of the role of the Council Oak, a beacon and symbol of community, gathering and a safe space for all. W.R. Davies Student Center is the center for social and cultural interaction on the lower campus. Offering a number of meeting and program spaces (http://www.uwec.edu/centers/facilities/davies/map.htm), dining facilities and service areas, W.R. Davies Center is the administrative core of the University Centers. It is also home to the Student Senate (http://www.uwec.edu/StudentSenate/), the primary vehicle for student involvement in university governance.

Hilltop Center. Spanning the road that connects the upper and lower campus, Hilltop Center was built in 1968 and is home to Riverview Café, the primary contract dining facility on campus. An extensive renovation of Hilltop Center in 2012 expanded the primary service cafeteria on campus. Riverview Café (https://uwecdining.sodexomyway.com/dining-near-me/resident-dining/) now comprises the entire second floor of the building, and up to 7,000 meals are served to students each day. The programs and services of University Recreation and Sport Facilities (https://www.uwec.edu/recreation/) are also based in Hilltop Center. Facilities include the Environmental Adventure Center (http://www.uwec.edu/Recreation/eac/) (EAC), the Bowling and Billiard Center (http://www.uwec.edu/Recreation/bbc/) (BBC) and The Lookout – event space.

Crest Wellness Center. Is home to Student Health Service, Crest Fitness Center, University Police and the Eagle’s View Challenge Ropes Course. In 1999 a $1.4 million upgrade remodeled the upper level of Crest Wellness Center for the fitness center, making it possible to relocate its weightlifting exercise equipment from the lower level. In 2013 the Eagles View Challenge Course was expanded offering both high and low rope challenges.

Blugold Card Services
University of Wisconsin-Eau Claire photo identification cards are issued and replaced for students, faculty and staff at Blugold Card Services (http://www.uwec.edu/blugoldcard/). The W. R. Davies Student Center is located off the main lobby of Centennial Hall and in the Haas Fine Arts Center. Facilities include the Environmental Adventure Center (EAC), the Bowling and Billiard Center (BBC) and The Lookout – event space.

Blugold Dining
W. R. Davies Center retail facilities include a food court, coffee shop, convenience store, catering, and fine dining options are offered to the University community and to the public. Hilltop residential dining offers cafeteria, fast food, a la carte to students living in residence halls (except Chancellors Hall, The Priory and Haymarket Landing) and students can participate in one of several meal plan options. Einstein Bros. Bagels is located off the main lobby of Centennial Hall and in the Haas Fine Arts Center lobby. Meal plan information is available online (https://uwecdining.sodexomyway.com/my-meal-plan/index/) as well as social media.

Event Services and Conferences
Responsible for all non-academic reservations on campus, Event Services is the University’s centralized event planning organization. Event Services works with students, staff and the community to plan conferences, meetings
and other events, and works with administrative offices and academic departments in executing programs that support the educational mission of the University. Event Services (http://www.uwec.edu/eventservices/) directs a highly responsible student staff trained in all aspects of safety and event production to ensure the well-being of all users of campus facilities. Professional video, lighting, sound & staging are also available for events.

**University Bookstore and Textbook Rental**
Located on two levels of the W. R. Davies Center, the University Bookstore (http://www.uwec.edu/Bookstore/) sells a variety of course-related and general interest reading materials, gifts and University clothing, greeting cards, and school, art, computer, and office supplies. Gift certificates and a special order service for books and merchandise are also available. Cash, credit card, and Blugold Account purchases are welcome.

UW-Eau Claire undergraduates rent textbooks and other course materials from the University Bookstore’s Textbook Rental Department, which is funded by a designated portion of undergraduate tuition. Textbooks and other teaching resources are selected by instructors for each course and are arranged by department and course number on the bookstore’s upper level for students to pick up.

**University Printing Services**
University Printing Services (http://www.uwec.edu/printing/) provides affordable and convenient printing and production services for students, faculty/staff, academic departments and administrative offices, and the public. Printing Services offers competitive pricing on business cards, presentation materials, posters, labels, envelopes, postcards, brochures, booklets and much more. High-speed black-and-white digital copies, high-quality color copies, large-format printing and a range of bindery services are among the services offered. Student graphic designers are on staff to create custom materials such as resumes, graduation, wedding or special occasion save the date cards, invitations and thank you cards. Printing Services accepts walk-up and online orders. Cash, Blugold Account, campus account, and credit cards are welcome.

University Printing Services has a walk-up location in the first floor lobby of the W. R. Davies Student Center. It manages the contracts that provide copiers campus-wide for student and office/departmental use. University Printing Services is the designated agency printing manager for UW-Eau Claire, responsible for ensuring that all off-campus printing using state monies is purchased in accordance with state law and policy. Custom course packs are produced here and made available through the University Bookstore.

**University Service Center**
The University Service Center (https://www.uwec.edu/centers/services/) plays a key role in University communication, acting as the central source of University information as well as answering the campus’ main phone line. The area offers one-stop convenience for many essential services. Credit card and Blugold Account purchases are welcome.

- Tickets — The University’s centralized ticket office works with organizations, academic departments, Blugold Athletics and other administrative offices to produce and sell tickets to campus events. Tickets for basketball, hockey, football, concerts, lectures and other campus programs are available at the Service Center, and bargain movie passes for community theatres also can be purchased in advance.
- Postal Services — The Service Center offers U.S. Postal Service domestic and limited international mail services. A United Parcel Service (UPS) drop box is also available outside Davies Center.
- Information Services — Campus information including directory assistance, activities information, campus/community maps and brochures can be found at the Service Center. The Service Center manages the sale board in Davies Center, as well as its online site; gives vending machine refunds, and provides the campus-wide lost and found services.

**University Student Governance and Organizations**
Involvement in campus organizations is an important part of the university’s total education program. These groups offer social and service opportunities for their members, the university, and the community at large. Membership can broaden acquaintances, develop leadership ability, build decision-making and problem-solving skills, and complement classroom instruction. Visit online (https://www.uwec.edu/activities-involvement-leadership/student-clubs-organizations/search-organizations/) for the current list of Student Organizations in the following categories:
- Academic & Professional
- Campus Department
- Campus Media
- Cultural & Identity
- Event Programming
- Governance & Politics (Student Government, Student Senate, etc.)
- Greek Life
- Honor Societies
- Non-Organization Opportunities
- Performing
- Recreational Service
- Special Interests
- Spiritual
- Sport Clubs
- Administrative Committees
- Residence Hall Government

**Veterans Services**
The University is approved by the State Approval Agency for the education of veterans and veterans’ dependents under both federal and state programs. The Veteran Services Office (located in Blugold Central) advises veterans and eligible dependents on available state and federal veterans educational programs and assists them in applying for educational benefits. Veterans are also encouraged to use this office to seek assistance related to veterans’ issues and as a referral resource.

Students requesting veterans benefits should meet with the staff of the Veteran Services Office to set up their benefits program(s). Students using veterans educational benefits are required to request certification of benefits after registering for classes each semester. Students also need to keep this office appraised on any changes in their enrollment status. For more information, visit the website (https://www.uwec.edu/tuition-financial-aid/veteran-benefits/).

In addition to Veteran’s benefits services that are processed in Blugold Central, UWEC also has the Veteran’s Center (https://www.uwec.edu/dean-of-students/veterans-center/), located in Schofield Hall, Room 020. The Veteran’s Center is a space where veteran students, faculty and staff can learn more about resources specifically for them, attend programs on veteran needs, and participate in support groups.
University Honors Program and Courses

University Honors Program

The University Honors Program cultivates a challenging and supportive learning community that encourages highly motivated, high-potential students to develop fully in their distinctive abilities, creating a foundation for sustained intellectual, professional, and personal growth. The Honors Program at UW-Eau Claire offers a rigorous and evolving curriculum that assists students in the pursuit of creativity, innovation, discovery, and engagement across disciplines. Honors students often have significant responsibility for the design and execution of learning activities within their honors coursework, and many honors students engage in undergraduate research that is uniquely matched to their experiences, skills, and longer-term goals. The program offers an enhanced education, enabling students to integrate honors liberal education courses, honors interdisciplinary seminars, honors work in their major and minor programs, and honors experiential learning opportunities into a high-value whole.

Honors at UW-Eau Claire has two components: University Honors and Departmental Honors. Students may graduate with honors by completing one component or both. Honors Program participation and completion are documented on students’ university records, including transcripts.

University Honors. In small classes designed to stimulate and challenge high-achieving, highly motivated students, and in special sections of regular university courses, honors students gain opportunities to grow intellectually, to explore new interests, and to collaborate with faculty and peers from across the university.

Admission to the University Honors Program. For details about current admissions policies, please consult the Honors Program website. (https://www.uwec.edu/academics/university-honors-program/) There are several ways to gain admission to the University Honors Program. (1) Incoming first-year students are invited to participate each fall semester based on ACT or SAT scores and high school class rank. (2) Students admitted to UW–Eau Claire with a strong academic profile that does not meet one or more of the automatic admissions benchmarks, including students who do not submit ACT or SAT scores, are frequently considered for admission to the Honors Program through a holistic review process. Any admitted student may also request their application to be holistically reviewed by contacting the Honors Program office. (3) First-year students who have completed at least 14 credits at UW-Eau Claire during the fall semester may be invited to Honors during spring semester based on their GPA and, where available, ACT or SAT scores. (4) Students who are highly motivated to join the Honors Program may petition for admission. Contact the Honors Program office more information. (5) Transfer students who were in good standing with an accredited honors program or college at their previous institution are eligible to join the Honors Program at UW-Eau Claire. Honors credits earned at the previous institution are evaluated by the UW-Eau Claire Honors Director to determine how many credits can be applied to UW-Eau Claire Honors Program requirements.

Graduation Requirements. A student may graduate with University Honors by meeting the following requirements:

1. Attainment of a resident and total GPA of at least 3.50.
2. Completion of a one-credit first-year seminar, HNRS 100, or an honors first-year experience course.
3. Completion of the 24-credit honors distribution requirement, in one of the two manners listed below (3a or 3b), with at least two courses taken at the 300/400 level. Students may complete this distribution requirement by taking any combination of honors colloquia, honors sections of departmental courses, or honors special experience courses (study abroad, directed study, independent study, honors thesis, and internships). Honors courses frequently meet liberal education, major, or minor requirements in addition to fulfilling requirements for the University Honors Program.
   a. Completion of at least 24 credits of honors coursework.
   b. Completion of at least 21 credits of honors coursework and either HNRS 410 or HNRS 420.
4. Completion of HNRS 400 (one credit).

Honors Program courses may not be audited or taken for a satisfactory/unsatisfactory grade.

A course transferred from a high school dual-enrollment college program or test score (AP, IB, or CLEP) may be substituted as honors course credit, if minimum scores are met (a qualifying dual-enrollment course with an A or A-, an AP score of at least 4, an IB score of at least 5, or a B-level CLEP score). No more than one course, for a maximum of 5 credits, may be substituted for honors course credit.

Flexible Credits

To fulfill their 24-credit or 21-credit honors distribution requirement, honors students may earn up to 9 flexible credits, selected from the following options: honors contracts, departmental honors, up to 3 credits of student-faculty collaborative research, and completion of certain courses required for education majors and/or for McNair Scholars.

An appropriate designation will be placed on a student’s record upon completion of all Honors Program requirements. However, credits earned in honors courses meet graduation requirements whether or not the program is completed. A current schedule of honors courses is available on the Honors Program website (https://www.uwec.edu/academics/university-honors-program/academic-offerings/honors-courses/).

Department or College Honors. Twenty-five departments and programs offer students the opportunity to earn an honors distinction within their program of study, enabling students to strengthen skills and distinguish themselves within their major. Currently, departmental honors programs are available in Accounting and Finance, Biology, Business Administration, Chemistry and Biochemistry, Communication Sciences and Disorders, Computer Science, Criminal Justice, Economics, English, Geography and Anthropology, Geology and Environmental Science, Health Care Administration, History, International Business, Latin American and Latinx Studies, Management and Marketing, Materials Science and Engineering, Mathematics, Music and Theatre Arts, Philosophy and Religious Studies, Physics, Political Science, Sociology, and Spanish. In many cases, credits earned in a departmental honors program can be applied to University Honors Program requirements.

For information on departmental honors programs, consult department descriptions in this catalog or the University Honors Program website (https://www.uwec.edu/academics/university-honors-program/academic-offerings/departmental-honors/).
Honors Seminars

**HNRS 100 First-Year Honors Seminar (1 cr)**
Prerequisite: Limited to students in the University Honors Program.
Introduction to the University and to expectations of an Honors baccalaureate degree. Explores the value of a liberal education, the skills and knowledge needed to be an educated person, the roles of the University Honors Program and university requirements.

Attributes: Honor Course
Grading Basis: A-F Grades Only

**HNRS 400 Senior Honors Seminar (1 cr)**
Prerequisite: Limited to students in the University Honors Program. Senior standing, or Department Consent Required. If repeated, the second course can count toward the required 24 credits of Honors colloquia and electives.
A capstone course that explores students' undergraduate experiences, the value of a liberal education, and the value of an Honors education. Prepares Honors students for post-graduate opportunities.

Attributes: GE IV Humanities, Honor Course, Capstone Course, Special Course Fee Required Varies by Term/Section
Repeat: Course may be repeated for a maximum of 2 credits
Grading Basis: A-F Grades Only

**HNRS 410 Mentoring in Honors (1 cr)**
Prerequisite: HNRS 100, HNRS 400, or concurrent enrollment in HNRS 400. Minimum junior standing. Limited to students in the University Honors Program. With permission from the Honors Director, credit may be earned in both HNRS 410 and HNRS 420.
Consent: Department Consent Required
Assist in instruction of Hnrs 100, the First-Year Honors Seminar. Focus on the value of a baccalaureate education and on what constitutes an educated person. Open to juniors and seniors with permission of the Director of the University Honors Program.

Attributes: GE IV Humanities, Honor Course, Service-Learning, Full 30 Hours, Special Course Fee Required Varies by Term/Section
Grading Basis: A-F Grades Only

**HNRS 420 Tutoring in Honors (1 cr)**
Prerequisite: Minimum junior standing. Limited to students in the University Honors Program. With permission from the Director of the University Honors Program, credit may be earned in both HNRS 410 and HNRS 420.
Consent: Department Consent Required
Assist in instruction of an Honors course previously completed. Open to juniors and seniors with permission of the Director of the University Honors Program.

Attributes: GE III Social Science, Honor Course, Service-Learning, Full 30 Hours, Special Course Fee Required Varies by Term/Section
Grading Basis: A-F Grades Only

**Honors Colloquia**
These discussion-centered courses are especially designed for honors students and typically extend beyond the reach of a single discipline. Every honors colloquium meets liberal education and general education requirements.

The content of colloquia varies from semester to semester, and each section of an HNRS colloquium course number is a unique course.

**HNRS 118 Honors Colloquium in Natural Science with Integration (3-4 crs)**
Prerequisite: Limited to students in the University Honors Program Honors Course in Natural Science with Integration.
Attributes: Cultural Diversity Variable, GE II Natural Sciences, Honor Course, LE-I1 Integration, LE-K1 Natural Sciences, Service-Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

**HNRS 121 Honors Colloquium in Social Science (3-4 crs)**
Prerequisite: Limited to students in the University Honors Program Honors Course in Social Science.
Attributes: Cultural Diversity Variable, GE III Social Science, Honor Course, LE-K2 Social Sciences, Service-Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

**HNRS 122 Honors Colloquium in Social Science with Equity, Diversity, and Inclusivity (3-4 crs)**
Prerequisite: Limited to students in the University Honors Program Honors Course in Social Science and Equity, Diversity and Inclusivity.
Attributes: GE IIIG Social Science-Interdisciplinary Study, Honor Course, LE-K2 Social Sciences, LE-R1 Equity, Diversity, and Inclusivity
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

**HNRS 127 Honors Colloquium in Social Science with Creativity (3-4 crs)**
Prerequisite: Limited to students in the University Honors Program Lower-level Honors course is social science with creativity.
Attributes: GE IIIG Social Science-Interdisciplinary Study, Honor Course, LE-K2 Social Sciences, LE-S3 Creativity
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

**HNRS 132 Honors Colloquium in Social Science with Equity, Diversity, and Inclusivity (3-4 crs)**
Prerequisite: Limited to students in the University Honors Program Honors Course in Social Science and Equity, Diversity and Inclusivity.
Attributes: GE IIIG Social Science-Interdisciplinary Study, Honor Course, LE-K2 Social Sciences, LE-R1 Equity, Diversity, and Inclusivity
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

**HNRS 133 Honors Colloquium in Humanities with Global Perspective (3-4 crs)**
Prerequisite: Limited to students in the University Honors Program Honors Course in Humanities with Global Perspective.
Attributes: GE IV Humanities, Honor Course, LE-K3 Humanities, LE-R2 Global Perspectives, Service-Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only
Lecture/Discussion Hours: 3-4
Lab/Studio Hours: 0
HNRS 141 Honors Colloquium (3-4 crs)
Prerequisite: Limited to students in the University Honors Program
Honors Course in the Arts.
Attributes: Cultural Diversity Variable, GE IV Humanities, Honor Course, LE-K4
Fine Arts, Service-Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

HNRS 171 Honors Colloquium (3-4 crs)
Prerequisite: Limited to students in the University Honors Program
Honors Course in creativity.
Attributes: Cultural Diversity Variable, Honor Course, LE-S3 Creativity, Service-
Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

HNRS 189 Honors Colloquium in Civic, Social, and Environmental Responsibility (3-4 crs)
Prerequisite: Limited to students in the University Honors Program
Honors Course in Civic, Social and Environmental Responsibility
Attributes: Honor Course, LE-R3 Civic and Environmental Issues, Service-
Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only
Lecture/Discussion Hours: 3-4
Lab/Studio Hours: 0

HNRS 129 Honors Colloquium (3-4 crs)
Prerequisite: Limited to students in the University Honors Program
Honors Course in Social Science and Equity, Diversity and Inclusivity (and Design for Diversity emphasis on traditionally underrepresented racial/ethnic groups).
Attributes: Cultural Diversity Variable, GE III Social Science, Honor Course, LE-DDIV Design for Diversity, LE-K2 Social Sciences, LE-R1 Equity, Diversity, and Inclusivity, Service-Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

HNRS 138 Honors Colloquium (3-4 crs)
Prerequisite: Limited to students in the University Honors Program
Honors Course in Humanities with Integration.
Attributes: Cultural Diversity Variable, GE IV Humanities, Honor Course, LE-I1 Integration, LE-K3 Humanities, Service-Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

HNRS 142 Honors Colloquium (3-4 crs)
Prerequisite: Limited to students in the University Honors Program
Honors Course in Arts and Equity, Diversity and Inclusivity.
Attributes: Cultural Diversity Variable, GE IVE Humanities-Interdisciplinary Studies, Honor Course, LE-K4 Fine Arts, LE-R1 Equity, Diversity, and Inclusivity, Service-Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

HNRS 147 Honors Colloquium (3-4 crs)
Prerequisite: Limited to students in the University Honors Program
Honors Course in Humanities with Integration.
Attributes: Cultural Diversity Variable, GE IV Humanities, Honor Course, LE-K4
Fine Arts, LE-S3 Creativity, Service-Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

HNRS 151 Honors Colloquium (3-4 crs)
Prerequisite: Limited to students in the University Honors Program
Honors Course in Communication.
Attributes: Cultural Diversity Variable, GE IA Communication-Language Arts, Honor Course, LE-S1 Written and Oral Communication, Service-Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

HNRS 158 Honors Colloquium in Communication with Integration (3-4 crs)
Prerequisite: Limited to students in the University Honors Program
Honors Course in Communication with Integration.
Attributes: Cultural Diversity Variable, GE III Social Science, Honor Course, LE-I1 Integration, LE-S1 Written and Oral Communication, Service-Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

HNRS 172 Honors Colloquium (3-4 crs)
Prerequisite: Limited to students in the University Honors Program
Honors Course in Creativity with Equity, Diversity, and Inclusivity.
Attributes: Cultural Diversity Variable, GE IV Humanities, Honor Course, LE-R1 Equity, Diversity, and Inclusivity, LE-S3 Creativity, Service-Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

HNRS 187 Honors Colloquium (3-4 crs)
Prerequisite: Limited to students in the University Honors Program
Honors Course in Global Perspectives and Civic, Social and Environmental Responsibility.
Attributes: Cultural Diversity Variable, GE III Social Science, Honor Course, LE-
R2 Global Perspectives, LE-R3 Civic and Environmental Issues, Service-Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only
HNRS 188 Honors Colloquium (3-4 crs)
Prerequisite: Limited to students in the University Honors Program. Honors Course in Global Perspectives with Integration.
Attributes: Cultural Diversity Variable, GE V University Wide, Honor Course, LE-I1 Integration, LE-R2 Global Perspectives, Service-Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

HNRS 324 Honors Colloquium in Social Science with Civic, Social, and Environmental Responsibility (3-4 crs)
Prerequisite: Limited to students in the University Honors Program. Minimum sophomore standing.
Honors Course in Social Science and Civic, Social and Environmental Responsibility.
Attributes: Cultural Diversity Variable, GE III Social Science, Honor Course, LE-K2 Social Sciences, LE-R3 Civic and Environmental Issues, Service-Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

HNRS 325 Honors Colloquium in Social Science with Communication (3-4 crs)
Prerequisite: Limited to students in the University Honors Program. Minimum sophomore standing.
Honors Course in Social Science and Communication.
Attributes: Cultural Diversity Variable, GE III Social Science, Honor Course, LE-K2 Social Sciences, LE-S1 Written and Oral Communication, Service-Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

HNRS 328 Honors Colloquium (3-4 crs)
Prerequisite: Limited to students in the University Honors Program. Minimum sophomore standing.
Honors Course in Social Science with Integration.
Attributes: Cultural Diversity Variable, GE III Social Science, Honor Course, LE-I1 Integration, LE-K2 Social Sciences, Service-Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

HNRS 337 Honors Colloquium in Humanities with Creativity (3-4 crs)
Prerequisite: Limited to students in the University Honors Program. Minimum sophomore standing.
Honors Course in Humanities and Creativity.
Attributes: Cultural Diversity Variable, GE IV Humanities, Honor Course, LE-K3 Humanities, LE-S3 Creativity, Service-Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

HNRS 358 Honors Colloquium in Communication with Integration (3-4 crs)
Prerequisite: Limited to students in the University Honors Program. Minimum sophomore standing.
Honors Course in Communication with Integration.
Attributes: Cultural Diversity Variable, GE IA Communication-Language Arts, Honor Course, LE-I1 Integration, LE-S1 Written and Oral Communication, Service-Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

HNRS 378 Honors Colloquium (3-4 crs)
Prerequisite: Limited to students in the University Honors Program. Minimum sophomore standing.
Honors Course in Creativity with Integration.
Attributes: Cultural Diversity Variable, GE IV Humanities, Honor Course, LE-I1 Integration, LE-S3 Creativity, Service-Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

HNRS 381 Honors Colloquium (1-4 crs)
Prerequisite: Limited to students in the University Honors Program. Minimum sophomore standing.
Upper-level Honors Course in Equity, Diversity and Inclusivity.
Attributes: Cultural Diversity Variable, Honor Course, LE-R1 Equity, Diversity, and Inclusivity, Service-Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

HNRS 389 Honors Colloquium (3-4 crs)
Prerequisite: Limited to students in the University Honors Program. Minimum sophomore standing.
Honors Course in Civic, Social and Environmental Responsibility.
Attributes: Cultural Diversity Variable, Honor Course, LE-R3 Civic and Environmental Issues, Service-Learning Variable
Repeat: Course may be repeated
Grading Basis: A-F Grades Only

Honors Special Experience Courses
HNRS 275 Honors Study Abroad Experience-Freshmen and Sophomores (1-4 crs)
Prerequisite: Limited to students in the University Honors Program. Freshman or sophomore standing.
Consent: Department Consent Required
Honors study abroad experience for freshmen and sophomores.
Attributes: Honor Course, Special Course Fee Required Varies by Term/Section
Repeat: Course may be repeated for a maximum of 8 credits
Grading Basis: A-F Grades Only
HNRS 295 Honors Directed Study-Freshmen and Sophomores (1-4 crs)
Prerequisite: Limited to students in the University Honors Program. Freshman or sophomore standing.
Consent: Department Consent Required
Study of a problem or topic in collaboration with a faculty member in the discipline.
Attributes: Honor Course, Special Course Fee Required Varies by Term/Section
Repeat: Course may be repeated for a maximum of 8 credits
Grading Basis: A-F Grades Only

HNRS 298 Honors Internship Experience-Freshmen and Sophomores (1-4 crs)
Prerequisite: Limited to students in the University Honors Program. Freshman or sophomore standing.
Consent: Department Consent Required
Honors internship experience for freshmen and sophomores.
Attributes: Honor Course, Special Course Fee Required Varies by Term/Section
Repeat: Course may be repeated for a maximum of 8 credits
Grading Basis: A-F Grades Only

HNRS 299 Honors Independent Study-Freshmen & Sophomores (1-4 crs)
Prerequisite: Limited to students in the University Honors Program. Freshman or sophomore standing.
Consent: Department Consent Required
Individual research, scholarly, or creative projects under the supervision of a faculty member.
Attributes: Honor Course, Special Course Fee Required Varies by Term/Section
Repeat: Course may be repeated for a maximum of 8 credits
Grading Basis: A-F Grades Only

HNRS 375 Honors Study Abroad Experience-Juniors (1-4 crs)
Prerequisite: Limited to students in the University Honors Program. Junior standing.
Consent: Department Consent Required
Honors study abroad experience for juniors.
Attributes: Honor Course, Special Course Fee Required Varies by Term/Section
Repeat: Course may be repeated for a maximum of 8 credits
Grading Basis: A-F Grades Only

HNRS 395 Honors Directed Study-Juniors (1-4 crs)
Prerequisite: Limited to students in the University Honors Program. Junior standing.
Consent: Department Consent Required
Study of a problem or topic in collaboration with a faculty member in the discipline.
Attributes: Honor Course, Special Course Fee Required Varies by Term/Section
Repeat: Course may be repeated for a maximum of 8 credits
Grading Basis: A-F Grades Only

HNRS 398 Honors Internship Experience-Juniors (1-4 crs)
Prerequisite: Limited to students in the University Honors Program. Junior standing.
Consent: Department Consent Required
Honors internship experience for juniors.
Attributes: Honor Course, Special Course Fee Required Varies by Term/Section
Repeat: Course may be repeated for a maximum of 8 credits
Grading Basis: A-F Grades Only

HNRS 399 Honors Independent Study-Juniors (1-4 crs)
Prerequisite: Limited to students in the University Honors Program. Junior standing.
Consent: Department Consent Required
Individual research, scholarly, or creative projects under the supervision of a faculty member.
Attributes: Honor Course, Special Course Fee Required Varies by Term/Section
Repeat: Course may be repeated for a maximum of 8 credits
Grading Basis: A-F Grades Only

HNRS 475 Honors Study Abroad Experience-Seniors (1-4 crs)
Prerequisite: Limited to students in the University Honors Program. Senior standing.
Consent: Department Consent Required
Honors study abroad experience for seniors.
Attributes: Honor Course, Special Course Fee Required Varies by Term/Section
Repeat: Course may be repeated for a maximum of 8 credits
Grading Basis: A-F Grades Only

HNRS 490 Honors Senior Thesis or Project (1-6 crs)
Prerequisite: Limited to students in the University Honors Program. Senior standing.
Consent: Department Consent Required
Research and writing/preparation of Honors Senior Thesis or Honors Senior Project.
Attributes: Honor Course, Special Course Fee Required Varies by Term/Section
Repeat: Course may be repeated for a maximum of 6 credits
Grading Basis: A-F Grades Only

HNRS 495 Honors Directed Study-Seniors (1-4 crs)
Prerequisite: Limited to students in the University Honors Program. Senior standing.
Consent: Department Consent Required
Study of a problem or topic in collaboration with a faculty member in the discipline.
Attributes: Honor Course, Special Course Fee Required Varies by Term/Section
Repeat: Course may be repeated for a maximum of 8 credits
Grading Basis: A-F Grades Only
HNRS 498 Honors Internship Experience-Seniors (1-4 crs)
Prerequisite: Limited to students in the University Honors Program. Senior standing.
Consent: Department Consent Required
Honors internship experience for seniors.
Attributes: Honor Course, Special Course Fee Required Varies by Term/Section
Repeat: Course may be repeated for a maximum of 8 credits
Grading Basis: A-F Grades Only

HNRS 499 Honors Independent Study-Seniors (1-4 crs)
Prerequisite: Limited to students in the University Honors Program. Senior standing.
Consent: Department Consent Required
Individual research, scholarly, or creative projects under the supervision of a faculty member.
Attributes: Honor Course, Special Course Fee Required Varies by Term/Section
Repeat: Course may be repeated for a maximum of 8 credits
Grading Basis: A-F Grades Only

Academic Policies and Regulations

Academic policies and regulations apply to all undergraduate students. Students are responsible for knowing and following the policies and regulations stated in this section of the catalog and for satisfying all degree requirements.

Academic Definitions

Credits

The unit of credit is the semester hour. It is defined as one class hour per week (or its equivalent) for one semester. Thus, a lecture-discussion course, which meets three hours per week ordinarily carries three semester credits. Laboratory and studio classes usually require two hours in class as the equivalent of one semester credit.

Credit Load

Since a student is expected to spend approximately two hours in preparation for each hour in the classroom, 15 credits is considered a normal semester load (for the spring and fall semesters, or proportionate amounts for shorter courses) for undergraduates. Eighteen credits is the maximum for which a student may register without obtaining special permission. Registration for more than 18 credits (including audits) may be permitted by the Associate Dean of the College in which the student is enrolled, if the student has a resident GPA of at least 3.00 and if other conditions make the overload advisable. (In the Summer and Winterim Sessions, all students may take a maximum of as many credits as the number of weeks they are attending.)

Classification of Students

Enrollment Status

<td>Less than 6 credits</td>
<td>Less than 3 credits</td>
</tr>
</tbody>
</table>

NOTE: Audits are excluded from credit totals.

Full-time Equivalent Enrollment Status

The following definitions apply to the full-time equivalency (FTE) enrollment status.

Undergraduate Students

Students may enroll in a course/internship that is the equivalent of 36 hours per week for 15 weeks (36 hours per week for 11 weeks in the Summer term) to be considered a full-time equivalent for enrollment purposes.

Graduate Students

Students may enroll in a course/internship that is the equivalent of 27 hours per week for 15 weeks (24 hours per week for 11 weeks in the Summer term) to be considered a full-time equivalent for enrollment purposes.

Special Students

Students who are not formally admitted to the University are classified as special students. Registration as an undergraduate special student and Youth Option/High School special students is limited to twelve credits during fall and spring semesters. During the Summer and Winterim Sessions, all specials may take a maximum of as many credits as the number of weeks they are attending.

Class Level

Students attain class level according to the number of semester credits earned:

| Freshman: fewer than 30 semester credits |
| Sophomore: 30-59 semester credits       |
| Junior: 60-89 semester credits          |
| Senior: 90 or more semester credits     |

Credit-Bearing Certificate Programs

Certificate programs may be earned by degree-seeking students or by community members who are not pursuing a University degree. Guidelines and standards are identical for both populations.

For those not seeking a degree, these programs offer an opportunity for an individual to earn college credit and advance toward a credential that certifies a significant level of achievement within a prescribed area. As the rate of change in the workplace accelerates, more people find it necessary to engage in continuous learning to meet the challenges of new duties and responsibilities, or career changes. Often the need is for in-depth study that goes beyond what is generally provided in noncredit professional development activities. Credit-bearing certificate programs are of particular value since the program is verified by a university transcript.
For degree-seeking students, a certificate program can be pursued to demonstrate expertise in a particular academic field. Successful completion of a certificate program may serve to satisfy graduation requirements for a second program of study or to add credentials beyond any other required programs.

Certificate programs include a minimum of 12 credits for undergraduate certificates (fifteen credits for graduate certificates) and a maximum of 18 credits. A 2.00 GPA is the university minimum requirement for completion of undergraduate certificate programs (3.0 GPA required for graduate certificates).

At least 25 percent of the credits applied to the certificate program requirements must be taken in residence (50 percent for graduate certificates). Departments/programs or colleges proposing certificate programs have the right to specify:

1. admission requirements for entry into a certificate program,
2. minimum GPA requirements for courses included in the program,
3. GPA requirements for certificate completion above the university minimum, and
4. applicability of the S/U option, if any.

Specific certificates and their requirements are listed within the applicable department/program or college section of the catalog.

Registration Overview

The University provides online registration for all students. Each student is assigned a registration time based upon credits earned. A notification that registration times have been assigned is sent to each student via email prior to registration. Students can view assigned registration times on CampS (https://my.uwec.edu/psp/CS90PRD/EMPLOYEE/HRMS/?cmd=login). Registration begins in November for the Spring semester, in October for Winterim, in February for Summer Session, and in April for Fall semester. Advising is required prior to registration for:

1. all freshmen and sophomores,
2. juniors and seniors on academic warning or probation,
3. transfers seeking a first degree, and
4. all students with a major in the College of Business regardless of classification or academic standing.

All new degree-seeking students must pay an enrollment deposit prior to registration for Fall, Winterim, Spring, and Summer.

New freshmen register in the summer during their freshman orientation sessions.

Late Registration. A student may enroll for full semester courses after the regular registration period but within the first two weeks of classes. (Permission from both the instructor and the advisor is required during the second week of classes.) Thereafter, any registration must be approved by the Associate Dean of the appropriate College. The deadlines for increasing or decreasing credit in a variable credit course align with the add and drop deadlines associated with the course.

Change of Registration. After registration, courses may be added or dropped or sections changed under the regulations established for this purpose by faculty policy.

Adding courses. Students who wish to add courses during the first week of classes may do so using CampS. After the first week of classes, students must obtain the Change of Registration form from Blugold Central and return the completed form to that office.

Withdrawing from courses. A student who wishes to withdraw from a full-semester course during the first two weeks of classes (no record of enrollment) may do so on CampS without the instructor’s or adviser’s signature. After the second week of classes, students must obtain the Change of Registration form from Blugold Central and return the completed form with signatures to that office. Courses that are not a full semester in length, including Winterim and Summer courses, have earlier withdrawal deadlines. These deadlines can be obtained from CampS, or Blugold Central.

A change becomes official only when it has been processed by Blugold Central (See also Withdrawals).

Enrollment of Undergraduates for Graduate Credit

Upon the recommendation of the student’s adviser, course instructor, and chair of the department offering the course, a University of Wisconsin-Eau Claire undergraduate student may be allowed to enroll in a limited number of graduate courses, provided he or she has a 3.00 undergraduate GPA and has the approval of the College Dean. Qualified students may take up to, but not exceed, a total of nine credits of graduate-level course work, unless enrolled in an approved accelerated graduate plan with a dual bachelor’s and master’s degree component. The graduate credits cannot be used to satisfy requirements for the bachelor’s degree, unless enrolled in an approved accelerated graduate plan with a dual bachelor’s and master’s degree component. Application forms for enrollment in graduate courses as an undergraduate may be obtained from Blugold Central.

Auditing Courses

Registering to audit a course permits a student to participate in the class without earning credit. This privilege is helpful to students who wish to review introductory work, especially after a considerable period of absence from the campus. Others choose to audit courses for reasons of personal interest and the enjoyment of learning.

Some courses may be designated by departments or Colleges as unsuitable or unavailable for auditing. In all courses open to auditors, the following conditions apply:

1. Students seeking to register for credit are given priority over auditors.
2. An auditor must pay any basic fee required for auditing under the current tuition rates, segregated fees and any special fees applicable to the course.
3. Audited courses are included in the student’s credit load for the term when determining overloads. If auditing a class results in an overload (e.g., more than 18 semester credit hours for undergraduates) students need approval of the Associate Dean of the appropriate College.
4. Audited courses are not included in the student’s credit load for the term when determining full- or part-time status (See Classification of Students).
5. Initial registration to audit a course is not included in the total semester registration for the purposes of determining satisfactory academic progress (See Academic Standing and Progress).
6. Enrollment on an audit basis may not be changed to a credit basis, or vice versa, after the approved period for adding classes.
7. The auditor must consult the instructor of the course to determine the conditions for a successful audit. Some courses cannot profitably be audited without participation in class activities; the instructor must indicate how much and what kind of participation is required.
8. Upon successful completion of an audit, the mark of V will be entered on the student’s record. Failure to meet the instructor’s conditions will be
Satisfactory/Unsatisfactory (S/U) Registration

Registration for a grade of Satisfactory or Unsatisfactory, instead of the usual letter grades, permits students to venture into elective areas with less risk to GPAs; however, the potential disadvantages should be carefully weighed. Some institutions, particularly graduate and professional schools, will not accept the grade of S in transfer. Furthermore, S/U registration is restricted on many programs at UW-Eau Claire, and the responsibility for determining its acceptability rests with the student.

Eligibility. The option of S/U registration is open only to students with sophomore standing or above and a resident GPA of 2.00 or higher. (Exception: any student may enroll in a physical activity course on the S/U basis.)

Procedures. S/U registration must be designated by the student no later than the approved period for dropping courses with no record.

S/U registration may not be changed to the standard grading system, or vice versa, after the approved period for dropping courses with no record. An S/U course may be dropped in accordance with University rules.

S/U Grades. The grade of S is equivalent to at least a C or above in the standard grading system; it denotes that the student’s work was satisfactory and that credit is granted for the course. The grade of S is not computed in the student’s semester and resident GPAs.

The grade of U indicates work below the level of a C in the standard grading system. No credit is granted. However, the grade of U is not computed in the student’s semester and resident GPAs. When repeating a course initially taken on the S/U basis, the student must also repeat the course on the S/U grade basis (see Repeating UW-Eau Claire Courses).

Reporting of Grades. Instructors will record standard letter grades for all students; the conversion to a grade of S or U will be made by the Registrar.

Restrictions:

1. A student may carry no more than one course on the optional S/U basis for degree credit in any term of enrollment. (Exception: any student in any term of enrollment may enroll in one or more physical activity course(s) on an S/U basis and still take one other degree credit course on an S/U basis. Certain Education field work courses also require multiple S/U enrollments. The student, however, must be otherwise eligible to take the additional degree credit course on an S/U basis.)

2. No more than one course taken on the S/U basis may be counted toward a standard major or a minor. No more than two S/U courses may be counted toward a comprehensive major. Colleges and departments may place further restrictions on major, minor, or professional programs and sequences, and dean’s list criteria also vary by college.

Policy on Remedial Education

New freshmen whose Math Fundamentals (M-FUND) score on the UW System Mathematics placement examination is less than 466 are required to take a remedial mathematics course (MATH 10, MATH 20, or MATH 50). MATH 20 or MATH 50 must be successfully completed before a student has earned 30 credits or registration will be denied.

Repeating UW-Eau Claire Courses

The privilege of repeating course work allows students to attain a satisfactory level of achievement in courses in which they initially encountered difficulties. Because a course can be repeated only once, students will discuss with their academic advisers the reasons for their low grade or W in the course before attempting the course a second time. It is the student’s responsibility to obtain assistance to sharpen their skills or resolve the problems that led to poor performance or noncompletion the first time they took the course. If the low grade was earned in a course which is a prerequisite to another course, students are urged to repeat the prerequisite course before enrolling and risking poor performance in the other course.

The repeat privilege applies only to courses taken at UW-Eau Claire (whether taken originally at UW-Eau Claire or elsewhere) for which a grade of C- or below or a W was initially earned. Registration for a repeated course must be on the same basis (letter grade or Satisfactory/Unsatisfactory) as the original course.

A course in which a grade of C- or below or a W was originally earned may be repeated once. The new grade will replace the previous grade in computing GPAs, but both the initial grade and the repeated grade will appear on the student’s official transcript.

NOTE: In extenuating circumstances, the Associate Dean of a College in which the student is enrolled may give permission for the second repeat of a course. Such permission may be requested upon recommendation of the student’s academic adviser. The Associate Dean determines whether the grade earned in the second repeat will replace previous grades or will be averaged with previous grades earned in that course in computing GPAs. All three grades will appear on the student’s official transcript.

Attendance/Leave

Withdrawals

Withdrawing from a Course. Students who wish to drop a full term course during the first two weeks of classes may do so without their instructors’ or advisors’ signatures. After the second week of classes (or a proportionate period of time for shorter courses—see Campus (https://my.uwec.edu/) for exact dates), students who wish to withdraw from a course must obtain a Change of Registration form from the Blugold Central, secure the signature of their faculty advisors and instructors for the course, and return the form to Blugold Central. A student is not considered withdrawn from a course until the proper form has been processed by Blugold Central. A student who stops attending a class without withdrawing officially may receive a grade of F for the course, and may owe a repayment on financial aid received.

No withdrawals are permitted after the beginning of the eleventh week of classes. Deadlines are adjusted proportionately for shorter courses, including Winterim and Summer Session courses, except for extenuating circumstances as determined by the Associate Dean of the College in which the student is enrolled. Up to that time, official withdrawals from full term courses are recorded as follows:

During the first two weeks of classes—no record of enrollment.

Third week through the tenth week—recorded as W.
Calendar dates of withdrawal deadlines are published each semester on CampS (https://my.uwec.edu/), on the Registration Calendars (https://www.uwec.edu/blugold-central/academic-planning/academic-registration-calendars/), and can be obtained from Blugold Central.

Note: During the 2022-2023 academic year the withdrawal deadline will extend through the thirteenth week of classes. This temporary pilot will then be evaluated and a permanent recommendation will become effective for the 2023-2024 academic year.

**Withdrawing from the University.** Undergraduate degree-seeking wishing to withdraw from the University after the start of the term are required to meet with an Advising, Retention & Career Center staff member prior to withdrawing from classes. The advisor will provide the student with the online withdrawal e-form to submit their request to withdraw. Non-degree seeking students, such as special students and post baccalaureate students, may withdraw through the tenth week of classes using the Graduate and Special/Non-degree Seeking Students online withdrawal eform.

If a student withdraws from the University during the first two weeks of classes, only the date of withdrawal will be recorded on their academic transcript and no record of specific course enrollment. If a student withdraws from the University from the third through tenth weeks, the grade of W will be recorded on the academic transcript for each course enrolled and remaining unfinished. The deadline to withdraw from the University is the end of the tenth week of the term.

Students may only withdraw from the University after the deadline in extenuating circumstances as determined by the Associate Dean of the College in which the student is enrolled. A student who stops attending classes without officially withdrawing (at any time in the term) may also receive failing grades.

An undergraduate student who withdraws and is not subsequently subject to suspension may return for the next regular academic semester without making formal application for readmission to the University.

Fee refund deadlines and corresponding amounts of refund can be found on the Business Office website (https://www.uwec.edu/blugold-central/student-finances/refund-schedule/). Financial aid recipients who withdraw before 60 percent of the semester has been completed are subject to federal financial aid repayment regulations and may owe a repayment of aid, even if not entitled to a tuition refund. The amount of aid a student may keep is in direct proportion to the length of time the student remained enrolled during the semester. Assistance is also available from Blugold Central.

**Leave of Absence**

After one full-term semester of non-enrollment, students remain active and eligible to enroll and will automatically receive an enrollment date to register. Students taking credits while not attending UW-Eau Claire, must send their official transcript upon reenrollment. Transfer work is critical and may affect academic progress, academic standing, financial aid eligibility, and graduation. Official transcripts should be sent electronically via secured transmission (not email) to the University of Wisconsin-Eau Claire Admissions.

All students who have been away from the University for two consecutive full-term semesters or more must file a reentry application (https://www.uwec.edu/admissions/other-student/). As a reentry student, a $100 enrollment deposit is not required. Students seeking reentry are encouraged to make application as early as possible prior to the semester in which they wish to return. Reentry after the term starts is not guaranteed. Students returning after an absence of two or more consecutive full-term semesters must meet the degree requirements of the catalog in effect upon their return, or a subsequent catalog.

**Military Leave Policy**

Currently enrolled students called to active service (involuntary Federal Title 10 activations or transfers) during the course of a semester must choose one of the following options before departing for active service:

1. Withdrawal from all courses with a full refund of tuition and no record of enrollment.
2. Selective withdrawal from one or more courses with a refund of tuition.
3. Incomplete grades awarded at the discretion of the instructor.
4. Final grades may be issued if the instructor determines that the student has completed a sufficient amount of coursework.

A military leave request needs to be submitted to the Dean of Students Office. Students are granted military leave for the entire time of their military commitment.

**Class Attendance Policies**

All students are expected to attend all class sessions of courses in which they are enrolled. Each faculty member should inform each class in writing at the beginning of the course regarding the use of student attendance in relation to student evaluation procedures.

If a student fails to attend the first class meeting of any course without previously notifying the instructor or the department chair, the student may be dropped from that course so that the vacancy may be filled by another student from a waiting list. It remains the student’s responsibility to determine their own enrollment status. Each department has a policy on first-day class attendance.

Accommodation procedures for this and other circumstances are described on the Dean of Students website (https://www.uwec.edu/kb/article/class-attendance-and-authorized-absence-policies/).

**Academic Standing and Forgiveness**

**Academic Standing and Progress**

The University expects each undergraduate (freshman, sophomore, junior, senior, or special student) to maintain a level of academic achievement consistent with University standards and to make reasonable progress toward the completion of a chosen curriculum.

The policies and regulations outlined below define the minimum academic standards of the University. Any College of the University may set a higher standard for admission, retention, or graduation from a degree program.

**Good academic standing.** The definition of good academic standing includes University standards for satisfactory academic progress during a semester. Academic standing is determined twice each year, once at the end of the fall semester and once at the end of the spring semester. It is not determined at the end of Summer Session or WInterim Session.

A student is in good academic standing at the end of a semester if all the following conditions are met:

1. The student’s resident GPA is 2.00 or higher.
2. The student has earned a semester GPA of 2.00 or higher.

NOTE: An excessive number of withdrawals from courses may impact students’ eligibility for acceptance into certain major programs and most types
of financial aid. All students should therefore consult their advisors before withdrawing from courses.

**Academic Concern.** An Academic Concern is the first formal notification that a student has failed to meet one or more of the requirements for good academic standing. The notation “Academic Concern” is placed on the student’s unofficial record at the end of the first semester in which any one or more of the following conditions apply:

1. The student’s resident GPA at the end of the semester is less than 2.00.
2. The student’s semester GPA is less than 2.00, but 1.00 or higher. (See Probation, below.)

Only one Academic Concern is issued to a student. (See Probation, below.) Students who receive this notification must immediately consult their advisor(s) or the associate dean of their college, so that they may obtain support in achieving academic success.

**Academic Probation.** Students will be placed on probation if one or more of the following conditions apply:

1. After receiving one Academic Concern, students do not achieve good academic standing at the end of any subsequent semester.
2. At the end of any semester, the student has a semester GPA of less than 1.00.

The period of probation is one semester. Students must regain good academic standing by the end of the probationary semester in order to continue in the University. They will be removed from probation upon regaining good academic standing. Students may be placed on probation multiple times should their academic standing require it.

**Academic Suspension.** A student will be suspended from the University if at the end of a semester of probation, the student has not regained good academic standing.

A student who has been suspended is ineligible to continue in the University for the period of one semester. Any degree-seeking student who wishes to return to the University after the expiration of the suspension must make formal application for readmittance through the Admissions Office. Special Students who wish to return to the University after the expiration of a suspension need to reapply. Readmittance cannot be guaranteed. If the student is readmitted and does not regain good academic standing by the end of the first semester after readmittance, a second suspension of one semester will be incurred.

**Appeal of Academic Suspension.** A student who has been suspended for academic reasons may request a review by a faculty committee of the College in which the student was enrolled. If the student can show that extenuating circumstances existed, the committee may recommend to the Associate Dean of the College that the student be reinstated.

Students on suspension may attend the UW-Eau Claire Winterim and Summer Sessions (including the Three-Week Summer Session) as a special student for the purpose of improving their academic records. A suspended student may not enroll as a special student at UW-Eau Claire during the fall or spring semesters until the suspension has expired. A student suspended from UW-Eau Claire may encounter difficulty in attempting to enroll at another institution.

New frosh and transfer students are admitted with no standing.

**Policies applying to transfer students.** Academic standing is computed based only on grades in courses taken at UW-Eau Claire (resident GPA). (see also Grade Point Requirements, under University Graduation Requirements).

The credits transferred from other colleges and universities are used to determine the classification of a student as freshman, sophomore, etc. Transfer credits are not used, however, in computing the UW-Eau Claire resident GPA which determines the student’s academic standing in subsequent semesters at UW-Eau Claire (see also Grade Point Requirements, under University Graduation Requirements).

## Forgiveness of Earlier Academic Record

Returning adult students who have completed university-level course work at UW-Eau Claire or elsewhere five or more years prior to seeking admission or readmission to UW-Eau Claire may be eligible for forgiveness of the earlier academic record. Forgiveness means that grades earned five or more years earlier will not be used in the computation of the total GPA at UW-Eau Claire, although such grades will continue to appear on the student’s official transcript. Upon admission or readmission to UW-Eau Claire, students should meet with their advisors to discuss whether repeating courses or seeking forgiveness is the better alternative for them. If the decision is to seek forgiveness, the following conditions will apply:

1. Students must not have been enrolled in an institution of higher learning for at least five continuous years prior to admission/readmission to UW-Eau Claire except for completion of courses which were a precondition for admission/readmission.
2. After admission/readmission, students must earn a GPA of 2.50 or higher in the first 12 credits, which count toward the minimum degree requirements at UW-Eau Claire before applying for forgiveness.
3. The request for forgiveness must be approved by the student’s advisor, the Department Chair if the student has declared a major, and the Dean of the College in which the student is enrolled. The approved request will be forwarded to the Registrar.
4. If forgiveness is granted, all courses taken five or more years prior to admission/readmission (and the grades received) will continue to appear on the student’s record, but the student’s total GPA will be based solely on credits earned after admission/readmission to UW-Eau Claire.
5. If forgiveness is granted, all credit hours with a grade of “D−” or above earned five or more years before admission/readmission, up to a maximum of 30, may be used to satisfy degree requirements even though they are not included in the student’s total GPA.
6. Forgiveness of grades earned five or more years before admission/readmission may be granted only once.

Both the academic forgiveness policy and application form are available on the Registrar’s website (https://www.uwec.edu/kb/article/registration-academic-forgiveness/).

## Grades

### Grading System

A system of letter grades is used except when the course is offered only on the Satisfactory/Unsatisfactory basis or when the student has elected that option. (See Satisfactory/Unsatisfactory (S/U) Registration.)

### Letter Grades

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
<tr>
<td>F</td>
<td>0.00</td>
</tr>
</tbody>
</table>

These grade point values, when multiplied by the number of course credits, give the total number of grade points earned for that particular course. In a three-credit course, for example, a grade of C yields six grade points; a grade of B yields nine; and a grade of A yields 12. The GPA is always truncated to include the two digits after the decimal point. The GPA is not rounded up based on any number from the third digit after the decimal point (if shown).

**Resident Grade Point Average.** The resident GPA of a student is found by dividing the total number of grade points earned at UW-Eau Claire by the total number of credits attempted. The semester GPA is computed in the same way, using only the grade points earned and the credits attempted during that semester. In computing GPAs, the following are not counted as credits attempted: courses for which S, U, W, or V is received; courses which carry no credit toward graduation (except MATH 10 and MATH 20); repetitions of courses which are eligible for a grade replacement (see Repeating Courses). See also Grade Point Requirements under University Graduation Requirements.

**Upon Degree Completion.** Upon the completion of a degree the GPA is final and is associated with that degree. Any credits earned after the award of a degree is calculated as its own GPA and is not included with the previous degree’s GPA.

**Incompletes**

An incomplete (IN) is a temporary mark which may be granted when, for reasons acceptable to the instructor, a student has been unable to complete a portion of a course in the normal time period. Both the final grade, and the fact that an incomplete had been assigned and removed will appear on the record.

**Procedures.** It is the student’s responsibility to initiate a request for an incomplete with the instructor. If the request is approved, the instructor will indicate the conditions for the removal of the incomplete, including the date for submitting all work due, so that it may be evaluated before the reporting deadline. The instructor will submit the incomplete to the Registrar’s Unit, as well as a grade to be recorded as the permanent grade for the course in case the incomplete is not removed.

**Removal of Incompletes.** An incomplete is removed when the student submits all work due and the instructor reports a new grade for the course. The deadline for the instructor to report the removal of an incomplete is the end of the tenth week of classes of the first regular semester following the granting of the incomplete, regardless of whether the student is enrolled in the University at that time.

If the incomplete has not been removed by the reporting deadline, the default grade submitted with the incomplete will be recorded as permanent unless the instructor authorizes the continuation of the incomplete. If a continued incomplete has not been removed by the reporting deadline (end of the tenth week of classes) in the next semester, it will be replaced by the default grade.

NOTE: The mark of IN (incomplete) is not a course grade. An excessive number of incompletes may affect both the academic standing of students (see Good Academic Standing) and their eligibility for certain types of financial aid.

**Progress and Grade Reports**

Faculty policy provides that students shall be informed of their progress in the courses for which they are registered. In freshman-level courses, tests, or other means of evaluation should be expected early in the semester (usually at the conclusion of the first four weeks).

**Mid-semester Progress Reports.** Freshman students will be able to view mid-semester grade reports from each of their instructors, whatever the level of the course. Other students may individually request and receive from each instructor an indication of the general quality of their course work at mid-semester.

**Semester Grade Reports.** At the conclusion of each term, final grades and academic standing can be viewed on CampS (https://my.uwec.edu).

**Academic Distinction**

At the conclusion of each term, after grades have been recorded, the Provost/Vice Chancellor awards Academic Distinction, which is reflected on the unofficial transcript.

Full-time students who meet the following criteria are eligible:

1. complete the semester in good academic standing.
2. complete 12 or more credits during the semester, and
3. earn both a semester and resident GPA of 3.20 or higher.

Part-time students who meet the following criteria are also eligible:
1. Initially register as part-time students (six to 11 enrolled credits).
2. Complete the semester in good academic standing.
3. Complete six to 11 credits during the semester, and
4. Earn both a semester and resident GPA of 3.20 or higher.

Each college also maintains its own Dean’s List. See the applicable college area for an explanation of Dean’s List criteria.

Final Examinations
Examination week is part of the regular academic semester, and all classes are required to meet as shown in the final examination schedule. Examination schedules are available on the Blugold Central’s website (https://www.uwec.edu/blugold-central/academic-planning/final-common-exam-schedules/) and in CampS. For short courses, including Winterim and Summer, examinations are usually given at the last scheduled meeting of the class. Each course offered for credit is concluded with a final examination, unless the instructor determines that some other method of evaluation is more appropriate to the objectives of the course.

No student will be permitted to reschedule a final examination, unless there are extraordinary circumstances over which the student has no control (e.g. hospitalization or military obligation). Verification of the circumstances must be furnished by the student. A student with three or more examinations scheduled for one day may request the change of an individual examination time. Changes are not allowed for reasons such as an already purchased plane ticket, leaving campus early, a family vacation, or conflict with employment; unless such work commitment existed prior to the publication of the examination schedule.

A request for a change in the time of an individual final examination must be approved by the instructor, the department chair, and the assistant/associate dean of the college in which the course is offered. Make-up examinations must be scheduled during finals week or later and must be arranged by the student with the instructor.

Transcripts
An official transcript of a student’s record will be issued by the Registrar’s office per the student’s online request. No transcripts are released (except when requested by advisers or administrative officers within the University) without the permission of the student. An official transcript cannot be issued until all admission and financial obligations to the University have been met in full.

Unofficial transcripts are available to students for advising purposes and for applying for admission to professional programs. Students may also receive a degree audit report, which is a report of a student’s progress toward fulfilling degree requirements. All documents are available via CampS (https://my.uwec.edu/psp/CS90PRD/EMPLOYEE/HRMS/?cmd=login).

Credit by Examination
Overview
A student must be actively enrolled in a degree-seeking program at UW-Eau Claire or UW-Eau Claire Barron County in order to be awarded credit through examination.

Advanced Placement Program
Students who achieve a minimum score of three (3) on any of the advanced placement examinations will receive at least three credits in the appropriate liberal education category. In addition, some academic departments have approved granting specific credit. (NOTE: Course equivalencies are subject to change. Students receive the course equivalency in effect when they matriculate.) Rather than a letter grade, students receive a mark of “CP.” For prerequisite purposes this is equivalent to “a grade of C or above.” Departments may restrict the total number of credits earned by examination applicable toward their majors and minors. In no case may more than half the requirements for a major or minor be fulfilled by means of examination for credit. For current exams and credits granted see the UW Help site (https://uwhelp.wisconsin.edu/prep-for-college/credits/testing-ap-ib/). For information on sending scores to UW-Eau Claire see Academic Testing (https://www.uwec.edu/academics/academic-support/advising/testing/credit-by-exam/advanced-placement/).

International Baccalaureate Examinations
The University grants credit for a score of four (4) or higher on all Higher Level International Baccalaureate examinations. Students receive the course equivalency in effect when they matriculate. Rather than a letter grade, students receive a mark of “CP.” For prerequisite purposes this is equivalent to “a grade of C or above.” For current equivalencies see the UW Help site (https://uwhelp.wisconsin.edu/prep-for-college/credits/testing-ap-ib/) or contact Academic Testing (https://www.uwec.edu/academics/academic-support/advising/testing/credit-by-exam/international-baccalaureate/).

College Level Examination Program (CLEP)
The University grants credit for certain examinations offered by the College Level Examination Program (CLEP). These examinations are administered nationwide. At UW-Eau Claire, they are administered by the Academic Testing Office. Students receive the course equivalency in effect when they matriculate. Rather than a letter grade, students receive a mark of “CP.” For prerequisite purposes this is equivalent to “a grade of C or above.” For current equivalencies see the Academic Testing webpage (https://www.uwec.edu/academics/academic-support/advising/testing/credit-by-exam/clep-college-level-examination-program/). CLEP exams fall into the following two categories:

CLEP General Examinations
The University awards credit for a satisfactory/passing score on the general examinations in Humanities, Natural Sciences, and Social Science/History, which will satisfy one experience in the appropriate LE outcome.

General Examinations should be taken before the student has completed initial enrollment in the University. They must be taken by the time the student has completed 15 semester credits of college work and before enrollment in any courses in the area to be tested. Exceptions to this rule may be made for older students with unique backgrounds. Requests for these exceptions should be directed to the Dean of the College of Arts and Sciences.

CLEP Subject Examinations
The University accepts certain subject examinations. Subject (course equivalent) examinations should be taken before a student has enrolled in the equivalent course or in any higher level course for which it is a prerequisite. With departmental permission, however, the student may take an examination for a course in which he/she is enrolled provided it is taken before the end of the first week of classes. Examinations for credit may not be used to repeat courses already attempted at or transferred to UW-Eau Claire.

DANTES
The University accepts certain DANTES examinations. A score calculated as a “B-Grade Equivalent” or better on the exam will be awarded credit. Students receive the course equivalency in effect when they matriculate. Rather than a letter grade, students receive a mark of “CP.” For prerequisite purposes this is equivalent to “a grade of C or above.” Course equivalent examinations should be taken before a student has enrolled in the equivalent course or in any higher level course for which it is a prerequisite. Examinations for credit may not be used to repeat courses already attempted at or transferred to UW-Eau
Claire. For current equivalencies see the Academic Testing webpage (https://www.uwec.edu/academics/academic-support/advise/testing/dantes-subject-standardized-test-dsst/).

**Departmental Examinations**
Certain departments offer departmentally based examinations for credit. Departments may limit the courses available for credit by examination. Departmental examinations may be taken for a grade or S/U. Departmental examinations should be taken before the student has enrolled in the equivalent course or in any higher level course for which it is a prerequisite. With departmental permission, however, the student may take an examination for a course in which he/she is enrolled provided it is taken before the end of the first week of classes. Examinations for credit may not be used to repeat courses already attempted at or transferred to UW-Eau Claire.

For information about application procedures and fees, the student should consult with the chair of the department offering the course.
University Graduation Requirements

Baccalaureate Degrees

All candidates for baccalaureate degrees must meet the minimum requirements summarized below. For the specific requirements of each College and each curriculum, consult the appropriate section of this catalog.

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.
Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

Liberal Education Core

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate
will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

<table>

**Liberal Education Outcomes**

The Liberal Education Core is designed to develop in students the skills, knowledge and values they will need to engage with highly diverse communities in a global society. Through the liberal education core, UWEC hopes to foster in every student the ability to think with intellectual rigor, creativity, and independence, to integrate and apply their knowledge, and to act as humane, thoughtful leaders in the community, the workplace, and the world of ideas. By beginning with the liberal education core and working toward its learning outcomes, students establish a strong, broad foundation around which they will build a rich baccalaureate program. Students can complete the liberal education core requirements both by taking courses and by engaging in out-of-the-classroom learning experiences.

Note: A learning experience comprises specific combinations of learning resources, tools, and activities guided by pedagogical models through which one can identify, to a certain extent, what one has learned. Learning experiences that fulfill students’ liberal education core requirements include both courses and non-course activities. Examples include traditional classroom instruction as well as out-of-the-classroom engagements such as First-Year Seminars and Experiences, Living-Learning Communities, Student-Faculty Collaborative Research, Study and Research Abroad, and Service-Learning.

**Knowledge Goal:**

Build knowledge and awareness of diverse peoples and cultures and of the natural and physical world through the study of arts, histories, humanities, languages, mathematics, sciences and technologies, and social sciences.

**Knowledge 1 (K1) Natural Sciences:** Describe and evaluate models of the natural and physical world through collection and scientific analysis of data, and through the use of mathematical or computational methods. Two learning experiences required. One experience in laboratory science must be selected from either Knowledge 1 or Knowledge 2.

**Knowledge 2 (K2) Social Sciences:** Use knowledge, theories, methods, and historical perspectives appropriate to the social sciences to explain and evaluate human behavior and social institutions. Two learning experiences required. One experience in laboratory science must be selected from either Knowledge 1 or Knowledge 2.

**Knowledge 3 (K3) Humanities:** Use knowledge, historical perspectives, analysis, interpretation, critical evaluation, and the standards of evidence appropriate to the humanities to address problems and explore questions. Two learning experiences required.

**Knowledge 4 (K4) Fine Arts:** Use knowledge, historical perspectives, theories, or methods appropriate to the arts to describe their context, function and impact. One learning experience required.

**Skills Goal:**

Develop intellectual and practical skills, including, for example, inquiry and analysis, critical and creative thinking, written and oral communication, quantitative literacy, information literacy, and teamwork and problem solving.

**Skills 1 (S1) Written and Oral Communication:** Write, read, speak, and listen effectively in various contexts using a variety of means including appropriate information sources and technologies. Two learning experiences required, one of which must meet the University Writing Requirement.

**Skills 2 (S2) Mathematics:** Use mathematical, computational, statistical, or formal reasoning to solve problems, draw inferences, and determine the validity of stated claims. One learning experience required to meet the University Mathematics Requirement. Students are encouraged to satisfy this requirement by the end of the sophomore year.

**Skills 3 (S3) Creativity:** Create original work, perform original work, or interpret the work of others. One learning experience required, which could be satisfied within a major.

**Responsibility Goal:**

Apply personal and social responsibility for active citizenship and develop skills needed to thrive in a pluralistic and globally interdependent world.
Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (S2 [http://catalog.uwec.edu/undergraduate/attribute-S2/]) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test [https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/]
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

All students are encouraged to satisfy the University Mathematics Requirement before the completion of the sophomore year.

**University Writing Requirement**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102, WRIT 114, WRIT 116, WRIT 118, or WRIT 120) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test [https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/](WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

All students are encouraged to satisfy the University Writing Requirement before the completion of the sophomore year.

**Service-Learning**

All candidates for the baccalaureate degree at the University of Wisconsin-Eau Claire must satisfactorily complete 30 hours of approved service-learning activity. This requirement is intended to provide students with an opportunity to serve their community, apply knowledge gained in the classroom, enhance their critical thinking skills and become informed, active, and responsible citizens.

A Service-Learning Guidebook is available on the Service-Learning [https://www.uwec.edu/service-learning/] website, which outlines the UW-Eau Claire service-learning mission and graduation requirement, and describes the procedures for completion of the requirement. This information is provided to assist students, faculty/staff members, and community project supervisors in designing and undertaking projects that provide both rich experiences for UW-Eau Claire students and substantial benefits for the community.

**Students can meet the service-learning requirements in one of three ways:**

**Non-credit Option:** A student may fulfill the service-learning requirement—without receiving course credit—through work with an on-campus group or off-campus community organization. To fulfill the requirement under this option, students must work with the Center for Service-Learning by filling out an online application. Students may complete projects in the Eau Claire area or elsewhere, individually or in groups, and during the academic year or over break periods. Projects sponsored by local organizations (“community partners”) are posted on the Center for Service-Learning website. Students may also devise their own projects. The Center for Service-Learning must approve a noncredit option project before the student begins the project.

A student pursuing a noncredit option must work with:

1. A community partner supervisor who approves the student’s service-learning project proposal, helps establish learning objectives, and assists the student in attaining those objectives. The mentor also facilitates the student’s reflection upon completion of the project, and certifies the student has met the service-learning requirement.
2. A faculty or academic staff mentor who also approves the student’s service-learning project proposal, helps establish learning objectives, and assists the student in attaining those objectives. The mentor also facilitates the student’s reflection upon completion of the project, and certifies the student has met the service-learning requirement.

**Military Service:** Students in active military service or with an honorable or general discharge from military service are presumed to have met the service-learning graduation requirement. Evidence of military service is provided to the Veterans and Military Education Benefits Office in Blugold Central through a copy of a D.D. 214, D.D. 220, or a transcript from the ACE registry.

Credit Option [http://catalog.uwec.edu/undergraduate/attribute-SL/]:

**Academic Major:** Students in some majors (such as education, nursing and social work) will fulfill the service-learning requirement through
course work required for their major. Students should consult their advisors to determine if this option applies to them.

**Selected Course:** A student may complete a course designated in this catalog or the current Class Schedule as satisfying one-half (15 hours) or the full (30 hours) service-learning requirement. In some courses, the service-learning activity may be optional.

Students seeking more information about the service-learning requirement should consult their advisors or contact the Center for Service-Learning.

### Academic Concentrations

Each candidate for a baccalaureate degree must present one of the following:

- Comprehensive major (at least 60 credits)
- Standard major (at least 36 credits) plus one of the following:
  - Another standard major (at least 36 credits), or
  - A minor (at least 24 credits), or
  - A certificate (12-18 credits)

Acceptable academic program combinations will be determined at the college level.

A student who elects to pursue any combination of majors, minors and/or certificates beyond the minimum required, should be aware of the UW System policy whereby credits earned beyond 165 (or 30 credits beyond the total required for a program, whichever is higher) will be assessed at a higher level of tuition.

A student may present for graduation only those majors, minors, and/or certificates authorized by the faculty of the College in which the degree program is offered. Any deviation from published requirements in any curriculum must have written approval of the Associate Dean of the College from which the student is to be graduated.

### Grade Point Requirements

Eligibility for graduation is based upon two GPAs, resident and total:

- **Resident GPA:** The GPA computed on all UW-Eau Claire course work.
- **Total GPA:** The GPA computed on all UW-Eau Claire course work and all transferable course work taken elsewhere.

The Resident and Total GPAs are identical for the student who has completed all course work at UW-Eau Claire. In both computations, GPAs must meet all minimum standards.

A minimum total GPA of 2.00 and a minimum resident GPA of 2.00 is required for graduation from all curricula. Individual Colleges may set higher grade point requirements. These are published, as appropriate, in the College sections of this catalog.

- **Major, Minor, Certificate:** Minimum resident and total GPAs of 2.00 are required in the major, minor and certificate. Colleges of the University may set specific requirements for GPAs in their majors, minors, and certificates. Colleges may also require that GPAs in the major, minor, and certificate be computed on all applicable courses attempted by the student in the respective areas.

### University Residency Requirements

Resident credit is earned by enrolling in UW-Eau Claire courses, both on and off campus.

- **Minimum total.** Residence of one year (30 semester credits) is required of all candidates for baccalaureate degrees.

### Graduation Application for Graduation

Each candidate for a baccalaureate degree must apply for graduation via CampS (https://my.uwec.edu) by the end of the first week of undergraduate priority registration for the semester of intended graduation. Failure to apply for graduation on time may result in the postponement of graduation. Although only two commencement ceremonies are held—May and December, students may graduate in May, August, December, or January.

Please note that UW-Eau Claire Barron County has one graduation ceremony held in May.

### Degree Planning

Students should consult their academic advisors and develop degree plans as early as possible, so that requirements can be met without delaying graduation. A student may view a Degree Audit at any time on CampS (https://my.uwec.edu). This audit monitors the progress which the student is making toward the declared degree. The Audit is a tool designed to assist the student in course planning. Final confirmation of degree requirements is subject to department, college, and university approval.

A **Degree Audit** is not designed to serve as a contract—only to provide assistance to the student in planning. Final approval of degree requirements resides with Academic Affairs, but responsibility for meeting these requirements rests primarily upon the individual student.

**Catalog Base for Degree Plan.** In planning their degree programs, students must follow the curricular requirements of the catalog under which they entered UW-Eau Claire or upon notification to their department of a more recent catalog. Students who are absent from the University for two or more consecutive semesters must follow the catalog in effect at the time of their re-entry. Since Degree Audits are computer-generated reports applying an individual student’s enrollment history to degree requirements as stated in the catalog, any deviation from published requirements for the degree must be authorized by a waiver/substitution form signed by the student’s dean.

**NOTE:** Transfers who enter UW-Eau Claire within two consecutive semesters of leaving another institution may use the catalog in effect at UW-Eau Claire at the time they entered the prior institution; however, transfers should check with
their advisors to ensure that programs listed in the catalog they entered on are still available to students.

Commencement Exercises
Candidates for graduation are encouraged to attend commencement ceremonies, which are held two times during the calendar year: at the close of the fall and spring semesters of the academic year. Caps and gowns must be worn by all graduates.

In order to participate in a commencement ceremony, students must file an application for graduation and must meet at least one of the following conditions:

1. completion of all requirements for the bachelor’s or graduate degree, or
2. current enrollment in the courses necessary to complete all requirements.

Students who will complete all requirements for the degree during the first Three-Week Summer Session are August graduates, but may request permission to attend the May commencement ceremony; and students completing all requirements in August may attend the following December ceremony.

Graduation with Distinction
Graduation with distinction is conferred at commencement exercises upon eligible students earning a first or second baccalaureate or associate degree. Eligibility is based on both the resident and the total GPAs as defined under Grade Point Requirements. A student must earn in both computations (resident and total GPAs) the minimum GPA required at each of the three levels of distinction listed below and a minimum of 30 credits in residence to be eligible:

<table>
<thead>
<tr>
<th>Distinction</th>
<th>Minimum GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summa Cum Laude</td>
<td>at least 3.80</td>
</tr>
<tr>
<td>Magna Cum Laude</td>
<td>at least 3.50</td>
</tr>
<tr>
<td>Cum Laude</td>
<td>at least 3.20</td>
</tr>
</tbody>
</table>

The announcement of graduation with distinction made at the commencement ceremony is based on all work completed prior to the student’s final semester; however, the actual conferral of graduation with distinction will be based on the student’s entire record, including the final semester.

Second Baccalaureate Degree
A graduate who has earned a baccalaureate degree from UW-Eau Claire or another accredited college or university can earn a second baccalaureate degree.

Students who are declared as a double major may not obtain a second baccalaureate degree.

Students who are seeking a second baccalaureate degree should contact the Financial Aid Office to review how this process will affect their financial aid.

It is presumed that the University liberal education core requirements are satisfied by the completion of a baccalaureate degree.

Two degrees may not be awarded in the same term.

The GPA for the second degree will be calculated based on the course work that was completed after graduation from the first baccalaureate degree.

Academic distinction for the second baccalaureate degree is computed based on the credits earned toward the completion of the second degree.

A candidate for a second baccalaureate degree from UW-Eau Claire must satisfy the following graduation requirements:

1. Be admitted to the second baccalaureate degree after completion of the first baccalaureate degree from UW-Eau Claire or another college or university;
2. Have their transcripts reviewed and their plan of study approved by the Associate Dean for the college from which they are seeking the second degree;
3. Obtain 30 credits beyond the first degree, of which at least 23 must be taken in residence;
4. Satisfy all major/minor and other degree-specific requirements of the second degree;
5. Satisfy the UW System Design for Diversity requirement.

Completion After Graduation
Students may, after graduating with a bachelor’s degree from the University of Wisconsin-Eau Claire, complete an additional major or minor. Students may apply for readmission to UW-Eau Claire or apply as a special student. When all course work—which must be taken at UW-Eau Claire—toward the additional major or minor program has been completed, students should contact the Registrar’s Office to initiate a review of the additional information. A statement in the memorandum area of the transcript will be added, noting the completion of such, with the date of completion.
College of Arts and Sciences

Alessander Sternfeld-Dunn—Dean (Schofield 220)
Margaret L. Cassidy, Associate Dean—Academic Affairs and Curriculum (Schofield 220)
Marc Goulet, Associate Dean—Faculty and Student Affairs (Schofield 220)

Departments:
Art & Design
Biology
Chemistry and Biochemistry
Communication and Journalism
Computer Science
Economics
English
Geography and Anthropology
Geology and Environmental Science
History
Languages
Materials Science and Biomedical Engineering
Mathematics
Music and Theatre Arts
Philosophy and Religious Studies
Physics and Astronomy
Political Science
Psychology
Public Health and Environmental Studies
Race, Ethnicity, Gender, and Sexuality Studies
Sociology

Programs:
American Indian Studies
Latin American and Latinx Studies

Programs and courses in the College of Arts and Sciences expose students to the substance and methodology of disciplines in the humanities, arts, natural sciences, and social sciences. Our core values include providing students with opportunities to develop intellectual skills such as analysis, synthesis, critical thinking, and application; strengthen communication skills and abilities; enhance aesthetic appreciation and humanistic understanding; and develop breadth and depth of perspective about the human experience and the natural world. Such skills and attributes are essential for success in any career or profession, as well as for leading lives as engaged, informed, and productive citizens. The largest and most broadly based academic unit at the University, the College of Arts and Sciences comprises 21 departments and several interdisciplinary programs that contribute courses and experiences for students pursuing majors, minors, and certificates based in the college; extensive liberal education course work; and supporting courses for academic programs in other colleges and for pre-professional programs.

Placement and Competency Information

Placement and Competency Tests
The UW System Mathematics Placement Test and the Foreign Language Placement Tests are given during the orientation periods for new freshmen and transfers. Further information about placement or competency tests is available from the chair of the appropriate department or the Academic Testing Office (https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/).

Registration Requirements
1. All students in the College of Arts and Sciences (undeclared students, students with a declared Arts and Sciences major, or pre-professional students) must successfully complete the University Writing Requirement. This requirement should be completed by the semester in which their total semester credits will equal or surpass 60 credits.
2. All students in the College of Arts and Sciences (undeclared students, students with a declared Arts and Sciences major, or pre-professional students) must successfully complete the appropriate Mathematics Competency requirement for the baccalaureate degree program being pursued. This requirement should be completed by the semester in which their total semester credits will equal or surpass 60 credits.
3. All students who have not completed the Bachelor of Science Mathematics Competency will be considered Bachelor of Arts candidates and must demonstrate competency in a foreign language at the level of a 102 course (i.e., two semesters of college work). This requirement should be completed by the semester in which their total semester credits will equal or surpass 60 credits.
4. All students who transfer to UW-Eau Claire with 59 or fewer earned semester credit hours should meet the appropriate requirements listed in 1, 2, and 3 above as appropriate before registering for any semester or session after they have earned 60 semester credit hours including credits in progress.
5. All students who transfer to UW-Eau Claire with 60 or more earned semester credit hours and who intend to register as a student in the College of Arts and Sciences (undeclared students, students with a declared Arts and Sciences major, or pre-professional students) should meet the requirements listed in 1, 2, and 3 before registering for any semester or summer session.

Planning a Degree Program
To officially declare or change to a new major, minor, or certificate, a student must go to the Advising, Retention + Career Center (http://www.uwec.edu/connect/advising/).

All students are encouraged to obtain a new degree audit during this process. Academic and faculty advisors will be assigned as appropriate.

Joint Degrees with Professional Schools
The Board of Regents has authorized the University to grant the Bachelor of Science or Bachelor of Arts degree to students who have completed three years of residence at UW-Eau Claire and who complete the requirements for a Liberal Arts degree after transfer to a professional school. A maximum of 32 semester credits from the professional school may be applied toward the baccalaureate degree. For information, contact the College of Arts and Sciences Dean’s office (Schofield 220).

Dean’s List
At the end of each semester the University recognizes excellence in scholastic achievement by publishing the Dean’s List. Admitted undergraduate students are eligible if they meet the following criteria for the semester:

- earn a minimum of 12 credits.
- be in good academic standing.
- earn a minimum semester GPA of 3.70.
• have no courses with the following grades: Incomplete, Withdrawal, Audit, or Satisfactory/Unsatisfactory (except in courses that are offered only on the S/U grading system in which a grade of S has been earned).

• have no courses below the 100 level.

• have no repeats.

• have no professional semester courses taken in the term (ES 440, ES 441, ES 445, ES 446, ES 470, ES 471, ES 475; SEIP 470, SEIP 472, SEIP 475; UEC 470).

Dean’s List students will receive notification and congratulations from the Dean.

**Special Curricular Offerings**

**Special Topics Courses (291, 391, 491)**

Under the numbers 291, 391 and 491, several departments and interdisciplinary programs offer courses in which the topic for study may vary from semester to semester, often focusing on a contemporary issue or taking an innovative approach to a traditional subject. Students and faculty members are invited to recommend topics to appropriate departments/programs. Departments/programs provide basic course information as part of the schedule building process. Topics are announced in the Class Schedule for the semester.

**Restrictions:** A total of no more than nine credits in Special Topics courses (291, 391, 491) may be applied toward graduation. Special Topics courses may not be applied toward completion of the Liberal Education Core requirements. Departments/programs may further restrict the application of such credits to their majors, minors, and certificates.

**Directed Studies (395, 495)**

Courses numbered 395 or 495 (and MUSI 496), offered by several departments and interdisciplinary programs under various titles, are designed to permit individual students or groups of students to undertake special projects related to their educational interests and goals.

**Eligibility:** Registration for a Directed Studies course requires the permission of the faculty member who agrees to supervise the project and of the department/program offering the course. Any further conditions of eligibility are established by the department/program and published as part of the course description.

**Restrictions:** A total of no more than six credits of Directed Studies courses may be counted toward graduation. Directed Studies courses may not be applied toward completion of the Liberal Education Core requirements. Departments/programs also may restrict the application of such credits to their majors, minors, and certificates.

**Procedures:** Registration is initiated through an e-form found on the Registrar’s Office website (https://www.uwec.edu/Registrar/student/stuforms.htm). Approval is required by the professor directing the study and the department chair/program director. When registration has been completed, the Registrar’s Office will file a copy of the project description with the College Dean and in the student’s permanent record.

**Internships and Apprenticeships**

Internship or apprenticeship experiences can be a valuable component in Arts and Sciences programs. Courses designated either as an internship or as an apprenticeship are offered in American Indian Studies, Art, Biology, Biomedical Engineering, Chemistry, Communication and Journalism, Computer Science, Criminal Justice, Economics, English, Environmental Public Health, Environmental Studies, Foreign Language, French, Geography, Geology, History, Languages, Latin American and Latinx Studies, Liberal Studies, Materials Science and Engineering, Mathematics, Music, Philosophy, Political Science, Psychology, Public Health, Religious Studies, Sociology, Theatre Arts, and Women’s, Gender, and Sexuality Studies.

**Departmental/Program Honors Programs**

The Departments of Biology, Chemistry and Biochemistry, Computer Science, Economics, English, Geography and Anthropology, Geology and Environmental Science, History, Materials Science and Biomedical Engineering, Mathematics, Music and Theatre Arts, Philosophy and Religious Studies, Physics and Astronomy, Political Science, and Sociology, as well as the Latin American and Latinx Studies Program, have established Departmental or Program Honors Programs for their majors. Majors in Criminal Justice and Spanish (in Department of Languages) also offer an Honors Program. See departmental/program listings or the interdisciplinary program section for requirements.

**Degrees and Curricula**

**Bachelor of Arts (B.A.) or Bachelor of Science (B.S.)**

The B.A. degree and the B.S. degree are differentiated not by the major chosen, but by specific College requirements. For the standard and comprehensive majors listed below, students may elect either the B.A. or B.S. degree.

**College of Arts and Sciences Standard Majors (Liberal Arts):**

- American Indian Studies
- Art
- Biology
- Chemistry
- Communication
- Computer Science
- Economics
- English
French
Geography
Geology
History
Integrated Strategic Communication
Journalism
Latin American and Latinx Studies
Mathematics
Music
Philosophy
Physics
Political Science
Psychology
Public Health
Religious Studies
Sociology
Spanish
Theatre Arts
Women’s, Gender, and Sexuality Studies

**College of Arts and Sciences Comprehensive Majors:**
Actuarial Science- Liberal Arts (Department of Mathematics)
Art-Liberal Arts
Biochemistry/Molecular Biology-Liberal Arts (Interdisciplinary)
Bioinformatics-Liberal Arts (Interdisciplinary)
Biology-Liberal Arts
Chemistry-A.C.S.
Chemistry with Business Emphasis (Department of Chemistry and Biochemistry)
Computer Science-Liberal Arts
Criminal Justice-Liberal Arts (Interdisciplinary)
Geography-Liberal Arts
Geology-Liberal Arts
Geospatial Analysis and Technology-Liberal Arts (Department of Geography and Anthropology)
Materials Science-Liberal Arts
Mathematics-Liberal Arts
Music-Liberal Arts
Neuroscience-Liberal Arts (Interdisciplinary)
Political Science-Liberal Arts
Theatre Arts-Liberal Arts

**Bachelor of Science (B.S.)**
**Comprehensive Major:** Biomedical Engineering

**Bachelor of Liberal Studies (B.L.S.)**
**Comprehensive Major:** Liberal Studies-Liberal Arts (Interdisciplinary)

**Bachelor of Fine Arts (B.F.A.)**
**Comprehensive Major:** Art

**Bachelor of Music (B.M.)**
**Comprehensive Major:** Music

**Bachelor of Science in Environmental Public Health (B.S.E.P.H.)**
**Comprehensive Major:** Environmental Public Health (Public Health and Environmental Studies)

---

**College of Arts and Sciences Minors**
A standard Liberal Arts minor is offered in each discipline in which a standard Liberal Arts major is available. In addition, a number of other minors are offered by the College of Arts and Sciences. Program descriptions are found in the College of Arts and Sciences Interdisciplinary Programs section or in the noted academic department/program section.

Ancient Studies (Interdisciplinary)
Art History (Department of Art & Design)
Criminal Justice Equity and Inclusivity (Interdisciplinary)
Environment, Society, and Culture (Department of Public Health and Environmental Studies)
Environmental Science (Department of Public Health and Environmental Studies)
European Studies (Interdisciplinary)
Family Studies (Interdisciplinary)
German (Department of Languages)
Global Studies (Interdisciplinary)
Japanese (Department of Languages)
Interdisciplinary Linguistics (Interdisciplinary)
Marine Science (Interdisciplinary)
Mathematical Problem Solving (Department of Mathematics)
Middle East Studies (Interdisciplinary)
Multimedia Communication (Interdisciplinary)
Neuroscience (Interdisciplinary)
Pre-Professional Health Science (Interdisciplinary)
Spanish for Health Professions (Department of Languages)
Topical Minor (Interdisciplinary)

---

**College of Arts and Sciences Certificates**
The College of Arts and Sciences offers a number of certificate programs. Program descriptions are found in the College of Arts and Sciences Interdisciplinary Programs section or in the noted academic department/program section.

Africana Studies (Interdisciplinary)
American Indian Studies (American Indian Studies Program)
Analytical Reasoning (Department of Philosophy and Religious Studies)
Ancient Studies (Interdisciplinary)
Anthropology (Department of Geography and Anthropology)
Arts Administration (Department of Music and Theatre Arts)
Campaign Consulting (Department of Political Science)
Cartography and Geovisualization (Department of Geography and Anthropology)
Chinese (Department of Languages)
Creative Writing (Department of English)
Critical Hmong Studies (Interdisciplinary)
Critical Studies in Literatures, Cultures, and Film (Department of English)
Computer Programmer (Department of Computer Science)
Dance Activities (Department of Music and Theatre Arts)
Earth Resources (Interdisciplinary)
Economics of Global Issues (Department of Economics)
Ethics (Department of Philosophy and Religious Studies)
French Proficiency (Department of Languages)
Geospatial (Department of Geography and Anthropology)
Geospatial, Geographic Information Systems (Department of Geography and Anthropology)
Geospatial, Mapping (Department of Geography and Anthropology)
Geospatial, Remote Sensing (Department of Geography and Anthropology)
German Proficiency (Department of Languages)
Global and Comparative History (Department of History)
Health Humanities (Interdisciplinary)
History of Race, Gender, and Society (Department of History)
Integrated Strategic Communication (Department of Communication and Journalism)
Interdisciplinary Linguistics (Interdisciplinary)
International Affairs (Department of Political Science)
Journalism (Department of Communication and Journalism)
LabVIEW (Department of Physics and Astronomy)
Latin American and Latinx Studies (Latin American and Latinx Studies Program)
Legal Studies (Department of Political Science)
LGBTQ Studies (Department of Race, Ethnicity, Gender, and Sexuality Studies)
Materials Science (Department of Materials Science and Biomedical Engineering)
Middle East Studies (Interdisciplinary)
Ojibwe Language (Department of Languages)
Organizational Communication (Department of Communication and Journalism)
Recording Arts (Department of Music and Theatre Arts)
Responsible Mining (Interdisciplinary)
Rhetorics of Science, Technology, and Culture (Department of English)
Social Advocacy and Change (Department of Communication and Journalism)
Social Diversity (Department of Sociology)
Songwriting (Department of Music and Theatre Arts)
Sustainability and Climate Action (Department of Public Health and Environmental Studies)
Teaching English as a Foreign Language (Interdisciplinary)
Theatre Arts (Department of Music and Theatre Arts)
Transnational Asian Studies (Interdisciplinary)
Urban and Regional Planning (Department of Geography and Anthropology)
Water Resources (Interdisciplinary)
Women of Color Feminisms (Department of Race, Ethnicity, Gender, and Sexuality Studies)
Women's, Gender, and Sexuality Studies (Department of Race, Ethnicity, Gender, and Sexuality Studies)
World History and Society: Past, Present, Future (Interdisciplinary)
World Religions (Department of Philosophy and Religious Studies)

Programs from other colleges accepted for Arts and Sciences degrees:

College of Business Majors:
All College of Business majors are accepted for Arts and Sciences degrees as second majors with the exception of Health Care Administration majors.

College of Business Minors:
Accounting
Business Administration
Business Finance
Entrepreneurship
Information Systems
International Business
Management
Marketing
Military Leadership

College of Education and Human Sciences Minors:
Gerontology-Liberal Arts
Kinesiology-Liberal Arts
Science of Coaching-Liberal Arts

Major/Minor, Major/Certificate and Major/Major Combinations in a Single Department or Program

A major and a minor, or a major and certificate, or two majors (if available), may be elected within a single department or program only in the following approved combinations:

Department/Program:

Art & Design
Art Major, Studio Emphasis (Code 020-208) and Art History Minor (Code 030-401)

English
Creative Writing Major (Code 540-204) and Critical Studies in Literatures, Cultures, and Film Minor (Code 540-409)
Creative Writing Major (Code 540-204) and Critical Studies in Literatures, Cultures, and Film Certificate (Code 540-601)
Creative Writing Major (Code 540-204) and Rhetorics of Science, Technology, and Culture Minor (Code 540-414)
Creative Writing Major (Code 540-204) and Rhetorics of Science, Technology, and Culture Certificate (Code 540-602)
Critical Studies in Literatures, Cultures, and Film Major (Code 540-212) and Creative Writing Minor (Code 540-412)

Geography and Anthropology
Geography Major (Code 140-214) and Anthropology Certificate (Code 470-601)

Languages
Any two languages

Music and Theatre Arts
Music Major (Code 060-201) and Theatre Arts Minor (Code 601-422)
Music Major (Code 060-201) and Theatre Arts Major (Code 601-223)
Music Major (Code 060-201) and Theatre Arts Certificate (Code 601-601)
Music Major (Code 060-201) and Arts Administration Certificate (Code 060-602)
Music Major (Code 060-201) and Dance Activities Certificate (Code 605-601)
Music Major (Code 060-201) and Recording Arts Certificate (Code 061-601)
Theatre Arts Major (Code 601-223) and Music Minor (Code 060-401)
Theatre Arts Major (Code 601-223) and Arts Administration Certificate (Code 060-602)
Theatre Arts Major (Code 601-223) and Dance Activities Certificate (Code 605-601)
Theatre Arts Major (Code 601-223) and Recording Arts Certificate (Code 061-601)
Theatre Arts Major (Code 601-223) and Songwriting Certificate (Code 061-602)
Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Bachelor of Liberal Studies Degree (B.L.S.)

Bachelor of Liberal Studies

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.
Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

**College Credits.** Earn at least 90 credits in courses offered by the College of Arts and Sciences.

**Bachelor of Liberal Studies Degree in the College of Arts and Sciences (B.L.S.)**

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work).

**Bachelor of Fine Arts Degree (B.F.A.)**

**Bachelor of Fine Arts**

**University Graduation Requirements.** All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

**College Graduation Requirements: Grade Point Averages.** All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and certificate are computed similarly.

**Major-Minor and Major-Certificate Requirements.** A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certified degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

**College Credits.** Earn at least 90 credits in courses offered by the College of Arts and Sciences.

**Bachelor of Fine Arts Degree in the College of Arts and Sciences (B.F.A.)**

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency can be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

**Bachelor of Music Degree (B.M.)**

**Bachelor of Music**

**University Graduation Requirements.** All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

**College Graduation Requirements: Grade Point Averages.** All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and certificate are computed similarly.

**Major-Minor and Major-Certificate Requirements.** A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certified degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

**College Credits.** Earn at least 90 credits in courses offered by the College of Arts and Sciences.

**Bachelor of Science in Environmental Public Health (B.S.E.P.H.)**

**Bachelor of Science in Environmental Public Health**

**University Graduation Requirements.** All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

**College Graduation Requirements: Grade Point Averages.** All candidates for degrees in the College of Arts and Sciences must earn minimum resident and
total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and certificate are computed similarly.

**Major-Minor and Major-Certificate Requirements.** A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and a certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

**College Credits.** Earn at least 90 credits in courses offered by the College of Arts and Sciences.

**Bachelor of Science in Environmental Public Health Degree in the College of Arts and Sciences (B.S.E.P.H.)**

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work).

**Associate of Arts and Sciences**

The College of Arts and Sciences offers an Associate of Arts and Sciences Degree that is delivered by UW-Eau Claire and UW-Eau Claire-Barron County faculty. Courses applied to this degree come from a variety of course prefixes and course delivery formats.

The College of Arts and Sciences, UW-Eau Claire, and UW-Eau Claire-Barron County also partner with other UW System campuses and UW Extended Campus in the delivery of the UW Collaborative Online Associate of Arts and Sciences Degree. Courses applied to this degree are offered under the UWX course prefix and are offered in an online format only.

**Associate Degrees**

- Associate of Arts and Sciences
- UW Collaborative Online Associate of Arts and Sciences

**Associate of Arts and Sciences**

The Associate of Arts and Sciences Degree certifies a student as having satisfactorily completed one-half of the number of credits required for a baccalaureate degree program and meeting certain curricular requirements.

To earn the Associate of Arts and Sciences Degree the student must:

1. Earn a minimum of 60 semester credits; 40 of these credits must apply to the Liberal Education Core.
2. Earn at least 30 semester credits, including the last 15, at UW-Eau Claire or at UW-Eau Claire—Barron County.
3. Earn a resident and total GPA of at least 2.00.

4. Count toward the degree no more than six credits earned on a Satisfactory/Unsatisfactory basis.
5. Complete the Liberal Education Core Knowledge 1, 2, and 3 Outcome Requirements.
6. Complete one Knowledge 4: Fine Arts Experience or one Skills 3: Creativity Experience.
7. Complete the University Writing Requirement. Complete a second Written and Oral Communication Experience.
8. Complete the University Mathematics Requirement.
10. Complete one Global Perspectives Experience or one Civic and Environmental Issues Experience.
12. Declare one’s intention to graduate with the Associate of Arts and Sciences Degree by contacting the UW-Eau Claire Degree Review office. (https://www.uwec.edu/blugold-central/academic-planning/graduation/)

**UW Collaborative Online Associate of Arts and Sciences**

*(Code 050-501)*

As a fully online degree program, the UW Collaborative Online Associate of Arts and Sciences (AAS) Degree provides expanded access to higher education for students across the state, country, and world. It can serve as a foundational degree for bachelor’s degree programs within and outside of the UW System.

I. **Eligibility**

- Available only to UWEC-Barron County students.

II. **General Associate of Arts and Sciences (AAS) Degree Requirements**

- Minimum of 60 credits required. At least 24 of the 60 credits must be earned in the UW Collaborative Online AAS Degree program.
- Grade point average (GPA) of at least 2.0 earned cumulatively in the UW Collaborative Online AAS Degree program, and at least a 2.0 overall GPA in credits applied to the AAS.
- The AAS general education requirements must be fulfilled.

III. **AAS Credit and Course Requirements**

A. **Distribution of Credit Requirements**

B. **Additional Degree Requirements**

A student must fulfill the following degree requirements through general education breadth requirements and/or elective coursework:
1. Depth sequence (two courses of three or more credits each)
2. Three credits of Quantitative Literacy coursework (QL)
3. Three credits of Ethnic Studies coursework (ES)
4. A Laboratory Science course (LS)

IV. General Education Breadth Requirements

A student must complete general education coursework in a variety of different disciplines based on breadth categories established by the UW System shared learning goals. There are six different breadth categories. Each course is limited to only one breadth category.

A. Knowledge of Human Cultures (HC)

Courses focus on analysis of the human condition, culture, and society. This typically includes coursework that requires students to engage with and analyze human interaction and culture, social organization and institutions, historical contexts, and/or complex interdependent systems.

B. Knowledge of the Natural World (NW)

Courses focus on concepts and applications related to the natural and physical sciences and mathematics.

C. Critical and Creative Thinking (CC)

Courses extend students’ abilities to analyze issues and produce responses that are both logical and innovative.

D. Effective Communication (EC)

Courses support and assess students’ development of reading, listening, speaking, information literacy, and/or writing proficiencies.

A student must complete:

1. UWX EN102 (3 credits) with a grade of C or higher. (Note: Depending on English placement, you may be required to take UWX EN098 prior to enrolling in UWX EN102). Similarly, depending on English placement, you may be required to take UWX EN098 prior to enrolling in UWX EN101).
2. Three (3) additional credits of EC coursework.

E. Intercultural Knowledge and Competence (IK)

Courses prepare students to live and work in diverse contexts. Courses with this degree designation focus on building cross-cultural communication, interaction, and empathy with people from diverse backgrounds and cultures.

F. Individual, Social and Environmental Responsibility (ER)

Courses provide the foundation for lifelong learning and the intellectual tools for engaging ethically as members of society.

V. Depth Requirement

The UW System Associate Degree Standards require each student to complete "a two-course sequence in which the first course provides the foundation for the second." This requirement is fulfilled by taking a disciplinary depth sequence identified by the program. One or both courses may be transferred in from another institution.

Sets of courses in a depth sequence must meet the following criteria:

1. Both courses are at least three credits.
2. Learning from the first course lays a foundation for learning in the second course. However, the foundation course does not need to be a prerequisite for the second course.

3. The depth requirement does not include skills courses that lay a foundation for academic literacy (UWX MA091, UWX MA093, UWX EN098, and UWX EN101).

The following sequences satisfy the Depth Requirement: UWX AR104, UWX AR175; UWX BL101, UWX BL285; UWX BL285; UWX BL286; UWX BU101, UWX FN210; UWX BU101, UWX EN210; UWX CM114, UWX CM213; UWX EC203, UWX EC204; UWX EN250, UWX EN278; UWX GE100, UWX GE170; UWX GS101, UWX GS213; UWX HE106, UWX HE209; UWX MA116, UWX MA221; UWX PH121, UWX PH237; UWX PS101, UWX ED230; UWX PS101, UWX PS250; UWX SC101, UWX SC222; UWX SC101, UWX SC231; UWX SC222, UWX SC231; UWX SP101, UWX SP102.

VI. Quantitative Literacy (QL)

A student must complete a minimum of three credits of QL coursework, i.e. UWX MA108, UWX MA116, or UWX MA117 with a C or better. Quantitative literacy courses may fulfill breadth and depth degree requirements.

VII. Laboratory Science (LS)

A student must complete at least one laboratory science course. LS courses normally fulfill a general education breadth requirement. In laboratory science courses, students engage in empirical study of the natural world to enhance learning.

VI. Ethnic Studies/Diversity

A student must complete three credits of Ethnic Studies/Diversity coursework. Courses fulfilling this requirement have a substantial emphasis on cultural diversity issues and ethnic minorities within the United States.

Pre-Professional Programs

Pre-professional programs help students prepare for entrance into professional degree programs. Many professional degree programs are offered only at the post-baccalaureate level, so an undergraduate degree is needed before enrolling in them. UW-Eau Claire offers a variety of academic majors that provide excellent preparation for applying to such professional programs. Students interested in these programs should select an academic major that will prepare them to compete for such programs (many are highly selective) as well as provide career alternatives. For other professional degree programs, students transfer to another higher education institution to complete the appropriate professional degree.

Pre-professional programs are not academic degree programs (that is, they are not academic majors, minors, or certificates). Instead, pre-professional programs provide an organized approach to academic advising for students intending to apply to a professional degree program. To enhance academic planning and preparation while enrolled at UW-Eau Claire, a student interested in obtaining a professional degree should:

• Work with a pre-professional advisor who can help plan an appropriate curriculum in the field of interest.
• Obtain information from other colleges/universities regarding specific academic requirements for the professional degree program of interest.
• Declare an academic major that is logically connected to the professional field, and work with an advisor in the academic major.

Pre-Dentistry

(Code 705-900)

Advisors: J. Anderson (Biology), J. Halfen (Chemistry and Biochemistry), J. Lyman Gingerich (Biology).
Students should plan to spend at least three years in pre-professional work. Many pre-dentistry students complete a B.S. degree in biology or chemistry.

A typical first-year program includes:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 105</td>
<td>General Chemistry I Lecture</td>
<td>9-10</td>
</tr>

<td>Organic Chemistry II with Laboratory</td>
<td>4</td>
</tr>
</tbody>
</table>

Consult an advisor for further recommendations.

NOTE: Students should plan on taking the DAT (Dental Admissions Test) in the late spring or early summer of the year prior to the year for which they are seeking to matriculate in dental school.

Pre-Engineering

(Code 195-900)

Advisors:
- Chemical—S. Drucker (Chemistry and Biochemistry).
- Civil—L. Ford (Physics and Astronomy).
- Electrical—M. Evans (Physics and Astronomy).
- General—M. Evans (Physics and Astronomy), L. Ford (Physics and Astronomy).
- Mechanical—M. Evans (Physics and Astronomy).

NOTE: High school preparation should include as much algebra, trigonometry, and advanced mathematics as possible as well as courses in chemistry and physics.

Students should plan to transfer after two years at UW-Eau Claire unless they decide to pursue the Dual Degree Engineering Emphasis in Physics or the Dual Degree Geological Engineering Emphasis in Geology.

Required freshman and sophomore courses include:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 114</td>
<td>Calculus I</td>
<td>4</td>
</tr>
<tr>
<td>MATH 215</td>
<td>Calculus II</td>
<td>4</td>
</tr>
</tbody>
</table>

Many fields of engineering also require chemistry, statics, dynamics, differential equations, and computer programming. Students should be aware that many engineering schools require GPAs of 2.50 or higher to be admitted to the junior year. Consult a pre-engineering advisor, because specific course and grade requirements vary among engineering fields as well as among schools of engineering.

Pre-Law

(Code 425-900)

Advisors: E. Kasper (Political Science), A. Kunz (Political Science), M. Meyer (Philosophy and Religious Studies).

Students should plan to complete a baccalaureate degree before applying for law school admission and may choose from any major program of study. Choice of major and minor fields should be done with the following information in mind, including consideration of an alternative career plan. In addition to meeting with their major advisor, students should meet with one of the Pre-law advisors early in their first semester. The American Bar Association recommends that future lawyers select a major that develops skills in reading and interpreting texts, research and writing. The skills most valued in law school are analytic and problem-solving skills and courses that challenge the student in these areas are recommended. Law school admissions are based on successful completion of the undergraduate degree and scores on the Law School Admission Test (LSAT), along with other criteria set by particular programs. Studies show that students in the following majors consistently score highly on the LSAT: Economics, Finance, History, Literature, Philosophy, Physics/Math, Political Science, and Religious Studies.

Courses which are recommended, regardless of major, are:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACCT 201</td>
<td>Introduction to Accounting</td>
<td>3</td>

<td>Logic and Critical Thinking</td>
<td>3</td>
</tr>
<tr>
<td>PHIL 310</td>
<td>Philosophy of Law</td>
<td>3</td>
</tr>
<tr>
<td>POLS 110</td>
<td>American National Politics</td>
<td>3</td>
</tr>
<tr>
<td>POLS 305</td>
<td>Survey of U.S. Constitutional Principles</td>
<td>3</td>
</tr>
<tr>
<td>Other courses dealing with the American political system</td>
<td></td>
<td></td>
</tr>
<tr>
<td>U.S. and world history courses</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Ethics courses</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Students may want to consider majoring in the Legal Studies emphasis in the Political Science Comprehensive Major or adding the Legal Studies Certificate. To obtain Pre-Law designation, contact the Political Science department chair. This designation is in addition to major, minor, and certificate program designations.

NOTE 1: The LSAT should be taken during the summer between the junior and senior year or early in the senior year (usually September or October).
NOTE 2: In addition to LSAT scores, interviews and recommendations play an important role in law school admissions.

NOTE 3: Students may want to be involved in the Pre-Law Club student organization.

**Pre-Medicine**

*(Code 706-900)*

Advisors: J. Anderson (Biology), W. Bryant (Biology), D. Gingerich (Biology), J. Halfen (Chemistry and Biochemistry).

The pre-med curriculum consists of those courses needed to meet the entrance requirements for the majority of medical schools and to prepare students to take the Medical College Admission Test. Students should plan to complete the requirements for a baccalaureate degree.

Typical first-year courses include:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 221</td>
<td>Foundations of Biology I</td>
<td>4</td>
</tr>
<tr>
<td>Select one of the following:</td>
<td></td>
<td>9-10</td>
</tr>
<tr>
<td>CHEM 115</td>
<td>Chemical Principles</td>
<td></td>
</tr>
<tr>
<td>&amp; CHEM 213</td>
<td>and Quantitative Analysis</td>
<td></td>
</tr>
<tr>
<td>OR</td>
<td>CHEM 105 General Chemistry I Lecture</td>
<td></td>
</tr>
<tr>
<td>&amp; CHEM 106</td>
<td>and General Chemistry I Laboratory</td>
<td></td>
</tr>
<tr>
<td>&amp; CHEM 109</td>
<td>and General Chemistry II with Lab</td>
<td></td>
</tr>
</tbody>
</table>

Required:

- One or two semesters of mathematics
- Completion of the University Writing Requirement

Consult an advisor for further recommendations.

NOTE 1: CHEM 105, CHEM 106, and CHEM 109 may be substituted for CHEM 115 in the biochemistry/molecular biology major, but only six of the credits will count toward the major.

NOTE 2: Students should plan to take the Medical College Admission Test (MCAT) in the late spring or early summer of the year prior to the year for which they are seeking to matriculate to medical school.

NOTE 3: Acceptance into medical schools is based on the following:

1. the student’s academic record,
2. the results of the Medical College Admission Test,
3. recommendations,
4. health-related experiences, and
5. interviews.

**Pre-Optometry**

*(Code 703-900)*

Advisor: J. Anderson (Biology).

Students should plan to spend at least two years in undergraduate study; the majority of successful applicants have three or four years of college work.

A typical first-year program includes:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 115</td>
<td>Chemical Principles</td>
<td>6-9</td>
</tr>
</tbody>
</table>

Consult an advisor for further recommendations.

NOTE: The Optometry Admission Test should be taken before the semester in which the student applies for acceptance into a school of optometry.

**Pre-Pharmacy**

*(Code 685-900)*

Advisors: S. Bailey-Hartsel (Chemistry and Biochemistry), K. Wiegel (Chemistry and Biochemistry).

The pre-pharmacy curriculum blends science and math courses with social science and humanities courses in order to prepare future pharmacists to address medical problems with the people they will serve. Most students now admitted to pharmacy schools enter with a bachelor’s degree, so students should plan to choose a major to be more competitive.

A first-year program should include:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 115</td>
<td>Chemical Principles</td>
<td>6-9</td>
</tr>
</tbody>
</table>

Required:

- Completion of the University Writing Requirement

The minimum course work admission requirements could be planned in two years if the student is prepared to start in CHEM 115 and MATH 114. More time should be allowed if the student starts in a lower level math course or takes the CHEM 105/CHEM 106/CHEM 109 sequence. The GPA of students admitted into pharmacy school is typically above 3.50. Pharmacy schools are increasingly emphasizing communication, leadership, and community service in their admissions criteria, so students should pace their work at UW-Eau Claire to develop strong records in both academics and community service. Experience
as a pharmacy technician is also helpful. Consult an advisor for information about pharmacy school admissions requirements.

**Pre-Physician Assistant**
(Code 707-900)

Advisors: J. Anderson (Biology), D. Herman (Biology).

Most physician assistant programs are at the graduate level (M.S.). Students should plan on completing a baccalaureate degree before applying to physician assistant graduate programs. Specific requirements for admission will vary among programs, and students are encouraged to consult the specific program catalog for these requirements.

In preparation, students should take: two semesters of chemistry, two semesters of physics, precalculus/calculus, biology courses including organismal form and function, microbiology, two semesters of anatomy and physiology, psychology courses, and a communication course. Other courses may be required.

Consult with an advisor for further recommendations and information, including information about regional program requirements.

**Pre-Veterinary Medicine**
(Code 708-900)

Advisors: J. Anderson (Biology), S. Showsh (Biology).

Students should plan to spend at least three years in pre-professional work. Many students complete a B.S. degree.

A typical first-year program includes:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 221</td>
<td>Foundations of Biology I</td>
<td>4</td>
</tr>
</tbody>
</table>

Select one of the following: 9-10

<table>
<thead>
<tr>
<th>Code</th>

Required: 4

MATH 114  Calculus I

Completion of University Writing Requirement

Consult an advisor for further recommendations.

**Interdisciplinary Programs**

**Interdisciplinary Curricula**

A number of interdisciplinary academic programs, majors, minors and certificates are housed in the College of Arts and Sciences or affiliated with the College. All represent collaborative efforts to provide coursework that crosses disciplines and addresses interconnections between multiple fields. The curriculum is delivered in a variety of ways. Often, faculty contribute disciplinary courses to interdisciplinary major, minor or certificate requirements and electives. Disciplinary courses may be cross-listed with an interdisciplinary prefix to highlight the contributions of the various fields. In other instances, faculty teach interdisciplinary courses exclusively or partially for the interdisciplinary program. Those with partial assignments in the interdisciplinary program also teach disciplinary courses for a “home” department. Interdisciplinary academic programs in the College of Arts and Sciences are listed alphabetically with Arts and Sciences departments.

Inquiries about the interdisciplinary majors, minors, and certificates included in this section may be directed to the identified advisor(s) or academic unit, or to the College of Arts and Sciences. Information regarding the following interdisciplinary comprehensive majors can be found in the noted departmental sections: Actuarial Science—Department of Mathematics; Chemistry with Business—Department of Chemistry and Biochemistry; Geospatial Analysis and Technology—Department of Geography and Anthropology.

**Majors**

- Comprehensive Major: Biochemistry/Molecular Biology, Liberal Arts - B.A./B.S.
- Comprehensive Major: Bioinformatics, Liberal Arts - B.A./B.S.
- Comprehensive Major: Criminal Justice, Liberal Arts - B.A./B.S.
- Comprehensive Major: Liberal Studies, Liberal Arts - B.L.S.
- Comprehensive Major: Neuroscience, Liberal Arts - B.A./B.S.

**Minors**

- Minor: Ancient Studies, Liberal Arts
- Minor: Criminal Justice Equity and Inclusivity, Liberal Arts
- Minor: European Studies, Liberal Arts
- Minor: Family Studies, Liberal Arts
- Minor: Global Studies, Liberal Arts
- Minor: Interdisciplinary Linguistics, Liberal Arts
- Minor: Marine Science, Liberal Arts
- Minor: Middle East Studies, Liberal Arts
- Minor: Multimedia Communication, Liberal Arts
- Minor: Neuroscience, Liberal Arts
- Minor: Pre-Professional Health Science, Liberal Arts
- Minor: Topical Minor, Liberal Arts

**Certificates**

- Certificate: Africana Studies
- Certificate: Ancient Studies
- Certificate: Critical Hmong Studies
- Certificate: Earth Resources
- Certificate: Health Humanities
- Certificate: Interdisciplinary Linguistics
- Certificate: Middle East Studies
- Certificate: Responsible Mining
- Certificate: Teaching English as a Foreign Language
- Certificate: Transnational Asian Studies
- Certificate: Water Resources

**Africana Studies, Certificate**
(Code 380-631)

Advisor: S. Ducksworth-Lawton (History).
African American lives. Through this program of study students will critically examine the major historical events that have created and shaped the African diaspora. They will also analyze the experiences and cultural products of people of African descent, as well as contemporary issues faced by African-Americans.

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate social, cultural, and political knowledge of major events, experiences, and cultural products of people of African descent.
- Critically examine the major historical events that have created and shaped the African diaspora, particularly blacks in the United States.
- Analyze contemporary issues faced by people of African descent in the United States.

**Ancient Studies, Certificate**

(Code 310-601)

Advisor: M. Waters (Languages).

This certificate is designed for undergraduate students with an interest in Ancient Studies. It is particularly geared toward students for whom a deeper understanding of the societies and cultures of the ancient world – foundational within a humanistic education – will complement and enhance their major area of study and/or future careers.

### Required course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 210</td>
<td>African American History 1865 to Present</td>
<td>3</td>
</tr>
</tbody>
</table>

The remaining nine credits should be chosen from courses that focus centrally on Black experiences (Core Options), though it is allowable to take one course from the Related Electives (courses that include Black experiences but are not centrally focused on those experiences):

### Core Options (minimum of six credits):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUSI 114</td>
<td>Evolution of Jazz</td>
<td></td>
</tr>
<tr>
<td>ENGL/WGSS 332</td>
<td>Women in African Literature</td>
<td></td>
</tr>
<tr>
<td>ENGL 368</td>
<td>Topics in American Ethnic Literature</td>
<td></td>
</tr>
<tr>
<td>(when African American literature/ culture is the course focus)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>ENGL 468</td>
<td>Seminar in American Ethnic Literature</td>
<td></td>
</tr>
<tr>
<td>(when African American literature/ culture is the course focus)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>HIST 344</td>
<td>African American Civil Rights Movement, 1914-Present</td>
<td></td>
</tr>
<tr>
<td>HIST 345</td>
<td>Civil Rights and American Memory</td>
<td></td>
</tr>
<tr>
<td>HIST 383</td>
<td>Modern Africa</td>
<td></td>
</tr>
<tr>
<td>RELS 342</td>
<td>African American Religion</td>
<td></td>
</tr>
<tr>
<td>POLS 353</td>
<td>Afro-American Politics</td>
<td></td>
</tr>
<tr>
<td>PSYC/WGSS 348</td>
<td>Black Psychology</td>
<td></td>
</tr>
<tr>
<td>WGSS 215</td>
<td>African-American Feminism in the Humanities</td>
<td></td>
</tr>
<tr>
<td>WGSS 222</td>
<td>Women’s, Gender, and Sexuality Studies</td>
<td></td>
</tr>
<tr>
<td>Introductory Travel Seminar (when offered as Women and the Civil Rights Movement)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### Related Electives (maximum of three credits):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 312</td>
<td>Race and Ethnicity in the U.S.</td>
<td></td>
</tr>
<tr>
<td>ECON 330</td>
<td>Experiences of Minoritized Groups in U.S. Economy</td>
<td></td>
</tr>
<tr>
<td>ENGL 268</td>
<td>Survey of American Ethnic Literature</td>
<td></td>
</tr>
<tr>
<td>(when African American literature/ culture is the course focus)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>MUSI 111</td>
<td>Global Roots of Music in the United States</td>

<tr>
<td>WGSS 315</td>
<td>Women of Color Feminisms</td>
<td></td>
</tr>
</tbody>
</table>

Special topics, internships, and umbrella courses with a focus on Africana studies may be applied to the certificate with approval of the certificate advisor.

**Note:** Courses applied to the certificate cannot be applied to the major.
Note: Courses used for the certificate cannot count for the student’s major program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Analyze diverse experiences of or viewpoints from past civilizations and cultures.
- Incorporate and assess evidence from archaeological remains; documents and inscriptions; sculpture, painting, and architecture; theory and literary patterns; and/or historical developments of these phenomena.

Ancient Studies, Minor

Liberal Arts (Code 310-401)

Advisor: M. Waters (Languages).

The minor in Ancient Studies touches upon almost every field of human inquiry: language, literature, history, politics, religion, medicine, and science, to note only a few of the broader disciplines. Students taking courses to fulfill this minor will pursue the following specific goals:

1. to enhance their appreciation and understanding of ancient languages, cultures, and their own heritage;
2. to develop students’ critical thinking abilities via language acquisition (study of grammar, translation, and interpretation), text analysis, historical perspective, and study of the influence of ancient civilizations upon subsequent periods;
3. to pursue an option within the undergraduate experience which allows one to explore in a systematic way the fundamental building blocks and materials of a liberal education and, thereby, highlight UW-Eau Claire’s goals as a liberal arts institution;
4. to develop an interdisciplinary approach to these fields of study and to discover, by study of their origins, an apprehension of the underlying reasons and methods of discourse and institutions of the western world;
5. to see ourselves in perspective, to become more enlightened citizens, and to think more deeply about the human condition and important issues in our lives—based on the bedrock of the earliest approaches, which impacted all subsequent ones, to such questions.

</tbody>
</table>

Up to three credits of Directed Studies or Independent Study for projects focusing on ancient studies may be applied to either category of the minor, with approval from the minor advisor.

1 Destination and format of course, as applicable to this minor, are subject to approval of the minor advisor.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- analyze diverse experiences of, or viewpoints from, past events or historical developments.
- recognize continuity and change over time and describe their consequences.
- construct argumentation that explains how the culture and traditions of ancient civilizations can inform the present.
- evaluate credibility, position, or perspective from various types of sources: text, image, and form.
- compare and connect regional and global civilizations, past to present.
- connect and integrate study of ancient civilizations with other disciplines.

Biochemistry/Molecular Biology, Comprehensive Major

Liberal Arts (Code 090-001)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements

<table>

</tbody>
</table>
Applicability of Credits Toward Graduation

**Junior College or Two-Year College Credits.** A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

**Extension Credits.** Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

**WTCS Credits.** A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

**USAFI Credit.** UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

**Activity Credit (band, chorus, drama, KINS 100-184 courses)** Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

**Other Restricted Credits.** For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

### Liberal Education Core

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

### Liberal Education Core Requirements

<table>
<thead>
<tr>
<th>Knowledge Goal</th>
<th>Two (2) learning experiences</th>
</tr>
</thead>
<tbody>
<tr>
<td>Knowledge Outcome 1 (K1): Natural Sciences (<a href="http://catalog.uwec.edu/undergraduate/attribute-k1/">http://catalog.uwec.edu/undergraduate/attribute-k1/</a>)</td>
<td>One experience in laboratory science must be selected from either K1 or K2.</td>
</tr>
<tr>
<td>Knowledge Outcome 2 (K2): Social Sciences (<a href="http://catalog.uwec.edu/undergraduate/attribute-k2/">http://catalog.uwec.edu/undergraduate/attribute-k2/</a>)</td>
<td>Two (2) learning experiences</td>
</tr>
</tbody>
</table>

One experience in laboratory science must be selected from either K1 or K2.
College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 090-001)

Advisors: J. Anderson (Biology), D. Gingerich (Biology), S. Hati (Chemistry and Biochemistry), S. Bailey-Hartsel (Chemistry and Biochemistry), J. Lyman Gingerich (Biology), S. Showsh (Biology).

The Biochemistry/Molecular Biology major prepares students for entry-level employment opportunities in research and development in industrial and government laboratories as well as graduate programs in molecular biology, genetics, pharmacology, biochemistry and related fields (see NOTE 2 below). This program also provides effective preparation for admission to professional schools in medicine, osteopathy, pharmacy, and dentistry. Biochemistry/Molecular Biology majors are eligible to apply for Departmental Honors in Biology or Chemistry and Biochemistry (see each department page for criteria).

</table>
Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate an understanding of foundational biological principles in the areas of information flow, exchange, and storage, pathways and transformations of energy and matter, structure and function, and systems and evolution.
- Apply the process of science.
- Communicate and collaborate and to recognize the interdisciplinary nature of science.
- Use quantitative reasoning, models and/or simulation.
- Understand the relationship between science and society.

### Sample Degree Plans

#### Biochemistry/Molecular Biology, Comprehensive Major, B.S. - (Starting in CHEM 115)

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, and no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [here](https://catalog.uwec.edu/undergraduate/graduation-requirements/) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

III. Other Course Requirements

(minimum of 13 credits)

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 114</td>
<td>Calculus I</td>
<td>4</td>
</tr>
<tr>
<td>PHYS 211</td>
<td>General Physics</td>
<td>5</td>
</tr>
<tr>
<td>PHYS 212</td>
<td>General Physics</td>
<td>4</td>
</tr>
</tbody>
</table>

Note 1: CHEM 105, CHEM 106, and CHEM 109 may be substituted for CHEM 115, but only six of the credits count toward the major.

Note 2: CHEM 433 (CHEM 434 optional) may be substituted for CHEM 406 (MATH 215 and PHYS 231, PHYS 232 required if CHEM 433 (CHEM 434) is taken.) This substitution is strongly recommended for students considering doctoral study in biophysics or physical biochemistry.

Note 3: Students are also encouraged to seek out a collaborative research experience or do independent study (BIOL 399, BIOL 499, CHEM 399, CHEM 497, or CHEM 499) in addition to their formal course work.
### RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

### Biochemistry/Molecular Biology, Comprehensive Major, B.S. - (Starting in CHEM 105, 106, 109)

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan.

Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

#### TOTAL FIRST YEAR

30
Minimum total for the baccalaureate degree = 120 credits

a. CHEM 105, CHEM 106 (K1) and CHEM 109 may be taken in place of CHEM 115, but only 6 of the 9 credits will count towards the major.
b. Prerequisites: MATH 109 or placement into math course above MATH 109: CHEM 105 and CHEM 106, or CHEM 115, or concurrent enrollment.
c. Students interested in pursuing graduate studies in biochemistry or biophysical chemistry are encouraged to take Calculus II (MATH 215) along with substituting the calculus-based sequence, PHYS 231 and PHYS 232 for PHYS 211 and PHYS 212. These students may also want to consider substituting Physical Chemistry I (CHEM 433) for Biophysical Chemistry (CHEM 406).
d. A grade of C or above in BIOL 221.
e. Electives need to be carefully selected to ensure that a student’s degree comprises at least 39 credits of upper division courses (300-400 level).

While students are encouraged to take additional courses in chemistry, electives can be selected from any discipline as long as the student meets the course prerequisites.

Note: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)
The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning; 30 hours

Additional LE Core Information
- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
• Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).

• S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.

• S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.

• S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.

• S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.

• S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.

• I1 – Any semester long study abroad program can fulfill one I1 experience.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

Applicability of Credits Toward Graduation
Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

### Liberal Education Core

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

**LIBERAL EDUCATION CORE REQUIREMENTS**

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Minimum Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Knowledge Goal</td>
<td>a minimum of 36 credits</td>
</tr>
</tbody>
</table>

**Knowledge Goal**

- **Knowledge Outcome 1 (K1): Natural Sciences**
  - Two (2) learning experiences
  - One experience in laboratory science must be selected from either K1 or K2.

- **Knowledge Outcome 2 (K2): Social Sciences**
  - Two (2) learning experiences
  - One experience in laboratory science must be selected from either K1 or K2.

- **Knowledge Outcome 3 (K3): Humanities**
  - Two (2) learning experiences
  - One experience in laboratory science must be selected from either K1 or K2.

- **Knowledge Outcome 4 (K4): Fine Arts**
  - One (1) learning experience

**Skills Goal**

- **Skills Outcome 1 (S1): Written and Oral Communication**
  - Two (2) learning experiences
  - One S1 must meet the University Writing Requirement

- **Skills Outcome 2 (S2): Mathematics**
  - One (1) learning experience
  - One S2 to meet the University Mathematics Requirement

- **Skills Outcome 3 (S3): Creativity**
  - One (1) learning experience

**Responsibility Goal**

- **Responsibility Outcome 1 (R1): Equity, Diversity, and Inclusivity**
  - Two (2) learning experiences
  - One R1 must satisfy Design for Diversity

- **Responsibility Outcome 2 (R2): Global Perspectives**
  - One (1) learning experience

- **Responsibility Outcome 3 (R3): Civic and Environmental Issues**
  - One (1) learning experience

### College Degree Requirements

**Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)**

**University Graduation Requirements.** All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

**College Graduation Requirements: Grade Point Averages.** All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

**Major-Minor and Major-Certificate Requirements.** A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

**College Credits.** Earn at least 90 credits in courses offered by the College of Arts and Sciences.

**Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)**

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).
Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

(1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 183-001)

Advisors: A. Brisbin (Mathematics), D. Gingerich (Biology), R. Gomes (Computer Science), N. Mitchell (Biology), A. Smith (Mathematics).

The comprehensive major in bioinformatics will prepare students to solve problems involving large biological data sets through interdisciplinary skills and knowledge in biology, computer science, data science, and mathematics. Through conceptual understanding and hands-on experience with real data, this program will prepare students for jobs or graduate school in bioinformatics.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Explain and apply core concepts in biology, computer science, and mathematics, especially as they apply to data analysis.
- Explain and apply the chemical principles that underlie biochemistry, molecular biology, and genomics.
- Use software to extract information from large databases and use that information in computer modeling and data analysis.
- Use problem-solving skills, including the ability to develop new algorithms and methods of data analysis.
- Explain and apply fundamental methods in probability and statistics to the analysis of biological datasets.
- Explain the intersection of life and information sciences, the core of shared concepts, language, and skills.
- Understand terminology used in molecular biology, genetics, evolutionary biology, information theory, and database management.
- Explain the construction of predictive mathematical models of biological systems.

Sample Degree Plan

Bioinformatics, Comprehensive Major, B.S.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire
cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click here (https://catalog.uwec.edu/undergraduate/graduation-requirements/#header1) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

- a In this 4 year plan, the experiences for (K2), (K3), and (K4) are listed together. The appropriate number of experiences from each learning outcome will be required.
- b Course in development.

**Minimum total for the baccalaureate degree = 120 credits**

**RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)**

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://...
studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

Students in the Bioinformatics major are encouraged to participate in student-faculty research related to bioinformatics. Consult with professors in the bioinformatics program in the spring before the year in which you would like to do research (for example, in spring of the first year to plan a research project for sophomore year).

Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

• K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
• K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
• K3 – Humanities; two experiences.
• K4 – Fine Arts; one experience.
• S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
• S2 – Mathematics; one experience (must satisfy the University math competency requirement).
• S3 – Creativity; one experience (can be fulfilled in a student’s major).
• R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
• R2 – Global Perspectives; one experience.
• R3 – Civic and Environmental Issues; one experience.
• I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
• SL—Service Learning; 30 hours

Additional LE Core Information

• Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
• Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
• S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
• S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.

• S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
• S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
• S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
• I1 – Any semester long study abroad program can fulfill one I1 experience.

Criminal Justice Equity and Inclusivity, Minor

Liberal Arts (Code 430-401)

Advisors: J. Spraitz (Criminal Justice), M. Hsieh (Criminal Justice), J. Patchin (Criminal Justice), M. Kelly (Criminal Justice), A. Wilson (Criminal Justice).

The multidisciplinary minor in Criminal Justice Equity and Inclusivity is designed for students to analyze and critique issues of diversity, equity, and inclusion in the criminal legal system in the United States. Students will examine current and historical legal and policy decisions, the context surrounding those decisions, and the impact of those decisions. Students will identify current practices, and develop new solutions, that assist in improving diverse, equitable, and inclusive practices in the criminal legal system. This minor complements majors in all colleges at the university.

- Minimum total for graduation: 120
- Upper division credits (courses numbered 300 and higher): 39
- Liberal Education Core: 36
- Academic Concentrations
- Grade Point Requirements ²

Total degree credit: 2.00 average
- Resident: 2.00 average
- Major: 2.00 average
- Minor: 2.00 average
- Certificate: 2.00 average

University Residency Requirements
- Minimum total: 30
- Senior year: 23
- Major, Standard, upper division in residence: 12
- Major, Comprehensive, upper division in residence: 21
- Certificate: 25 percent of credits

Procedures Required for Graduation
- Obtain admission to the degree program and/or the College offering it.
- Apply for graduation on CampS.

Note: Criminal Justice majors cannot pursue the Criminal Justice Equity and Inclusivity Minor.

Program Learning Options

Students completing this program will be expected to meet the following learning outcomes:

- Equity, Inclusivity, and Diversity in the U.S. Criminal Justice System: Students will analyze and critique issues related to equity, diversity, and inclusivity that are inherent to the criminal justice system in the United States, they will demonstrate knowledge of why these issues exist, and identify solutions to help resolve existing problems.
- Reasons for Inequity and Lacking Inclusivity and Diversity in the U.S. Criminal Justice System: Students will explain, analyze, and critique legal and policy decisions that led to or exacerbated equity, diversity, and inclusivity issues within the U.S. system of criminal justice.
- Knowledge of U.S. Criminal Justice Systems: Students will demonstrate knowledge of criminal justice systems in the United States, including law enforcement, the courts, and corrections.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

Extension credits
UW-System  no maximum
Other extension/correspondence  maximum ¼ of total

USAFI
USAFI  maximum 32 credits

Liberal Education Core
The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

LIBERAL EDUCATION CORE REQUIREMENTS  a minimum of 36 credits

Knowledge Goal
Knowledge Outcome 1 (K1): Natural Sciences (http://catalog.uwec.edu/undergraduate/attribute-k1/)  Two (2) learning experiences
Knowledge Outcome 2 (K2): Social Sciences (http://catalog.uwec.edu/undergraduate/attribute-k2/)  Two (2) learning experiences
Knowledge Outcome 3 (K3): Humanities (http://catalog.uwec.edu/undergraduate/attribute-k3/)  Two (2) learning experiences
Knowledge Outcome 4 (K4): Fine Arts (http://catalog.uwec.edu/undergraduate/attribute-k4/)  One (1) learning experience

Skills Goal
Skills Outcome 1 (S1): Written and Oral Communication (http://catalog.uwec.edu/undergraduate/attribute-s1/)  Two (2) learning experiences
Skills Outcome 2 (S2): Mathematics (http://catalog.uwec.edu/undergraduate/attribute-s2/)  One (1) learning experience
Skills Outcome 3 (S3): Creativity (http://catalog.uwec.edu/undergraduate/attribute-s3/)  One (1) learning experience

Responsibility Goal
Responsibility Outcome 1 (R1): Equity, Diversity, and Inclusivity (http://catalog.uwec.edu/undergraduate/attribute-R1/)  Two (2) learning experiences
Responsibility Outcome 2 (R2): Global Perspectives (http://catalog.uwec.edu/undergraduate/attribute-R2/)  One (1) learning experience
Responsibility Outcome 3 (R3): Civic and Environmental Issues (http://catalog.uwec.edu/undergraduate/attribute-R3/)  One (1) learning experience

Integration Goal
Integration Outcome 1 (I1): Integration (http://catalog.uwec.edu/undergraduate/attribute-I1/)  Two (2) learning experiences

Service-Learning Goal
Service-Learning (http://catalog.uwec.edu/undergraduate/attribute-SL/#header13)  30 hours

College Degree Requirements
Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign
language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

**Bachelor of Science Degree in the College of Arts and Sciences (B.S.)**

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

**Major Requirements**

**Liberal Arts (Code 430-001)**

Advisors: J. Spraitz (Criminal Justice), M. Hsieh (Criminal Justice), J. Patchin (Criminal Justice), M. Kelly (Criminal Justice), A. Wilson (Criminal Justice).

The multidisciplinary criminal justice curriculum is designed to familiarize the student with the complex nature of the American criminal justice system. The study of criminal justice focuses upon the structure and functions of law enforcement, the courts, and corrections. Included is the analysis of the political, social, cultural, philosophical, and psychological forces that shape the policies, programs, and practices in the system. The liberal arts orientation of the program prepares the student for graduate-level work in criminal justice, law, and for careers at the local, state, and federal levels in law enforcement, corrections, and court related agencies.

- SW 385 Child Welfare
- SOC 312 Race and Ethnicity in the U.S.
- SOC 316 Sociology of Family
- SOC 321 The Individual in Society
- SOC 332 Sociological Research Methods
- SOC 351 Sociology of Deviance

**Criminal Justice Intervention and Application Area:**

- CRMJ 498 Criminal Justice Internship
- PSYC 325 Theories of Counseling
- PSYC 346 Positive Psychology
- PSYC 357 Ethics in Psychology
- PSYC 380 Introduction to Behavior Modification
- SW 490 Mental Health and Substance Abuse

**Skills Area:**

Maximum of six credits from the following:

- CJ/WGSS 111 Gender, Race, Class, and Communication: The Social Construction of Identity
- CJ 201 Introduction to Interpersonal Communication
Students completing this program will be expected to meet the following learning outcomes:

- Research & Analysis: CRMJ students will be able to develop hypotheses, construct research questions, and use appropriate methods to answer them and analyze findings.
- Criminological Theory: CRMJ students will analyze core criminological theories of criminal and deviant behavior and apply them to policy and practice.
- Law Enforcement: CRMJ students will demonstrate knowledge of roles, function, and effectiveness of law enforcement agencies and practices at each level of government.
- Law & the Courts: CRMJ students will demonstrate knowledge of the nature and rule of law as well as its limits and applications in the United States as related to the functioning of state and federal court systems.
- Corrections: CRMJ students will demonstrate knowledge of roles, function, and effectiveness of correctional agencies and practices at each level of government.
- Evidence-Based Prevention: CRMJ students will analyze impact and outcome evaluations and demonstrate knowledge of best practices in crime prevention.
- Juvenile Justice: CRMJ students will demonstrate knowledge of the core tenets of the juvenile justice system in the United States.
- Oral & Written Communication: CRMJ students will be able to speak and write effectively.

### Sample Degree Plan

#### Criminal Justice, Comprehensive Major, B.A.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [here](https://catalog.uwec.edu/undergraduate/graduation-requirements/) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

The following courses will be applied to a specific elective category based on the content:

- CRMJ 291: Special Topics
- CRMJ 395: Directed Studies
- CRMJ 397: Student Academic Apprenticeship in Criminal Justice
- CRMJ 399: Independent Study - Juniors
- CRMJ 491: Special Topics
- CRMJ 499: Independent Study - Seniors

### Criminal Justice Honors Program

1. **Goals**
   a. To provide an enriched educational experience for subsequent graduate study, professional activity, public life, or citizenship.
   b. To encourage concentrated study in selected areas in the field of criminal justice.
   c. To stimulate and challenge exceptional students to gain a better understanding of the issues, substantive content, research and theory in criminal justice.
   d. To develop capabilities for independent thought and constructive criticism.

2. **Entrance Requirements**
   a. Eligibility: Upper-class majors with resident and total GPAs of 3.50 and resident and total GPAs of 3.50 in criminal justice major courses.
   b. Applications for the Honors Program should be made in writing to the Criminal Justice Program Coordinating Committee early in the junior year.

3. **Graduation from the University with Honors in Criminal Justice**
   requires maintaining resident and total GPAs of 3.50 in criminal justice major courses, and satisfactory completion of all of the following:
   a. Criminal justice major requirements.
   b. Six credits of independent study, approved by the student’s honors committee.
   c. An honors examination.
   d. An honors research paper.

---

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

- Research & Analysis: CRMJ students will be able to develop hypotheses, construct research questions, and use appropriate methods to answer them and analyze findings.
- Criminological Theory: CRMJ students will analyze core criminological theories of criminal and deviant behavior and apply them to policy and practice.
- Law Enforcement: CRMJ students will demonstrate knowledge of roles, function, and effectiveness of law enforcement agencies and practices at each level of government.
b. MATH 246 fulfills the Statistics requirement in the Criminal Justice curriculum.

c. Criminal Justice majors need to earn 21 total credits from the Criminal Justice Group Elective courses, distributed across the following: Group A – Law, Constitution, Policy Area (minimum of 6 credits); Group B – Individual, Social, Political Behavior Area (minimum of 6 credits); Group C – Intervention and Application Area (no minimum or maximum requirement); Group D – Skills Area (maximum of 6 credits).

Group A options: PHIL 120 (K3, R3); PHIL 310; POLS 305 (K2, R3); POLS 338; POLS 343; POLS 346; POLS 403; POLS 404; POLS 406; SW 100 (R1, R2), SW 383.

Group B options: CRMJ 325, CRMJ 350, CRMJ 359; POLS 329; POLS 350 (DDIV, K2, R1); POLS 353; PSYC 245; PSYC 251; PSYC 331; PSYC 332 (K2, R1); SW 309; SW 385; SOC 312 (DDIV, R1); SOC 316 (R1); SOC 321; SOC 332; SOC 351; WGSS 310 (K3, R1).

Group C options: CRMJ 498 (Service Learning); PSYC 325; PSYC 346; PSYC 357; PSYC 380.

Group D options: CJ 111 (DDIV, I1, R1); CJ 201 (K2, S1); CJ 202 (S1); CJ 301 (DDIV, R1, R3); GEOG 280; GEOG 335; PHIL 150.

The following will be applied to specific categories based on content: CRMJ 291; CRMJ 395; CRMJ 397; CRMJ 399; CRMJ 491; CRMJ 499.

Additional Information:
The Criminal Justice program has entered into an Articulation Agreement with the Chippewa Valley Technical College (CVTC) 720-hour Law Enforcement Academy. The agreement allows CRMJ majors to obtain their Wisconsin law enforcement certification during their junior or senior year and transfer up to 12 credits back to UWEC; 6 credits will go towards Elective Group C in the CRMJ Program. Majors who are interested in going into law enforcement should consider this option. You must speak with the CRMJ Program Coordinator prior to pursuing this option (Dr. Jason Spraitz – spraitjd@uwec.edu). There are limited seats in the CVTC academy and acceptance is highly competitive and not guaranteed.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

CRMJ 498 – Criminal Justice Internship: Completion of an internship is not required, but many students choose to do one. Students must be declared CRMJ majors and be juniors with approximately 30 credits applied to the major. Department consent is required and placement may be competitive. Note: Completion of CRMJ 498 fulfills your 30-hour Service Learning requirement and counts as a CRMJ Group C elective.

Student-Faculty Collaborative Research: Criminal Justice faculty have active research agendas and often include students on their projects. If interested in learning more, speak with your Criminal Justice professors. It's recommended that you complete CRMJ 103 and CRMJ 280 before participating in research, but not required.

Course Information
a. Required placement test score will determine course eligibility.
Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning; 30 hours

Additional LE Core Information

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).

- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.

Critical Hmong Studies, Certificate

(Code 295-602)

For advising, contact the Department of Race, Ethnicity, Gender, and Sexuality Studies.

The Critical Hmong Studies Certificate program is designed for students who have a strong interest in studying Hmong history, culture, society, language, and contemporary issues. The certificate might appeal to students who have limited opportunity to explore academic areas beyond their major discipline, or those who interact with Hmong communities on a professional basis.

The certificate consists of core and elective credits. Elements of the certificate would include (1) Hmong History; (2) Culture, Politics & Society; (3) Critical Race Theory (CRT); (4) Language and/or Electives.

Variable credit options

Travel seminars focused on Hmong Studies including HMNG 341 and HMNG 342

Various courses with either Hmong or Hmong-American content or CRT or indigenous approach

Other distance learning options, in collaboration with other institutions/UW campuses when focused on Hmong Studies

Note: Courses cannot be counted in both the major and the certificate program.

Program Learning Outcome

Students completing this program will be expected to meet the following learning outcomes:

- Understand Hmong history, politics, and/or cultural transformations in the U.S.
- Effectively articulate how the theory of intersectionality can explain contemporary Hmong identities and social issues in a comparative manner.
- Utilize decolonizing methodologies and skills-based competency to studying and/or engaging with Hmong communities in the U.S.
Earth Resources, Certificate
(Code 160-603)
Advisor: P. Ihinger (Geology and Environmental Science).

The Department of Geology and Environmental Science administers an Earth Resources certificate. This certificate provides non-Geology majors with core science, policy, and communication skills to better understand complex environmental issues involving mineral and water extraction and usage. The certificate would be ideal for Business, Communication, Economics, Geography, Journalism, Political Science, and Integrated Strategic Communication: Public Relations majors, who might need to communicate with scientists, engineers, politicians, and advocacy groups about environmental issues.

Note: Students cannot pursue the Geology major and the Earth Resources certificate to meet graduate requirements for completing a first and second degree program.

Program Learning Outcomes
Students completing this program will be expected to meet the following learning outcomes:

- Explain Earth processes.
- Use mathematics and computational methods to analyze scientific and geological data.
- Read, write, and critically evaluate geological papers.
- Construct an internally consistent geological map utilizing field data, topographic maps, geological maps, air photos, geographic information systems (GIS) data, and geological cross sections.
- Use analytical and quantitative methods to evaluate an environmental problem.

European Studies, Minor
Liberal Arts (Code 331-403)
Advisor: P. Turner (History).

The European Studies Minor is designed:

1. to develop a multidisciplinary understanding of the peoples and cultures of Europe and its neighbors;
2. to provide a broad program for students interested in international relations; and
3. to promote the evaluation of European systems, institutions and relationships of power in a historical, political and geographical context.

Total Credits  24

1 European languages applicable to the minor include French, German, Greek, Latin, Russian and Spanish. Other European languages not offered by UW-Eau Claire may count toward the minor with program advisor approval. Students may count up to 8 language credits toward the minor.

2 Consult with program advisor for approved study abroad experiences.

3 Courses undertaken as part of a study abroad can also count toward the minor. Consult with program advisor.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

• Acquire a multidisciplinary understanding of the peoples and cultures of Europe and its neighbors;
• Analyze, interpret, and evaluates European systems, institutions, and relationships of power in a historical, political, and geographical context;
• Develop an appreciation for European languages and their socio-cultural contexts.

Family Studies, Minor

Liberal Arts (Code 487-401)

For advising, contact the Sociology Department.

The interdisciplinary Family Studies Minor is designed to:

1. enhance students’ understanding of the issues and problems confronting contemporary families from sociological, developmental, psychological, historical, religious, economic, and anthropologic perspectives;
2. examine the well-being of diverse individuals and families over the lifespan including the dynamic relations within families and the interaction between families and society;
3. provide an interdisciplinary liberal arts base for students who wish to pursue graduate study and careers working to improve the lives of individuals, families and communities; and
4. provide a knowledge of family studies that will foster personal and social development of the individual student.

Remaining credits to be selected from courses included in Categories A, B, C, and D and/or up to 3 credits from Directed Studies, Independent Study, Internship, or Special Topics courses that focus on family issues may be applied to the minor with approval from the Family Studies Minor Coordinator.

NOTE 1: Student may not take both CJ 201 and CJ 203 for credit in the minor.

NOTE 2: No more than 12 credits from any course prefix may be counted toward the minor. ANTH/WGSS, CJ/WGSS, ECON/WGSS, HIST/WGSS, PSYC/WGSS, RELS/WGSS, and SOC/WGSS courses will count as ANTH, CJ, ECON, HIST, PSYC, RELS, or SOC credits, respectively, for the purpose of this limitation.

NOTE 3: Many courses in the minor have prerequisites. Check the catalog for details.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Describe issues and problems confronting contemporary families from a variety of perspectives.
- Identify the developmental changes of individuals and families over the lifespan.
- Compare family life in historical and contemporary contexts.
- Identify and explain public policy influences that affect the well-being of families.

Global Studies, Minor

Liberal Arts (Code 424-400)

Advisors: A. Abootalebi (Political Science), M. DaCosta (Economics), or D. Shih (English). Students pursuing a major in the College of Business should see their major advisor for information about the Global Studies Minor.

The interdisciplinary minor in Global Studies is designed to enhance students’ understanding of other languages, diverse cultures, and global issues. It provides students with the knowledge and skills that can be used in a changing and increasingly interdependent world. It also offers curricular options that encourage participation in other international studies programs as well as study abroad and internship options.

Code | Title | Credits
--- | --- | ---
ECON 104 | Principles of Macroeconomics | 3
POLS 102 | Introduction to Politics | 3
or POLS 122 | Introduction to World Politics | 3
Select one of the following: | | 3

RELS 307  Judaism
RELS 309  Islam
RELS 312  Buddhism: Past and Present
RELS 314  Hinduism
RELS 323  Chinese and Japanese Religions
RELS 378  The Holocaust, 1933-1945
RELS/AIS 330  Indigenous Religions of the Americas

Note 1: A maximum of 12 credits from the student’s major can count toward the Global Studies Minor.

Note 2: It is not likely that students in majors other than Music will have the prerequisites for MUSI 303.

Program Learning Outcomes
Students completing this program will be expected to meet the following learning outcomes:

• a historical perspective of international life, cultures, and countries;
• an understanding of economic and financial differences that often define life in other countries and account for life experiences, education, and social development;
• an understanding of the social and cultural differences that serve to define life in international communities;
• an understanding of world politics and the influence of private and public organizations that are transforming power and social interactions around the world;
• an understanding of world geography by studying the production, exchange, consumption patterns, and development of international communities;
• an understanding of foreign languages that will prepare them for study abroad experiences as well as employment in multinational companies, governmental agencies, education, social work, and health service organizations.

Health Humanities, Certificate
(Code 380-632)

Advisor: L. Rice (History).

The Certificate in Health Humanities is an integrative and interdisciplinary program designed for all students interested in gaining a deeper understanding of illness, suffering, healing, aging, and dying as human experiences on an individual level and in community. Students will use the humanities and social sciences to explain historical and modern-day constructions of health; explore issues in humane health care; and develop skills that make them effective healthcare advocates for themselves and others: observation, analysis, communication, critical-thinking, empathy, and self-reflection.

A minimum of 15 credits, of which at least six credits must be at the 300-level or above, and no more than two courses from the same prefix.

A minimum of one approved High Impact Practice that is centered in the health humanities (internship, undergraduate research, immersion or service learning). See program advisor for approval of High Impact Practice.

Note 1: A maximum of 12 credits from the student's major can count toward the Global Studies Minor.

Note 2: It is not likely that students in majors other than Music will have the prerequisites for MUSI 303.
Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Students will use the humanities and the social sciences to explain historical and modern-day constructions of health, illness, and death.
- Students will demonstrate interdisciplinary preparation for humane healthcare through a deeper understanding of (and empathy for) impairment, illness, suffering, healing, aging, and dying as human experiences on an individual level and in community.
- Students will develop skills that make them effective healthcare advocates for themselves and others: observation, analysis, communication, critical thinking, empathy, and self-reflection.

Interdisciplinary Linguistics, Certificate

(Code 570-601)

For advising, contact the English Department.

Linguistics bridges the social sciences and humanities, applying scientific methods and perspectives to the study of language, a fundamental human behavior and social institution. The Interdisciplinary Linguistics certificate offers a focused program of study in the structure, acquisition, and/or social functions of language, drawing on theories and methodologies of one or more disciplines. The goal of the program is to enhance students’ abilities to reason about language by providing opportunities to analyze the sounds, words, sentences and/or meanings of natural language; to describe variation and change in natural language; and to form and test hypotheses about language by collecting, organizing, and analyzing linguistic data. While not in itself a professional certification, a linguistics certificate could enhance the career options of students majoring or minoring in computer science, English, languages, teaching English as a second/foreign language, elementary and secondary education, among others.

Code | Title | Credits
--- | --- | ---
ENGL 221 | Introductory English Linguistics | 3

Select nine credits of linguistics electives from the following courses:

- ANTH 315 Language in Culture and Society
- CSD 262 Phonetics: Theory and Application
- CSD 301 American Sign Language Semantics
- CSD 302 American Sign Language Linguistics
- ENGL 321 Topics in the Structure of English
- ENGL 325 Topics in Language in Society
- ENGL 421 Seminar in Linguistic Research
- FLG 378 Second Language Acquisition Theory
- FREN 325 Pronunciation
- GERM 325 The German Sound System
- GERM 413 Structure of German in Contrast

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Read and interpret text from a variety of critical perspectives.
- Write effectively for different purposes and audiences.
- Plan, conduct, and document research using appropriate sources.
- Describe the dynamic nature, diversity, and structure of the English language.

Interdisciplinary Linguistics, Minor

Liberal Arts (Code 570-402)

For advising, contact the English Department.

The ability to communicate through language is a fundamental part of being human. What is the nature of human language? Where did it come from? How is it acquired? Researchers from fields spanning the university have attempted to answer these questions, applying the perspectives of the humanities such as languages and philosophy, the social sciences such as anthropology, psychology, and sociology, and even the natural sciences such as computer science and neuroscience. Students in the Interdisciplinary Linguistics minor will investigate the structure, acquisition, and social functions of human language by drawing on the theories and methodologies of multiple disciplines.

Code | Title | Credits
--- | --- | ---
ENGL 221 | Introductory English Linguistics | 3

Twenty-four semester credits, including at least 12 credits at the 300 level or higher, as follows:

Core Courses - 9 credits from the following:

- ANTH 315 Language in Culture and Society
- CSD 262 Phonetics: Theory and Application
- ENGL 221 Introductory English Linguistics
- ENGL 321 Topics in the Structure of English
- ENGL 325 Topics in Language in Society

Elective Courses - 15 credits from the following:

Additional core courses may be taken as electives. ENGL 321 and ENGL 325 may be taken a second time with a different topic. Electives may also be chosen from the following:

- CJ/WGSS 111 Gender, Race, Class, and Communication: The Social Construction of Identity

Note: Students may not pursue the Interdisciplinary Linguistics certificate and the English Linguistics major or the Spanish Linguistics major as their first and second degree programs for purposes of graduation. Also, if the Interdisciplinary Linguistics certificate is a student’s second program, courses that count in the certificate may not be applied to the student’s major for purposes of graduation.
**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

- Analyze linguistic data to form and test hypotheses in one or more of the following areas of linguistic structure: Sounds (phonology), Words (morphology), Sentences (syntax), Meanings (semantics).
- Apply knowledge of linguistics (broadly defined) to issues relating to the use of language.
- Plan, conduct, and document linguistic (broadly defined) research using appropriate sources.

**Procedures Required for Graduation**

- Obtain admission to the degree program and/or the College offering it.
- Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

---

**Applicability of Credits Toward Graduation**

**Junior College or Two-Year College Credits.** A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

**Extension Credits.** Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

**WTCS Credits.** A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

**USAIF Credit.** UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

**Activity Credit (band, chorus, drama, KINS 100-184 courses)** Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

**Other Restricted Credits.** For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.
The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

### Liberal Education Core

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

### College Degree Requirements

#### Bachelor of Liberal Studies

**University Graduation Requirements.** All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

**College Graduation Requirements: Grade Point Averages.** All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and certificate are computed similarly.

**Major-Minor and Major-Certificate Requirements.** A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.
Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

**College Credits.** Earn at least 90 credits in courses offered by the College of Arts and Sciences.

**Bachelor of Liberal Studies Degree in the College of Arts and Sciences (B.L.S.)**

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work).

**Major Requirements**

**Liberal Arts (Code 370-001)**

For advising, contact D. Tschida, Director of Liberal Studies, Department of Communication and Journalism.

The Liberal Studies Comprehensive Major (LSCM) is an alternative way to complete a major not offered at UW-Eau Claire. Students majoring in Liberal Studies develop their own individualized program of study or set of courses including the primary academic theme/major; three interdisciplinary areas of concentration exploring the theme/major, each built from courses selected primarily from multiple departments within the College of Arts and Sciences; and the three required Liberal Studies core courses (LS 201, LS 301, and LS 480). Courses in the LSCM may also satisfy UW-Eau Claire’s Liberal Education requirements.

Through this structure, the Liberal Studies major offers students an opportunity to connect several areas of academic interest that are not located in any single discipline or major. Students in Liberal Studies have a unique opportunity to benefit from coursework in departments across the university and to build an educational experience that is highly relevant to their professional and personal goals. Liberal Studies majors are required to take advantage of UW-Eau Claire’s strong tradition in student-faculty collaborative research by developing and implementing a capstone project especially related to integrating the three concentrations of their LSCM primary academic theme.

An important first step for each Liberal Studies major is to develop and formally propose their individualized program of study in consultation with a faculty advisor familiar with one or more of the interdisciplinary concentrations in that program of study. The Director of Liberal Studies will assist in this process. In the second step, students will work with the Director of Liberal Studies to submit their completed plans to the Liberal Studies Steering Committee (LSSC) for review and approval. This committee consists of faculty and professional advisers that have worked with Liberal Studies majors in different settings.

In order to graduate with a LSCM, students must complete the requirements specified for the Bachelor of Liberal Studies (BLS) (see degree program requirements for the College of Arts and Sciences). The BLS degree is designed to help students develop the breadth of knowledge and skills that represent the core of liberal education, including knowledge of human cultures and the natural world; communication, critical thinking, problem solving, and analytical skills; and teamwork and collaborative abilities. The BLS degree also explores differences, commonalities, and interconnections among academic disciplines, including methods of inquiry and problem solving that are favored in these disciplines. Skills in written and oral communication, critical analysis, teamwork, and application of academic findings to professional contexts are also emphasized in the Liberal Studies program.

**Admission to Major Requirement:** Completion of LS 201 and approval of a program of study.

<table>

<td>3</td>
</tr>
<tr>
<td></td>
<td>Three Theme- or Discipline-Based Concentrations (minimum 17 credits each and at least 51 credits total)</td>
<td>51</td>
</tr>
</tbody>
</table>

Each individually-designed major program must be formally proposed and approved. This program plan describes the primary theme, three interdisciplinary areas of concentration that explore the primary theme, and coursework to be completed for the Liberal Studies Comprehensive Major. Each major program must include at least 39 credits from College of Arts and Sciences course work and a minimum of 21 upper-division credits. To graduate with a Liberal Studies Comprehensive Major, students must complete the requirements specified for the Bachelor of Liberal Studies Degree.

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

- Develop and implement a research, scholarly, or creative project.
- Integrate knowledge and/or theories from more than one field of study or perspective to solve problems or answer questions students identify.
- Discuss the differences and commonalities that characterize the disciplines, and those discipline’s approach(es) to problems or questions, within their liberal studies comprehensive major.
- Be able to evaluate changes in their own learning by building upon past experiences that have occurred over multiple and diverse academic disciplinary contexts.

**Sample Degree Plan**

**Liberal Studies, Comprehensive Major, B.L.S.**

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1.
to represent the learning outcomes students will meet via completion of their liberal education course work. Please click here (https://catalog.uwec.edu/undergraduate/graduation-requirements/#header1) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Every student majoring in Liberal Studies completes three required courses totaling 9 credits and develops and proposes an individualized program of study. The program of study includes a minimum of 51 credits (at least 17 credits from each of three concentrations that when linked together constitute a coherent theme). Each program must also include at least 39 credits from College of Arts and Sciences course work and a minimum of 21 upper-division credits.

<td></td>
</tr>
</tbody>
</table>

1 It is highly recommended students discuss their interest in a Liberal Studies degree with the Director of Liberal Studies in addition to an ARCC advisor and to get their degree completed proposal to the Director during their 3rd year – preferably no later than February. Selecting for courses in the proposal, adjusting course scheduling on the proposal to match when courses are offered, and securing the approval of the proposal by the Liberal Studies Steering Committee is time-intensive and sensitive. Students are not guaranteed an approved proposal simply because they have completed a large number of credits toward graduation.

Minimum total for the baccalaureate degree = 120 credits

Note: All students must complete the 30-hour Service-Learning Requirement via non-credit or credit option (see University Graduation Requirements).

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, (https://studyabroad.apps.uwece.edu/) Intercultural Immersion (https://www.uwec.edu/immersion/), Internship, (https://www.uwec.edu/career-services/info-students/internships/) and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning; 30 hours

Additional LE Core Information

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one S1 experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.
Marine Science, Minor

Liberal Arts (Code 150-400)

Advisors: D. Lonzarich (Biology) [On-Campus Affiliate Coordinator] or K. Syverson (Geology and Environmental Science).

This minor is designed for students who are majoring in biology, chemistry, geography, or geology and who are interested in Marine Science. Requirements for this minor include one academic course at the Gulf Coast Research Lab (GCRL) in Ocean Springs, Mississippi and at least one other credit-bearing academic experience (i.e., coursework, internship or research) at a marine laboratory or field location (developed in consultation with Marine Science Minor academic advisor). Remaining credits are to be earned from courses at UW-Eau Claire or GCRL.

<td></td>
</tr>
</tbody>
</table>

Note: A maximum of 12 credits from this minor can count toward the student’s major.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate a general understanding of fundamental concepts in marine science, including principles of geological, physical, chemical, and biological processes in the marine environment.
- Demonstrate a general understanding of common laboratory, field, and modeling methods used in marine science.
- Demonstrate a general understanding of how human activities impact the marine environment and how the marine environment impacts human activities.

Middle East Studies, Certificate

(Code 355-601)

Advisor: S. Fink (Philosophy and Religious Studies).

The Certificate in Middle East Studies is designed for students who have a strong interest in Middle East Studies, but are not able to complete the requirements for a minor in Middle East Studies.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Twelve semester credits from at least three prefixes,</td>

<td></td>
</tr>
</tbody>
</table>

NOTE 1: Courses cannot be counted in both the major and the certificate program.

NOTE 2: Though there are no program prerequisites for the Certificate in Middle East Studies, there may be prerequisites for some of the courses that are a part of the Certificate.

Program Learning Options

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate basic knowledge of Middle Eastern history, politics, religion, and culture.
- Apply a variety of methodological approaches in carrying out research in Middle Eastern studies.
- Deconstruct uniform conceptions of the Middle East through familiarity with the diversity of Middle Eastern culture and society.

Middle East Studies, Minor

Liberal Arts (Code 355-400)

Advisor: S. Fink (Philosophy and Religious Studies).

This minor examines issues in the Middle East from a variety of disciplinary perspectives and includes study of a Middle East language as an option.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Twenty-four semester credits of which students can take no</td>
<td></td>
</tr>
<tr>

<tr>
<td></td>
<td>minimum of nine credits at the 300- or 400-level.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>The Background.</td>
<td></td>
</tr>
</tbody>
</table>

Minimum two courses from the following:
FLG 101  Beginning Foreign Language I (must be in Arabic, Turkish, Persian, or Modern Hebrew)

FLG 102  Beginning Foreign Language II (must be in Arabic, Turkish, Persian, or Modern Hebrew)

RELS 100  Introduction to the Religions of the World

RELS 307  Judaism

RELS 309  Islam

HIST 292  Origins of Current World Conflicts

HIST 302  Ancient Near Eastern Civilizations

HIST 382  Imperialism Since 1800

POLS 334  International Political Economy

The Middle East.

Minimum three courses from the following:

- GEOG 319  Geography of the Middle East and North Africa
- POLS 321  Politics of the Middle East
- POLS 336  Arab-Israeli Conflict
- SOC 304  Sociology of the Middle East

Students may substitute an independent study, special topics, or directed studies course with a focus on the Middle East for a course from either category with consent of the minor advisor.

NOTE 1: ENGL 330 may be substituted for any course in The Middle East category if the topic is Middle Eastern.

NOTE 2: Students are encouraged to complete a study abroad program in a Middle Eastern country and will be able to transfer credits from that program into the minor.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate basic knowledge of Middle Eastern history, politics, religion, and culture.
- Speak, write, and read at an elementary level in a Middle Eastern language.
- Apply a variety of methodological approaches in carrying out research in Middle Eastern studies.
- Deconstruct uniform conceptions of the Middle East through familiarity with the diversity of Middle Eastern culture and society.

Multimedia Communication, Minor

Liberal Arts (Code 608-400)

Advisor: G. Vadhavkar (Communication and Journalism).

The ability to develop ideas and present them through a variety of media is indispensable in our communication-rich society. The interdisciplinary minor in Multimedia Communication prepares students to analyze audiences, frame arguments, express themselves clearly in the written and spoken word, understand basic principles of visual design, gather and edit audio and video, and use web-based software to publish their work. Students take courses from the domains of visual communication (Art, Communication & Journalism), written communication (Communication & Journalism, English) and computer programming (Computer Science). The minor is suitable for students who would benefit from the ability to communicate information from their disciplines to a variety of audiences.

Note: Courses counted in the core cannot be used to fulfill requirements in elective credit domains. Because the minor is designed to broaden students’ knowledge and skills in multimedia communication no more than nine credits in the prefix of a student’s major may be counted toward the minor.

<table>

Three credits from one of the following:

- ENGL 220  Introduction to Creative Writing
- ENGL 307  Editing and Publications Management
- ENGL 312  Science Writing
- ENGL 313  Technical Writing
- ENGL 314  Cultural Rhetorics

Elective Courses 12

No more than six credits of electives may be taken in any one prefix. An English course counted in the core cannot be used to fulfill an elective requirement. Computer Science majors may not select CS 319 to meet any minor requirement.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Communicate ideas through a variety of media.
- Demonstrate technical skills needed for communication in multiple media.
- Craft written messages adapted to audience and purpose, and appropriate for use in multimedia materials.
- Craft visual strategies adapted to audience and purpose, and appropriate for use in multimedia materials.
- Make programming choices that are adapted to audience and purpose.

2 See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

Liberal Education Core
The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 / CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and
minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work; mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of 5 in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

**Major Requirements**

**Liberal Arts (Code 445-001)**

Advisors: B. Carter (Biology), D. Jewett (Psychology), D. Leland (Psychology), D. Matthews (Psychology).

This comprehensive major will ground students in current neuroscience traditions while enhancing existing neuroscience research using a multidisciplinary learning approach that is built upon a core curriculum from biology, chemistry, philosophy, mathematics, and psychology. The comprehensive major is intentionally integrative in design and encourages transformative learning via an engaging, multidisciplinary curriculum and embedded high impact practices, such as undergraduate research opportunities, and by enhancing critical thinking both inside and outside the classroom.

</tr>
</tbody>
</table>

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

- Identify and describe the main concepts and methodologies of the interdisciplinary field of neuroscience.
- Demonstrate critical thinking skills by analyzing and evaluating neuroscience primary literature.
- Communicate effectively in a variety of formats (oral, written, technological).
- Apply ethical standards to evaluate neuroscience research and applications.
- Formulate career plans based on accurate self-assessment of abilities, motivation, and personal demeanor.
Sample Degree Plans

Neuroscience, Comprehensive Major, B.S., Chemistry Track

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click here (https://catalog.uwec.edu/undergraduate/graduation-requirements/#header1) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

Total 30

Minimum total for the baccalaureate degree = 120 credits

a CHEM 115 may be taken in place of CHEM 105, CHEM 106 (K1) and CHEM 109
b Introductory level PHIL course may count towards one or two LE categories, depending on selected course
Note 1: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

Note 2: Neuroscience majors who plan to add pre-professional health tracks to their major should consult with their ARCC Advisor and/or Health Careers Center Advisor to select electives and create a graduate plan.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

Neuroscience, Comprehensive Major, B.S., Math Track

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education core course work. Please click here (https://catalog.uwec.edu/undergraduate/graduation-requirements/#header1) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

LE Core.

Students must complete a minimum of 36 credits in courses approved for the LE Core. The LE Core comprises 17 learning experiences across 11 learning outcomes.

Liberal Education Core (LE Core)

Liberal Education (LE) Core Guidance

into your time at UW-Eau Claire.

www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/

Internships:

www.uwec.edu/studyabroad/apps.uwec.edu/

Study-abroad.apps.uwec.edu/

more information about incorporating HIPs like high impact opportunities available. Talk to your academic advisor for their faculty advisor for information on HIPs. There are many additional when those HIPs best fit into the degree plan. Students should also consult their major studies. Additionally, the Neuroscience Minor curriculum provides interdisciplinary, intersecting with many other fields of study and thought central role in determining human health and disease. Neuroscience is devoted to the understanding of the brain and the nervous system. The brain is the control system for the body and therefore has a critical role in determining human health and disease. Neuroscience is interdisciplinary, intersecting with many other fields of study and thought including psychology, biology, philosophy, and medicine. Students who major in these areas should find the Neuroscience Minor a desirable complement to their major studies. Additionally, the Neuroscience Minor curriculum provides valuable preparation for students who intend to enter postgraduate programs related to neuroscience and medicine.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

**Note 1:** All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

**Note 2:** Neuroscience majors who plan to add pre-professional health tracks to their major should consult with their ARCC Advisor and/or Health Careers Center Advisor to select electives and create a graduation plan.

**Additional LE Core Information**

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).

**Neuroscience, Minor**

**Liberal Education (LE) Core Guidance**

**Liberal Education Core (LE Core)**

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning: 30 hours

**Neuroscience, Minor**

**Liberal Arts (Code 081-401)**

Advisor: B. Carter (Biology).

Neuroscience is devoted to the understanding of the brain and the nervous system. The brain is the control system for the body and therefore has a critical role in determining human health and disease. Neuroscience is interdisciplinary, intersecting with many other fields of study and thought including psychology, biology, philosophy, and medicine. Students who major in these areas should find the Neuroscience Minor a desirable complement to their major studies. Additionally, the Neuroscience Minor curriculum provides valuable preparation for students who intend to enter postgraduate programs related to neuroscience and medicine.

<tr>
<td></td>
<td>Twenty-four semester credits required, including:</td>
</tr>
</tbody>
</table>

**Foundation Courses:**
IDIS 125 | Brain: Introduction to Neuroscience | 4
BIOL 221 | Foundations of Biology I | 4

A minimum of three core courses chosen from:

BIOL 350 | Systems Neuroscience
BIOL 351 | Systems Neuroscience Lab
BIOL 358 | Cellular and Developmental Neuroscience
PSYC 362 | Clinical Neuroscience
PSYC 374 | Cognitive Neuroscience
PSYC 387 | Behavioral Neuroscience

Electives:

BIOL 305 | Molecular and Cell Biology
BIOL 319 | Animal Form and Function
BIOL 323 | Genetics
BIOL 324 | Genetics Inquiry
BIOL 359 | Biology of Stress
BIOL 365 | Animal Behavior
BIOL 380 | Endocrinology
BIOL 405 | Advanced Cell and Molecular Lab
BIOL 409 | Molecular Genetics
CSD 440 | Neurological Aspects of Communication & Cognition
PHIL 343 | Philosophy of Mind
PSYC 363 | Psychology of Addictions
PSYC 366 | Statistical Methods in Psychology II
PSYC 372 | Individual Differences and Behavior Genetics
PSYC 376 | Psychology of Perception
PSYC 377 | Psychopharmacology
PSYC 379 | Cognitive Psychology

Up to three credits of approved neuroscience-related research or academic experience from the following courses may be applied to the minor with consent of the advisor:

BIOL 296 | Student Academic Experience
BIOL 399 | Independent Study - Juniors
BIOL 496 | Student Academic Apprenticeship
BIOL 497 | Senior Research Presentation
BIOL 499 | Independent Study - Seniors
PSYC 396 | Research Apprentice in Psychology
PSYC 397 | Student Academic Apprenticeship in Psychology
PSYC 399 | Independent Study - Juniors
PSYC 499 | Independent Study - Seniors

1 Biology majors may not count BIOL 221 toward this minor.

Note: A maximum of 12 credits from the minor may count toward the Biology or Psychology majors.

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

- Identify and describe the main concepts and methodologies of the interdisciplinary field of neuroscience.
- Demonstrate critical thinking skills by analyzing and evaluating neuroscience primary literature.
- Communicate effectively in a variety of formats (oral, written, technological).
- Apply ethical standards to evaluate neuroscience research and applications.
- Formulate career plans based on accurate self-assessment of abilities, motivation, and personal demeanor.

### Pre-Professional Health Science, Minor

**Liberal Arts (Code 709-400)**

For advising, contact one of the pre-professional advisors listed with the pre-professional program of interest or contact the Biology Department for a referral.

This minor is designed for students preparing for post-baccalaureate health profession programs. Students in pre-dentistry, pre-optometry, pre-chiropractic, pre-pharmacy, pre-physical therapy, and other pre-professional health programs, as found in this catalog, may find this minor helpful in planning a baccalaureate degree. Because admission requirements vary widely among graduate programs, it is strongly recommended that the student consult with an advisor listed with the pre-professional program of interest. This minor may not be appropriate preparation for some graduate-level health profession programs.

NRSN 389 Cross Cultural Health
PH 450 Epidemiology
PHIL 306 Ethics of Health Care
PHYS 212 General Physics
or PHYS 232 University Physics II
PSYC 230 Human Development

1 No credit for BIOL 214 unless BIOL 314 is taken.

Note: A minimum of 48 unique credits must be earned between the student’s major and this minor for purposes of meeting graduation requirements for first and second degree programs.

Program Learning Outcomes
Students completing this program will be expected to meet the following learning outcomes:

- Understand foundational biological principles in the areas of cell/molecular biology, genetics, and structure & function of organisms.
- Demonstrate the ability to read critically, reason analytically, and communicate persuasively around health and scientific topics from a humanities and humanistic social science perspective.

Responsible Mining, Certificate
(Code 160-602)
Advisor: K. Syverson (Geology and Environmental Science).

The Department of Geology and Environmental Science administers a Responsible Mining certificate. This certificate is intended for STEM majors who wish to add valuable skills to their already marketable liberal arts degree from UW-Eau Claire. Students with this certificate will be well prepared for a career in responsible development through proper selection and permitting of economic deposits, managing environmental compliance, conducting environmental remediation, and working for environmental and hydrogeologic consulting firms. Students would also be prepared to join state regulatory agencies such as the DNR and protect the environment through enforcing regulations, restoring brownfields, and managing water resources.

<table>

ENV/GEOG 377 U.S. Environmental and Sustainability Policy
GEOL 365 Economic Mineral Deposits
GEOL 452 Responsible Mining Seminar
Quantitative Core (choose one):
MATH 246 Elementary Statistics
MATH 345 Introduction to Probability and Mathematical Statistics
Environmental Courses (choose one):
BIOL 338 Vegetation Ecology
GEOL 416 Hydrogeology II

Communication Skills (3 crs):
CJ 203 Fundamentals of Human Communication

An internship in mining, environmental consulting, or a regulatory agency is strongly recommended, but not required.

Note: Students cannot pursue the Geology major and the Responsible Mining certificate to meet graduation requirements for completing a first and second degree program.

Program Learning Outcomes
Students completing this program will be expected to meet the following learning outcomes:

- Explain Earth processes.
- Use mathematics and computational methods to analyze scientific and geological data.
- Read, write, and critically evaluate geological papers.
- Construct an internally consistent geological map utilizing field data, topographic maps, geological maps, air photos, geographic information systems (GIS) data, and geological cross sections.
- Use analytical and quantitative methods to evaluate an environmental problem.

Teaching English as a Foreign Language, Certificate
(Code 550-601)
Advisor: K. Kong (Languages).

The Teaching English as a Foreign Language (TEFL) Certificate provides course work designed to provide the basics for future EFL teachers including a required teaching experience by taking FLG 375.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>

<td>3-6</td>
</tr>
</tbody>
</table>
Program Learning Outcomes
Students completing this program will be expected to meet the following learning outcomes:

- Apply knowledge of language acquisition, linguistics, student learning, and pedagogical theory to instructional design.
- Plan, implement and reflect on teaching practices using appropriate resources.
- Engage learners in interactive activities through various differentiated teaching approaches.

Topical Minor, Minor
Liberal Arts (Code 610-401)

A Topical Minor is an interdisciplinary minor composed of 24 semester credits selected by a student to meet the student’s own interests and scholarly objectives. Students should choose courses for the minor based on a coherent theme. Most students who propose a topical minor do so after earning 30 credits but before earning 90 credits. Students must meet all prerequisite coursework requirements and other prior eligibility benchmarks, such as achieving an appropriate grade point average. In the case of courses offered in one of the professional colleges, students must meet college admission requirements or students must obtain permission from the College before enrollment is possible. A Topical Minor is not intended to duplicate any major or minor offered as a regular program within the University of Wisconsin System.

The student who wishes to develop a Topical Minor must adhere to the following requirements.

- **Minimum credits:** 24 semester credits.
- **Interdisciplinary Breadth Requirement:** Of the 24 credits, there must be at least two course prefixes present among these credits and no more than 15 credits from any single prefix.
- **Unique Credit Requirement 1:** A student may not apply a course that counts toward credits in their major to the Topical Minor.
- **Unique Credit Requirement 2:** No more than six credits from a student’s major prefix may be used in the Topical Minor.
- **Depth Requirement:** At least 12 of the 24 credits must be from courses numbered 300 or above.
- **College Home:** For a Topical Minor to reside in the College of Arts and Sciences, prefixes from at least 15 of the 24 credits must be from the College of Arts and Sciences.
- **Submission Requirement:** To propose a Topical Minor, a student should work with a faculty advisor and then launch a proposal to be routed through the advisor, and then to the College of Arts and Sciences for approval.

Transnational Asian Studies, Certificate
(Code 380-630)

Advisor: R. Shinno (History).

The Transnational Asian Studies Certificate allows students to broadly explore Asia and the Asian diaspora and to gain knowledge of the experiences of people of Asian ancestry.

Note 1: With approval of the certificate advisor, courses such as the following may be applied to this certificate program when a substantial portion of the course covers topics on the lives of Asians, Asian Americans, and/or people of Asian ancestry outside of the U.S.: ENGL 230, ENGL 268, ENGL 330, ENGL 368, ENGL 396, WGSS 396, FLG 150, FLTR 392, HIST 317, HIST 319, IDIS 301, RELS 100, SOC 301, Honors courses, Special Topics courses.

Note 2: A maximum of three credits may be applied to both the student’s major and the certificate program.
Note 3: Courses on Asian languages other than Chinese, Hmong, or Japanese may count toward the certificate, with approval of the certificate advisor.

Note 4: With approval of the certificate advisor, courses taken during a study abroad program(s) may apply to this certificate. Students are encouraged to communicate with the certificate advisor prior to the departure.

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcome:

- Develop a depth of knowledge about the experiences of the people of Asian ancestry.

---

**Water Resources, Certificate**

(Code 160-601)

Advisor: S. Clark (Geology and Environmental Science).

The Department of Geology and Environmental Science administers a Water Resources certificate. This certificate is intended for students who plan to enroll in a Master’s degree program in Water Resource Management, students interested in careers in environmental policy or environmental law, and any STEM and Geography majors interested in broadening their understanding of water-related topics. Holistic water resources management integrates insights from a wide range of disciplines. The flexibility of this certificate allows individuals to tailor their course selection to focus on the aspects of water resources that are most relevant to each student’s specific interests.

**Minimum of 15 credits required:**

<td>RELS 100</td>
<td>Introduction to the Religions of the World</td>
<td></td>
</tr>
<tr>
<td>RELS/WGSS 203</td>
<td>Women and World Religions</td>
<td></td>
</tr>
</tbody>
</table>

Note: Courses cannot be counted in both the major and the certificate program.

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:
Recognize both continuity and change over time and describe their consequences.

Compare and connect local and global histories.

American Indian Studies

Program Website ([https://www.uwec.edu/academics/college-arts-sciences/departments-programs/american-indian-studies/](https://www.uwec.edu/academics/college-arts-sciences/departments-programs/american-indian-studies/))

The American Indian Studies Program at the University of Wisconsin-Eau Claire is committed to the study of the cultures, values, history, and contemporary life of the Indigenous nations and peoples of North America. Through courses from selected academic departments and interactions with American Indian professionals, elders, and peers, all students will acquire intercultural knowledge and enhance their intercultural competence. The program administers a major, minor, and certificate in American Indian Studies with these goals:

- To prepare students with intercultural competencies which will support their success as citizens of the world.
- To extend students’ oral and written communication skills through research projects in their course work and with student-faculty research collaborations.
- To envision education and community as a partnership in which all participants work toward greater understanding and respect for the richness and diversity of American Indian cultures.
- To build and support cooperative relationships with tribal communities within and around Wisconsin; other academic institutions, especially tribal colleges; and the local Eau Claire community.
- To teach students to be conversant with Indigenous protocols.
- To prepare students to work effectively in and around tribal and urban communities.
- To provide outreach and community service opportunities that will help promote the cultural, educational, and economic development of the region.

Faculty
Heather Ann Moody, Program Director
Brian McInnes

Majors
- Major: American Indian Studies, Liberal Arts - B.A./B.S.

Minors
- Minor: American Indian Studies, Liberal Arts

Certificates
- Certificate: American Indian Studies

American Indian Studies, Certificate
(Code 530-601)

The American Indian Studies certificate is a stand-alone credential which can enhance all students' majors and minors. It is designed for students with an interest in American Indian Studies but are unable to complete a major or minor in American Indian Studies. The certificate is of particular value to health care professionals; educators; social workers; and business managers and administrators in tribal enterprises. In addition to personal growth in cultural competency, this certificate will provide students from all backgrounds with the fundamental knowledge and skills for various career paths that connect with Indigenous or diverse populations.

- AIS 444 Indigenous Theory and Methodologies
- AIS 480 Capstone
- AIS 491 Special Topics
- AIS 498 Internship
- AIS 499 Independent Study
Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Define and apply the concept of tribal sovereignty in contemporary America; the ability to do so is particularly necessary where there are jurisdictional issues at hand such as within criminal justice as it is necessary to understand the differences between state, tribal, and federal jurisdiction.
- Explain the status of federally recognized tribes in relation to federal, state, and local governments, as well as private enterprise.
- Identify examples of stereotypes and issues of cultural appropriation/exploitation of Indigenous people.

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

\(^1\) Certain programs exceed this minimum.

\(^2\) See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

Liberal Education Core
The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

College Degree Requirements
Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)
Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 / CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)
Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and
minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work; mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of 5 in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

**Major Requirements**

**Liberal Arts (Code 530-201)**

This interdisciplinary major is designed to offer a range of courses to meet the career goals and needs of students:

1. who wish to enter a profession related to tribal affairs, tribal heritage centers, and business enterprises;
2. who have decided to pursue graduate study in Anthropology, History, Museum Studies, English, and Casino Management;
3. who are American Indian and seek to learn more about their culture and heritage; and
4. who are drawn to the major because of its broad interdisciplinary education.

In addition, the major, minor, and certificate in American Indian Studies are designed to complement degree programs in Nursing, Education, Business, Social Work, English, and History, among other areas.

**Course Requirements**

**Thirty-six semester credits in American Indian Studies courses, including:**

**Independent Study**

Seminars and special topics courses dealing with American Indians can also be considered for credit and transfer credit as elective courses.

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate an understanding of the inherent diversity of U.S. American Indian nations and how that has transformed throughout time.
  - Students explain the importance of place and culture for American Indian peoples.
  - Students analyze the impact of change throughout the history of American Indian peoples and communities.
  - Students explain how music, literature, and/or art are products and expressions of cultural and historical processes.
- Explain the status of federally recognized tribes in relation to federal, state, and local government, as well as private enterprises.
  - Students explain the historical and political background of American Indian communities.
  - Students define and apply the concept of tribal sovereignty in contemporary America.
  - Students define and apply the concept of treaties, historically and contemporarily.
- Exhibit an understanding of the critical issues within American Indian Studies and gain an awareness of social justice issues within Indian Country.
  - Students describe examples of identity, colonialism, stereotypes, resistance, survivance, and/or issues of cultural appropriation/exploitation of Indigenous people.
  - Students analyze the impact of systems, institutions, and issues in historical and contemporary times.
  - Students apply the ability to interact respectfully with others and suspend judgment, understanding that judgments may be culturally biased and exclusive.
- Apply skills, knowledge, or methodologies gained in one academic or experiential context to a new context to solve problems or address complex issues with sufficient support.
Students develop the ability to work effectively in and around tribal and urban Native communities.

Students practice culturally sensitive dispositions as they engage with American Indians in the university community, as well as tribal and urban communities within and around Wisconsin.

Students develop research skills with a special emphasis on interdisciplinary studies.

Sample Degree Plans

American Indian Studies, Major, B.A.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog.uwec.edu/undergraduate/graduation-requirements/) here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

**FIRST YEAR**

| FIRST SEMESTER | AIS 243 Introduction to Contemporary American Indian Communities (LE-K3, LE-R1) | 3 |
| LE Option: Knowledge 1 (K1) Natural Sciences | 3-4 |

| SECOND SEMESTER | AIS 240 American Indian History (LE-K3, LE-R1) | 3 |
| LE Option: Knowledge 2 (K2) Social Sciences | 3 |

**SOME TIME IN THE SECOND YEAR**

| AIS Elective | 3 |
| LE Option: Responsibility 2 (R2) Global Perspectives | 3 |
| Second Program Course | 3 |
| AIS Elective | 3 |
| LE Option: Responsibility 3 (R3) Civic and Environmental Issues | 3 |
| Second Program Course | 3 |

**TOTAL SECOND YEAR**

30-31

**THIRD YEAR**

| FIRST SEMESTER | AIS 300+ level Elective | 3 |
| AIS Elective | 3 |
| Second Program Course | 3 |

| SECOND SEMESTER | AIS 343 Contemporary American Indian Communities (DII, LE-R1, LE-R3) | 3 |
| AIS Elective | 3 |
| Second Program Course | 3 |

**SOME TIME IN THE THIRD YEAR**

| LE Option: Integration (I1) | 3 |
| LE Option: 300 level Upper Division | 3 |
| LE Option: 300 level Upper Division | 3 |
| LE Option: 300 level Upper Division | 3 |

**TOTAL THIRD YEAR**

30

**FOURTH YEAR**

| FIRST SEMESTER | AIS 444 Indigenous Theory and Methodologies | 3 |
| Second Program Course - Upper Division | 3 |
| Second Program Course | 3 |

| SECOND SEMESTER | AIS 480 Capstone | 3 |
| Second Program Course - Upper Division | 3 |
| Second Program Course | 3 |

**SOME TIME IN THE FOURTH YEAR**

| LE Option: 300 level Upper Division | 3 |
| LE Option: 300 level Upper Division | 3 |
| LE Option: 300 level Upper Division | 3 |
| LE Option: 300 level Upper Division | 3 |

**TOTAL FOURTH YEAR**

30

Minimum total for the baccalaureate degree = 120 credits

**Note:** All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

**Course Suggestions**
We encourage students to take elective courses, for both LE and AIS that compliment their career path within the American Indian Studies major.

Please work with your advisor to select the appropriate coursework.

Several electives can fulfill multiple LE requirements, the courses below are recommended for fulfilling the remainder of the requirements for the degree: ANTH 161 (K2), ANTH 315, CJ 201 (K2 S1), ENPH 150 (K1 R3), GEOG 111 (K2 I1), GEOG 178 (I1), LAS 314, RELS 110 (K3 R2), WGSS 111 (R1 I1).

Recommended AIS Courses based on emphasis: AIS 242 (Film), AIS 260 (Treaty Rights), AIS 322 (Geog), AIS 335 (Arth), AIS 337 (Arth), AIS 346 (Literature), AIS 369 (Hist)

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

The American Indian Studies Program offers a variety of High Impact Practice possibilities for students. The variety allows for students to tailor their experience to their academic career and individual interests. Students are encouraged to work with their advisor on what HIP would be most beneficial.

Due to the flexibility of the AIS major, students can fit a HIP into their program easily throughout the 2nd, 3rd, and 4th years, although internships and research experiences would be recommended in the 3rd and 4th years. The following is a list of HIPs that are available to AIS majors:

- Domestic Intercultural Immersion Experience (past immersion experiences include Pine Ridge Reservation and Water Protectors of Wisconsin)
- Course-Related Field Trips (previous trips include Ho-Chunk Nation, Menominee Tribal Enterprises, Prairie Island (MN), Oneida Nation)
- Course-Related Studies
  - AIS 395 Directed Studies
  - AIS 399 Independent Study
  - AIS 499 Independent Study
  - AIS 498 Internship
  - Student-Faculty Collaborative Research/Summer Undergraduate Research Experience

American Indian Studies, Major, B.S.
The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [here](https://catalog.uwec.edu/index.php?c=Undergraduate&g=Graduation-requirements/) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

### THIRD YEAR

**FIRST SEMESTER**
- AIS 300-level Elective 3
- AIS Elective 3
- Second Program Course 3

**SECOND SEMESTER**
- AIS 343 Contemporary American Indian Communities (DII, LE-R1, LE-R3) 3
- AIS Elective 3
- Second Program Course 3

**SOME TIME IN THE THIRD YEAR**
- LE Option: Integration (LE-I1) 3
- LE Option: 300-level Upper Division 3
- LE Option: 300-level Upper Division 3
- LE Option: 300-level Upper Division 3

**TOTAL THIRD YEAR** 30

**FOURTH YEAR**

**FIRST SEMESTER**
- AIS 444 Indigenous Theory and Methodologies 3
- Second Program Course - Upper Division 3
- Second Program Course 3
- AIS 480 Capstone 3
- Second Program Course - Upper Division 3

**SOME TIME IN THE FOURTH YEAR**
- LE Option: 300-level Upper Division 3
- LE Option: 300-level Upper Division 3
- LE Option: 300-level Upper Division 3
- LE Option: 300-level Upper Division 3

**TOTAL FOURTH YEAR** 30

Minimum total for the baccalaureate degree = 120 credits

**Note:** All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see Undergraduate Graduation Requirements).

**Course Suggestions**
We encourage students to take elective courses, for both LE and AIS that compliment their career path within the American Indian Studies major.

Please work with your advisor to select the appropriate coursework. Several electives can fulfill multiple LE requirements, the courses below are recommended for fulfilling the remainder of the requirements for the degree: ANTH 161 (K2), ANTH 315, CJ 201 (K2 S1), ENPH 150 (K1 R3), GEOG 111 (K2 I1), GEOG 178 (I1), LAS 314, RELS 110 (K3 R2), WGGSS 111 (R1 I1).

Recommended AIS Courses based on emphasis: AIS 242 (Film), AIS 260 (Treaty Rights), AIS 322 (Geog), AIS 335 (Arth), AIS 337 (Arth), AIS 346 (Literature), AIS 369 (Hist)

**RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)**
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

The American Indian Studies Program offers a variety of High Impact Practice possibilities for students. The variety allows for students to tailor their experience to their academic career and individual interests. Students are encouraged to work with their advisor on what HIP would be most beneficial. Due to the flexibility of the AIS major, students can fit a HIP into their program easily throughout the 2nd, 3rd, and 4th years, although internships and research experiences would be recommended in the 3rd and 4th years. The following is a list of HIPs that are available to AIS majors:

- Domestic Intercultural Immersion Experience (past immersion experiences include Pine Ridge Reservation and Water Protectors of Wisconsin)
- Course-Related Field Trips (previous trips include Ho-Chunk Nation, Menominee Tribal Enterprises, Prairie Island (MN), Oneida Nation)
- AIS 395 Directed Studies
- AIS 399 Independent Study
- AIS 499 Independent Study
- AIS 498 Internship
- Student-Faculty Collaborative Research/Summer Undergraduate Research Experience

**Liberal Education (LE) Core Guidance**

**Liberal Education Core (LE Core)**
The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning: 30 hours

**Additional LE Core Information**
• Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).

• Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).

• S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.

• S1 – A foreign language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.

• S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.

• S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.

• S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.

• I1 – Any semester long study abroad program can fulfill one I1 experience.

American Indian Studies, Minor

Liberal Arts (Code 530-401)

The minor, like the major and certificate, is designed to provide both American Indian and non-Indian students with a broad understanding of the distinctive lifeways, politics, and histories of a number of tribal nations. Students will also learn about the philosophical and religious systems, the art, and literatures developed by past and contemporary American Indian tribes and individuals.

A maximum of one language course can count to the minor.

Seminars and special topics courses dealing with American Indians will also be given consideration for credit.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

• Explain the status of federally recognized tribes in relation to federal, state, and local government, as well as private enterprises.

• Define and apply the concept of tribal sovereignty in contemporary America.

• Describe examples of identity, colonialism, stereotypes, resistance, survivance, and/or issues of cultural appropriation/exploitation of Indigenous people.

• Analyze the impact of systems, institutions, and issues in historical and contemporary times.

• Apply the ability to interact respectfully with others and suspend judgment, understanding that judgments may be culturally biased and exclusive.

• Practice culturally sensitive dispositions as they engage with American Indians in the university community, as well as tribal and urban communities within and around Wisconsin.

Art & Design

Haas Fine Arts 104
715-836-3277
Department Website (https://www.uwec.edu/academics/college-arts-sciences/departments-programs/art-design/)
Honor Societies and Student Organizations

- ASO, Art Student Organization - The Art Student Organization brings together students who are interested in art and the visual arts and who seek social and community engagement within the department and on campus. ASO strives to inspire creativity and connect students by hosting events and activities, participating in field trips, serving the community through art, and promoting art. Meetings and activities help members meet other students, get to know professors, and learn about internships, research, and other professional development opportunities. ASO is open to all students, not just art majors and art and art history minors.
- NOTA, None of the Above (https://www.uwec.edu/academics/college-arts-sciences/departments-programs/art-design/explore-opportunities/student-organizations/) - For 43 years, the campus literary magazine None of the Above, NOTA, is a student run operation that publishes a biannual collection of the top student submissions in the categories of art, poetry, and prose. It is the mission of NOTA to showcase the creative works of University of Wisconsin-Eau Claire students with multiple publications throughout the academic year, open mic readings, and through other events planned by NOTA staff. Though this organization is primarily affiliated with English, art students regularly contribute artwork and participate with publication design, layout and printing.

Programs

The Department of Art & Design is a flourishing community of students and faculty engaged in creating a visually stimulated world. We are dedicated to delivering comprehensive and innovative experiences by promoting practice in foundation skills, creative exploration, and historical knowledge. Students are encouraged to thrive in self-motivated programs and participate in local and collaborative projects, internships, travel experiences, and other opportunities to develop and contribute their skills and capabilities. As part of a liberal arts university, art & design students integrate learning from across the arts and sciences with their art major.

Art & Design majors choose one of the following degrees:

- 36-credit Bachelor of Arts (B.A.) or Bachelor of Science (B.S.) in Studio Art;
- 60-credit B.A. or B.S. in Studio Art or in Graphic Communications;
- 69-credit Bachelor of Fine Arts (B.F.A.) in Integrative Visual Arts.

All Art & Design degrees provide a broad art foundation with the opportunity to take elective studio classes in specific areas of interest. Our programs support students with a passion for such classic fields as graphic design, illustration, painting, photography, sculpture, and ceramics to develop their skills in those areas. At the same time, we encourage students to expand traditional boundaries and engage a variety of media to develop thematic interests that intersect with such things as community, society, environment, sustainability, space, place, and identity.

Additional information specific to the B.F.A., a nationally recognized degree with high standards for excellence, follows.

B.F.A. Requirements

The Bachelor of Fine Arts is designed for students interested in pursuing graduate studies or professional careers in the visual arts. The Integrative Visual Arts Comprehensive Major provides the most integrated and immersive studio experience with advanced levels of artistic exploration, experience, and focus.

After completing their foundations courses and numerous core visual arts courses, students will apply to participate in a B.F.A Review (typically toward the end of the second year). They will be required to present a portfolio of their creative work for the review, which has been developed and maintained from the beginning of their studies. The review is used by instructors to help advise and guide students in their development. The portfolio will eventually be a critical tool for students to present themselves to the art and design world as they continue to utilize it throughout their coursework. Once accepted to continue the program after the Review, students will complete the B.F.A. degree plan and are required to participate in a Senior Exhibition.

Advising and Additional Information

Advising

Art & Design maintains annual degree plans and check sheets with suggested four-year course sequences for each major and minor. These materials are available in the Art & Design Office and on the Department’s Blugold Insider page. Students are responsible for working closely with their advisors to develop personal action plans. They are encouraged to use the degree plans and check sheets for these meetings.

Additional Information

NOTE 1: A student may take a maximum of nine credits of advanced studio courses in one semester. Some advanced studio courses are offered on a variable credit basis and may be repeated for additional credit. The total number of advanced studio credits which may be applied to a degree program will vary and is to be determined through consultation with the major advisor.

NOTE 2: Students must be prepared to pay for any materials, supplies, equipment, and/or services deemed in excess of the amount and kind the University provides for necessary instructional purposes.

Certificates

- Certificate: Arts Administration

Art History, Minor

Liberal Arts (Code 030-401)
Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

NOTES: Students pursuing the Minor: Art History and Major: Art, Studio Emphasis can overlap a maximum of 12 credits between major and minor programs.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Analyze the form of art.
- Use knowledge about historical context to explain art.
- Apply an appropriate methodology or critical theory to an art historical research topic.

Art, Integrative Visual Arts, Comprehensive Major

**College Degree Requirements**

**Bachelor of Fine Arts**

**University Graduation Requirements.** All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

**College Graduation Requirements: Grade Point Averages.** All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and certificate are computed similarly.

**Major-Minor and Major-Certificate Requirements.** A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

**College Credits.** Earn at least 90 credits in courses offered by the College of Arts and Sciences.

**Bachelor of Fine Arts Degree in the College of Arts and Sciences (B.F.A.)**

Fulfilment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency can be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).
Major Requirements
(Code 020-024)

The B.F.A. degree is designed for students interested in pursuing graduate studies (e.g., Masters of Fine Arts programs) or professional careers in the visual arts. The Integrative Visual Arts Comprehensive Major provides the most integrated and immersive studio experience with advanced levels of artistic exploration, experience, and focus. This major encourages students with specific interests, (e.g., in such fields as graphic design, illustration, photography, ceramics, etc.) to expand traditional boundaries and engage a variety of media and their entanglements.

Majors will also be encouraged to consider how a thematic selection of integrated electives can enhance their educational experience as they pursue their professional aspirations while taking creative risks that help them grow as artists. Following are just a few examples of how some of a student’s integrated electives in studio or art history can be selected and organized with intention and diversity:

- **Theme: Form and Space; Example courses:** Intermediate Sculpture, Intermediate Ceramics, Painting—Space and Process, History of Photography, Advanced Studio Practice
- **Theme: Sequential Expression; Example courses:** Illustration Narratives, Video for Artists, Visual Communications, Digital Painting, Artists Books
- **Theme: Communication in Contemporary Culture; Example courses:** Visual Communications, Intermediate Photography, Illustration Editorials, UX Design, History of Graphic Design, Advanced Studio Practice

### Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Implement the Principles of Art and Design.
- Create art/design concepts that demonstrate critical and analytical thinking.
- Develop creative solutions to artistic and intellectual problems.
- Demonstrate an understanding of art/design history.
- Conduct research about the contexts of art/design.
- Demonstrate awareness of diverse audiences.
- Develop a cohesive portfolio of artwork and clearly describe its purpose verbally and in writing.
- Prepare professional presentations and documentation of artwork as necessary to pursue professional endeavors.

### Sample Degree Plan

**Art, Integrative Visual Arts, Comprehensive Major, B.F.A.**

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click the catalog link for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

**TOTAL CREDITS FOURTH YEAR**

29

---

**Minimum total for the baccalaureate degree = 120 credits**

**Service-Learning**

All candidates for the baccalaureate degree at the University of Wisconsin-Eau Claire must satisfactorily complete 30 hours of approved service-learning activity. This requirement is intended to provide students with an opportunity to serve their community, apply knowledge gained in the classroom, enhance their critical thinking skills, and become informed, active, and responsible citizens. A Service-Learning Guidebook is available on the Service-Learning website.

**RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)**

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

**Liberal Education (LE) Core Guidance**

**Liberal Education Core (LE Core)**

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- **K1** – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K2** – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K3** – Humanities; two experiences.
- **K4** – Fine Arts; one experience.
- **S1** – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- **S2** – Mathematics; one experience (must satisfy the University math competency requirement).
- **S3** – Creativity; one experience (can be fulfilled in a student’s major).
• R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
• R2 – Global Perspectives; one experience.
• R3 – Civic and Environmental Issues; one experience.
• I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
• SL—Service Learning; 30 hours

Additional LE Core Information

• Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
• Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
• S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
• S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
• S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
• S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
• S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
• I1 – Any semester long study abroad program can fulfill one I1 experience.

Art, Liberal Arts, Graphic Communications Emphasis, Comprehensive Major

Liberal Arts (Code 020-007)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements

| Minimum total for graduation | 120 |
| Upper division credits (courses numbered 300 and higher) | 39 |
| Liberal Education Core | 36 |

Academic Concentrations

| Grade Point Requirements | 2.00 average |
| Total |  |
| Resident |  |
| Major | 2.00 average |
| Minor | 2.00 average |
| Certificate | 2.00 average |

University Residency Requirements

| Minimum total | 30 |
| Senior year | 23 |
| Major, Standard, upper division in residence | 12 |
| Major, Comprehensive, upper division in residence | 21 |
| Certificate | 25 percent of credits |

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICATION OF CREDITS TOWARD GRADUATION

| Credit Restrictions |  |
| Total degree credit | maximum 12 |
| **Major, Standard** | maximum 1 course |
| **Major, Comprehensive** | maximum 2 courses |
| **Minor** | maximum 1 course |

### Credit by Examination

| **Total degree credit** | maximum ¼ of total |
| **Major or minor** | maximum ½ of total |

### Two-Year College Credits

| **Total degree credit** | maximum 72 credits |

### Activity credit (band, chorus, drama, KINS 100-184)

| **Total KINS 100-184** | maximum 1 credit |
| **Total Band, chorus, drama** | maximum 12 credits |
| **Single course band, chorus, drama** | maximum 4 credits |

### Extension credits

| **UW-System** | no maximum |
| **Other extension/ correspondence** | maximum ¼ of total |

| **USAFAI** | maximum 32 credits |

### Liberal Education Core

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

| **LIBERAL EDUCATION CORE REQUIREMENTS** | a minimum of 36 credits |

#### Knowledge Goal

| Knowledge Outcome 1 (K1): Natural Sciences | Two (2) learning experiences |
| Knowledge Outcome 2 (K2): Social Sciences | Two (2) learning experiences |
| Knowledge Outcome 3 (K3): Humanities | Two (2) learning experiences |
| Knowledge Outcome 4 (K4): Fine Arts | One (1) learning experience |

#### Skills Goal

| Skills Outcome 1 (S1): Written and Oral Communication | Two (2) learning experiences |
| Skills Outcome 2 (S2): Mathematics | One (1) learning experience |
| Skills Outcome 3 (S3): Creativity | One (1) learning experience |

#### Responsibility Goal

| Responsibility Outcome 1 (R1): Equity, Diversity, and Inclusivity | Two (2) learning experiences |
| Responsibility Outcome 2 (R2): Global Perspectives | One (1) learning experience |
| Responsibility Outcome 3 (R3): Civic and Environmental Issues | One (1) learning experience |

#### Integration Goal

| Integration Outcome 1 (I1): Integration | Two (2) learning experiences |

### Service-Learning Goal

Service-Learning (http://catalog.uwec.edu/undergraduate/attribute-SL/#header13) 30 hours

### College Degree Requirements

#### Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

#### University Graduation Requirements

All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

#### College Graduation Requirements: Grade Point Averages

All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

#### Major-Minor and Major-Certificate Requirements

A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.
Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

**College Credits.** Earn at least 90 credits in courses offered by the College of Arts and Sciences.

**Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)**

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

**Bachelor of Science Degree in the College of Arts and Sciences (B.S.)**

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 111. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

**Major Requirements**

**Liberal Arts (Code 020-007)**

This major is designed to provide students with a liberal arts experience in art or design, creating a well-rounded education that combines artistic interests with other academic disciplines. It provides an excellent technical, conceptual, creative, and aesthetic foundation for broader career options.

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

- Implement the Principles of Design.
- Create design concepts that demonstrate critical and analytical thinking.
- Develop creative solutions to artistic and intellectual problems.
- Demonstrate an understanding of design history.
- Conduct research about the contexts of design.
- Demonstrate awareness of diverse audiences.

**Sample Degree Plan**

**Art, Liberal Arts, Graphic Communications Emphasis, Comprehensive Major, B.A.**

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-
I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [here](https://catalog.uwec.edu/undergraduate/graduation-requirements/) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

Minimum total for the baccalaureate degree = 120 credits

- Interdisciplinary Elective – The Graphic Communications area of study requires the integration of courses from the Communication and Journalism and/or the Computer Science departments. Choose three courses from the following list:
  - CJ 184: Multimedia Communication
  - CJ 202: Fundamentals of Speech
  - CJ 260: Introduction to Integrated Strategic Communication
  - CS 318: Fundamentals of Web Page Design
  - CS 319: Introduction to Web Programming
  - CS 320: Web Database Design and Implementation
  - CS 322: Animation Programming

- Six credits of electives with the ART prefix must be upper level (courses numbered 300 and higher) to meet University requirements.

- Recommended Art History elective – ARTH 333: Themes in Contemporary Art
- ART 476 is only offered in the fall semesters, and ART 477 is only offered in the spring semesters.

### Service-Learning

All candidates for the baccalaureate degree at the University of Wisconsin-Eau Claire must satisfactorily complete 30 hours of approved service-learning activity. This requirement is intended to provide students with an opportunity to serve their community, apply knowledge gained in the classroom, enhance their critical thinking skills, and become informed, active, and responsible citizens. A Service-Learning Guidebook is available on the Service-Learning website.
RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)
The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning: 30 hours

Additional LE Core Information
- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.
Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are
normally limited to one-fourth of the total required for graduation from any curriculum.

**WTCS Credits.** A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

**USAFI Credit.** UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

**Activity Credit (band, chorus, drama, KINS 100-184 courses)** Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

**Other Restricted Credits.** For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

**LIBERAL EDUCATION CORE REQUIREMENTS**

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

**Knowledge Goal**

<table>
<thead>
<tr>
<th>Knowledge Goal</th>

Achieve a score on the mathematics placement test that qualifies the or Sciences course work); mathematics competency at the minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Liberal Education Core); all College-level degree requirements (major and Fulfillment of all University Graduation Requirements (which includes the Sciences (B.S.) Bachelor of Science Degree in the College of Arts and Sciences.

College Degree Requirements Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of three ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 020-006)

This major is designed to provide students with a liberal arts experience in art or design, creating a well-rounded education that combines artistic interests with other academic disciplines. It provides an excellent technical, conceptual, creative, and aesthetic foundation for broader career options.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Implement the Principles of Art.
- Create art concepts that demonstrate critical and analytical thinking.
- Develop creative solutions to artistic and intellectual problems.
- Demonstrate an understanding of art history.
- Conduct research about the contexts of art.
- Demonstrate awareness of diverse audiences.
Sample Degree Plan
Art, Liberal Arts, Studio Art Emphasis, Comprehensive Major, B.A.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [https://catalog.uwec.edu/undergraduate/graduation-requirements/] here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

**TOTAL CREDITS FOURTH YEAR**  
27

**Minimum total for the baccalaureate degree = 120 credits**

---

a Studio Area Requirement – The Studio Art area of study requires a diverse experience of various media. Choose four courses from the following list:

- ART 240: Intermediate Drawing
- ART 244: Introduction to Painting
- ART 249: Introduction to Printmaking
- ART 264: Beginning Sculpture
- ART 281: Introduction to Photography as an Art Form
- ART 357: Introduction to Ceramics
b Fifteen (15) credits of electives with the ART prefix must be upper level (courses numbered 300 and higher) to meet University requirements.

Service-Learning
All candidates for the baccalaureate degree at the University of Wisconsin-Eau Claire must satisfactorily complete 30 hours of approved service-learning activity. This requirement is intended to provide students with an opportunity to serve their community, apply knowledge gained in the classroom, enhance their critical thinking skills, and become informed, active, and responsible citizens. A Service-Learning Guidebook is available on the Service-Learning website.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)
The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning; 30 hours

Additional LE Core Information

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.

Procedures Required for Graduation
Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://catalog.uwec.edu/undergraduate/attribute-k1/ or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 020-208)

This major program is designed to liberally educate a student with knowledgeable foundations in art or design. It is not offered as a career or professional path, and it presumes integration with a minor or second major.

Electives in Art (ART) or Art History (ARTH) (Six credits must be 300- or 400-level) 1

Total Credits 36

1 Numerous 300- and 400-level courses have 200-level prerequisites.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Implement the Principles of Art or Design.
- Create art or design concepts that demonstrate critical and analytical thinking.
- Develop creative solutions to artistic and intellectual problems.
- Demonstrate an understanding of art or design history.
- Demonstrate awareness of diverse audiences.

Sample Degree Plan

Art, Studio Emphasis, Major, B.A.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

**Liberal Education (LE) Core Guidance**

**Liberal Education Core (LE Core)**

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning; 30 hours

**Additional LE Core Information**

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.

**Biology**

Phillips 330
715-836-4166
Department Website (https://www.uwec.edu/academics/college-arts-sciences/departments-programs/biology/)

**The Study of Life**

Biologists study the diversity, function, and interconnection of living organisms on earth from the molecular and cellular level to that of the whole organism. It is a broad science with many subdisciplines that range from the theoretical to the applied and from the microbe to the biome. Biological knowledge and understanding is essential for the intelligent evaluation of a range of issues facing civilization whether they be emerging diseases; invasive species and loss of biodiversity; or advances in medical, biotechnological, and ecological research.

The mission and vision of the department is to foster an interdisciplinary community that promotes an enthusiasm for lifetime learning in the biological sciences through education, research and service. Our students will be curious, confident, connected, and competent. We provide students with basic concepts and skills as well as an enlightening and participatory learning environment via coursework and high impact practices so students may solve...
problems and confront issues of the future whether they be scientific, social, political, or ethical in context. We also provide an inclusive atmosphere and opportunities, to assist students in identifying career possibilities consistent with their interests and abilities in the life sciences.

Student Organizations
Biology Club is a student organization for those interested in Biology. We also have organizations that span from the Saltwater Reef team to pre-professional groups. Beta Beta Beta, Biology Honor society, is dedicated to improving the understanding and appreciation of biological study and extending the boundaries of human knowledge through scientific research. Meetings provide opportunities to meet other biology majors/minors and professors, hear speakers on various biology related topics, learn about possible internships and research opportunities, and participate in fun activities such as trips to science museums, aquariums, and zoos.

Biology Department Honors Requirements
Eligibility:
(1) Upper class biology majors (60 credits or more) with resident, total, and Biology GPAs of 3.50 or higher.
(2) Transfer students with junior status who declare a biology major and enter with GPAs of 3.50 or higher.

Requirements:
• An invitation by a biology faculty/staff member to pursue Biology Departmental Honors. Students may apply without an invitation but must have a letter of support from a biology faculty/staff member.
• At least 3 credits earned over at least 2 semesters, in either BIOL 384, BIOL 395, BIOL 396, BIOL 399, or BIOL 499.
• Presentation of collaborative research at one of the following:
  • an on-campus event (CERCA, the Provost’s Honors Symposium)
  • an off-campus conference (a regional, national or international professional conference)
  • publication of collaborative research results in a peer-reviewed journal.
• Submission and approval of an Honors thesis of their research, including the following steps:
  • During the thesis semester, students will register for 1 credit of BIOL 489 (Biology Honors Thesis - in development) or HNRS 490 (Honors Senior Thesis or Project).
  • Students are expected to make substantial intellectual contributions to the development, implementation, or scholarly interpretation of the project.
  • The thesis will be evaluated for acceptability by the research mentor and at least one additional faculty or staff member.

NOTE: Students must maintain a resident, total, and biology GPA of at least 3.50 for continued eligibility for Biology Department Honors.

University Residency Requirements

| Minimum total | 30 |
| Senor year | 23 |
| Major, Standard, upper division in residence | 12 |
Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

Liberal Education Core

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

LIBERAL EDUCATION CORE REQUIREMENTS a minimum of 36 credits

Knowledge Goal

Knowledge Outcome 1 (K1): Natural Sciences (http://catalog.uwec.edu/undergraduate/attribute-k1/) Two (2) learning experiences

One experience in laboratory science must be selected from either K1 or K2.

Knowledge Outcome 2 (K2): Social Sciences (http://catalog.uwec.edu/undergraduate/attribute-k2/) Two (2) learning experiences

One experience in laboratory science must be selected from either K1 or K2.

Knowledge Outcome 3 (K3): Humanities (http://catalog.uwec.edu/undergraduate/attribute-k3/) Two (2) learning experiences

Knowledge Outcome 4 (K4): Fine Arts (http://catalog.uwec.edu/undergraduate/attribute-k4/) One (1) learning experience

Skills Goal

Skills Outcome 1 (S1): Written and Oral Communication (http://catalog.uwec.edu/undergraduate/attribute-S1/) Two (2) learning experiences

One S1 must meet the University Writing Requirement

Skills Outcome 2 (S2): Mathematics (http://catalog.uwec.edu/undergraduate/attribute-S2/) One (1) learning experience
Arts and Sciences.

College Credits.

approved combinations listed may not be elected in the same department or program, except in the

degrees in the College of Arts and Sciences must earn minimum resident and

Requirements

fulfill the requirements for credits, curriculum, GPA, and University residency

Bachelor of Arts or Bachelor of Science Degree

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 080-001)

This emphasis provides extensive exposure to topics in ecology, field biology, and biological conservation. It is intended for students who are interested in field research, environmental monitoring and management, or natural resource conservation, or who desire strong preparation for graduate programs in ecology, environmental biology, or related fields. Research or internship is strongly recommended.

The emphasis requires completion of the core, the required credits as listed below, and biology electives to total at least 60 credits.

Core Requirements for All Biology Majors

Ecology and Environmental Biology Emphasis (Code 080-001); Microbiology Emphasis (Code 080-002); Biology, Liberal Arts (Code 080-203).

### Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate an understanding of foundational biological principles in the areas of cell/molecular biology, genetics, evolution, ecology, diversity of life, and structure & function of organisms.
- Understand and apply basic research methods in biology including research design, data analysis, and communication.
- Work collaboratively to explore and solve problems.
- Apply theories, concepts, findings, and methods of biology to problems/issues in society.
- Understand how biological theories, concepts, findings, and methods relate to other disciplines.
- Demonstrate competence in mathematics, statistics, and computer technology as tools for revealing and characterizing complex patterns in biological systems.
- Understand and apply scientific reasoning and methods in learning science and/or in conducting biological research.
- Communicate scientific ideas and results in a variety of formats.
- Understand how to organize and evaluate data/information related to measuring diversity using field-specific recommended structures and criteria.

### Sample Degree Plan

**Biology, Ecology and Environmental Biology Emphasis, Comprehensive Major, B.S.**

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of
their liberal education course work. Please click (https://catalog.uwec.edu/undergraduate/graduation-requirements/) here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

**RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)**

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-

**TOTAL** 14-15

Minimum total for the baccalaureate degree = 120 credits

a. Prerequisites: MATH 109 or placement into math course above 109; CHEM 105 and CHEM 106, or CHEM 115 or concurrent enrollment.
b. Grade of C or above in BIOL 221.
c. Best if Foundational Core course series (BIOL 221, BIOL 222, BIOL 223) is completed within 1st three semesters.
d. Required for EEB majors.

**Note 1:** Must maintain a 2.0 GPA in major program.

**Note 2:** All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

**Course Suggestions**

Consider GIS certificate as part of physical sciences; Consider LE options as noted in Env. Society and Science, Environmental Science Minors. Students may also earn credit for directed and independent studies, internships, and through winterim or interim course offerings.
students/internships), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire. These are best pursued after completion of Foundation coursework (BIOL 221, BIOL 222, and BIOL 223).

**Liberal Education (LE) Core Guidance**

**Liberal Education Core (LE Core)**

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- **K1** – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K2** – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K3** – Humanities; two experiences.
- **K4** – Fine Arts; one experience.
- **S1** – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- **S2** – Mathematics; one experience (must satisfy the University math competency requirement).
- **S3** – Creativity; one experience (can be fulfilled in a student’s major).
- **R1** – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- **R2** – Global Perspectives; one experience.
- **R3** – Civic and Environmental Issues; one experience.
- **I1** – Integration; two experiences (one experience can be fulfilled in a student’s major).
- **SL**—Service Learning; 30 hours

**Additional LE Core Information**

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).

**S1** – An English placement score that fulfills the University writing requirement fulfills one S1 experience.

**S1** – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.

**S1, R2** – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.

**S2** – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.

**S3** – Completion of two credits from any approved music ensemble fulfills the S3 experience.

**I1** – Any semester long study abroad program can fulfill one I1 experience.

**University Residency Requirements**

| Minimum total         | 30 |
| Senior year           | 23 |
| Major, Standard, upper division in residence | 12 |
| Major, Comprehensive, upper division in residence | 21 |
| Certificate            | 25 percent of credits |

**Procedures Required for Graduation**

- Obtain admission to the degree program and/or the College offering it.
- Apply for graduation on CampS.

1 Certain programs exceed this minimum.

2 See special requirements in each College.

**Applicability of Credits Toward Graduation**

**Junior College or Two-Year College Credits.** A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

**Extension Credits.** Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

**WTCS Credits.** A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical...
College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

**USAFI Credit.** UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

**Activity Credit (band, chorus, drama, KINS 100-184 courses)** Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

**Other Restricted Credits.** For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495, 499), and other types of credits.

### Liberal Education Core

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

#### LIBERAL EDUCATION CORE REQUIREMENTS

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 080-002)

This emphasis differs from the Biochemistry/Molecular Biology comprehensive major in that it provides more in-depth exposure to topics in microbiology including virology, immunology, and bacteriology. It is excellent preparation for careers in health science, industry, and for graduate training in microbiology and related fields.

The emphasis requires completion of the core, the required credits as listed below, and biology electives to total at least 60 credits.

Core Requirements for All Biology Majors

Ecology and Environmental Biology Emphasis (Code 080-001); Microbiology Emphasis (Code 080-002); Biology, Liberal Arts (Code 080-203).

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate an understanding of foundational biological principles in the areas of cell/molecular biology, genetics, evolution, ecology, diversity of life, and structure & function of organisms.
- Understand and apply basic research methods in biology including research design, data analysis, and communication.
- Work collaboratively to explore and solve problems.
- Apply theories, concepts, findings, and methods of biology to problems/issues in society.
- Understand how biological theories, concepts, findings, and methods relate to other disciplines.
- Demonstrate competence in mathematics, statistics, and computer technology as tools for revealing and characterizing complex patterns in biological systems.
- Understand and apply scientific reasoning and methods in learning science and/or in conducting biological research.
- Communicate scientific ideas and results in a variety of formats.
- Understand how to organize and evaluate data/information related to microbes using field-specific recommended structures and criteria.

Sample Degree Plan

Biology, Microbiology Emphasis, Comprehensive Major, B.S.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan must be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

TOTAL 13-14

Minimum total for the baccalaureate degree = 120 credits

- Prerequisites: MATH 109 or placement into math course above 109; CHEM 105 and CHEM 106, or CHEM 115 or concurrent enrollment.
- Grade of C or above in BIOL 221.
- Best if Foundational Core course series (BIOL 221, BIOL 222, BIOL 223) is completed within 1st three semesters.

Note 1: Students may also earn credit for directed and independent studies, internships, and through winterim or interim course offerings.

Note 2: Must maintain a 2.0 GPA in major program.

Note 3: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire. These are best pursued after completion of Foundation coursework (BIOL 221, BIOL 222, and BIOL 223).

Procedures Required for Graduation
Obtain admission to the degree program and/or the College offering it.
Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

Applicability of Credits Toward Graduation
Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USA FI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for USA FI Credit.

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 100-184 courses. Students may count toward graduation no more than 4 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

Liberal Education Core
The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

LIBERAL EDUCATION CORE REQUIREMENTS a minimum of 36 credits

Knowledge Goal
Knowledge Outcome 1 (K1): Natural Sciences (http://catalog.uwec.edu/undergraduate/attribute-k1/) Two (2) learning experiences

One experience in laboratory science must be selected from either K1 or K2.

Knowledge Outcome 2 (K2): Social Sciences (http://catalog.uwec.edu/undergraduate/attribute-k2/) Two (2) learning experiences

One experience in laboratory science must be selected from either K1 or K2.

Knowledge Outcome 3 (K3): Humanities (http://catalog.uwec.edu/undergraduate/attribute-k3/) Two (2) learning experiences

Knowledge Outcome 4 (K4): Fine Arts (http://catalog.uwec.edu/undergraduate/attribute-k4/) One (1) learning experience

Skills Goal
Skills Outcome 1 (S1): Written and Oral Communication (http://catalog.uwec.edu/undergraduate/attribute-s1/) Two (2) learning experiences

One S1 must meet the University Writing Requirement

Skills Outcome 2 (S2): Mathematics (http://catalog.uwec.edu/undergraduate/attribute-s2/) One (1) learning experience

One S2 to meet the University Mathematics Requirement
Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate an understanding of foundational biological principles in the areas of information flow, exchange, and storage, pathways and transformations of energy and matter, structure and function, and systems and evolution.
- Apply the process of science.
- Communicate and collaborate and to recognize the interdisciplinary nature of science.
- Use quantitative reasoning, models and/or simulation.
- Understand the relationship between science and society.

**Sample Degree Plan**

**Biology, Major-Liberal Arts, B.S.**

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog.uwec.edu/undergraduate/graduation-requirements/) here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

Minimum total for the baccalaureate degree = 120 credits

a Prerequisites: MATH 109 or placement into math course above 109; CHEM 105 and CHEM 106, or CHEM 115 or concurrent enrollment.
b Grade of C or above in BIOL 221.
c Best if Foundational Core course series (BIOL 221, BIOL 222, BIOL 223) is completed within 1st three semesters.

Note 1: Students may also earn credit for directed and independent studies, internships, and through winterim or interim course offerings.

Note 2: Must maintain a 2.0 GPA in major program.

Note 3: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire. These are best pursued after completion of Foundation coursework (BIOL 221, BIOL 222, and BIOL 223).

Liberal Education Core Guidance

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning; 30 hours

Additional LE Core Information

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.

Program Learning Outcomes
Students completing this program will be expected to meet the following learning outcomes:
• Understand foundational biological principles in the areas of cell/molecular biology, genetics, evolution, ecology, diversity of life, and structure & function of organisms.
• Understand the process of biological research and the basics of scientific writing.
• Present the results of research in both written and oral forms.

Chemistry and Biochemistry

Phillips 430
715-836-3417
Department Website (https://www.uwec.edu/academics/college-arts-sciences/departments-programs/chemistry-biochemistry/)

The degree programs in the Department of Chemistry and Biochemistry offer the rare opportunity to build a useful and marketable set of technical skills, while obtaining a well-rounded liberal arts education that will provide communication and “people” skills. The department offers a variety of majors and interdisciplinary programs, with varying degrees of specialization designed to meet the needs and interests of a broad range of students. The A.C.S. certified majors are ideal for students seeking a rigorous and focused course of study, and are well-suited to those seeking immediate employment in the chemical industry or planning graduate study in chemistry or biochemistry. The liberal arts major offers broader professional options, is more flexible in terms of elective coursework, and is paired with a minor or second major. The liberal arts major is also an excellent choice for pre-pharmacy, pre-medicine, pre-dentistry, and other pre-professional students. Students interested in biological chemistry may also consider the interdisciplinary comprehensive major in biochemistry/molecular biology offered jointly with the Biology Department.

The Chemistry with Business Emphasis major offers a unique course of study that is ideal for those seeking a business career in a technical industry. This program offers a powerful combination of technical training in the field of chemistry, a core of business classes, and a targeted course sequence focused on industrial chemistry. This renders students incredibly well-prepared to enter sales, marketing, or customer support roles immediately upon graduation.

Faculty/student collaborative research is the hallmark of the Chemistry Department. These hands-on learning opportunities are key to acquainting students with the day-to-day activities of practicing chemists and often lead to summer employment and internship opportunities. Many students also have the opportunity to present their work at professional meetings prior to graduation.

The Chemistry Department is accredited by the American Chemical Society (A.C.S.) to certify its comprehensive degrees as meeting the breadth and depth requirements of the A.C.S. There are two A.C.S certified options, including one focused on biological chemistry.

Honor Societies and Student Organizations:
The UW-Eau Claire student affiliate chapter of the American Chemical Society (ACS-SA) is a national award-winning organization that involves students in social, professional, and service activities at the university and in the community. This group has continued since the A.C.S. incorporated ACS-SA members into its general membership as Student Members. The UW-Eau Claire ACS-SA helps inform fellow students of curricular options and career opportunities and coordinates a tutoring program serving students in lower-level chemistry courses. All chemistry and biochemistry/molecular biology students are encouraged to become members of ACS-SA.

Departmental Honors in Chemistry and Biochemistry

Open to students in all programs in the Department of Chemistry and Biochemistry who meet the following requirements:

1. GPA of 3.50 or higher, both cumulative and in chemistry courses.
2. Participation in a collaborative research project with a chemistry faculty member that results in:
   a. a presentation at an off-campus research conference, and
   b. completion of CHEM 497 with a favorable review of the manuscript by the research advisor and at least two additional faculty members.

Procedure: Students seeking Departmental Honors must:

1. Complete all requirements listed above.
2. Complete the Departmental Honors Application: This is submitted as an eform that is approved by faculty reviewers and the Chair; a transcript, and copies of the CHEM 497 manuscript and presentation abstract are attached to the form.
3. Forward a completed application to the Student Affairs Committee Chair by the date specified on the form.

Note: Names of Departmental Honors graduates must be forwarded to the University Honors Program Director and Registrar at least three weeks prior to commencement.

Information for All Students about General Chemistry Placement

NOTE 1: CHEM 105 is the first course in a two-semester general chemistry sequence that includes CHEM 105, CHEM 106 and CHEM 109, while CHEM 115 combines material from this two-semester sequence into a single one-semester course. Students, especially chemistry, biochemistry/molecular biology (B/MB), and materials science majors (see Note 5), who meet the enrollment criteria described in NOTES 2 and 3 are strongly encouraged to take CHEM 115 to complete their general chemistry requirement in a single semester.

NOTE 2: High school math performance is the best predictor of success in all 100-level chemistry courses. Students who place into MATH 114 or higher should almost always take CHEM 115. Students who place into MATH 109 or lower should take CHEM 105 and CHEM 106 as their first semester, followed by CHEM 109. Students who place into MATH 112 or MATH 113 should consider their chemistry background and anticipated degree program when choosing between CHEM 105/CHEM 106 and CHEM 115. Students with a strong high school chemistry background (see NOTE 3), and who are planning to major (or minor) in chemistry, B/MB, or materials science should usually take CHEM 115. Students with less chemistry preparation, or who are not planning on majoring (or minoring) in chemistry, B/MB, or materials science should probably start by taking CHEM 105 and CHEM 106.

NOTE 3: A “strong background” in high school chemistry can take several forms. Successful completion of an AP chemistry course or similarly enriched chemistry course constitutes a strong background. Successful completion of two years of high school chemistry; or one year of high school chemistry and one year of high school physics generally provides a strong background as well.

NOTE 4: Students who take CHEM 115, and after consultation with their CHEM 115 instructor in the first 2 of weeks of the course determine that CHEM 105/CHEM 106 is the more appropriate starting point for them in chemistry, will be allowed to transfer to CHEM 105/CHEM 106. Therefore,
for close decisions between original enrollment in CHEM 105/CHEM 106 or CHEM 115, students are encouraged to enroll in CHEM 115.

NOTE 5: Chemistry, B/MB, and materials science majors and minors receive 6 credits toward the major for CHEM 115 or a combination of CHEM 105, CHEM 106, and CHEM 109. Therefore, these students should take CHEM 115 if they meet the enrollment criteria so that they can move on sooner to other courses in their major.

Majors
• Comprehensive Major: Chemistry, A.C.S. Certified - B.A./B.S.
• Comprehensive Major: Chemistry, A.C.S. Certified, Biochemistry Emphasis - B.A./B.S.
• Major: Chemistry, Liberal Arts - B.A./B.S.
• Comprehensive Major: Chemistry with Business Emphasis - B.A./B.S.
• Comprehensive Major: Biochemistry/Molecular Biology, Liberal Arts - B.A./B.S. (College of Arts and Sciences Interdisciplinary Major)
• Comprehensive Major: Science Teaching, Chemistry Emphasis - B.S. (College of Education and Human Sciences Secondary Education Program)

Minors
• Minor: Chemistry, Liberal Arts

Chemistry, A.C.S. Certified, Comprehensive Major
(Code 100-012)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements

Minimum total for graduation 1 120
Upper division credits (courses numbered 300 and higher) 39
Liberal Education Core 36
Academic Concentrations
Grade Point Requirements 2
Total 2.00 average
Resident 2.00 average

Major 2.00 average
Minor 2.00 average
Certificate 2.00 average

University Residency Requirements

Minimum total 30
Senior year 23
Major, Standard, upper division in residence 12
Major, Comprehensive, upper division in residence 21
Certificate 25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.
Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.
The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

**Satisfactory/Unsatisfactory**
- Total degree credit: maximum 12
- Major, Standard: maximum 1 course
- Major, Comprehensive: maximum 2 courses
- Minor: maximum 1 course

**Credit by Examination**
- Total degree credit: maximum ¼ of total
- Major or minor: maximum ½ of total

**Two-Year College Credits**
- Total degree credit: maximum 72 credits

**Activity credit (band, chorus, drama, KINS 100-184)**
- Total KINS 100-184: maximum 1 credit
- Total Band, chorus, drama: maximum 12 credits
- Single course band, chorus, drama: maximum 4 credits

**Extension credits**
- UW-System: no maximum
- Other extension/correspondence: maximum ¼ of total

**USAFI**
- USAFI: maximum 32 credits

**Liberal Education Core**

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

**College Degree Requirements**

**Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)**

**University Graduation Requirements.** All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

**College Graduation Requirements: Grade Point Averages.** All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

**Major-Minor and Major-Certificate Requirements.** A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.
Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

**College Credits.** Earn at least 90 credits in courses offered by the College of Arts and Sciences.

**Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)**
Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

**Bachelor of Science Degree in the College of Arts and Sciences (B.S.)**
Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

**Major Requirements**
(Code 100-012)
The A.C.S. Certified Major is designed to prepare students to function effectively and professionally as practicing chemists, in graduate programs and/or in careers in government or industry labs. It offers effective preparation for immediate employment or matriculation to graduate school.

**Core Requirements for A.C.S. and Liberal Arts Chemistry Majors**
A minimum of 63-semester credits, including:

<table>

</tbody>
</table>

**Capstone Experience for Chemistry Majors**
The capstone experience is met by completing CHEM 411 for chemistry with business emphasis majors, and by CHEM 420, CHEM 438, CHEM 453 or CHEM 497 for other chemistry majors.

**Comprehensive Major: Chemistry, A.C.S. Certified Requirements**
In addition to the chemistry core and required mathematics/physics courses, students must complete the following course work:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 344</td>
<td>Modern Applied Separations and Spectrometry</td>
<td>2</td>
</tr>

**Program Learning Outcomes**
Students completing this program will be expected to meet the following learning outcomes:

- **Knowledge and Understanding:** Students will develop a rigorous understanding of chemical principles, and apply them to predict and rationalize chemical properties.
- **Structure and Bonding:** Students can describe the structural properties of matter, as well as rationalize and predict chemical stability or physical properties on the basis of structure.
- **Reactivity and Stability:** Students can classify and rationalize chemical transformations, and predict and quantify products.
• Instrumentation Theory: Students can describe the underlying physical principles of various instruments and measurement techniques.
• Skills: Students will develop the skills need to be effective practitioners of the field by devolving laboratory proficiency, the capacity to think critically and creatively, and the ability to communicate effectively.
• Laboratory Skills: Students will develop proficient laboratory technique.
• Chemical Reasoning: Students will develop critical and creative thinking skills, use them within the context of the field.
• Communication Skills: Students will develop effective oral and written communication skills.
• Literature Skills: Students will become proficient with the chemical literature.
• Responsibility: Students will become responsible practitioners of the field, by practicing laboratory safety, recognizing the societal impacts of chemistry, and identifying contributions made by individuals with a variety of social identities.
• Chemical Safety: Students will function safely in a chemical laboratory, and will manage waste effectively.
• Ethical and Professional Conduct: Students will conduct themselves ethically and professionally, cultivate awareness of the impact of chemistry on society, and recognize contributions from a diverse population.
• Distinction: Students in the Chemistry, ACS, General Emphasis major will develop a deeper comprehension of how physical principles manifest chemical behavior.

Sample Degree Plans
Chemistry, A.C.S. 'Certified, Comprehensive Major, B.S. (Starting with CHEM 115 and Math 114)

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog.uwec.edu/undergraduate/graduation-requirements/) here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

| 2023-2024 Catalog
University of Wisconsin-Eau Claire | 2023-2024 Catalog

Undergraduate Catalog | 147

Minimum total for the baccalaureate degree = 120 credits

a CO CHEM 105, CHEM 106 (K1) and CHEM 109 may be taken in place of CHEM 115, but only 6 of the 9 credits will count towards the major.

b Students planning for graduate studies in chemistry (especially those interested in physical chemistry) are encouraged to take additional courses in mathematics (MATH 216, MATH 311, and/or MATH 324) and physics.

c Two out of the three upper-level labs need to be taken, including CHEM 420, CHEM 438, and CHEM 453. Students should plan to take these in different semesters.

d One chemistry elective must be taken from this list: CHEM 401, CHEM 426, or CHEM 491. The second chemistry elective may include a second selection from that list, or may selected one of these courses: CHEM 304, CHEM 361, CHEM 411, CHEM 460.

e Electives need to be carefully selected to ensure that a student’s degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in chemistry, electives can be selected from any discipline as long as the student meets the course prerequisites.

f The A.C.S. designation indicates that this major meets the certification guidelines of the American Chemical Society.

Note: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Chemistry, A.C.S. Certified, Comprehensive Major, B.S. (Starting with CHEM 105/106 and MATH109)
The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog.uwec.edu/undergraduate/graduation-requirements/) here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.aps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

Liberal Education (LE) Core Guidance
Liberal Education Core (LE Core)
The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning; 30 hours

Additional LE Core Information
- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.

SECOND SEMESTER
CHM 352 Fundamentals of Biochemistry 4
PHYS 232 University Physics II (LE-K11) 5
CHEM 344 Modern Applied Separations and Spectroscopy (Spring Only) 2
LE Option: Skills 1 (LE-S1) Written and Oral Communication 3
TOTAL THIRD YEAR 29
FOURTH YEAR
FIRST SEMESTER
CHEM 433 Physical Chemistry I (Fall Only) 4
CHEM 420 Advanced Synthesis Laboratory (Fall Only) 3
OR
CHEM 453 Biochemistry Laboratory (2 Credits) 3
CHEM Elective d 3
LE Option: Responsibility 3 (LE-R3) Civic and Environmental Issues 3
LE Option: Knowledge 2 (LE-K2) Social Sciences 3
SECOND SEMESTER
CHEM 434 Physical Chemistry II (Spring Only) 4
CHEM 438 Physical Analysis Laboratory (Spring Only) 2
OR
CHEM 453 Biochemistry Laboratory 3
CHEM Elective d 3
LE Option: Responsibility 1 (LE-R1) Equity, Diversity, and Inclusivity 3
LE Option: Integration (LE-I1) 3
TOTAL FOURTH YEAR 30-31

Minimum total for the baccalaureate degree = 120 credits

- CHEM 105, CHEM 106 (K1) and CHEM 109 may be taken in place of CHEM 115, but only 6 of the 9 credits will count towards the major.
- Students planning for graduate studies in chemistry (especially those interested in physical chemistry) are encouraged to take additional courses in mathematics (MATH 216, MATH 311, and/or MATH 324) and physics.
- Two out of the three upper-level labs need to be taken, including CHEM 420, CHEM 438 and CHEM 453. Students should plan to take these in different semesters.
- One chemistry elective must be taken from this list: CHEM 401, CHEM 426, or CHEM 491. The second chemistry elective may include a second selection from that list, or may selected one of these courses: CHEM 304, CHEM 361, CHEM 411, CHEM 460.
- Electives need to be carefully selected to ensure that a student’s degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in chemistry, electives can be selected from any discipline as long as the student meets the course prerequisites.
- The A.C.S. designation indicates that this major meets the certification guidelines of the American Chemical Society.

Note: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).
• S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.

• S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.

• S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.

• I1 – Any semester long study abroad program can fulfill one I1 experience.

| Major, Comprehensive, upper division in residence | 21  |

**Procedures Required for Graduation**

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

1 Certain programs exceed this minimum.

2 See special requirements in each College.

**Applicability of Credits Toward Graduation**

**Junior College or Two-Year College Credits.** A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

**Extension Credits.** Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

**WTCS Credits.** A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

**USAFI Credit.** UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

**Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-114 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-114 courses).**

**Other Restricted Credits.** For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

Liberal Education Core
The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

LIBERAL EDUCATION CORE REQUIREMENTS

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the
students must complete the following course work:

**Major Requirements**

(Code 100-011)

The A.C.S. Certified, Biochemistry Emphasis Major is designed to prepare students to function effectively and professionally as practicing chemists working at the interface of chemistry and the biological sciences, in graduate programs and/or in careers in government or industry labs. This program offers solid preparation for students planning graduate study in biochemistry, biophysics, or medicinal chemistry, and also provides an exceptionally rigorous pre-medical or pre-pharmacy program with suitable biology electives.

**Core Requirements for A.C.S. and Liberal Arts Chemistry Majors**

<td>8</td>
</tr>
</tbody>
</table>

**Total Credits** 26

1 Only six credits of the CHEM 105/CHEM 106/CHEM 109 sequence are credited to the major.

**Capstone Experience for Chemistry Majors**

The capstone experience is met by completing CHEM 411 for chemistry with business emphasis majors, and by CHEM 420, CHEM 438, CHEM 453, or CHEM 497 for other chemistry majors.

**Comprehensive Major: Chemistry, A.C.S. Certified, Biochemistry Emphasis**

Requirements

In addition to the chemistry core and required mathematics/physics courses, students must complete the following course work:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 221</td>
<td>Foundations of Biology I</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 223</td>
<td>Foundations of Biological Inquiry</td>
<td>2</td>
</tr>
<tr>
<td>CHEM 433</td>
<td>Physical Chemistry I</td>
<td>4</td>
</tr>
</tbody>
</table>

2 Students interested in graduate studies in biological or medicinal chemistry are strongly encouraged to take both CHEM 433 and CHEM 434.

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

- Knowledge and Understanding: Students will develop a rigorous understanding of chemical principles, and apply them to predict and rationalize chemical properties.
  - Structure and Bonding: Students can describe the structural properties of matter, as well as rationalize and predict chemical stability or physical properties on the basis of structure.
  - Reactivity and Stability: Students can classify and rationalize chemical transformations, and predict and quantify products.
  - Instrumentation Theory: Students can describe the underlying physical principles of various instruments and measurement techniques.
- Skills: Students will develop the skills needed to be effective practitioners of the field by devolving laboratory proficiency, the capacity to think critically and creatively, and the ability to communicate effectively.
  - Laboratory Skills: Students will develop proficient laboratory technique.
  - Chemical Reasoning: Students will develop critical and creative thinking skills, use them within the context of the field.
  - Communication Skills: Students will develop effective oral and written communication skills.
  - Literature Skills: Students will become proficient with the chemical literature.
- Responsibility: Students will become responsible practitioners of the field, by practicing laboratory safety, recognizing the societal impacts of chemistry, and identifying contributions made by individuals with a variety of social identities.
  - Chemical Safety: Students will function safely in a chemical laboratory, and will manage waste effectively.
  - Ethical and Professional Conduct: Students will conduct themselves ethically and professionally, cultivate awareness of the impact of chemistry on society, and recognize contributions from a diverse population.
- Distinction: Students in the Chemistry, ACS, Biochemistry Emphasis will develop a deeper comprehension of how chemical principles underlie biological functions.

**Sample Degree Plans**

Chemistry, A.C.S. Certified, Biochemistry Emphasis, Comprehensive Major, B.S. (Starting with CHEM 115 and MATH 114)

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be
required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog.uwec.edu/undergraduate/graduation-requirements/) here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

**TOTAL FOURTH YEAR** 32

Minimum total for the baccalaureate degree = 120 credits

a CHEM 105, CHEM 106 (K1) and CHEM 109 may be taken in place of CHEM 115, but only 6 of the 9 credits will count towards the major.

b All three of the upper-level labs need to be taken, including CHEM 240, CHEM 438 and CHEM 453. Students should plan to take these in different semesters. If the Physics series, Biochemistry lecture series, and Synthetic Lab are not completed in the third year, additional semesters may be necessary to earn the degree.

c Electives need to be carefully selected to ensure that a student’s degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in chemistry, electives can be selected from any discipline as long as the student meets the course prerequisites.

d The A.C.S. designation indicates that this major meets the certification guidelines of the American Chemical Society.

Note: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural...
Chemistry, A.C.S.  Certified, Biochemistry Emphasis, Comprehensive Major, B.S. (Starting with CHEM 105/106 and MATH 109)

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. **TOTAL FOURTH YEAR**

31

Minimum total for the baccalaureate degree = 120 credits

a. CHEM 105, CHEM 106 (K1) and CHEM 109 may be taken in place of CHEM 115, but only 6 of the 9 credits will count towards the major.
b. All three of the upper-level labs need to be taken, including CHEM 420, CHEM 438, and CHEM 453. Students should plan to take these in different semesters. If the Physics series, Biochemistry lecture series, and Synthetic Lab are not completed in the third year, additional semesters may be necessary to earn the degree.
c. Electives need to be carefully selected to ensure that a student’s degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in chemistry, electives can be selected from any discipline as long as the student meets the course prerequisites.
The A.C.S. designation indicates that this major meets the certification guidelines of the American Chemical Society.

Note: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)
The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning; 30 hours

Additional LE Core Information

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).

- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.

| Major, Comprehensive, upper division in residence | 21 |

Certificate | 25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses
offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

**WTCS Credits.** A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

**USAFI Credit.** UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for USAFI Credit.

**Activity Credit (band, chorus, drama, KINS 100-184 courses)** Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

**Other Restricted Credits.** For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), Other Restricted Credits.

**Liberal Education Core**

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

**LIBERAL EDUCATION CORE REQUIREMENTS**

Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

**Major Requirements**

**Liberal Arts (Code 100-201)**

The Liberal Arts Chemistry Major is designed to provide students with a solid foundation in the field, while offering the opportunity to pursue a parallel specialization, thus effectively preparing students for graduate or professional school, and/or a variety of career paths in chemistry, the health sciences, and related fields. This major is ideal for pre-medicine or pre-pharmacy students who are interested in a chemistry major, and any others who are seeking a minor in another field.

**Core Requirements for A.C.S. and Liberal Arts Chemistry Majors**

A minimum of 55 semester credits, including:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

<td></td>
</tr>
</tbody>
</table>

1. Only six credits of the CHEM 105/CHEM 106/CHEM 109 sequence are credited to the major.

**Capstone Experience for Chemistry Majors**

The capstone experience is met by completing CHEM 411 for chemistry with business emphasis majors, and by CHEM 420, CHEM 438, CHEM 453 or CHEM 497 for other chemistry majors.

**Chemistry, Major - Liberal Arts Requirements**

In addition to the chemistry core and required mathematics/physics courses, students must complete the following course work:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 433</td>
<td>Physical Chemistry I</td>
<td>8</td>
</tr>
<tr>

</tr>
<tr>
<td>CHEM 440</td>
<td>Advanced Synthesis Laboratory</td>
<td>2-3</td>
</tr>
</tbody>
</table>

**College Degree Requirements**

**Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)**

**University Graduation Requirements.** All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

**College Graduation Requirements: Grade Point Averages.** All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

**Major-Minor and Major-Certificate Requirements.** A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

**College Credits.** Earn at least 90 credits in courses offered by the College of Arts and Sciences.

**Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)**

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

**Bachelor of Science Degree in the College of Arts and Sciences (B.S.)**

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the

Program Learning Outcomes
Students completing this program will be expected to meet the following learning outcomes:

- Knowledge and Understanding: Students will develop a rigorous understanding of chemical principles, and apply them to predict and rationalize chemical properties.
  - Structure and Bonding: Students can describe the structural properties of matter, as well as rationalize and predict chemical stability or physical properties on the basis of structure.
  - Reactivity and Stability: Students can classify and rationalize chemical transformations, and predict and quantify products.
  - Instrumentation Theory: Students can describe the underlying physical principles of various instruments and measurement techniques.

- Skills: Students will develop the skills need to be effective practitioners of the field by devolving laboratory proficiency, the capacity to think critically and creatively, and the ability to communicate effectively.
  - Laboratory Skills: Students will develop proficient laboratory technique.
  - Chemical Reasoning: Students will develop critical and creative thinking skills, use them within the context of the field.
  - Communication Skills: Students will develop effective oral and written.
  - Literature Skills: Students will become proficient with the chemical literature.

- Responsibility: Students will become responsible practitioners of the field, by practicing laboratory safety, recognizing the societal impacts of chemistry, and identifying contributions made by individuals with a variety of social identities.
  - Chemical Safety: Students will function safely in a chemical laboratory, and will manage waste effectively.
  - Ethical and Professional Conduct: Students will conduct themselves ethically and professionally, cultivate awareness of the impact of chemistry on society, and recognize contributions from a diverse population.

- Distinction–Chemistry, Liberal Arts: Students in the Chemistry, Liberal Arts major will develop some degree of specialization in an adjacent and/or complimentary field of study.

Sample Degree Plans
Chemistry, Major - Liberal Arts, B.S. (Starting with CHEM 115 and MATH 114)
The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog.uwec.edu/undergraduate/graduation-requirements/) here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

LE Option: Knowledge 3 (LE-K3) Humanities 3
TOTAL FOURTH YEAR 29-31

Minimum total for the baccalaureate degree = 120 credits

a CHEM 105, CHEM 106 (K1) and CHEM 109 may be taken in place of CHEM 115, but only 6 of the 9 credits will count towards the major.
b Students planning for graduate studies in chemistry (especially those interested in physical chemistry) are encouraged to take additional courses in mathematics (MATH 216, MATH 311, and/or MATH 324) and physics.
c One of the three upper-level labs need to be taken, including CHEM 420, CHEM 438, and CHEM 453. The CHEM 453 (Biochemistry Lab) option has a prerequisite of CHEM 352 (Fundamentals of Biochemistry), which can be taken as the Chemistry elective.
d Select at least 6 credits from the following: CHEM 304, CHEM 344, CHEM 352, CHEM 361, CHEM 399, CHEM 401, CHEM 411, CHEM 426, CHEM 460, CHEM 491, CHEM 495, CHEM 497, and CHEM 499.
e Electives need to be carefully selected to ensure that a student's degree comprises at least 39 credits of upper division courses (300-400 level) and that the student complete a minor in addition to the Chemistry major.

Note: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Chemistry, Major - Liberal Arts, B.S. (Starting with CHEM 105/106 and MATH 109)
The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog.uwec.edu/undergraduate/graduation-requirements/) here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

FIRST YEAR
CHEM 105 General Chemistry I Lecture a 3
CHEM 106 General Chemistry I Laboratory (LE-K1L) a 2
MATH 109 Algebra for Calculus (LE-S2) 4
LE Option: Knowledge 2 (LE-K2) Social Sciences 3
LE Option: Knowledge 3 (LE-K3) Humanities 3

#### LE Option: Responsibility 3 (LE-R3) Civic and Environmental Issues | 3       |

**TOTAL FOURTH YEAR** | 30-31 |

**Minimum total for the baccalaureate degree = 120 credits**

a CHEM 105, CHEM 106 (K1) and CHEM 109 may be taken in place of CHEM 115, but only 6 of the 9 credits will count towards the major.

b Students planning for graduate studies in chemistry (especially those interested in physical chemistry) are encouraged to take additional courses in mathematics (MATH 216, MATH 311, and/or MATH 324) and physics.

c One of the three upper-level labs need to be taken, including CHEM 420, CHEM 438, and CHEM 453. The CHEM 453 (Biochemistry Lab) option has a prerequisite of CHEM 352 (Fundamentals of Biochemistry), which can be taken as the Chemistry elective.

d Select at least 6 credits from the following: CHEM 304, CHEM 344, CHEM 352, CHEM 361, CHEM 399, CHEM 401, CHEM 411, CHEM 426, CHEM 460, CHEM 491, CHEM 495, CHEM 497, and CHEM 499.

e Electives need to be carefully selected to ensure that a student’s degree comprises at least 39 credits of upper division courses (300-400 level) and that the student complete a minor in addition to the Chemistry major.

**Note:** All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

### RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

### Liberal Education (LE) Core Guidance

#### Liberal Education Core (LE Core)

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- **K1 – Natural Sciences:** two experiences (one lab science experience is required in K1 or K2).
- **K2 – Social Sciences:** two experiences (one lab science experience is required in K1 or K2).
- **K3 – Humanities:** two experiences.
- **K4 – Fine Arts:** one experience.
- **S1 – Written and Oral Communication:** two experiences (one experience must satisfy the University writing requirement).
- **S2 – Mathematics:** one experience (must satisfy the University math competency requirement).
• S3 – Creativity; one experience (can be fulfilled in a student’s major).

• R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).

• R2 – Global Perspectives; one experience.

• R3 – Civic and Environmental Issues; one experience.

• I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).

• SL—Service Learning; 30 hours

Additional LE Core Information

• Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).

• Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).

• S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.

• S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.

• S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.

• S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.

• S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.

• I1 – Any semester long study abroad program can fulfill one I1 experience.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

## Liberal Education Core

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

### LIBERAL EDUCATION CORE REQUIREMENTS

## Liberal Education Core Requirements

### College Degree Requirements

#### Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

**University Graduation Requirements.** All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

**College Graduation Requirements: Grade Point Averages.** All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

**Major-Minor and Major-Certificate Requirements.** A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.
The Chemistry with Business Emphasis Major is designed to provide students with a solid foundation in the field, together with a rudimentary understanding of the principles of commerce; effectively preparing them for business careers in the chemical industry and other technology-driven enterprises. It provides excellent preparation for sales, marketing, technical service, and customer support positions in the chemical industry, and is also appropriate for pre-professional students, including pre-pharmacy, pre-medicine, and pre-dentistry.

**Major Requirements**

(Code 111-001)

The Chemistry with Business Emphasis Major is designed to provide students with a solid foundation in the field, together with a rudimentary understanding of the principles of commerce; effectively preparing them for business careers in the chemical industry and other technology-driven enterprises. It provides excellent preparation for sales, marketing, technical service, and customer support positions in the chemical industry, and is also appropriate for pre-professional students, including pre-pharmacy, pre-medicine, and pre-dentistry.

</tbody>
</table>

1 Only six of the course credits from CHEM 105, CHEM 106, and CHEM 109 count toward the major.
2 The capstone experience is met by CHEM 411.
3 Students who earn less than a C in BCOM 206 must repeat the course to meet the College of Business communication requirement.
4 Students who earn less than C in BCOM 207 must repeat the course to meet the College of Business communication requirement.
5 Students must complete the Student Professional Development Program (https://www.uwec.edu/academics/college-business/academic-resources/student-professional-development-program/) (SPDP) prior to registering for any MGMT, MKTG, or OSCM course.

**Academic Program Approval**

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

**College Credits.** Earn at least 90 credits in courses offered by the College of Arts and Sciences.

**Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)**

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122/LANG 122 or CSD 103).

**Bachelor of Science Degree in the College of Arts and Sciences (B.S.)**

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- **Knowledge and Understanding:** Students will develop a rigorous understanding of chemical principles, and apply them to predict and rationalize chemical properties.
  - Structure and Bonding: Students can describe the structural properties of matter, as well as rationalize and predict chemical stability or physical properties on the basis of structure.
  - Reactivity and Stability: Students can classify and rationalize chemical transformations, and predict and quantify products.
  - Instrumentation Theory: Students can describe the underlying physical principles of various instruments and measurement techniques.
- **Skills:** Students will develop the skills need to be effective practitioners of the field by devolving laboratory proficiency, the capacity to think critically and creatively, and the ability to communicate effectively.
  - Laboratory Skills: Students will develop proficient laboratory technique.
  - Chemical Reasoning: Students will develop critical and creative thinking skills, use them within the context of the field.
  - Communication Skills: Students will develop effective oral and written communication skills.
  - Literature Skills: Students will become proficient with the chemical literature.
- **Responsibility:** Students will become responsible practitioners of the field, by practicing laboratory safety, recognizing the societal impacts of chemistry, and identifying contributions made by individuals with a variety of social identities.
  - Chemical Safety: Students will function safely in a chemical laboratory, and will manage waste effectively.
  - Ethical and Professional Conduct: Students will conduct themselves ethically and professionally, cultivate awareness of the impact of chemistry on society, and recognize contributions from a diverse population.
- **Distinction:** Students in the Chemistry with Business Emphasis will develop a deeper comprehension of how the principles of commerce (e.g., Marketing, Accounting, Finance) function within the chemical industry.

Sample Degree Plan

**Chemistry with Business Emphasis, Comprehensive Major, B.S.**

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-R1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog.uwec.edu/undergraduate/graduation-requirements/) here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

**TOTAL SECOND YEAR**

**THIRD YEAR**
Minimum total for the baccalaureate degree = 120 credits

a Only 6 of the 9 credits from CHEM 105, CHEM 106 (K1) and CHEM 109 will count towards the major. As an alternative, CHEM 115 (K1) may be substituted for CHEM 105, CHEM 106 (K1) and CHEM 109.

b Students may also take MATH 114 to meet the S2 requirement, and PHYS 231 and PHYS 232 to meet the Physics requirement. PHYS 232 requires MATH 215 as a pre- or co-requisite.

c Electives need to be carefully selected to ensure that a student's degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in chemistry and business, electives can be selected from any discipline as long as the student meets the course prerequisites.

d Students must complete a minimum of 36 credits in courses approved for the Liberal Education Core (LE Core). The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

Note: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Liberal Education (LE) Core Guidance

**Liberal Education Core (LE Core)**

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning; 30 hours

**Additional LE Core Information**

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
• S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.

• S1, R2 – A foreign Language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.

• S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.

• S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.

• I1 – Any semester long study abroad program can fulfill one I1 experience.

Chemistry, Minor - Liberal Arts

Liberal Arts (Code 100-405)

A minimum of 24 semester credits, including:

Chemistry Core
Select one of the following: ¹

Other advanced courses may be approved by petition.

¹ Only six credits of the CHEM 105/CHEM 106/CHEM 109 sequence are credited to the minor.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

• Structure and Bonding: Students can describe the structural properties of matter, as well as rationalize and predict chemical stability or physical properties on the basis of structure.

• Reactivity and Stability: Students can classify and rationalize chemical transformations, and predict and quantify products.

• Laboratory Skills: Students will become proficient in rudimentary laboratory techniques.

• Chemical Safety: Students will function safely in a chemical laboratory, and will manage waste effectively.

Communication and Journalism

Hibbard Humanities Hall 152
715-836-2528
Department Website (https://www.uwec.edu/academics/college-arts-sciences/departments-programs/communication-journalism/)

The Department of Communication and Journalism faculty are committed to the development, integration, and practical application of theories, knowledge, and skills related to communication and journalism. Communication and journalism are crucial to a democratic society. Both require citizens to share and challenge information.

Departmental Goals

To prepare students for responsible roles in communication and journalism, the department offers diversified curricula, in which all students can expect to develop in these areas:

• awareness and knowledge of communication processes in diverse cultural, social, legal, and ethical contexts;

• critical and analytical thinking;

• research and information-gathering skills; and

• oral, written, and visual communication skills.

Areas of Emphasis

The department offers majors and minors in Communication, Journalism, and Integrated Strategic Communication with the following options for areas of emphasis:

• Communication majors/minors:
  Communication Studies
  Organizational Communication

• Integrated Strategic Communication majors:
  Advertising
  Public Relations

• Integrated Strategic Communication minor

• Journalism major/minor

Information for Majors

No student may have both a major and a minor or a major and a certificate from the Department of Communication and Journalism. No major or minor credit may be earned under the Satisfactory/Unsatisfactory option. Students majoring in Communication, Journalism, and Integrated Strategic Communication may not include CJ courses in a topical minor without prior, written approval of the department chair.

Many upper division courses (numbered 300 and above) required in major and minor programs are available only to students who have completed prerequisite courses with grades of C or above.
Students who choose a major in Integrated Strategic Communication or Journalism must meet curriculum accreditation standards set by the Accrediting Council on Education in Journalism and Mass Communications (ACEJMC).

Accreditation standards require that students complete the university liberal education core requirements.

**Advising Information**

Students who declare a major in the Department of Communication and Journalism as juniors or seniors should not expect to finish the courses required for that major in fewer than four semesters. When completing the paperwork to declare this major, especially Integrated Strategic Communication and Journalism majors, it is particularly important for students to work out the course sequencing necessary to finish in a timely manner.

Communication and Journalism departmental policy specifies that any student who is absent from the first day of class without prior approval of the course instructor may be dropped from the class in order to make room for other students.

**Extra-Curricular Opportunities**

Communication, Journalism, and Integrated Strategic Communication majors and minors are urged to obtain practical experience from work with campus media and/or professional organizations.

Students may apply for opportunities to work for the award-winning student newspaper, The Spectator, or become a member of the nationally-ranked forensics squad. The Communication and Journalism Organization, Public Relations Student Society of America, Society of Professional Journalists and Blugold Radio Sunday/WUEC-FM student organizations also offer professional development, experience, and leadership opportunities for students.

For more information about the Communication and Journalism Department, its programs, and its faculty, visit the Department’s homepage at [http://www.uwec.ly/cj/](http://www.uwec.ly/cj/).

- Senior year: 23
- Major, Standard, upper division in residence: 12
- Major, Comprehensive, upper division in residence: 21

**Procedures Required for Graduation**

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

1. Certain programs exceed this minimum.
2. See special requirements in each College.
Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

Liberal Education Core

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

LIBERAL EDUCATION CORE REQUIREMENTS a minimum of 36 credits

One R1 must satisfy Design for Diversity (http://catalog.uwec.edu/undergraduate/attribute-DDIV/#header13)
Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 583-201)

This emphasis teaches students to analyze and enhance human communication through courses in theory, research, and practice. After completing a common core of courses, majors in this emphasis select a variety of electives including courses focused on how communication builds and maintains relationships and how messages in political and popular culture influence society.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122/LANG 122 or CSD 103).
General Communication and Journalism Electives: (6 credits from any course with a CJ prefix with the exception of CJ 203 which may not be used as credit toward a communication studies major. Students may choose courses from the list of communication studies electives above but no course may be used twice in the major.)

Note: No major or minor credit may be earned under the S/U option.

Program Learning Outcomes
Students completing this program will be expected to meet the following learning outcomes:

- Explain what it means to communicate ethically.
- Describe the role of communication in a variety of contexts.
- Make and support claims about communication artifacts.
- Apply discipline-specific theories in order to explain human communication/behavior and make suggestions for corrective actions where needed.
- Conduct a communication research project using recognized quantitative, qualitative, or critical methodologies.
- Explain the relationship between research and theory in the study of communication.
- Prepare and deliver oral presentations.
- Utilize communication to embrace difference.

Sample Degree Plan
Communication, Communication Studies Emphasis, Major, B.A.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S1, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [here](https://catalog.uwec.edu/undergraduate/graduation-requirements/) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

Students are not obligated to choose upper division electives only in a specific track (e.g., a student could take CJ 318 twice and CJ 306 once), but students should take note that they would need to take an upper division elective during their second year if they wanted to take each available iteration of either topics course.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)
The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning: 30 hours

Additional LE Core Information

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.
Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAIFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

**Liberal Education Core**

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

**LIBERAL EDUCATION CORE REQUIREMENTS**

<table>
<thead>

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

1. Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114.
2. Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113.
3. Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 583-250)

This emphasis assists students in the development of professional, group, and interpersonal communication skills that enable them to enhance the communities, organizations, and societies in which they live and work. Students learn to analyze, develop, and deliver messages to a variety of stakeholders.

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).
Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Explain how organizations are created and maintained through communication.
- Use communication theories and constructs to identify and analyze communication problems and develop ethical solutions.
- Access and analyze communication research to identify knowledge gaps and develop questions.
- Draw conclusions from data and articulate implications.
- Utilize communication to embrace difference.
- Orally present ideas using appropriate visual, verbal, and nonverbal communication behaviors.

Sample Degree Plan

Communication, Organizational Communication Emphasis, Major, B.A.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog.uwec.edu/ undergraduate/graduation-requirements/) here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

TOTAL FOURTH YEAR: 30

Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.
Students must complete a minimum of 36 credits in courses approved for the LE Core. The LE Core comprises 17 learning experiences across 11 learning outcomes.

**Liberal Education (LE) Core Guidance**

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- **K1** – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K2** – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K3** – Humanities; two experiences.
- **K4** – Fine Arts; one experience.
- **S1** – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- **S2** – Mathematics; one experience (must satisfy the University math competency requirement).
- **S3** – Creativity; one experience (can be fulfilled in a student’s major).
- **R1** – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- **R2** – Global Perspectives; one experience.
- **R3** – Civic and Environmental Issues; one experience.
- **I1** – Integration; two experiences (one experience can be fulfilled in a student’s major).
- **SL** – Service Learning; 30 hours

**Additional LE Core Information**

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- Completion of two credits from any approved music ensemble fulfills the S3 experience.
- Any semester long study abroad program can fulfill one I1 experience.

### Applicability of Credits Toward Graduation

**Junior College or Two-Year College Credits.** A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

**Extension Credits.** Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

**WTCGS Credits.** A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

**USAFI Credit.** UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

**Activity Credit (band, chorus, drama, KINS 100-184 courses)** Students may count toward graduation no more than one credit of KINS 110-1184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-1184 courses).

**Other Restricted Credits.** For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

**APPLICABILITY OF CREDITS TOWARD GRADUATION**

**College Degree Requirements**

**Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)**

**University Graduation Requirements.** All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

**College Graduation Requirements: Grade Point Averages.** All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

**Major-Minor and Major-Certificate Requirements.** A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors (if available) of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.
College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 585-201)

Understanding the objectives, message concepts, and strategies which underlie advertising is the goal of this sequence. Students are prepared to conduct research, establish goals, create messages, and implement plans.

Code | Title | Credits |
--- | --- | --- |
CJ 184 | Multimedia Communication | 3 |
CJ 202 | Fundamentals of Speech | 3 |
or CJ 203 | Fundamentals of Human Communication | 3 |
CJ 260 | Introduction to Integrated Strategic Communication | 3 |
CJ 300 | Research Methods | 3 |
CJ 362 | Strategic Media Planning | 3 |
CJ 373 | Writing for Integrated Strategic Communication | 3 |
CJ 413 | Media Law and Ethics | 3 |
CJ 464 | Advertising in Contemporary Society | 3 |
CJ 479 | Integrated Strategic Communication Management | 3 |
Select one of the following courses: | | 3 |
| CJ 365 | Advertising Message Strategy | |
| CJ 374 | Integrated Strategic Communication (ISC) Campaign Design and Evaluation | |
| CJ 380 | Visual Communication Design | |
| CJ 460 | Advertising Account Management | |

(CJ electives: six credits (neither CJ 202 nor CJ 203 may be used as elective credits)

Total Credits 36

Note: No major or minor credit may be earned under the S/U option.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Understand and apply the principles and laws of freedom of speech and press for the country in which the institution that invites ACEJMC is located, as well as receive instruction in and understand the range of systems of freedom of expression around the world, including the right to dissent, to monitor and criticize power, and to assemble and petition for redress of grievances.
- Demonstrate an understanding of the history and role of professionals and institutions in shaping communications.
- Demonstrate an understanding of gender, race ethnicity, sexual orientation and, as appropriate, other forms of diversity in domestic society in relation to mass communications.
- Demonstrate an understanding of the diversity of peoples and cultures and of the significance and impact of mass communications in a global society.
- Understand concepts and apply theories in the use and presentation of images and information.
- Demonstrate an understanding of professional ethical principles and work ethically in pursuit of truth, accuracy, fairness and diversity.
- Think critically, creatively and independently.
- Conduct research and evaluate information by methods appropriate to the communications professions in which they work.
- Write correctly and clearly in forms and styles appropriate for the communications professions, audiences and purposes they serve.
- Critically evaluate their own work and that of others for accuracy and fairness, clarity, appropriate style and grammatical correctness.
- Apply basic numerical and statistical concepts.

(Outcomes from Accrediting Council on Education in Journalism and Mass Communication)

Sample Degree Plan

Integrated Strategic Communication, Advertising Emphasis, Major, B.A.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-
I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog.uwec.edu/undergraduate/graduation-requirements/) here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

Minimum total for the baccalaureate degree = 120 credits

Notes:

- Students must complete 39 credits in courses above the 300 level in order to complete their degree. Those credits may be accumulated in major courses, minor courses, liberal education electives or general elective credits. Levels of major elective, minor elective, liberal education and general elective credits are not indicated on this guide. The student and advisor will monitor progress toward that requirement.
- If a student selects a certificate rather than a minor, there will be fewer required credits in the second program than are reflected on this guide.
- Depending on selection of electives and second program courses, some liberal education requirements may be satisfied by a major or second program course. The student and advisor will monitor those opportunities.
- Students must complete 120 credits in order to complete their degree. The low range of credits on this guide does not total 120.
- All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- **K1** – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K2** – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K3** – Humanities; two experiences.
- **K4** – Fine Arts; one experience.
- **S1** – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- **S2** – Mathematics; one experience (must satisfy the University math competency requirement).
- **S3** – Creativity; one experience (can be fulfilled in a student’s major).
- **R1** – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- **R2** – Global Perspectives; one experience.
- **R3** – Civic and Environmental Issues; one experience.
- **I1** – Integration; two experiences (one experience can be fulfilled in a student’s major).
- **SL**—Service Learning; 30 hours

Additional LE Core Information

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- **S1** – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- **S1** – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.

Integrated Strategic Communication, Certificate

(Code 585-601)

The Certificate in Integrated Strategic Communication is designed to teach students in a wide variety of non-communication fields to effectively communicate in a message-intensive world. Specifically, students will learn how to promote their skills to the public at large and to help the public build a better understanding of both their chosen field and the issues important to that field. The certificate will provide students with the skills and knowledge needed to identify and analyze target audiences and create messages designed for those audiences.

Note 1: Students majoring in any program in Communication and Journalism may not use this certificate to satisfy the graduation requirement of a second program.

Note 2: There must be at least 48 unique credits between a student’s major and this certificate if course work overlaps for purposes of meeting graduation requirements for first and second degree programs.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate an understanding of the history and role of professionals and institutions in shaping communications.
• Understand concepts and apply theories in the use and presentation of images and information.
• Conduct research and evaluate information by methods appropriate to the communications professions in which they work.
• Write correctly and clearly in forms and styles appropriate for the communications professions, audiences and purposes they serve.
• Apply tools and technologies appropriate for the communications professions in which they work.

University Residency Requirements

Minimum total 30
Senior year 23
Major, Standard, upper division in residence 12
Major, Comprehensive, upper division in residence 21
Certificate 25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).
Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

**Liberal Education Core**

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

**LIBERAL EDUCATION CORE REQUIREMENTS**

<table>

**College Degree Requirements**

**Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)**

**University Graduation Requirements.** All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

**College Graduation Requirements: Grade Point Averages.** All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and
total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

**Major-Minor and Major-Certificate Requirements.** A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

**College Credits.** Earn at least 90 credits in courses offered by the College of Arts and Sciences.

**Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)**

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

**Bachelor of Science Degree in the College of Arts and Sciences (B.S.)**

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

**Major Requirements**

**Liberal Arts (Code 585-202)**

The goal of this emphasis is to understand objectives and strategies that shape the information delivered to publics. Students are prepared to analyze, design, and manage public relations messages.

**CJ 464 Advertising in Contemporary Society**

CJ electives: six credits (neither CJ 202 nor CJ 203 may be used as elective credits) 6

**Total Credits 36**

Note: No major or minor credit may be earned under the S/U option.

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

- Understand and apply the principles and laws of freedom of speech and press for the country in which the institution that invites ACEJMC is located, as well as receive instruction in and understand the range of systems of freedom of expression around the world, including the right to dissent, to monitor and criticize power, and to assemble and petition for redress of grievances.
- Demonstrate an understanding of the history and role of professionals and institutions in shaping communications.
- Demonstrate an understanding of gender, race, ethnicity, sexual orientation and, as appropriate, other forms of diversity in domestic society in relation to mass communications.
- Demonstrate an understanding of the diversity of peoples and cultures and of the significance and impact of mass communications in a global society.
- Understand concepts and apply theories in the use and presentation of images and information.
- Demonstrate an understanding of professional ethical principles and work ethically in pursuit of truth, accuracy, fairness and diversity.
- Think critically, creatively and independently.
- Conduct research and evaluate information by methods appropriate to the communications professions in which they work.
- Write correctly and clearly in forms and styles appropriate for the communications professions, audiences and purposes they serve.
- Critically evaluate their own work and that of others for accuracy and fairness, clarity, appropriate style and grammatical correctness.
- Apply basic numerical and statistical concepts.
Sample Degree Plan
Integrated Strategic Communication, Public Relations Emphasis, Major, B.A.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan.

Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [here](https://catalog.uwec.edu/undergraduate/graduation-requirements/) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

**Total**

| 30 |

Minimum total for the baccalaureate degree = 120 credits

**Notes:**

- Students must complete 39 credits in courses above the 300 level in order to complete their degree. Those credits may be accumulated in major courses, minor courses, liberal education electives or general elective credits. Levels of major elective, minor elective, liberal education and general elective credits are not indicated on this guide. The student and advisor will monitor progress toward that requirement.
- If a student selects a certificate rather than a minor, there will be fewer required credits in the second program than are reflected on this guide.
- Depending on selection of electives and second program courses, some liberal education requirements may be satisfied by a major or second program course. The student and advisor will monitor those opportunities.
- Students must complete 120 credits in order to complete their degree. The low range of credits on this guide does not total 120.
- All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

**RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)**

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

**Liberal Education (LE) Core Guidance**

**Liberal Education Core (LE Core)**

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning: 30 hours

**Additional LE Core Information**

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.

**Journalism, Certificate**

(Code 560-601)

The Certificate in Journalism is designed for students who wish to develop an understanding of the role journalism plays in a democracy and the underlying principles and practices of journalism. A combination of courses in journalism help students acquire the knowledge and introductory skills that will allow them to use the tools of journalism to develop and design reported information across media platforms. The journalism certificate aligns with the university mission as journalism fosters creativity, critical thinking, empathy for others, and intellectual courage to monitor power and question authority on behalf of the public.
Undergraduate Catalog

Minimum of 12 credits required:

Required courses (9 credits):  
- CJ 184 Multimedia Communication 3 credits  
- CJ 222 Beginning Journalism 3 credits  
- CJ 413 Media Law and Ethics 3 credits  

Elective courses (3 credits). These courses allow students to select the journalism skills that most apply to their particular interests or career aspirations.  
- CJ 241 Audio and Video Production Process  
- CJ 284 Introduction to Photography  
- CJ 321 Intermediate Journalism  
- CJ 322 Immersion Journalism

Total Credits 12

Note 1: Courses used for the certificate may not be applied to the major.

Note 2: Students majoring in any program in Communication and Journalism may not use this certificate to satisfy the graduation requirement of a second program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Explain journalistic communication processes in diverse social, legal and ethical contexts.
- Demonstrate critical and analytical thinking skills.
- Demonstrate reporting and information gathering skills.
- Demonstrate strong oral, written, and visual communication skills.

Journalism, Major

Liberal Arts (Code 560-206)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements

Minimum total for graduation 1 120 credits  
Upper division credits (courses numbered 300 and higher) 39  
Liberal Education Core 36  
Academic Concentrations  
Grade Point Requirements  

Total 2.00 average

Major 2.00 average  
Minor 2.00 average  
Certificate 2.00 average  

University Residency Requirements

Minimum total 30  
Senior year 23  
Major, Standard, upper division in residence 12  
Major, Comprehensive, upper division in residence 21  

Certificate 25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.  
Apply for graduation on CampS.

1 Certain programs exceed this minimum.  
2 See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION

Credit Restrictions

Satisfactory/Unsatisfactory

Total degree credit maximum 12  
Major, Standard maximum 1 course  
Major, Comprehensive maximum 2 courses  
Minor maximum 1 course  

Credit by Examination

Total degree credit maximum ¼ of total
Major or minor maximum ½ of total

Two-Year College Credits
Total degree credit maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)
Total KINS 100-184 maximum 1 credit
Total Band, chorus, drama maximum 12 credits
Single course band, chorus, drama maximum 4 credits

Extension credits
UW-System no maximum
Other extension/correspondence maximum ¼ of total

USAFI maximum 32 credits

Liberal Education Core
The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

LIBERAL EDUCATION CORE REQUIREMENTS a minimum of 36 credits

Knowledge Goal
Knowledge Outcome 1 (K1): Natural Sciences (http://catalog.uwec.edu/undergraduate/attribute-k1/) Two (2) learning experiences

One experience in laboratory science must be selected from either K1 or K2.

Knowledge Outcome 2 (K2): Social Sciences (http://catalog.uwec.edu/undergraduate/attribute-k2/) Two (2) learning experiences

One experience in laboratory science must be selected from either K1 or K2.

Knowledge Outcome 3 (K3): Humanities (http://catalog.uwec.edu/undergraduate/attribute-k3/) Two (2) learning experiences

Knowledge Outcome 4 (K4): Fine Arts (http://catalog.uwec.edu/undergraduate/attribute-k4/) One (1) learning experience

Skills Goal
Skills Outcome 1 (S1): Written and Oral Communication (http://catalog.uwec.edu/undergraduate/attribute-s1/) Two (2) learning experiences

One S1 must meet the University Writing Requirement

Skills Outcome 2 (S2): Mathematics (http://catalog.uwec.edu/undergraduate/attribute-s2/) One (1) learning experience

One S2 to meet the University Mathematics Requirement

Responsibility Goal
Responsibility Outcome 1 (R1): Equity, Diversity, and Inclusivity (http://catalog.uwec.edu/undergraduate/attribute-r1/) Two (2) learning experiences

One R1 must satisfy Design for Diversity (http://catalog.uwec.edu/undergraduate/attribute-ddiv/#header13)

Responsibility Outcome 2 (R2): Global Perspectives (http://catalog.uwec.edu/undergraduate/attribute-r2/) One (1) learning experience

Responsibility Outcome 3 (R3): Civic and Environmental Issues (http://catalog.uwec.edu/undergraduate/attribute-r3/) One (1) learning experience

Integration Goal
Integration Outcome 1 (I1): Integration (http://catalog.uwec.edu/undergraduate/attribute-i1/) Two (2) learning experiences

Service-Learning Goal
Service-Learning (http://catalog.uwec.edu/undergraduate/attribute-sl/#header13) 30 hours

College Degree Requirements
Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors (if available) of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.
Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work; foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 560-206)

Understanding the role of journalism in a democratic society is the goal of this major. This major prepares students to inform citizens and enhance democracy by gathering, writing, editing and delivering news across multiple platforms.

- CJ 380 Visual Communication Design

Select one of the following courses:

- CJ 301 Intercultural Communication
- CJ/WGSS 317 Diversity & Communication: Organizational & Media Contexts
- CJ 464 Advertising in Contemporary Society

CJ electives; six credits (neither CJ 202 nor CJ 203 may be used as elective credits) 6

Total Credits 36

Note: No major or minor credit may be earned under the S/U option.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Understand and apply the principles and laws of freedom of speech and press for the country in which the institution invites ACEJMC is located, as well as receive instruction in and understand the range of systems of freedom of expression around the world, including the right to dissent, to monitor and criticize power, and to assemble and petition for redress of grievances.
- Demonstrate an understanding of the history and role of professionals and institutions in shaping communications.
- Demonstrate an understanding of gender, race ethnicity, sexual orientation and, as appropriate, other forms of diversity in domestic society in relation to mass communications.
- Demonstrate an understanding of the diversity of peoples and cultures and of the significance and impact of mass communications in a global society.
- Understand concepts and apply theories in the use and presentation of images and information.
- Demonstrate an understanding of professional ethical principles and work ethically in pursuit of truth, accuracy, fairness and diversity.
- Think critically, creatively and independently.
- Conduct research and evaluate information by methods appropriate to the communications professions in which they work.
- Write correctly and clearly in forms and styles appropriate for the communications professions, audiences and purposes they serve.
- Critically evaluate their own work and that of others for accuracy and fairness, clarity, appropriate style and grammatical correctness.
- Apply basic numerical and statistical concepts.
- Apply tools and technologies appropriate for the communications professions in which they work.

Sample Degree Plan

Journalism, Major, B.A.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog.uwec.edu/undergraduate/graduation-requirements/) here for a description of the Liberal
Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

**TOTAL FOURTH YEAR** 30

Minimum total for the baccalaureate degree = 120 credits

Notes

- Students must complete 39 credits in courses above the 300 level in order to complete their degree. Those credits may be accumulated in major courses, minor courses, liberal education electives or general elective credits. Levels of major elective, minor elective, liberal education and general elective credits are not indicated on this guide. The student and advisor will monitor progress toward that requirement.
- If a student selects a certificate rather than a minor, there will be fewer required credits in the second program than are reflected on this guide.
- Depending on selection of electives and second program courses, some liberal education requirements may be satisfied by a major or second program course. The student and advisor will monitor those opportunities.
- Students interested in pursuing study abroad opportunities during the regular semester should plan carefully with their advisor. Some courses are not offered every semester and graduation could be delayed if you do not plan accordingly.
- Some suggested electives related to journalism include CJ 311 Mass Media History and CJ 322 Immersion Reporting. Note, Immersion Reporting currently is offered every other year.
- Students must complete 120 credits in order to complete their degree. The low range of credits on this guide does not total 120.
• All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Student/Faculty Collaborative Research, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)
The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning; 30 hours

Additional LE Core Information

• Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
• Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
• S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.

- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Understand and apply the principles and laws of freedom of speech and press for the country in which the institution that invites ACEJMC is located, as well as receive instruction in and understand the range of systems of freedom of expression around the world, including the right to dissent, to monitor and criticize power, and to assemble and petition for redress of grievances.
- Demonstrate an understanding of the history and role of professionals and institutions in shaping communications.
- Demonstrate an understanding of professional ethical principles and work ethically in pursuit of truth, accuracy, fairness and diversity.
- Conduct research and evaluate information by methods appropriate to the communications professions in which they work.
- Write correctly and clearly in forms and styles appropriate for the communications professions, audiences and purposes they serve.

Organizational Communication, Certificate

(Code 583-601)

The Certificate in Organizational Communication complements majors in every area of study by developing professional, group, and interpersonal communication skills that enable students to contribute to, and better serve,
the communities, organizations and societies in which they live and work. Students in any field must be able to analyze, develop and deliver messages to a variety of stakeholders. The Certificate in Organizational Communication helps students hone these abilities by highlighting the role of communication in organizational effectiveness, and by engaging students in both theory and practice. The elective course options for the certificate allow students to focus on the specific communication skills that apply most directly to their particular interests or career aspirations.

Students pursuing an Organizational Communication Certificate are required to complete 12 credits toward the certificate.

The Certificate in Social Advocacy and Change is designed for students who wish to engage as active citizens by using communication skills and knowledge to promote change in a variety of social and political contexts (e.g., human rights and environmental concerns). Active citizenship exists where individuals use communication practices and theories to advocate for change on their own behalf or on the behalf of others, and where groups seek to find common cause or concern. A combination of courses in communication studies and organizational communication help students learn the knowledge and skills that will allow them to create responsible change in their communities.

### Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Students will demonstrate competency in oral and written communication skills appropriate to social advocacy and change.
- Students will demonstrate knowledge of theories and concepts of communication appropriate to social advocacy and change.
- Students will demonstrate critical and creative thinking in the formation and the evaluation of communication practices used to address civic, social, or environmental challenges.

### Social Advocacy and Change, Certificate

(Code 583-603)
professionals, not merely technicians with some training in computer software and hardware. Success requires a strong aptitude in mathematics.

The Program for Majors and Minors
Department faculty constantly examine the curriculum to ensure that students gain both the breadth and depth of knowledge needed to be successful in careers in business and industry, or in graduate school. The major/minor curriculum includes:

1. Introductory courses which cover the basic principles of Computer Science.
2. The use of object-oriented and other programming paradigms.
3. An integrated blend of courses which cover the tools, knowledge, problem-solving, and programming techniques that form the basis for a successful career.
4. A capstone experience.

Departmental Honors in Computer Science
Eligibility: Students with resident and total GPAs of 3.50 or higher and a 3.50 or higher in at least 12 credits of computer science.

Procedure: A written application for Departmental Honors in Computer Science shall be approved by the research advisor and the departmental honors committee. The application and approval process must be completed no later than the end of the junior year.

Requirements:
1. The satisfactory completion of
   a. six credits of registration in Computer Science Research, including the writing of a research paper;
   b. an oral presentation to be given to at least three members of the faculty.
2. Resident and total GPAs of 3.50 or higher in both the computer science major and for all credits attempted to meet graduation requirements.
3. Participation in at least one Student ACM Programming Contest.

Information for All Students
It is strongly recommended that the student have a grade of C or above in any Computer Science course, which is to be used as a prerequisite to another course. Where a grade of C- or below is earned in a Computer Science course, the student should repeat the course before continuing.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

Civil Engineering

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Civil Engineering

Liberal Education Core

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

LIBERAL EDUCATION CORE REQUIREMENTS a minimum of 36 credits

Knowledge Goal

Knowledge Outcome 1 (K1): Natural Sciences (http://catalog.uwec.edu/undergraduate/attribute-k1/) Two (2) learning experiences

Knowledge Outcome 2 (K2): Social Sciences (http://catalog.uwec.edu/undergraduate/attribute-k2/) Two (2) learning experiences

Knowledge Outcome 3 (K3): Humanities (http://catalog.uwec.edu/undergraduate/attribute-k3/) Two (2) learning experiences

Knowledge Outcome 4 (K4): Fine Arts (http://catalog.uwec.edu/undergraduate/attribute-k4/) One (1) learning experience

Skills Goal

Apply for graduation on CampS.

Obtain admission to the degree program and/or the College offering it.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 170-030)

This major is recommended for students who desire a strong foundation in software design and development, computer systems and networking, and mathematics.

For a degree in Computer Science, a student must complete:

1. Complete one lab science sequence chosen from:
   - PHYS 211 General Physics
   - & PHYS 212 General Physics
   OR
   - PHYS 231 University Physics I
   - & PHYS 232 University Physics II

2. Complete one lab science sequence chosen from:
   - MATH 114 Calculus I
   - MATH 215 Calculus II
   - MATH 314 Discrete Mathematics
   - MATH 246 Elementary Statistics
   - or MATH 345 Introduction to Probability and Mathematical Statistics

A Computer Science elective, selected from one of the following options:

- Option 1
  - Select a minimum of six credits of electives chosen from the following not already included in the Computer Science core:
    - CS 370 Computer Security
    - CS 376 Cryptography and Network Security
    - CS 388 UNIX Systems Programming
    - CS 399 Independent Study - Juniors
    - CS 420 Artificial Intelligence
    - CS 425 Machine Learning
    - CS 426 Deep Learning
    - CS 436 Mobile Software Development
    - CS 450 Theory of Computation
    - CS 455 Computer Graphics
    - CS 485 Software Engineering II
    - CS 491 Special Topics
    - CS 498 Computer Science Internship
    - Or other courses designated by the department (six-seven credits; recommended for students considering industry employment)

- Option 2
  - Select six credits from the following:
    - CS 482 Research in Computer Science I
    - CS 492 Research in Computer Science II

1. Additional capstone and research experience; recommended for students considering graduate school

For a degree in Computer Science, a student must complete:

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Apply the foundational elements of mathematics, logic, critical thinking and problem-solving skills to develop the algorithms and data structures necessary to solve a wide variety of computing problems.
- Analyze a problem, identify and define the computing requirements appropriate to its solution and demonstrate comprehension of the tradeoffs involved in design choices.
- Design, implement and evaluate a computing system or component to meet desired needs.
- Apply and use concepts from computer architecture and operating systems in computing system design, implementation and performance analysis.
- Use and evaluate a wide variety of modern tools and languages used in the practical construction of computing systems.
- Collaborate effectively in a team environment.
- Recognize social, ethical, and legal issues that surround the production and use of technology.
- Communicate effectively, both orally and in writing, to technical and non-technical audiences.

Sample Degree Plan

Computer Science, Comprehensive Major, B.S.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog.uwec.edu/undergraduate/graduation-requirements/)here (https://catalog.uwec.edu/undergraduate/graduation-requirements/#header1) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

**First Year**

**First Semester**
- CS 145 Programming for New Programmers  4
- CS 146 The Big Picture in Computer Science  1
- MATH 112 Precalculus Mathematics  4

**Second Semester**
- CS 140 Introduction to Computer Science  4
- ENGL 102 English Composition II  4
- MATH 113 Calculus II  4

**Third Semester**
- CS 240 Computer Science Internship  4
- ENGL 202 Intermediate Writing  3
- MATH 215 Calculus II  4

**Fourth Semester**
- CS 245 Machine Learning  4
- ENGL 204 Technical Writing  3
- MATH 246 Elementary Statistics  4

**Fifth Semester**
- CS 345 Advanced Programming  4
- ENGL 312 Science Writing  3
- MATH 314 Discrete Mathematics  4

**Sixth Semester**
- CS 340 Data Structures  4
- ENGL 313 Technical Writing  3
- MATH 345 Introduction to Probability and Mathematical Statistics  4

**Seventh Semester**
- CS 480 Advanced Topics in Computer Science  4
- ENGL 314 Technical Writing  3
- MATH 350 Probability and Mathematical Statistics  4

**Eighth Semester**
- CS 485 Advanced Topics in Computer Science  4
- ENGL 315 Technical Writing  3
- MATH 360 Numerical Analysis  4

**Ninth Semester**
- CS 480 Advanced Topics in Computer Science  4
- ENGL 316 Technical Writing  3
- MATH 370 Introduction to Real Analysis  4

**Tenth Semester**
- CS 485 Advanced Topics in Computer Science  4
- ENGL 317 Technical Writing  3
- MATH 380 Linear Algebra  4

**Eleventh Semester**
- CS 480 Advanced Topics in Computer Science  4
- ENGL 318 Technical Writing  3
- MATH 390 Complex Variables  4

**Twelfth Semester**
- CS 485 Advanced Topics in Computer Science  4
- ENGL 319 Technical Writing  3
- MATH 400 Senior Thesis  4

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)
The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
• S2 – Mathematics; one experience (must satisfy the University math competency requirement).

• S3 – Creativity; one experience (can be fulfilled in a student’s major).

• R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).

• R2 – Global Perspectives; one experience.

• R3 – Civic and Environmental Issues; one experience.

• I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).

• SL—Service Learning; 30 hours

Additional LE Core Information

• Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).

• Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).

• S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.

• S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.

• S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.

• S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.

• S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.

• I1 – Any semester long study abroad program can fulfill one I1 experience.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

• Analyze a problem, identify and define the computing requirements appropriate to its solution and demonstrate comprehension of the tradeoffs involved in design choices.

• Apply and use concepts from computer architecture and operating systems in computing system design, implementation and performance analysis.

• Use and evaluate a wide variety of modern tools and languages used in the practical construction of computing systems.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 170-205)

This major is recommended for students who desire a strong foundation in software design and development.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Apply the foundational elements of mathematics, logic, critical thinking and problem-solving skills to develop the algorithms and data structures necessary to solve a wide variety of computing problems.
- Analyze a problem, identify and define the computing requirements appropriate to its solution and demonstrate comprehension of the tradeoffs involved in design choices.
- Design, implement and evaluate a computing system or component to meet desired needs.
- Apply and use concepts from computer architecture and operating systems in computing system design, implementation and performance analysis.
- Use and evaluate a wide variety of modern tools and languages used in the practical construction of computing systems.
- Collaborate effectively in a team environment.
- Recognize social, ethical, and legal issues that surround the production and use of technology.
- Communicate effectively, both orally and in writing, to technical and non-technical audiences.

NOTE 1: MATH 114 or equivalent is required.
NOTE 2: MATH 314 or equivalent is required.
NOTE 3: CJ 202, ENGL 312, or ENGL 313 must be completed for a degree in Computer Science, Software Engineering.

Sample Degree Plan

Computer Science, Software Engineering, Major, B.S.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog.uwec.edu/undergraduate/graduation-requirements/) here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

Note: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).  

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPS)  

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

Liberal Education (LE) Core Guidance  

Liberal Education Core (LE Core)  
The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.  

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).  
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).  
- K3 – Humanities; two experiences.  
- K4 – Fine Arts; one experience.  
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).  
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).  
- S3 – Creativity; one experience (can be fulfilled in a student’s major).  
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).  
- R2 – Global Perspectives; one experience.  
- R3 – Civic and Environmental Issues; one experience.  
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).  
- SL—Service Learning; 30 hours  

Additional LE Core Information  

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).  
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).  
- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
• S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.

• S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.

• S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.

• S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.

• I1 – Any semester long study abroad program can fulfill one I1 experience.

Economics

Schneider Social Science 476
715-836-5743
Department Website (https://www.uwec.edu/academics/college-arts-sciences/departments-programs/economics/)

What is Economics?

Economics is a study of people in the ordinary business of life; it examines that part of individual and social action which is most closely connected with the attainment and with the use of the material requirements for wellbeing. Thus it is on one side a study of material wealth; and on the other, and more important side, a part of the study of people. The Department of Economics believes that understanding economics requires both learning economic theory and applying that theory. To this end, the department encourages internships, student/faculty collaborative research activities, small-group learning, and applied projects.

To aid our graduates in the transition to employment or further education, the department sponsors trips to area graduate schools and visits by individuals employed in economics-related occupations and it maintains a file of alumni mentors.

Honor Societies and Student Organizations

Omicron Delta Epsilon (Economics Honors Society) and Student Economics Association.

For more information on either organization, see the Department Chair.

Departmental Honors Program in Economics

Entrance Requirements:

1. Majors who have completed at least the two introductory economics courses with a GPA in economics courses of 3.50 or higher, and resident and total GPAs of 3.35 or higher,
2. and submit a written application before the beginning of the senior year for approval by the Economics Department faculty.
3. Requirements for Continued Participation: If at any time a student’s resident and total GPAs fall below 3.35, or a student’s GPA in economics courses falls below 3.20, that student will no longer be eligible to participate in the program.

Graduation Requirements:

1. Complete the requirements for an economics major, including ECON 316.
2. Complete at least six credits in the department’s Honors Seminars taught by graduate faculty. If unable to schedule six credits of seminar, the student can petition the department to replace three credits of Honors Seminar with three credits of Honors Independent Study.
3. Satisfactory completion of an Honors paper under the direction of a department member of the graduate faculty.
4. Satisfactory completion of an oral examination, conducted by at least three faculty members, on economic theory (ECON 303 and ECON 304) and on the student’s Honors Paper.
5. Resident and total GPAs of 3.50 or higher at graduation for all courses and in Economics Department courses. For more information, see the Department Chair.

Majors

• Major: Economics, Liberal Arts - B.A./B.S.
• Comprehensive Major: Economics, Business - B.B.A.

Minors

• Minor: Economics, Liberal Arts

Certificates

• Certificate: Economics of Global Issues

Economics of Global Issues, Certificate

(Code 360-601)

This Certificate provides students an opportunity to develop their global competency. One of the goals of UWEC is to provide students with “globally infused curricular and co-curricular experiences”. This Certificate will also complement other programs on campus, such as the Global Studies minor, the Latin American and Latinx Studies major/minor, the Women’s, Gender, and Sexuality Studies major/minor, and other programs in Political Science.

ECON 390  Global Economics Immersion Experience

Total Credits 12

Note: Students cannot pursue the Economics Major and the Economics of Global Issues Certificate to meet graduation requirements for completing a first and second degree program. Courses taken for the certificate cannot be applied to the student’s major program.

Program Learning Outcomes
Students completing this program will be expected to meet the following learning outcomes:

• Analyze and interpret how cultures, environments, practices, and values differ from or are similar to one another.
• Analyze and interpret the nature of global systems, institutions or relationships of power in a historical or geographical context.
• Analyze and interpret the global implications of individual or collective decisions.

Procedures Required for Graduation
Obtain admission to the degree program and/or the College offering it.
Apply for graduation on CampS.

Applicability of Credits Toward Graduation
Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in extension courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION

Credit Restrictions
Satisfactory/Unsatisfactory
Total degree credit maximum 12
Major, Standard maximum 1 course
Major, Comprehensive maximum 2 courses
Minor maximum 1 course

Credit by Examination
Total degree credit maximum ¼ of total
Major or minor maximum ½ of total

Two-Year College Credits
Total degree credit maximum 72 credits

Activity credit (band, chorus, drama, KINS 100-184)
Total KINS 100-184 maximum 1 credit

1 Certain programs exceed this minimum.
2 See special requirements in each College.
Learning outcomes they comprise.

The University of Wisconsin-Eau Claire measures learning outcomes to ensure Liberal Education Core.

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

**LIBERAL EDUCATION CORE REQUIREMENTS**

**Knowledge Goal**

Knowledge Outcome 1 (K1): Natural Sciences (http://catalog.uwec.edu/undergraduate/attribute-k1/)

One experience in laboratory science must be selected from either K1 or K2.

Knowledge Outcome 2 (K2): Social Sciences (http://catalog.uwec.edu/undergraduate/attribute-k2/)

One experience in laboratory science must be selected from either K1 or K2.

Knowledge Outcome 3 (K3): Humanities (http://catalog.uwec.edu/undergraduate/attribute-k3/)

Knowledge Outcome 4 (K4): Fine Arts (http://catalog.uwec.edu/undergraduate/attribute-k4/)

**Skills Goal**

Skills Outcome 1 (S1): Written and Oral Communication (http://catalog.uwec.edu/undergraduate/attribute-s1/)

One S1 must meet the University Writing Requirement

Skills Outcome 2 (S2): Mathematics (http://catalog.uwec.edu/undergraduate/attribute-s2/)

One S2 to meet the University Mathematics Requirement

Skills Outcome 3 (S3): Creativity (http://catalog.uwec.edu/undergraduate/attribute-s3/)

**Responsibility Goal**

Responsibility Outcome 1 (R1): Equity, Diversity, and Inclusivity (http://catalog.uwec.edu/undergraduate/attribute-r1/)

One R1 must satisfy Design for Diversity (http://catalog.uwec.edu/undergraduate/attribute-ddiv/#header13)

Responsibility Outcome 2 (R2): Global Perspectives (http://catalog.uwec.edu/undergraduate/attribute-r2/)

Responsibility Outcome 3 (R3): Civic and Environmental Issues (http://catalog.uwec.edu/undergraduate/attribute-r3/)

**Integration Goal**

Integration Outcome 1 (I1): Integration (http://catalog.uwec.edu/undergraduate/attribute-i1/)

**Service-Learning Goal**

Service-Learning (http://catalog.uwec.edu/undergraduate/attribute-sl/#header13)

30 hours

**College Degree Requirements**

**Bachelor of Business Administration Degree Requirements**

**Credits for Graduation**

All candidates for the BBA degree need a minimum of 120 credits to graduate, to include a minimum of 48 semester credits in courses other than those offered by the College of Business. The Health Care Administration major is exempt from the 48-credit requirement.

**Student Professional Development Program**

All students pursuing a major in the College of Business must complete the Student Professional Development Workshops. All students pursuing a minor in the Department of Management and Marketing must complete the Student Professional Development Workshops. The program is designed to equip students with the skills needed to present themselves professionally during their job search and upon entering their chosen careers. Students are strongly encouraged to complete the workshops prior to the end of their third semester on campus. The workshops are prerequisites for a number of 300-level courses in the College of Business Core and need to be completed prior to registration for those courses.

The program consists of four workshops: The Business Professional, Professional Image, Professional Etiquette, Professional Networking Event. For more information, visit the College of Business website (http://www.uwec.edu/academics/college-business/academic-resources/student-professional-development-program/).

**Grade Point Requirements**

Candidates for the BBA degree must earn a minimum GPA of 2.00 in their major and in courses taken in residence. (See the special requirements for the Comprehensive Major in Health Care Administration (https://catalog.uwec.edu/undergraduate/business/management-marketing/health-care-administration-comprehensive-major-bba/). If a minor is required, or is to be listed as an official minor, the candidate must earn a minimum GPA of 2.00 in the minor.

- No course may be taken on a Satisfactory/Unsatisfactory basis as part of a major, minor, or certificate described by one of the departments in the College of Business.
- Business courses may be taken on a Satisfactory/Unsatisfactory basis only concurrent with or following completion of the student’s major or business minor.

**Major Requirements**

(Code 360-002)
The BUSCORE

The BUSCORE is the common body of courses taken by all BBA students with the exception of the Health Care Administration major. It consists of the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACCT 201</td>
<td>Introduction to Accounting</td>
<td>3</td>
</tr>
<tr>

1 A student may substitute MATH 347 for MATH 246 in the major.

NOTE: A maximum of six credits earned in ECON 399, ECON 494, ECON 495, ECON 496, ECON 498, and/or ECON 499 may count toward the major.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Use economic models (including supply and demand, models of the behavior of competitive and monopolistic firms, consumer optimization models, and macroeconomic models such as the Solow growth model, AS/AD model, and IS/LM model) to analyze economic behavior, social issues, and policy problems.
- Assemble and analyze economic data to test economic hypotheses.
- Effectively present their economic reasoning in concise written statements, extended research papers, or oral presentations.
- Describe and explain the wide differences in economic outcomes by race, gender, and across countries.

Sample Degree Plan

Economics, Business, B.B.A. (Comprehensive Major)

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements.
in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [here](https://catalog.uwec.edu/undergraduate/graduation-requirements/) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

#### SPDP: Student Professional Development Program (SPDP)

SPDP: Student Professional Development Program (SPDP) workshop completion recommended by the end of the 1st year, 2nd semester, but no later than the end of the 3rd semester or 45 credits earned.

### Study Abroad:

Students participating in study abroad may opt-in to complete one of the two Integrative Learning 1 (LE-I1) experiences. Many courses taken at approved study-abroad institutions will satisfy LE or elective requirements. Consult the Transfer Credit Wizard and consult with your academic advisor to plan which LE or elective courses to take while abroad. See third-year note below regarding upper-division business courses.

### NSE:

Students participating in National Student Exchange (NSE) should work with their academic advisor to select courses at their NSE site that will cover UWEC degree requirements.

#### SOMETIME IN THE THIRD OR FOURTH YEAR

##### Study Abroad:

Please note that if studying abroad in the third or fourth year, upper-division business courses must be taken at an AACSB accredited institution. For a list of AACSB-accredited institutions, please see the Your Major + Study Abroad page. Economics, Business majors: consider especially Limerick, Ireland for the most transfer courses; then Harlaxton, England, Melbourne, Australia, and Florianopolis, Brazil; and then Lorenzo de’ Medici, Italy, Stellenbosch, South Africa, Bilbao, Spain, and Chiang Mai, Thailand. Courses that transfer from AACSB-accredited institutions to UWEC as 907U courses with a program prefix (e.g., ECON, FIN) might contribute as major electives. Work closely with your academic advisor to plan for your study abroad experience.

Economics, Major - Liberal Arts

Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- **K1** – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K2** – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K3** – Humanities; two experiences.
- **K4** – Fine Arts; one experience.
- **S1** – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- **S2** – Mathematics; one experience (must satisfy the University math competency requirement).
- **S3** – Creativity; one experience (can be fulfilled in a student’s major).
- **R1** – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- **R2** – Global Perspectives; one experience.
- **R3** – Civic and Environmental Issues; one experience.
- **I1** – Integration; two experiences (one experience can be fulfilled in a student’s major).
- **SL** – Service Learning; 30 hours

Additional LE Core Information

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.

University Residency Requirements

| Minimum total | 30 |
| Senior year   | 23 |
Major, Standard, upper division in residence 12
Major, Comprehensive, upper division in residence 21
Certificate 25 percent of credits

Procedures Required for Graduation
Obtain admission to the degree program and/or the College offering it.
Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for USAFI Credit.

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

Applicability of Credits Toward Graduation

Major or minor maximum ½ of total
Minor maximum 1 course

Credit by Examination
Total degree credit maximum ¼ of total
Major or minor maximum ½ of total

Two-Year College Credits
Total degree credit maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)
Total KINS 100-184 maximum 1 credit
Total Band, chorus, drama maximum 12 credits
Single course band, chorus, drama maximum 4 credits

Extension credits
UW-System no maximum
Other extension/correspondence maximum ¼ of total

USAFI
USAFI maximum 32 credits

Liberal Education Core
The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

Liberal Education Core Requirements

Knowledge Goal
Knowledge Outcome 1 (K1): Natural Sciences (http://catalog.uwec.edu/undergraduate/attribute-k1/)
Two (2) learning experiences

Knowledge Outcome 2 (K2): Social Sciences (http://catalog.uwec.edu/undergraduate/attribute-k2/)
Two (2) learning experiences

Knowledge Outcome 3 (K3): Humanities (http://catalog.uwec.edu/undergraduate/attribute-k3/)
Two (2) learning experiences

Knowledge Outcome 4 (K4): Fine Arts (http://catalog.uwec.edu/undergraduate/attribute-k4/)
One (1) learning experience

Skills Goal
Skills Outcome 1 (S1): Written and Oral Communication (http://catalog.uwec.edu/undergraduate/attribute-s1/)
Two (2) learning experiences

One S1 must meet the University Writing Requirement
Skills Outcome 2 (S2): Mathematics (http://catalog.uwec.edu/undergraduate/attribute-S2/)
One (1) learning experience

One S2 to meet the University Mathematics Requirement

Skills Outcome 3 (S3): Creativity (http://catalog.uwec.edu/undergraduate/attribute-S3/)
One (1) learning experience

Responsibility Goal

Responsibility Outcome 1 (R1): Equity, Diversity, and Inclusivity (http://catalog.uwec.edu/undergraduate/attribute-R1/)
Two (2) learning experiences

One R1 must satisfy Design for Diversity (http://catalog.uwec.edu/undergraduate/attribute-DDIV/)

Responsibility Outcome 2 (R2): Global Perspectives (http://catalog.uwec.edu/undergraduate/attribute-R2/)
One (1) learning experience

Responsibility Outcome 3 (R3): Civic and Environmental Issues (http://catalog.uwec.edu/undergraduate/attribute-R3/)
One (1) learning experience

Integration Goal

Integration Outcome 1 (I1): Integration (http://catalog.uwec.edu/undergraduate/attribute-I1/)
Two (2) learning experiences

Service-Learning Goal

Service-Learning (http://catalog.uwec.edu/undergraduate/attribute-SL)
30 hours

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major, including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Students completing this program will be expected to meet the following learning outcomes:

- Use economic models (including supply and demand, models of the behavior of competitive and monopolistic firms, consumer optimization models, and macroeconomic models such as the Solow growth model, AS/AD model, and IS/LM model) to analyze economic behavior, social issues, and policy problems.
- Assemble and analyze economic data to test economic hypotheses.
- Effectively present their economic reasoning in concise written statements, extended research papers, or oral presentations.
- Describe and explain the wide differences in economic outcomes by race, gender, and across countries.

Sample Degree Plan

**Economics, Major - Liberal Arts, B.A. or B.S.**

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [here](https://catalog.uwec.edu/undergraduate/graduation-requirements/) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

### Sample Degree Plan for Economics, Major - Liberal Arts, B.A. or B.S.

A student may substitute MATH 347 for MATH 246 in the major.

**NOTE 1:** MATH 111 or MATH 114 or their equivalent must be completed as part of the Liberal Education requirements.

**NOTE 2:** A maximum of six credits earned in ECON 399, ECON 494, ECON 495, ECON 496, ECON 498, and/or ECON 499 may count toward the major.

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

1. Use economic models (including supply and demand, models of the behavior of competitive and monopolistic firms, consumer optimization models, and macroeconomic models such as the Solow growth model, AS/AD model, and IS/LM model) to analyze economic behavior, social issues, and policy problems.
2. Assemble and analyze economic data to test economic hypotheses.
3. Effectively present their economic reasoning in concise written statements, extended research papers, or oral presentations.
4. Describe and explain the wide differences in economic outcomes by race, gender, and across countries.

**Sample Degree Plan**

**Economics, Major - Liberal Arts, B.A. or B.S.**

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [here](https://catalog.uwec.edu/undergraduate/graduation-requirements/) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

### TOTAL THIRD YEAR

30 credit(s)
Students must complete a minimum of 36 credits in courses approved for the Liberal Education Core (LE Core). The LE Core comprises 17 learning experiences across 11 learning outcomes.

**RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)**

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

The Department of Economics is highly active in the following areas. Please consult with the department chair to see how you might get more involved.

- Faculty/Student Research – over 40 researchers in economics every year. Students present at conferences regionally, nationally, and internationally, as well as co-author papers.
- International Immersions – At least 2 international immersion experiences available annually within the department of economics.
- Internships – Active class led internship program (ECON 498).

**Additional LE Core Information**

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning; 30 hours

**Liberal Education (LE) Core Guidance**

**Liberal Education Core (LE Core)**

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.

- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning; 30 hours

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

- Use economic models (including supply and demand, models of the behavior of competitive and monopolistic firms, consumer optimization models, and macroeconomic models such as the Solow growth model, AS/AD model, and IS/LM model) to analyze economic behavior, social issues, and policy problems.
- Assemble and analyze economic data to test economic hypotheses.
- Effectively present their economic reasoning in concise written statements, extended research papers, or oral presentations.

**English**

Centennial Hall 4102
715-836-2639
Department Website ([https://www.uwec.edu/academics/college-arts-sciences/departments-programs/english/](https://www.uwec.edu/academics/college-arts-sciences/departments-programs/english/))

English as an academic discipline encompasses the study of literature, literary theory, critical/cultural theory, film, creative writing, professional writing, rhetoric, teaching, and linguistics. In English courses, students develop strong critical thinking and analytical skills; they learn to read with interpretive power and write with fluency, power, and precision; and they apply a variety of research strategies and methods.

**Advising Information**

The English Department maintains updated advising guides and four-year degree plans for all of its majors, minors, and certificates; these materials are available in the English Department office and on the English Department website ([https://www.uwec.edu/academics/college-arts-sciences/departments-programs/english/](https://www.uwec.edu/academics/college-arts-sciences/departments-programs/english/)).

Students contemplating a major, minor, or certificate in English are encouraged to make an appointment in the English Department office with the Director of Undergraduate Studies in English.

**Programs**

Students at UW-Eau Claire may choose a major in one of our five emphasis areas: Creative Writing; Critical Studies in Literatures, Cultures, and Film; English Language Arts Teaching; Linguistics; Rhetorics of Science, Technology, and Culture. The English Language Arts Teaching program is a comprehensive major which does not need a second program, while the other majors each require an additional minor, certificate, or second major program. The English Department also offers minors and certificates in Creative Writing, Critical Studies in Literatures, Cultures, and Film, and Rhetorics of Science, Technology, and Culture. The English Department administers the College of Arts and Sciences’ Interdisciplinary Linguistics minor and certificate. Each program in English offers students a framework of core English courses and a focused concentration of courses in the emphasis.

All English majors take three core courses, designed to provide a strong foundation in English studies:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 210</td>
<td>Introduction to Critical Studies</td>
<td>5</td>
</tr>
<tr>
<td>ENGL 221</td>
<td>Introductory English Linguistics</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 284</td>
<td>Introduction to Theory and Criticism</td>
<td>3</td>
</tr>
</tbody>
</table>

ENGL 210 provides students with an understanding of textuality and how texts function within historicized cultural contexts. All English minors take ENGL 210 as their one core English course. ENGL 221 introduces students to the scientific study of language, including linguistic structure, the history of the English language, and language acquisition. ENGL 284 provides a broadly conceived understanding of theory and criticism, and introduces students to the practice of self-reflectively theorizing and critiquing within the field of English. These core courses provide students with a strong basis for their work in the discipline.

Our English programs are designed to give students focused study in a particular area or emphasis. Students deepen their study of English through intermediate and advanced coursework in their specific emphasis and have many opportunities to integrate their previous learning by producing major research or creative projects. Students in English develop strong analytical skills, critical thinking abilities, oral and written communication skills, and a depth of knowledge about language, literature, and culture, all of which will serve them well in their careers or graduate work. Finally, the English Department prides itself on its accomplished faculty, rigorous curriculum, and welcoming community.

**Departmental Honors Program, Student Organizations, and Other Opportunities**

We believe that getting involved beyond the classroom in the major/minor enhances students’ college experience and gives them valuable career-building and life-enriching skills. Please visit the English department website ([https://www.uwec.edu/academics/college-arts-sciences/departments-programs/english/](https://www.uwec.edu/academics/college-arts-sciences/departments-programs/english/)) for information about these opportunities.

- **Departmental Honors Program in English**—engage in high impact research, creative, and integrative opportunities. The Departmental Honors Program fosters integrative learning through independent and collaborative experiences, promotes advanced engagement with scholarly resources, and recognizes outstanding achievement in academic and scholarly activity.
- **English Festival**—organize events and activities of interest to English majors, minors, and faculty.
- **English Ambassadors**—promote the department at recruitment events, mentor English majors/minors, and advise the department on student concerns.
- **NOTA (None of the Above)**—contribute to the creation of the campus’ creative literary and arts publication and host events promoting the literary and creative arts.
- **Sigma Tau Delta/Theta Zeta Chapter**—English honor society committed to fostering relationships between students and faculty and inspiring students to promote their love of English to the campus and local community through service projects and activities.
• Center for Writing Excellence Writing Assistants & Writing Fellows—tutor in the Center for Writing Excellence or assist professors in writing-intensive courses.
• Student Mentors/Student Academic Apprentices—mentor or apprentice in an English or Writing course.
• Writing Internships—build your writing and professional skills by working for community agencies or businesses in the Chippewa Valley.

General Restrictions
Auditors will be admitted to writing courses only with the written permission of the instructor and the department chair.

English for Non-Native Speakers. The beginning composition course for non-native speakers of English is ordinarily ESL 305 (contact Department of Languages) followed by a first-year writing course offered by the English Department.

University Requirements
GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE
Credit Requirements
| Minimum total for graduation | 120 |
| Upper division credits (courses numbered 300 and higher) | 39 |
| Liberal Education Core | 36 |

Academic Concentrations
| Grade Point Requirements | 2 |
| Total | 2.00 average |
| Resident | 2.00 average |
| Major | 2.00 average |
| Minor | 2.00 average |
| Certificate | 2.00 average |

University Residency Requirements
| Minimum total | 30 |
| Senior year | 23 |
| Major, Standard, upper division in residence | 12 |
| Major, Comprehensive, upper division in residence | 21 |
| Certificate | 25 percent of credits |

Procedures Required for Graduation
Obtain admission to the degree program and/or the College offering it.
Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

Applicability of Credits Toward Graduation
Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are
normally limited to one-fourth of the total required for graduation from any curriculum.

**WTCS Credits.** A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/sp/ps/Public/Employee/Hrms/c/Eau_SS_CUSTOM:Eau_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

**USAIFI Credit.** UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

**Activity Credit (band, chorus, drama, KINS 100-184 courses)** Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

**Other Restricted Credits.** For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

**Liberal Education Core**

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

**LIBERAL EDUCATION CORE REQUIREMENTS**

<table>

**Integration Goal**
Achieve a score on the mathematics placement test that qualifies the Sciences course work; mathematics competency at the minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences. Complete all University Graduation Requirements (which includes the Bachelor of Science Degree in the College of Arts or a mark of S in a 102-level foreign language course (or 201-level course in a foreign language). (2) Earn a grade of at least C (not C-) or a mark of S in a foreign language placement test that qualifies the student to enter the language competency may be met in one of two ways: (1) Achieve a score on a foreign language placement test. This test may be attempted no more than two times.

**College Degree Requirements**

**Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)**

**University Graduation Requirements.** All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

**College Graduation Requirements: Grade Point Averages.** All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

**Major-Minor and Major-Certificate Requirements.** A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

**College Credits.** Earn at least 90 credits in courses offered by the College of Arts and Sciences.

**Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)**

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

**Bachelor of Science Degree in the College of Arts and Sciences (B.S.)**

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

### Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

Outcomes for all English Programs

- Read and interpret text from a variety of critical perspectives.
- Write effectively for different purposes and audiences.
- Plan, conduct, and document research using appropriate sources.
- Describe the dynamic nature, diversity, and structure of the English language.

Outcomes for Creative Writing Emphasis

- Create original, effective poetry.
- Create original, effective fiction or creative non-fiction.
Sample Degree Plan

English, Creative Writing Emphasis, Major, B.A.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

Liberal Education (LE) Core Guidance
Liberal Education Core (LE Core)
The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

• K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
• K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
• K3 – Humanities; two experiences.
• K4 – Fine Arts; one experience.
• S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
• S2 – Mathematics; one experience (must satisfy the University math competency requirement).
• S3 – Creativity; one experience (can be fulfilled in a student’s major).
• R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
• R2 – Global Perspectives; one experience.
• R3 – Civic and Environmental Issues; one experience.

I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
SL—Service Learning; 30 hours

Additional LE Core Information
• Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
• Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
• S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
• S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
• S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
• S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
• S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
• I1 – Any semester long study abroad program can fulfill one I1 experience.

**Procedures Required for Graduation**
Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

**Applicability of Credits Toward Graduation**

**Junior College or Two-Year College Credits.** A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

**Extension Credits.** Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

**WTCS Credits.** A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

**USAFI Credit.** UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

**Activity Credit (band, chorus, drama, KINS 100-184 courses)** Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

**Other Restricted Credits.** For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

**Liberal Education Core**

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

**LIBERAL EDUCATION CORE REQUIREMENTS**

- One experience in laboratory science must be selected from either K1 or K2.
- One experience in laboratory science must be selected from either K1 or K2.
- One S2 to meet the University Mathematics Requirement
Skills Outcome 3 (S3): Creativity ([http://catalog.uwec.edu/undergraduate/attribute-S3/](http://catalog.uwec.edu/undergraduate/attribute-S3/))

Responsibility Goal

Responsibility Outcome 1 (R1): Equity, Diversity, and Inclusivity ([http://catalog.uwec.edu/undergraduate/attribute-R1/](http://catalog.uwec.edu/undergraduate/attribute-R1/))

Responsibility Outcome 2 (R2): Global Perspectives ([http://catalog.uwec.edu/undergraduate/attribute-R2/](http://catalog.uwec.edu/undergraduate/attribute-R2/))

Integration Goal

Integration Outcome 1 (I1): Integration ([http://catalog.uwec.edu/undergraduate/attribute-I1/](http://catalog.uwec.edu/undergraduate/attribute-I1/))

Service-Learning Goal

### Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

### Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

### College Degree Requirements

**Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)**

**University Graduation Requirements.** All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

**College Graduation Requirements: Grade Point Averages.** All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

**Major-Minor and Major-Certificate Requirements.** A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

**College Credits.** Earn at least 90 credits in courses offered by the College of Arts and Sciences.

### Major Requirements

**Liberal Arts (Code 540-212)**

<table>
<thead>
<tr>

<td>Introduction to Critical Studies</td>
<td>5</td>
</tr>
<tr>
<td>ENGL 221</td>
<td>Introductory English Linguistics</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 284</td>
<td>Introduction to Theory and Criticism</td>
<td>3</td>
</tr>
</tbody>
</table>

**Emphasis Requirements**

At least one course from five of the following areas (15 credits):

- British literature/culture course before 1790
- British literature/culture course after 1790
- American literature/culture course before 1865
- American literature/culture course after 1865
- World/Post-Colonial literature/culture
- American Ethnic literature/culture
- Women’s literature/culture
- Theory, Film, and Popular Culture Studies

**Additional Elective Credits in English (12 credits)**

A minimum of six of these credits must come from any of the above areas; the remaining six credits may come from any ENGL course or THEA 318.

**NOTE 1:** Up to six credits may come from the 100- or 200-level, with no more than three credits from ENGL 121, ENGL 130, ENGL 142, ENGL 150, and ENGL 181.

**NOTE 2:** At least nine credits must be taken at the 400-level.
NOTE 3: Students will need to earn at least 48 unique credits between any approved English program combinations for purposes of meeting graduation requirements for first and second degree programs.

ENGL 455  Seminar in Rhetorics of Science, Technology, and Culture

Program Learning Outcomes
Students completing this program will be expected to meet the following learning outcomes:

Outcomes for all English Programs
- Read and interpret text from a variety of critical perspectives.
- Write effectively for different purposes and audiences.
- Plan, conduct, and document research using appropriate sources.
- Describe the dynamic nature, diversity, and structure of the English language.

Outcomes for Critical Studies Emphasis
- Read and interpret literatures, cultures, and film from a variety of historical periods and genres.
- Critique literatures, cultures, and film from a variety of theoretical perspectives.
- Intervene and judge where power is constructed and mobilized

Sample Degree Plan
English, Critical Studies In Literatures, Cultures, and Film Emphasis, Major, B.A.
The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

FIRST YEAR
FIRST SEMESTER
WRIT 114  Intensive Blugold Seminar in Critical Reading and Writing (LE-S1) 5
or WRIT 116  Blugold Seminar in Critical Reading and Writing
LE Option: Skills 2 (LE-S2) Mathematics 4

101-level Foreign Language (LE-S1) 4
ENGL 200-level literature in a required category with LE-K3, LE-K4 or LE-R1 3
TOTAL 16

SECOND SEMESTER
ENGL 210  Introduction to Critical Studies (LE-K3, LE-R1) 5
LE Option: Knowledge 1 (LE-K1) Natural Sciences 3
OR
LE Option: Knowledge 2 (LE-K2) Social Sciences
102-level Foreign Language (LE-S1) 4
LE Option: Responsibility 2 (LE-R2) Global Perspectives 3
TOTAL 15

SECOND YEAR
FIRST SEMESTER
ENGL 284  Introduction to Theory and Criticism 3
ENGL 200-level literature in a required category with LE-K3, LE-K4 or LE-R1 3
Minor/Certificate Course 3
OR
LE Option: Knowledge 1 (LE-K1L) Natural Sciences with Lab 3
TOTAL 15

FIRST SEMESTER
400-level literature/theory in a required literature category (LE-S3, LE-I1) 3
ENGL 300-level literature/theory in a required literature category 3
Minor/Certificate Course 3
TOTAL 15

THIRD YEAR
FIRST SEMESTER
ENGL 300-level literature/theory in a required literature category 3
Minor/Certificate Course 3
TOTAL 15

SECOND SEMESTER
400-level literature/theory in a required literature category (LE-S3, LE-I1) 3
ENGL 300- or 400-level Elective 3
LE Option: Knowledge 1 (LE-K1) Natural Sciences 3
 Elective 3
Minor/Certificate Course 3
TOTAL 15

FOURTH YEAR
FIRST SEMESTER
ENGL 400-level literature/theory in a required literature category (LE-S3, LE-I1) 3
ENGL 300- or 400-level Elective 3
LE Option: Responsibility 1 (LE-R1) Equity, Diversity, and Inclusivity 3
Minor/Certificate Course 3
Minor/Certificate Course 3
**TOTAL**  15

**SECOND SEMESTER**
ENGL 400-level literature/theory in a required literature category (LE-S3, LE-II) 3
LE Option: Knowledge 3 (LE-K3) Humanities 3
Minor/Certificate Course 3
Minor/Elective Course 3
Elective 3
**TOTAL**  15

Minimum total for the baccalaureate degree = 120 credits

**Note:** All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

**RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)**
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

**Liberal Education (LE) Core Guidance**

**Liberal Education Core (LE Core)**
The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- **K1** – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K2** – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K3** – Humanities; two experiences.
- **K4** – Fine Arts; one experience.
- **S1** – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- **S2** – Mathematics; one experience (must satisfy the University math competency requirement).
- **S3** – Creativity; one experience (can be fulfilled in a student’s major).
- **R1** – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- **R2** – Global Perspectives; one experience.
- **R3** – Civic and Environmental Issues; one experience.
- **I1** – Integration; two experiences (one experience can be fulfilled in a student’s major).
- **SL** – Service Learning; 30 hours

**Additional LE Core Information**
- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- **S1** – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- **S1** – A foreign language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- **S1, R2** – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- **S2** – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- **S3** – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- **I1** – Any semester long study abroad program can fulfill one I1 experience.

Program Learning Outcomes
Students completing this program will be expected to meet the following learning outcomes:

Outcomes for all English Programs
• Read and interpret text from a variety of critical perspectives.
• Write effectively for different purposes and audiences.
• Plan, conduct, and document research using appropriate sources.
• Describe the dynamic nature, diversity, and structure of the English language.

Outcomes for Critical Studies Emphasis

• Read and interpret literatures, cultures, and film from a variety of historical periods and genres.
• Critique literatures, cultures, and film from a variety of theoretical perspectives.
• Intervene and judge where power is constructed and mobilized.

**Procedures Required for Graduation**

- Obtain admission to the degree program and/or the College offering it.
- Apply for graduation on CampS.

1. Certain programs exceed this minimum.
2. See special requirements in each College.

**Applicability of Credits Toward Graduation**

**Junior College or Two-Year College Credits.** A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

**Extension Credits.** Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

**WTCS Credits.** A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

**USAFI Credit.** UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

**Activity Credit (band, chorus, drama, KINS 100-184 courses)** Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).
be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

**Liberal Education Core**

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

**LIBERAL EDUCATION CORE REQUIREMENTS**

- **Knowledge Goal**
  - Knowledge Outcome 1 (K1): Natural Sciences (http://catalog.uwec.edu/undergraduate/attribute-k1/) Two (2) learning experiences
  - One experience in laboratory science must be selected from either K1 or K2.
  - Knowledge Outcome 2 (K2): Social Sciences (http://catalog.uwec.edu/undergraduate/attribute-k2/) Two (2) learning experiences
  - One experience in laboratory science must be selected from either K1 or K2.
  - Knowledge Outcome 3 (K3): Humanities (http://catalog.uwec.edu/undergraduate/attribute-k3/) Two (2) learning experiences
  - Knowledge Outcome 4 (K4): Fine Arts (http://catalog.uwec.edu/undergraduate/attribute-k4/) One (1) learning experience
  - Skills Goal
    - Skills Outcome 1 (S1): Written and Oral Communication (http://catalog.uwec.edu/undergraduate/attribute-S1/) Two (2) learning experiences
    - One S1 must meet the University Writing Requirement
    - Skills Outcome 2 (S2): Mathematics (http://catalog.uwec.edu/undergraduate/attribute-S2/) One (1) learning experience
    - One S2 to meet the University Mathematics Requirement
    - Skills Outcome 3 (S3): Creativity (http://catalog.uwec.edu/undergraduate/attribute-S3/) One (1) learning experience
  - Responsibility Goal
    - Responsibility Outcome 1 (R1): Equity, Diversity, and Inclusivity (http://catalog.uwec.edu/undergraduate/attribute-R1/) Two (2) learning experiences
    - One R1 must satisfy Design for Diversity (http://catalog.uwec.edu/undergraduate/attribute-DDIV/#header13)
    - Responsibility Outcome 2 (R2): Global Perspectives (http://catalog.uwec.edu/undergraduate/attribute-R2/) One (1) learning experience
    - Responsibility Outcome 3 (R3): Civic and Environmental Issues (http://catalog.uwec.edu/undergraduate/attribute-R3/) One (1) learning experience
  - Integration Goal
    - Integration Outcome 1 (I1): Integration (http://catalog.uwec.edu/undergraduate/attribute-I1/) Two (2) learning experiences
    - Service-Learning Goal
      - Service-Learning (http://catalog.uwec.edu/undergraduate/attribute-SL/#header13) 30 hours

**College Degree Requirements**

**Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)**

**University Graduation Requirements.** All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

**College Graduation Requirements: Grade Point Averages.** All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

**Major-Minor and Major-Certificate Requirements.** A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements.
for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

CSD 311 Language Development and Disorders: Related Disciplines
ENGL 121 Busting Language Myths
FLG 365 Special Topics in Teaching English to Speakers of Other Languages
FLG 378 Second Language Acquisition Theory
PHIL 250 Symbolic Logic
PHIL 322 Philosophy of Language

Literature/Culture Requirements

Three literature/culture courses, including at least:

9
One literature/culture course at the 300- or 400-level
No more than one literature/culture course at the 100-level

ENGL 272 Perspectives in Popular Texts 3
ENGL 281 Critical Perspectives on Film, Television, and Moving-Image Culture 3
ENGL 372 Topics in Popular Culture 3
ENGL 381 Critical Studies in Film and Culture 3
ENGL 384 Studies in Theory and Criticism 3
ENGL 481 Seminar in Film, Video, and Moving-Image Culture 3
ENGL 484 Seminar in Critical Theory 3

Additional Courses in Literature/Culture
ENGL 150 Introduction to Literature 3
ENGL/CJ 273 Creative and Narrative Nonfiction 3
ENGL 274 The Short Story 3
ENGL 275 The Novel 3
ENGL 276 Poetry 3
ENGL 277 Drama 3
THEA 318 Contemporary Drama 3

Creative Writing
ENGL 220 Introduction to Creative Writing 3
ENGL 310 Intermediate Poetry Writing 3
ENGL 311 Intermediate Fiction/Nonfiction Writing 3
ENGL 410 Creative Writing Workshop - Poetry 3
ENGL 411 Creative Writing Workshop - Fiction 3
ENGL 412 Creative Writing Workshop - Nonfiction 3
ENGL 413 Prose Writing Workshop-Topics 3

Linguistics
ENGL 121 Busting Language Myths 3
ENGL 221 Introductory English Linguistics 3
ENGL 321 Topics in the Structure of English 3
ENGL 325 Topics in Language in Society 3
ENGL 421 Seminar in Linguistic Research 3

Rhetorics of Science, Technology, and Culture
ENGL 212 Histories and Theories of Rhetoric 3
ENGL 307 Editing and Publications Management 3
ENGL 312 Science Writing 3
ENGL 313 Technical Writing 3
ENGL 314 Cultural Rhetorics 3
ENGL 315 Visual Rhetorics of Science, Technology, and Culture 3
ENGL 316 Rhetorics of Social Justice 3
ENGL 409 Grant Proposal Writing 3
ENGL 455 Seminar in Rhetorics of Science, Technology, and Culture 3

Program Learning Outcomes
Students completing this program will be expected to meet the following learning outcomes:

Outcomes for all English Majors
- Read and interpret text from a variety of critical perspectives.
- Write effectively for different purposes and audiences.
- Plan, conduct, and document research using appropriate sources.
- Describe the dynamic nature, diversity, and structure of the English language.

Outcomes for Linguistics Emphasis
- Analyze linguistic data to form and test hypotheses in one or more of the following areas of linguistic structure: Sounds (phonology), Words (morphology), Sentences (syntax), Meanings (semantics)
- Apply knowledge of linguistics (broadly defined) to issues relating to the use of language.

Sample Degree Plan
English, Linguistics, Major, B.A.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following
sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [link](https://catalog.uwec.edu/undergraduate/graduation-requirements/) here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

Minimum total for the baccalaureate degree = 120 credits

**Note:** All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

**RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)**

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

**Liberal Education (LE) Core Guidance**

**Liberal Education Core (LE Core)**

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- **K1** – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K2** – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K3** – Humanities; two experiences.
- **K4** – Fine Arts; one experience.
• S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).

• S2 – Mathematics; one experience (must satisfy the University math competency requirement).

• S3 – Creativity; one experience (can be fulfilled in a student’s major).

• R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).

• R2 – Global Perspectives; one experience.

• R3 – Civic and Environmental Issues; one experience.

• I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).

• SL—Service Learning; 30 hours

Additional LE Core Information

• Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).

• Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).

• S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.

• S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.

• S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.

• S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.

• S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.

• I1 – Any semester long study abroad program can fulfill one I1 experience.

University Residency Requirements

| Minimum total | 30 |
| Senior year    | 23 |
| Major, Standard, upper division in residence | 12 |
| Major, Comprehensive, upper division in residence | 21 |
| Certificate    | 25 percent of credits |

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

1 Certain programs exceed this minimum.

2 See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM,EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also...
be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

**Liberal Education Core**

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

**LIBERAL EDUCATION CORE REQUIREMENTS**

<table>
<thead>
<tr>
<th>Knowledge Goal</th>
<th>Knowledge Outcome 1 (K1): Natural Sciences (<a href="http://catalog.uwec.edu/undergraduate/attribute-k1/">http://catalog.uwec.edu/undergraduate/attribute-k1/</a>)</th>

</tr>
</tbody>
</table>

**Integration Goal**

| Knowledge Goal | Integration Outcome 1 (I1): Integration (http://catalog.uwec.edu/undergraduate/attribute-I1/) | Two (2) learning experiences |

**Service-Learning Goal**

Service-Learning (http://catalog.uwec.edu/undergraduate/attribute-SL/#header13) 30 hours

**College Degree Requirements**

**Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)**

**University Graduation Requirements.** All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

**College Graduation Requirements: Grade Point Averages.** All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

**Major-Minor and Major-Certificate Requirements.** A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements.
for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

**College Credits.** Earn at least 90 credits in courses offered by the College of Arts and Sciences.

**Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)**

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

**Bachelor of Science Degree in the College of Arts and Sciences (B.S.)**

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter the MATH 111 course. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

**Major Requirements**

**Liberal Arts (Code 540-211)**

**Literature/Culture Requirements**

Nine credits of literature/culture

1 No more than six credits from the 100- or 200-level, with no more than three credits from ENGL 130, ENGL 142, ENGL 150, or ENGL 181; no fewer than three credits from the 300- or 400-level.

Note: Students will need to earn at least 48 unique credits between any approved English program combinations for purposes of meeting graduation requirements for first and second degree programs.

Program Learning Outcomes
Students completing this program will be expected to meet the following learning outcomes:

Outcomes for all English Programs
- Read and interpret text from a variety of critical perspectives.
- Write effectively for different purposes and audiences.
- Plan, conduct, and document research using appropriate sources.
- Describe the dynamic nature, diversity, and structure of the English language.

Outcomes for Rhetorics of Science, Technology, and Culture Emphasis
- Rhetorically analyze complex scientific, technological, and cultural texts and contexts.
- Produce texts that effectively address scientific, technological, and cultural issues.

Sample Degree Plan
English, Rhetorics of Science, Technology, and Culture Emphasis, Major, B.A.
The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog.uwec.edu/undergraduate/graduation-requirements/)here for a description of the Liberal Education (LE) Core.
Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

Minimum total for the baccalaureate degree = 120 credits

Note: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

### RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://
www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/ into your time at UW-Eau Claire.

**Liberal Education (LE) Core Guidance**

**Liberal Education Core (LE Core)**

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- **K1** – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K2** – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K3** – Humanities; two experiences.
- **K4** – Fine Arts; one experience.
- **S1** – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- **S2** – Mathematics; one experience (must satisfy the University math competency requirement).
- **S3** – Creativity; one experience (can be fulfilled in a student’s major).
- **R1** – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- **R2** – Global Perspectives; one experience.
- **R3** – Civic and Environmental Issues; one experience.
- **I1** – Integration; two experiences (one experience can be fulfilled in a student’s major).
- **SL** – Service Learning; 30 hours

**Additional LE Core Information**

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.

**English, Rhetorics of Science, Technology, and Culture, Certificate**

(Code 540-602)

Rhetorical understanding and the ability to produce rhetorically effective texts are excellent complements to any academic discipline, because every specialty depends on the discovery and dissemination of ideas, as well as the structuring of arguments in the process of building knowledge in a field. The Rhetorics of Science, Technology, and Culture (RSTC) certificate offers a focused study in the kinds of choices we make when we analyze and communicate scientific, technical, and diverse cultural phenomena, whether through traditional written text, visuals, video, internet venues, or some multimodal combination of those. Students will have opportunities not only to research in a wide variety of fields, including understanding different modes of communication and cultural practices, but to create and edit documents that best address the needs of their intended audiences, ranging from specialists to the general public. An RSTC certificate could enhance the career options of any student majoring or minoring in a science, technology, or social science field, and in its attention to various kinds of practical know-how—e.g., science writing, technical writing, grant writing, nature writing, editing—could also increase the career options for students in the humanities and the arts.

**Code | Title**
--- | ---
ENGL 212 | Histories and Theories of Rhetoric
or CJ 207 | Introduction to Rhetoric and Society
ENGL 307 | Editing and Publications Management
ENGL 312 | Science Writing
ENGL 313 | Technical Writing
ENGL 314 | Cultural Rhetorics
ENGL 315 | Visual Rhetorics of Science, Technology, and Culture
ENGL 316 | Rhetorics of Social Justice
ENGL 409 | Grant Proposal Writing
ENGL 455 | Seminar in Rhetorics of Science, Technology, and Culture\(^1\)
ENGL 498 | Internship in Writing

\(^1\) Strongly recommended, but should not be taken until student has successfully completed at least three other courses in the array.

**Program Learning Outcome**

Students completing this program will be expected to meet the following learning outcomes:

**Outcomes for all English Programs**

- Read and interpret text from a variety of critical perspectives.
- Write effectively for different purposes and audiences.
- Plan, conduct, and document research using appropriate sources.
- Describe the dynamic nature, diversity, and structure of the English language.

Outcomes for Rhetorics of Science, Technology, and Culture Emphasis
- Rhetorically analyze complex scientific, technological, and cultural texts and contexts.
- Produce texts that effectively address scientific, technological, and cultural issues.

### English, Rhetorics of Science, Technology, and Culture, Minor

Program Learning Outcomes

Outcomes for all English Programs

- Read and interpret text from a variety of critical perspectives.
- Write effectively for different purposes and audiences.
- Plan, conduct, and document research using appropriate sources.
- Describe the dynamic nature, diversity, and structure of the English language.

Outcomes for Rhetorics of Science, Technology, and Culture Emphasis

- Rhetorically analyze complex scientific, technological, and cultural texts and contexts.

Geography and Anthropology

Phillips 257
715-836-3244
Department Website (https://www.uwec.edu/academics/college-arts-sciences/departments-programs/geography-anthropology/)

Geographers describe, analyze, and explain the patterns and processes of natural environmental and the human cultural systems of the earth. They emphasize the importance of the location and patterns of people, places, and events; the physical and human characteristics of regions; and the relations between people, places, culture, and environment.

With training in both the natural and social sciences, and the tools and perspectives for understanding them, geographers have a wide range of career opportunities in public and private sectors. Geographers find work in such fields as municipal and regional planning, marketing, real estate, tourism, transportation, teaching, environmental analysis, and natural resource management. Geographers are increasingly in demand for jobs that require expertise in geospatial techniques, such as geographic information systems (GIS), global positioning systems (GPS), remote sensing, and computer cartography.

The discipline of anthropology adopts an integrative, comprehensive approach to the study of humankind. Anthropologists seek to understand human conditions by examining the biological evolution of human beings, the human capacity to create culture, and the diverse ways of life developed by societies around the world.

Honor Societies, Student Organizations, and Internships

GTU: Gamma Theta Upsilon is an international honor society in geography.

Internship Opportunities

For information, contact your advisor

Departmental Honors in Geography and Anthropology

The Department of Geography and Anthropology encourages and creates opportunities for all of its students to participate in research and creative learning activities with department faculty. Especially motivated and high-achieving students are invited to pursue Departmental Honors in Geography or Anthropology. The Departmental Honors Program enhances students’ undergraduate experience, recognizes outstanding work and achievement, and can open up exceptional educational and professional opportunities.

Eligibility:

Must be a declared major or minor, have completed the core introductory courses (GEOG 104, GEOG 111, GEOG 178, and GEOG 200 or ANTH 161, ANTH 165, ANTH 169, and an area course), and have resident and major/minor GPAs of at least 3.50.
Application Procedures:

Student applicants should submit an electronic application for Departmental Honors in Geography or Anthropology to the Department Chair – through the applicant’s advisor – for approval as soon as interested and eligible, but no later than prior to the start of the student’s final semester before graduation. Department faculty and staff may also identify qualified students and encourage them to apply. The e-form application should elaborate on professional activities, research interests, and aspirations; an unofficial copy of transcripts should be attached. Final approval and recommendation for Departmental Honors will be made following satisfactory completion of all requirements (see below). Please see the Department Chair for more information and application details.

Requirements:

1. Conduct research and disseminate results: Satisfactorily complete one substantial faculty-student research collaboration in Geography or Anthropology that results in:
   a. a presentation at a regional, national, or international professional conference; and
   b. an oral presentation to be given to at least three members of the faculty in such forums as departmental capstone presentations, regional conferences, UW-Eau Claire’s annual Provost’s Honors Symposium or professionally comparable venues.
2. Satisfactorily complete GEOG 401 or ANTH 499, to include a thesis or substantial paper written under the supervision of a Geography or Anthropology faculty member, or publish collaborative research results (see Requirement #1) in a peer-reviewed journal.
3. Maintain a 3.5 cumulative resident GPA and a 3.5 GPA in Geography or Anthropology courses.

 Majors

• Comprehensive Major: Geography, Environmental Geography Emphasis - B.A./B.S.
• Comprehensive Major: Geography, Transnational Geographies Emphasis - B.A./B.S.
• Major: Geography - B.A./B.S.
• Comprehensive Major: Geospatial Analysis and Technology - B.A./B.S.

 Minors

• Minor: Geography, Liberal Arts

 Certificates

• Certificate: Anthropology
• Certificate: Cartography and Geovisualization
• Certificate: Geospatial
• Certificate: Geospatial, Geographic Information Systems
• Certificate: Geospatial, Mapping
• Certificate: Geospatial, Remote Sensing
• Certificate: Urban and Regional Planning

Anthropology, Certificate

(Code 470-601)

The Anthropology Certificate is a 12-credit certificate that is well defined and offers a coherent disciplinary approach to subjects that are often shared with other disciplines and fields of study such as history, culture, social processes, language, and human evolution broadly construed. In providing specifically anthropological perspectives, the certificate serves to enrich and deepen student learning in other disciplines. It complements interdisciplinary majors like American Indian Studies; Latin American and Latinx Studies; Women’s, Gender, and Sexuality Studies; as well as other disciplinary majors in the humanities and the social and natural sciences, including geography, history, and biology.

One area course: A regional geography course in consultation with certificate advisor

Total Credits: 12

Note: Courses included in the certificate program may not be applied to the major program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

• Understand key anthropological concepts for explaining the human experience.
• Analyze socio-cultural dynamics in local, global, and comparative contexts.
• Appreciate for political and ethical issues of equity, diversity and inclusivity in contemporary and past societies, as well as in the history and practice of anthropology.

Anthropology Certificate (Code 470-601)
Cartography and Geovisualization, Certificate

The visualization of spatial data through maps, infographics, and other forms of visual storytelling is a critical and effective avenue for communicating information in our interconnected world. Producing evocative maps and other cartographic products, however, requires familiarity with geospatial science and experience with creative design. Students enrolled in the Cartography and Geovisualization Certificate will acquire skills in the art and science of map production through the use and application of geographic information systems (GIS), industry standard illustration software, and online mapping platforms. This certificate is ideal for students who are interested in map production and who wish to integrate a distinct and complementary set of valuable technical abilities with their primary area(s) of study.

The Cartography and Geovisualization Certificate is designed for students who:

• are interested in learning about the production of maps and their value in communicating visual and written stories.
• may seek employment in careers that are informed by or benefit from experience in map production and storytelling.
• desire to pursue a graduate degree in a discipline that is informed by or benefits from experience in map production and visual storytelling.

(Code 140-605)

Note 1: Completion of GEOG 280 and GEOG 335 is recommended prior to enrollment in GEOG 339

Note 2: Students cannot pursue the Geography Major and the Cartography and Geovisualization Certificate to meet graduation requirements for completing a first and second degree program. Courses taken for the certificate cannot be applied to the major program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

• Demonstrate competency in the knowledge and application of the fundamentals of cartographic design.
• Demonstrate proficiency in the ethics of collection, use, and analysis of spatial data used in the production of cartographic visualizations.
• Demonstrate the ability to synthesize and map spatial data and create effective cartographic visualizations.

Geography, Environmental Geography, Comprehensive Major

Liberal Arts (Code 140-007)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements

| Minimum total for graduation | 120 |
| Upper division credits (courses numbered 300 and higher) | 39 |
| Liberal Education Core | 36 |

Academic Concentrations

Grade Point Requirements

| Total | 2.00 average |
| Resident | 2.00 average |
| Major | 2.00 average |
| Minor | 2.00 average |
| Certificate | 2.00 average |

University Residency Requirements

Minimum total | 30 |
Senior year | 23 |
Major, Standard, upper division in residence | 12 |
Major, Comprehensive, upper division in residence | 21 |
Certificate | 25 percent of credits |

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

Note 1: Certain programs exceed this minimum.

Note 2: See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAIF Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).
Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may
count toward graduation no more than one credit of KINS 110-184 courses.
Students may count toward graduation no more than four credits earned
in any single activity course and no more than 12 credits resulting from any
combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following:
Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory
Registration; Transfer of Credits. College or departmental restrictions may also
be placed on Independent Study (399-499 courses), Directed Study (395-495),
and other types of credits.

Liberal Education Core
The University of Wisconsin-Eau Claire measures learning outcomes to ensure
that its graduates have achieved a liberal education and prepared themselves
to contribute to a complex society. Upon graduation, each undergraduate
will have met the five learning goals of our liberal education core and the 12
learning outcomes they comprise.

College Degree Requirements
Bachelor of Arts or Bachelor of Science Degree
(B.A./B.S.)

University Graduation Requirements. All candidates for degrees must
fulfill the requirements for credits, curriculum, GPA, and University residency
as specified in the section of this catalog titled University Graduation
Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for
degrees in the College of Arts and Sciences must earn minimum resident and
total GPAs of 2.00 in the major, the minor, and the certificate. The resident and
total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined on the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 140-007) Environment

Environmental Geography

Requires completion of the core courses, the required credits, and departmental and non-departmental electives to total at least 60 credits.

A minimum of 60 semester credits, including completion of the following:

<table>

The following courses can be applied to any of the five approaches with consent of the advisor:
GEOG 368 Geography Field Seminar 3
GEOG 395 Directed Studies 1-3
GEOG 399 Independent Study - Juniors 1-3
GEOG 491 Advanced Special Topics 1-3
GEOG 498 Geography Internship 1-3
GEOG 499 Independent Study - Seniors 1-3

1 Required courses.

**Program Learning Outcomes**
Students completing this program will be expected to meet the following learning outcomes:

- **Skills:**
  - Geographic Techniques: Effectively use and apply the tools of geographic inquiry (e.g., field and laboratory to gather quantitative and qualitative geographic data; GIS to acquire, manage, display, and analyze spatial data in digital form; cartography to display spatial information effectively; and spatial statistical methods to model and make inferences about spatial relationships and patterns).
  - Communication: Effectively explain how geographic approaches and perspectives are used to address socially/environmentally relevant questions and problems and why identifying the underlying spatial relationships is significant.

- **Responsibility:**
  - Equity, Diversity, and Inclusion (EDI): Use geographic knowledge and skills to evaluate assumptions, representations, and institutions in order to challenge existing structures in ways that respect diversity and foster social/environmental equity and inclusivity.
  - Ethics: Use geographic knowledge and skills to address social and environmental challenges in ways that maximize the benefits and minimize the harm to others.

- **Dispositions:**
  - Interdisciplinary perspective: Synthesize the information, concepts, and methods of natural and social sciences for geographic research and applications.
  - Relational perspective: Explain how people, places, and regions are linked by networks and processes across space and scale (such as local-global, within regions, globalization, trade, immigration, internet technology, climate).

- **Comprehensive:**
  - Environmental: Recognizes the geography of environmental issues, events, or problems and uses geographic knowledge and skills to properly understand and respond to them.

**Sample Degree Plan**
**Geography, Environmental Geography, Comprehensive Major, B.S.**

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [here](https://catalog.uwec.edu/undergraduate/graduation-requirements/) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.
Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

**TOTAL** 30

**Minimum total for the baccalaureate degree = 120 credits**

a Geography majors must take 5 courses from any 3 of the 5 advanced geography approaches. Environmental Geography comprehensive majors must take an upper level course in Physical Geography and in Human-Environment Geography. One of these must be GEOG 368. See catalog.

b Electives need to be carefully selected to ensure that a student’s degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in geography, these can be selected from any discipline provided student meets course prerequisites. Required Geography courses plus Geography electives (and environmental electives from other departments) must equal at least 60 credits.

c Environmental Geography comprehensive majors are required to take 12 credits of environmental course work outside of the major with consent of their advisor.

**Note:** All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see Undergraduate Graduation Requirements).

**Course Information**

- GEOG 200 is recommended prior to enrollment in GEOG 335 and GEOG 370.
- GEOG 335 is a prerequisite for GEOG 370.
- GEOG 104, GEOG 111, GEOG 178, and GEOG 200 are expected as prerequisites for GEOG 368.
- One year before graduation, Geography majors must complete a form to certify their selected courses from the Advanced Geography Approaches. They must complete this form a second time one semester before graduation.

**RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)**

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional
high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

Required HIPs: GEOG 368: Geography Field Seminar and GEOG 401: Geography Capstone
Optional HIPs: Study Abroad, National Student Exchange, Faculty-led International Immersions (FLIs), Student-Faculty Collaborative Research

Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning: 30 hours

Additional LE Core Information

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.
WTCS Credits. A maximum of 72 semester credits earned in college parallel
programs at Madison Area Technical College, Milwaukee Area Technical
College, Nicolet Area Technical College, or Chippewa Valley Technical
College may be accepted as degree credits at UW-Eau Claire. A set number
of general education courses will be accepted from other technical schools.
Occupational and technical courses may also be considered for transfer if the
quality and content of the course work from the technical college is judged
to be comparable to course work at UW-Eau Claire. Refer to the Transfer
Credit Wizard [link] or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work
done through the United States Armed Forces Institute, under the provision for
non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may
count toward graduation no more than one credit of KINS 110-184 courses.
Students may count toward graduation no more than four credits earned
in any single activity course and no more than 12 credits resulting from any
combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following:
Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory
Registration; Transfer of Credits. College or departmental restrictions may also
be placed on Independent Study (399-499 courses), Directed Study (395-495),
and other types of credits.

Liberal Education Core
The University of Wisconsin-Eau Claire measures learning outcomes to ensure
that its graduates have achieved a liberal education and prepared themselves
to contribute to a complex society. Upon graduation, each undergraduate
will have met the five learning goals of our liberal education core and the 12
learning outcomes they comprise.

Service-Learning (http://catalog.uwec.edu/undergraduate/attribute-SL/#header13) 30 hours

College Degree Requirements
Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122/LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

The following courses can be applied to any of the five approaches with consent of the advisor:

GEOG 368  Geography Field Seminar  3
GEOG 395  Directed Studies  1-3
GEOG 399  Independent Study - Juniors  1-3
GEOG 491  Advanced Special Topics  1-3
GEOG 498  Geography Internship  1-3
GEOG 499  Independent Study - Seniors  1-3

1 Required courses.

---

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

- **Content:** Geographic Foundation: Demonstrate geographical knowledge, understanding, and significance through analysis, explanation, and critique

- **Skills:**
  - Geographic Techniques: Effectively use and apply the tools of geographic inquiry (e.g., field and laboratory to gather quantitative and qualitative geographic data; GIS to acquire, manage, display, and analyze spatial data in digital form; cartography to display spatial information effectively; and spatial statistical methods to model and make inferences about spatial relationships and patterns).
  - Communication: Effectively explain how geographic approaches and perspectives are used to address socially/environmentally relevant questions and problems and why identifying the underlying spatial relationships is significant.
  - Responsibility:
    - Equity, Diversity, and Inclusion (EDI): Use geographic knowledge and skills to evaluate assumptions, representations, and institutions in order to challenge existing structures in ways that respect diversity and foster social/environmental equity and inclusivity.
    - Ethics: Use geographic knowledge and skills to address social and environmental challenges in ways that maximize the benefits and minimize the harm to others.
  - Dispositions:
    - Interdisciplinary perspective: Synthesize the information, concepts, and methods of the humanities and the natural and social sciences for geographic research and applications.
    - Relational perspective: Explain how people, places, and regions are linked by networks and processes across space and scale (such as local-global, within regions, globalization, trade, immigration, Internet technology, climate).

---

**Sample Degree Plans**

**Geography, Major, B.A. & B.S., 2-Yr**

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [here](https://catalog.uwec.edu/undergraduate/graduation-requirements/#header1) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by
foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

**FIRST YEAR**
Conclude with approximately 30 Credits and progress toward College, University, and Liberal Education Requirements.

</tr>
</tbody>
</table>

**Minimum total for the baccalaureate degree = 120 credits**

a Geography majors must take 5 courses from any 3 of the 5 advanced geography approaches. One of these must be GEOG 368. See catalog.

b Electives need to be carefully selected to ensure that a student's degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in geography, electives can be selected from any discipline as long as the student meets the course prerequisites.

**Note:** All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see Undergraduate Graduation Requirements).

**Course Information**

- GEOG 200 is recommended prior to enrollment in GEOG 335 and GEOG 370.
- GEOG 335 is a prerequisite for GEOG 370.
- GEOG 104, GEOG 111, GEOG 178, and GEOG 200 are expected as prerequisites for GEOG 368.
- One year before graduation, Geography majors must complete a form to certify their selected courses from the Advanced Geography Approaches. They must complete this form a second time one semester before graduation.
- Students must complete the requirements for a second program – this can be either a minor or an approved certificate.
- Required Geography courses plus Geography electives must equal at least 36 credits.

**RECOMMENDATIONS FOR OPTIONAL HIGH IMPACT PRACTICES (HIPs)**

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/ internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

Required HIPs: GEOG 368: Geography Field Seminar and GEOG 401: Geography Capstone

Optional HIPs: Faculty-led International Immersions (FLIs), Student-Faculty Collaborative Research

**Geography, Major, B.A.**

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog.uwec.edu/
Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

<td>GEOG 368</td>
<td>Geography Field Seminar (Advanced Approach)</td>
<td>3</td>
</tr>
</tbody>
</table>

Minimum total for the baccalaureate degree = 120 credits

a Geography majors must take 5 courses from any 3 of the 5 advanced geography approaches. One of these must be GEOG 368. See catalog.

b Electives need to be carefully selected to ensure that a student’s degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in geography, electives can be selected from any discipline as long as the student meets the course prerequisites.

Note: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see Undergraduate Graduation Requirements).

Course Information

- GEOG 200 is recommended prior to enrollment in GEOG 335 and GEOG 370.
- GEOG 335 is a prerequisite for GEOG 370.
- GEOG 104, GEOG 111, GEOG 178, and GEOG 200 are expected as prerequisites for GEOG 368.
- One year before graduation, Geography majors must complete a form to certify their selected courses from the Advanced Geography Approaches. They must complete this form a second time one semester before graduation.
- Students must complete the requirements for a second program – this can be either a minor or an approved certificate.
- Required Geography courses plus Geography electives must equal at least 36 credits.

RECOMMENDATIONS FOR OPTIONAL HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional
high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

Required HIPs: GEOG 368: Geography Field Seminar and GEOG 401: Geography Capstone
Optional HIPs: Faculty-led International Immersions (FLII), Student-Faculty Collaborative Research

Liberal Education (LE) Core Guidance
Liberal Education Core (LE Core)
The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning; 30 hours

Additional LE Core Information
- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.

- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.

Liberal Arts (Code 140-410)

Liberal Arts (Code 140-410)

A minimum of 24 semester credits, including:

<table>

**Geography Techniques**

- GEOG 280: Introduction to Cartography and Visualization (3 credits)
- GEOG 335: Geographic Information Systems I 1 (3 credits)
- GEOG 336: Geospatial Field Methods (3 credits)
- GEOG 337: Geographic Information Systems II (3 credits)
- GEOG 338: Remote Sensing of the Environment (3 credits)
- GEOG 339: Applied Cartography and Geovisualization (3 credits)
- GEOG 358: LIDAR Analysis & Applications (3 credits)
- GEOG 370: Quantitative Methods in Geography 1 (3 credits)
- GEOG 390: Geospatial Applications of UAS (3 credits)
- GEOG 435: Geographic Information Systems III (3 credits)
- GEOG 438: Remote Sensing Data Analytics (3 credits)
- GEOG 455: Web Geographic Information Systems (3 credits)

**Regional Geography**

- GEOG 301: Geography of Western Europe (3 credits)
- GEOG 308: Geography of Russia and Eastern Europe (3 credits)
- GEOG 319: Geography of the Middle East and North Africa (3 credits)
- GEOG 321: Geography of Latin America (3 credits)
- GEOG 325: Geography of the United States and Canada (3 credits)
- GEOG 379: Geography of Wisconsin (3 credits)

**Other Geography Courses**

The following courses can be applied to any of the five approaches with consent of the advisor:

- GEOG 368: Geography Field Seminar 1 (3 credits)
- GEOG 395: Directed Studies (1-3 credits)
- GEOG 399: Independent Study - Juniors (1-3 credits)
- GEOG 491: Advanced Special Topics (1-3 credits)
- GEOG 498: Geography Internship (1-3 credits)
- GEOG 499: Independent Study - Seniors (1-3 credits)

---

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate geographical knowledge, understanding, and significance through analysis, explanation, and critique.
- Effectively use and apply the tools of geographic inquiry.
- Effectively explain how geographic approaches and perspectives are used to address socially/environmentally relevant questions and problems and why identifying the underlying spatial relationships is significant.

**Geography, Transnational Geographies, Comprehensive Major**

**Liberal Arts (Code 140-009)**

**University Requirements**

**GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE**

**Credit Requirements**

- Minimum total for graduation 1
- Upper division credits (courses numbered 300 and higher)
- Liberal Education Core
- Academic Concentrations
- Grade Point Requirements 2

**Total**

- 2.00 average
- Resident
- Major
- Minor
- Certificate

**University Residency Requirements**

- Minimum total
- Senior year
- Major, Standard, upper division in residence
- Major, Comprehensive, upper division in residence
- Certificate

**Procedures Required for Graduation**

- Obtain admission to the degree program and/or the College offering it.
- Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

**Applicability of Credits Toward Graduation**

**Junior College or Two-Year College Credits.** A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

**Extension Credits.** Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are
normally limited to one-fourth of the total required for graduation from any curriculum.

**WTCS Credits.** A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

**USAFI Credit.** UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

**Activity Credit (band, chorus, drama, KINS 100-184 courses)** Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

**Other Restricted Credits.** For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), or WSS 999/996 courses.

**Liberal Education Core**

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

**LIBERAL EDUCATION CORE REQUIREMENTS**

<table>
<thead>
<tr>
<th>Knowledge Goal</th>
<th>Knowledge Outcome 1 (K1): Natural Sciences (<a href="http://catalog.uwec.edu/undergraduate/attribute-k1/">http://catalog.uwec.edu/undergraduate/attribute-k1/</a>)</th>

</tr>
<tr>
<td></td>
<td>One (1) learning experience</td>
</tr>
</tbody>
</table>

**Integration Goal**
Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements
Liberal Arts (Code 140-009)

Transnational Geographies
The Transnational Geographies Comprehensive Major provides an opportunity for students to pursue their interests in human geographic processes - including economic, political, historical, migratory, and cultural flows and interconnections - that take place across national boundaries. This major is ideal for students who are interested in cross-cultural interactions, social justice, ethnographic field research, work or study abroad, or for those who desire strong preparation for careers in civic governance, policies, and planning; intercultural work in the public or private sectors, and non-profit/NGO community and regional development.

A minimum of 60 semester credits, including completion of the following:

**Category II - Domestically focused transnational courses** 3-6
- AIS/ENGL 142 Introduction to American Indian Literatures
- AIS/HIST 240 American Indian History
- AIS/ENGL 242 The American Indian in Literature and Film
- AIS 243 Introduction to Contemporary American Indian Communities
- AIS/HIST 369 Wisconsin Indian History
- AIS 444 Indigenous Theory and Methodologies
- AIS/ENGL 345 American Indian Autobiography
- AIS/ENGL 346 Major Works in American Indian Literature
- ECON 330 Experiences of Minoritized Groups in U.S. Economy
- ENGL 268 Survey of American Ethnic Literature
- ENGL 468 Seminar in American Ethnic Literature
- ES 385 Social Foundations: Human Relations
- HIST 212 Hmong and America
- HIST 317 Studies in the History of Race in the U.S.
- HIST 390 Local History, Global History
- LAS 222 Introduction to U.S. Latino History and Culture
- SOC 312 Race and Ethnicity in the U.S.
- WGSS 100 Introduction to Women’s, Gender, and Sexuality Studies
- WGSS 215 African-American Feminism in the Humanities
- WGSS 306 Transgender Activism and Cultural Production
- WGSS 315 Women of Color Feminisms
- WGSS/HMNG 365 Intersectionality: Critical Approaches to Identity and Injustice

**Advanced Geography Approaches**
Five courses from at least three advanced approaches are required for major programs. Four courses from at least three advanced approaches are required for minor programs.

**Physical Geography**
- GEOG 304 Introduction to Geomorphology 4
- GEOG 340 Climatology 3
- GEOG 345 Quaternary Environments 3
- GEOG 350 Soils and the Environment 4
- GEOG 355 Biogeography 3

Geography electives to complete 60 credits
Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- **Content:**
  - Geographic Foundation: Demonstrate geographical knowledge, understanding, and significance through analysis, explanation, and critique (Explain where things are located, why they are located where they are, what difference that location makes, and to whom).

- **Skills:**
  - Geographic Techniques: Effectively use and apply the tools of geographic inquiry (e.g., field and laboratory to gather quantitative and qualitative geographic data; GIS to acquire, manage, display, and analyze spatial data in digital form; cartography to display spatial information effectively; and spatial statistical methods to model and make inferences about spatial relationships and patterns).
  - Communication: Effectively explain how geographic approaches and perspectives are used to address socially/environmentally relevant questions and problems and why identifying the underlying spatial relationships is significant.

- **Responsibility:**
  - Equity, Diversity, and Inclusion (EDI): Use geographic knowledge and skills to evaluate assumptions, representations, and institutions in order to challenge existing structures in ways that respect diversity and foster social/environmental equity and inclusivity.
  - Ethics: Use geographic knowledge and skills to address social and environmental challenges in ways that maximize the benefits and minimize the harm to others.

- **Dispositions:**
  - Interdisciplinary perspective: Synthesize the information, concepts, and methods of natural and social sciences for geographic research and applications.
  - Relational perspective: Explain how people, places, and regions are linked by networks and processes across space and scale (such as local-global, within regions, globalization, trade, immigration, internet technology, climate).

- **Comprehensive:**
  - Transnational: Recognizes the geography of cross-boundary connections and interactions of people and institutions and uses geographic knowledge and skills to critically understand and respond to them.

---

**Regional Geography**

- GEOG 301 Geography of Western Europe 3
- GEOG 308 Geography of Russia and Eastern Europe 3
- GEOG 319 Geography of the Middle East and North Africa 3
- GEOG 321 Geography of Latin America 3

**Human-Environmental Geography**

- GEOG 270 Introduction to Urban and Regional Planning 3
- GEOG 341 Weather and Society 3
- GEOG 361 Environmental Hazards 3
- GEOG 365 Tourism Geographies 3
- GEOG 375 Environmental Quality 3
- GEOG 377 U.S. Environmental and Sustainability Policy 3
- GEOG 378 International Environmental Problems and Policy 3
- GEOG 445 Historical Geography 3

**Geography Techniques**

- GEOG 280 Introduction to Cartography and Visualization 3
- GEOG 335 Geographic Information Systems I 3
- GEOG 336 Geospatial Field Methods 3
- GEOG 337 Geographic Information Systems II 3
- GEOG 338 Remote Sensing of the Environment 3
- GEOG 339 Applied Cartography and Geovisualization 3
- GEOG 358 LiDAR Analysis & Applications 3
- GEOG 370 Quantitative Methods in Geography 3
- GEOG 390 Geospatial Applications of UAS 3
- GEOG 435 Geographic Information Systems III 3
- GEOG 438 Remote Sensing Data Analytics 3
- GEOG 455 Web Geographic Information Systems 3

---

**Human Geography**

- GEOG 155 Economic Geography 3
- GEOG 288 Cultural Landscapes of North America 3
- GEOG 312 Space, Society, Subject 3
- GEOG 313 Culture and Transnational Dynamics 3
- GEOG 322 Native Geographies 3
- GEOG 352 Business Geographics 3
- GEOG 354 Sustainable Placemaking and Community 3
- GEOG 366 Geography International Immersion Experience 1-3
- GEOG 367 Landscape Analysis: Cultural 3
- GEOG 369 Geography of Food 3
- GEOG 444 Legal Geographies of Race in the U.S. 3
- GEOG 446 Political Geography 3
- GEOG 470 Urban Geography 3

**Other Geography Courses**

The following courses can be applied to any of the five approaches with consent of the advisor:

- GEOG 368 Geography Field Seminar 3
- GEOG 395 Directed Studies 1-3
- GEOG 399 Independent Study - Juniors 1-3
- GEOG 491 Advanced Special Topics 1-3
- GEOG 498 Geography Internship 1-3
- GEOG 499 Independent Study - Seniors 1-3

1 Required courses.
Sample Degree Plan

Geography, Transnational Geographies, Comprehensive Major, B.A.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [https://catalog.uwec.edu/undergraduate/graduation-requirements/#header1](https://catalog.uwec.edu/undergraduate/graduation-requirements/#header1) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

**TOTAL** 30

Minimum total for the baccalaureate degree = 120 credits

a Geography majors must take 5 courses from any 3 of the 5 advanced geography approaches. See catalog.
b In addition to the requirements for the geography liberal education degree, students in the Transnational emphasis must take three classes from the following two categories, and at least one from each: Category I and Category II. See catalog for details.
c Electives need to be carefully selected to ensure that a student’s degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in geography, electives can be selected from any discipline as long as the student meets the course prerequisites. Required Geography courses plus Geography electives (and
transnational electives from other departments) must equal at least 60 credits.

Note: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

Course Information

- GEOG 200 is recommended prior to enrollment in GEOG 335 and GEOG 370.
- GEOG 335 is a prerequisite for GEOG 370.
- GEOG 328 is now GEOG 370.
- Students must take 12 credits from transnational courses from other disciplines. See catalog for specific details.
- One year before graduation, Geography majors must complete a form to certify their selected courses from the Advanced Geography Approaches. They must complete this form a second time one semester before graduation.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

Required HIPs: GEOG 368: Geography Field Seminar and GEOG 401: Geography Capstone

Optional HIPs: Study Abroad, National Student Exchange, Faculty-led International Immersions (FLIEs), Student-Faculty Collaborative Research.

Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)
The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning; 30 hours

Additional LE Core Information

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).

- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.

Procedures Required for Graduation
Obtain admission to the degree program and/or the College offering it.
Apply for graduation on CampS.

Applicability of Credits Toward Graduation
Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

Liberal Education Core
The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

LIBERAL EDUCATION CORE REQUIREMENTS a minimum of 36 credits

Knowledge Goal
Knowledge Outcome 1 (K1): Natural Sciences (http://catalog.uwec.edu/undergraduate/attribute-k1/) Two (2) learning experiences
One experience in laboratory science must be selected from either K1 or K2.

Knowledge Outcome 2 (K2): Social Sciences (http://catalog.uwec.edu/undergraduate/attribute-k2/) Two (2) learning experiences
One experience in laboratory science must be selected from either K1 or K2.

Knowledge Outcome 3 (K3): Humanities (http://catalog.uwec.edu/undergraduate/attribute-k3/) Two (2) learning experiences

Knowledge Outcome 4 (K4): Fine Arts (http://catalog.uwec.edu/undergraduate/attribute-k4/) One (1) learning experience

Skills Goal
College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 141-001)

The Geospatial Analysis and Technology major will ground students in current geographic and geospatial traditions in a multidisciplinary learning approach. This comprehensive major integrates tools and skills with an engaging curriculum and high impact practices, such as internships and undergraduate research opportunities. It engages critical thinking both inside and outside the classroom. Specific areas of interest include Geographic Information Systems, Remote Sensing, LIDAR, Field Data Collection, Business Geographics, and Unmanned Aerial Systems.

Minimum of 60 semester credits including:

### Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- **Content:**
  - Geographic Foundation: Demonstrate geographical knowledge, understanding, and significance through analysis, explanation, and critique (Explain where things are located, why they are located where they are, what difference that location makes, and to whom).
  - Skills:
    - Geographic Techniques: Effectively use and apply the tools of geographic inquiry (e.g., field and laboratory to gather quantitative and qualitative geographic data; GIS to acquire, manage, display, and analyze spatial data in digital form; cartography to display spatial information effectively; and spatial statistical methods to model and make inferences about spatial relationships and patterns).
  - Communication: Effectively explain how geographic approaches and perspectives are used to address socially/environmentally relevant questions and problems and why identifying the underlying spatial relationships is significant.
  - Responsibility:
    - Equity, Diversity, and Inclusion (EDI): Use geographic knowledge and skills to evaluate assumptions, representations, and institutions in order to challenge existing structures in ways that respect diversity and foster social/environmental equity and inclusivity.
    - Ethics: Use geographic knowledge and skills to address social and environmental challenges in ways that maximize the benefits and minimize the harm to others.
  - Dispositions:
    - Interdisciplinary perspective: Synthesize the information, concepts, and methods of the humanities and the natural and social sciences for geographic research and applications.
    - Relational perspective: Explain how people, places, and regions are linked by networks and processes across space and scale (such as local-global, within regions, globalization, trade, immigration, Internet technology, climate).
  - Comprehensive:
    - Geospatial: Expertly use geospatial information/data and technologies to address geographical issues.

### Sample Degree Plan

**Geospatial Analysis and Technology, Comprehensive Major, B.S.**

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements.
in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click here (https://catalog.uwec.edu/undergraduate/graduation-requirements/) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

Minimum total for the baccalaureate degree = 120 credits

a Environmental Geography and Geospatial comprehensive majors are required to take 12 credits of related course work outside of the major with consent of their advisor.

b Electives need to be carefully selected to ensure that a student’s degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in geography, these can be selected from any discipline provided student meets course prerequisites. Required Geography courses plus Geography electives (and environmental electives from other departments) must equal at least 60 credits.

**Note:** All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

**Course Information**

- GEOG 200 is recommended prior to enrollment in GEOG 335 and GEOG 370.
- GEOG 335 is a prerequisite for GEOG 370.
- Student must complete one upper-level GEOG course in an advanced geography approach that is not a Geospatial course (300/400).
RECOMMENDATIONS FOR OPTIONAL HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

Required HIP: GEOG 498: Geography Internship or GEOG 401: Geography Capstone
Optional HIPs: GEOG 368: Geography Field Seminar, Study Abroad, National Student Exchange, Faculty-led International Immersions (FLII), Student-Faculty Collaborative Research

Geospatial, Certificate
(Code 140-601)
The Department of Geography and Anthropology offers a Geospatial Certificate Program with Four Options: Geospatial Certificate, Geospatial Certificate in Geographic Information Systems, Geospatial Certificate in Remote Sensing, and Geospatial Certificate in Mapping. The goals of the Certificate are:
1. To provide students with the fundamentals and a working knowledge of the core geospatial technology skills, specifically geographic information systems, remote sensing, field data collection (GPS and surveying) and spatial thinking,
2. To provide students the option to specialize by choosing an emphasis in one of three different areas: Geographic Information Systems, Remote Sensing, or Computer Mapping, and
3. To expose students to ethical issues involved with the use of geospatial technology.

While the Certificate is targeted primarily at professionals in the workforce who want to further their education by adding this credential onto their existing degrees, it provides current UW-Eau Claire students an opportunity to add a specific high demand set of skills and associated credentials onto their already marketable liberal arts degree from UW-Eau Claire. For advising, see Professor Ryan Weichelt (Geography and Anthropology). All students will take these four core courses.
The Department of Geography and Anthropology offers a Geospatial Certificate Program with Four Options: Geospatial Certificate, Geospatial Certificate in Geographic Information Systems, Geospatial Certificate in Remote Sensing, and Geospatial Certificate in Mapping. ### Geospatial, Geographic Information Systems, Certificate

**(Code 140-602)**

The Department of Geography and Anthropology offers a Geospatial Certificate Program with Four Options: Geospatial Certificate, Geospatial Certificate in Geographic Information Systems, Geospatial Certificate in Remote Sensing, and Geospatial Certificate in Mapping. The goals of the Certificate are:

1. to provide students with the fundamentals and a working knowledge of the core geospatial technology skills, specifically geographic information systems, remote sensing, field data collection (GPS and surveying) and spatial thinking,
2. to give students the option to specialize by choosing an emphasis in one of three different areas: Geographic Information Systems, Remote Sensing, or Computer Mapping, and
3. to expose students to ethical issues involved with the use of geospatial technology.

While the Certificate is targeted primarily at professionals in the workforce who want to further their education by adding this credential onto their existing degrees, it provides current UW-Eau Claire students an opportunity to add a specific high demand set of skills and associated credentials onto their already marketable liberal arts degree from UW-Eau Claire. For advising, see Professor Ryan Weichelt (Geography and Anthropology).

### Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate the skills necessary to perform standard geospatial tasks.
- Demonstrate proficiency in industry standard software and using industry standard field equipment.
- Design, compile, and develop a spatial database and set of analytical tools to give students the option to specialize by choosing an emphasis in one of three different areas: Geographic Information Systems, Remote Sensing, or Computer Mapping, and
- Expose students to ethical issues involved with the use of geospatial technology.

### Geospatial, Remote Sensing, Certificate

**(Code 140-603)**

Note: Students can only receive one of the three specialized certificates, due to the potential overlap between the electives. Students cannot pursue the Geography Major and any of the Geospatial Certificates to meet graduation requirements for completing a first and second degree program.

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate the skills necessary to perform standard geospatial tasks.
- Demonstrate proficiency in industry standard software and using industry standard field equipment.
- Apply the skills of operating GPS equipment to the collection of geospatial data in a variety of field mapping environments for the purpose of integrating GPS data with existing Geographic Information System resources.

**Geospatial Field Methods**

- **Title**: Geographic Information Systems III
- **Code**: GEOG 436
- **Credit**: 3

**Remote Sensing Data Analytics**

- **Title**: LiDAR Analysis & Applications
- **Code**: GEOG 358
- **Credit**: 3

**Geographic Information Systems III**

- **Title**: Geographic Information Systems III
- **Code**: GEOG 435
- **Credit**: 3

Note: Students can only receive one of the three specialized certificates, due to the potential overlap between the electives. Students cannot pursue the Geography Major and any of the Geospatial Certificates to meet graduation requirements for completing a first and second degree program.

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate the skills necessary to perform standard geospatial tasks.
- Demonstrate proficiency in industry standard software and using industry standard field equipment.
- Apply the skills of preprocessing optical remotely sensed data, customizing or developing a suitable algorithm to extract biophysical and/or sociocultural information from the data, and utilizing the information in a given geospatial problem.

### Urban and Regional Planning, Certificate

The 15-credit Urban and Regional Planning Certificate provides students with fundamental theories, perspectives, and skills of land use planning. Though planning occurs across scale (e.g., neighborhood, community, urban, regional) and sector (e.g., economic, transportation, environmental), its fundamental emphasis is on the spatial implications and relationships of land use activities and how place is linked to quality of life. Planning is highly interdisciplinary, so the elective options of the certificate are flexible and allow students to draw from the sub-fields of planning in which they are most interested (geographic, sociological, environmental, political, and economic). This certificate is ideal for students who are interested in understanding and improving the places in which we live, work, and play. It provides a foundation for employment with public sector planning agencies, NGOs, and private sector planning firms, and it supports students interested in planning-related graduate programs.

**(Code 140-606)**

<table>

<td>Introduction to Urban and Regional Planning</td>
<td>3</td>
</tr>
<tr>
<td>GEOG 335</td>
<td>Geographic Information Systems I</td>
<td>3</td>
</tr>
</tbody>
</table>

**Elective courses**

Choose three courses with at least one from outside geography:

- **ECON 325**: Public Economics
- **ECON 331**: Government and Business
- **ECON 375**: Urban Economics
- **ENV 310**: Sustainable Cities
- **ENV/GEOG 377**: U.S. Environmental and Sustainability Policy
- **GEOG 354**: Sustainable Placemaking and Community
- **GEOG 444**: Legal Geographies of Race in the U.S.
- **GEOG 470**: Urban Geography
- **POLS 301**: State and Local Politics
- **POLS 346**: Public Policy in the United States
- **PSYC 245**: Social Psychology
- **SOC 314**: Social Class and Inequality
SOC 321

Internship course for credit with an urban, environmental, or regional planner focus may be applied to the certificate with advisor approval.

Note 1: Students cannot pursue the Geography Major and the Urban and Regional Planning Certificate to meet graduation requirements for completing a first and second degree program.

Note 2: A minimum of 48 unique credits must be earned between the student’s major and this certificate for purposes of meeting graduation requirements for first and second degree programs.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

• The student will effectively explain the goals of land use planning, why planning is necessary, and how planning is informed by complementing perspectives in various disciplines.
• The student will apply planning knowledge to a Urban Development Term Project, balancing the competing interests within a fictitious community.

Geology and Environmental Science

Phillips 157
715-836-3732
Department Website (https://www.uwec.edu/academics/college-arts-sciences/departments-programs/geology/)

Geology and Environmental Science is the study of the earth and earth processes. Geologists work to solve environmental problems and supervise the exploration and development of earth resources. They are employed in the environmental industry, the mining industry, regulatory agencies such as the DNR and EPA, and as educators. Although many professions in geology require graduate school training, a bachelor’s degree in geology allows career options in geology, environmental geology, and other professional fields such as resource law and engineering. The Geology Department provides a rigorous but flexible program, and stresses the importance of a broad science curriculum. A curriculum balancing field and laboratory experience is tailored to meet the needs of each individual. The geology major is flexible enough to allow individual students to customize their program. Examples of customized programs (to be designed working with an advisor) include Marine Geology, Geochemistry, and Geophysics.

Honor Societies and Student Organizations

The Geology and Environmental Science Department offers one student organization. The Geology Club is open to all majors and minors. Geology and Environmental Science students participate in group activities through the club, organize the annual spring banquet, and participate in service activities. Please visit the department office for more information.

Departmental Honors Program in Geology and Environmental Science

Requirements:

1. Satisfactorily complete either: 1) one substantial faculty–student research collaboration in Geology and Environmental Science that results in a first-authored presentation at a regional, national, or international professional conference; or 2) a written paper containing original research that is supervised/sponsored by a faculty member in the Department of Geology and Environmental Science.
2. Maintain a 3.5 cumulative GPA and a 3.5 GPA in Geology courses.

Satisfactory/Unsatisfactory Policy.

No degree credit may be earned under the Satisfactory/Unsatisfactory option in any required courses in a geology major or minor.

Faculty

Scott K. Clark, Chair
Robert L. Hooper
Phillip D. Ihinger
Robert W.D. Lodge
Kent M. Syverson
Sarah A. Vitale

Majors

• Comprehensive Major: Geology, General Geology Emphasis, Liberal Arts - B.A./B.S.
• Comprehensive Major: Geology, Hydrogeology and Water Chemistry Emphasis, Liberal Arts - B.A./B.S.
• Comprehensive Major: Geology, Environmental Science Emphasis, Liberal Arts - B.A./B.S.
• Comprehensive Major: Geology, Dual Degree Geological Engineering Emphasis, Liberal Arts - B.A./B.S.
• Comprehensive Major: Science Teaching, Earth/Space Science Emphasis - B.S. (College of Education and Human Sciences Secondary Education Program)
• Major: Geology, Liberal Arts - B.A./B.S.

Minors

• Minor: Geology, Liberal Arts

Certificates

• Certificate: Earth Resources
• Certificate: Responsible Mining
• Certificate: Water Resources

Geology, Dual Degree Geological Engineering Emphasis, Comprehensive Major

Grade Point Requirements

1. Cumulative GPA required for graduation: 2.0
2. Grade point required for Academic Concentrations: 2.0
Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

UW-System no maximum

Other extension/correspondence maximum ¼ of total

USAFI

USAFI maximum 32 credits

Liberal Education Core

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

LIBERAL EDUCATION CORE REQUIREMENTS a minimum of 36 credits

Knowledge Goal

Knowledge Outcome 1 (K1): Natural Sciences (http://catalog.uwec.edu/undergraduate/attribute-k1/) Two (2) learning experiences

Knowledge Outcome 2 (K2): Social Sciences (http://catalog.uwec.edu/undergraduate/attribute-k2/) Two (2) learning experiences

Knowledge Outcome 3 (K3): Humanities (http://catalog.uwec.edu/undergraduate/attribute-k3/) Two (2) learning experiences
Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

**Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)**

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

**Bachelor of Science Degree in the College of Arts and Sciences (B.S.)**

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work; mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

## Major Requirements

### Liberal Arts (Code 160-014)

The objective of the comprehensive major in geology is to prepare students for graduate programs in geological sciences or for careers as professional geologists, hydrogeologists, or geological engineers. The liberal arts comprehensive major requires completion of the Core and one of the four Emphases.

NOTE: Communication classes, both written and oral, are strongly recommended to fulfill liberal education requirements in any of the emphases.

### Core Requirements for all Liberal Arts Emphases in the Comprehensive Geology Major

<table>

NOTE 2: For students planning to practice as professional engineers, GEOG 335; GEOL 416 at UW-Eau Claire or equivalent courses at University of Minnesota are strongly recommended.

For liberal arts majors, the capstone options may include: GEOL 395 (for a minimum of two credits) or GEOL 471. The capstone will consist of student selection of one of the following options: faculty/student collaborative research, preparation and presentation of a department seminar, internship, field experiences, or other approved experiences. Students working with their adviser will submit a proposal to the department faculty outlining their choice of the capstone experience and explicitly stating how the capstone fits into their personal career goals. The proposal for a capstone experience must be submitted to the chair of the department no later than the second week of the first semester of the senior year.

**Dual Degree Geological Engineering Emphasis**

This emphasis combines the benefits of a traditional geology degree with those of a formal engineering education. In this program students receive a UW-Eau Claire geology degree in conjunction with a bachelor’s degree in engineering from the University of Minnesota. Students will typically complete most of the UW-Eau Claire University requirements and Dual Degree geology requirements while at UW-Eau Claire before transferring to the engineering school. Students should visit the department office for a sample course schedule that would allow them to complete three full years at UW-Eau Claire and be prepared to transfer to the University of Minnesota for an additional one to two years.

Students must complete a minimum of 84 semester credits before transferring to the engineering school, 56 of which must be taken in residence at UW-Eau Claire.

This emphasis requires completion of the Comprehensive Geology Major Core plus the required credits as listed below. Successful completion of GEOL 470 with a grade of C or above will constitute completion of the capstone experience. Students must fulfill the liberal education requirements of both UW-Eau Claire and the University of Minnesota. This can be accomplished in a reasonable manner with careful course selection. Please see Geology advisor.

### Sample Degree Plan

*Geology, Dual Degree Geological Engineering Emphasis, Comprehensive Major, B.S.*

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [here](https://catalog.uwec.edu/undergraduate/graduation-requirements/) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

### SOME TIME IN THE FIRST YEAR

| LE Options of Interest   7-9 |
| TOTAL FOURTH YEAR | 30 |

Minimum total for the baccalaureate degree = 120 credits

1 Many geological issues involve working with people from other cultures. Liberal education electives can help broaden students' perspectives. A valuable class counting toward this requirement, R1 and Design for Diversity (DD) is AIS 101. Courses such as HIST 114 and HIST 115 also fulfill the same LE requirements at UWEC and UMN.
2 UMN's LE requirement must be fulfilled, as well as UWEC's LE requirement. To satisfy UMN LE, students must take a BIOL lab course.
3 Keep the syllabus and all written reports (including the description of the writing assignment, rough drafts, instructor comments, etc.) as documentation. A student might be able to petition that this course meets the "writing intensive" designation at UMN if the student can prove their case. A student needs four of these courses beyond WRIT 114/WRIT 116, so documenting writing experiences could save a student much time fulfilling UMN requirements.
4 GEOL 468 prepares students for GEOL 470 offered during Winterim.
5 GEOG 335 should be taken prior to GEOL 468.
6 A grade of C or above in GEOL 470 meets the Geology capstone requirement.
7 Students must be selected to ensure that a student's degree comprises at least 39 credits of upper-division courses (300-400 level). Students are encouraged to take additional courses in chemistry, ecology, physics, math, GIS, and written and oral communication, but electives can be selected from any discipline as long as the course prerequisites are met. The degree also must have 120 credits.
8 Fulfills a technical elective at UMN.

Students will typically spend four years at UWEC and 1.5 years at UMN. Students must satisfy LE requirements for UWEC and UMN, and also must achieve a satisfactory GPA to be accepted at UMN (floating, but generally >3.2). Graduates of this program will receive a Geology degree from UWEC and a Geoscience degree from UMN.

Note: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific
recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for more information about incorporating HIPs like Study Abroad, (https://studyabroad.apps.uwec.edu/) Intercultural Immersion, (https://www.uwec.edu/immersion/) Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning; 30 hours

Additional LE Core Information

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.

- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.

| Major, Standard, upper division in residence | 12 |
| Major, Comprehensive, upper division in residence | 21 |
| Certificate    | 25 percent of credits |

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are
normally limited to one-fourth of the total required for graduation from any curriculum.

**WTCS Credits.** A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

**USAFI Credit.** UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

**Activity Credit (band, chorus, drama, KINS 100-184 courses)** Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

**Other Restricted Credits.** For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

### Liberal Education Core

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

#### LIBERAL EDUCATION CORE REQUIREMENTS

<th>Integration Goal</th>
</tr>
</thead>
</table>
Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 160-011)

The objective of the comprehensive major in geology is to prepare students for graduate programs in geological sciences or for careers as professional geologists, hydrogeologists, or geological engineers. The liberal arts comprehensive major requires completion of the Core and one of the four Emphases.

NOTE: Communication classes, both written and oral, are strongly recommended to fulfill liberal education requirements in any of the emphases.

Core Requirements for all Liberal Arts Emphases in the Comprehensive Geology Major

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOL 395</td>
<td>Chemical Principles (or equivalent)</td>
<td>6</td>
</tr>
</tbody>
</table>

Capstone Experience (required for all majors) 0-2

For liberal arts majors, the capstone options may include: GEOL 395 (for a minimum of two credits) or GEOL 471. The capstone will consist of student selection of one of the following options: faculty/student collaborative research, preparation and presentation of a department seminar, internship, field experiences, or other approved experiences. Students working with their adviser will submit a proposal to the department faculty outlining their choice of the capstone experience and explicitly stating how the capstone fits into their personal career goals. The proposal for a capstone experience must be submitted to the chair of the department no later than the second week of the first semester of the senior year.

Environmental Science Emphasis

Recommended for students who are interested in careers working in environmental fields, such as environmental geology, land conservation, and environmental policy, or who desire to attend graduate school in environmental science, environmental law, or resource planning.

This emphasis requires completion of the Comprehensive Geology Major Core plus the required and elective credits as listed below.

<table>
<thead>
<tr>
<th>Code</th>

<td></td>
</tr>
</tbody>
</table>
Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

• Explain Earth processes.
• Use mathematics and computational methods to analyze scientific and geological data.
• Read, write, and critically evaluate geological papers.
• Construct an internally consistent geological map utilizing field data, topographic maps, geological maps, air photos, geographic information systems (GIS) data, and geological cross sections.
• Use analytical and quantitative methods to evaluate an environmental problem.

Sample Degree Plan
Geology, Environmental Science Emphasis, Comprehensive Major, B.S.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click here (https://catalog.uwec.edu/undergraduate/graduation-requirements/#header1) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

**E elective - Choose from CHEM 213, 218, 304, 325 or GEOG 336, 418** 7 3-4

## TOTAL FOURTH YEAR 24

### Minimum total for the baccalaureate degree = 120 credits

1. Many geological issues involve working with people from other cultures. Liberal education electives can help broaden students’ perspectives. Potential courses that would count toward this requirement and R1 and Design for Diversity (DD) include AIS 101, AIS 243, and AIS 322/GEOG 322. Many other courses such as HIST 114 and HIST 115 also fulfill the same requirements.
2. GEOL 468 prepares students for GEOL 470 offered during Winterim. GEOG 335 should be taken prior to GEOL 468.
3. All students pursuing a Liberal Arts Comprehensive Major in Geology are also required to complete MATH 114 in addition to the 60 credits required for the major.
4. GEOL 471 meets the Geology capstone requirement and prepares student for jobs in Geology. Students not taking GEOL 471 must submit a capstone proposal to the chair. Another possible capstone experience is GEOL 395. Please consult with your Geology faculty advisor.
5. Plus electives to total at least 60 credits selected from the following: GEOL 313 Mineralogy and Petrology II, GEOL 330 Structural Geology, GEOL 416 Hydrogeology II, and GEOL 418 Earth History.
6. Electives must be selected to ensure that a student’s degree comprises at least 39 credits of upper-division courses (300-400 level). Students are encouraged to take additional courses in chemistry, ecology, physics, math, GIS, and written and oral communication, but electives can be selected from any discipline as long as the course prerequisites are met. The degree also must have 120 credits.
7. Select three elective courses from Biology (BIOL 321 Ecology, BIOL 328 Conservation Biology, BIOL 338 Vegetation Ecology, or BIOL 376 Aquatic Ecology), Geography (GEOG 337 Geographic Information Systems II, GEOG 338 Remote Sensing of the Environment, GEOG 350 Soils and the Environment, or GEOG 363 Watershed Analysis), and Chemistry (CHEM 213 Quantitative Analysis, CHEM 218 Introduction to Inorganic Chemistry, CHEM 304 Environmental Chemistry, CHEM 325 Organic Chemistry I with Laboratory, or GEOL 336 Introduction to Geochemistry). It is strongly recommended that students select one course from each of the Biology, Geography, and Chemistry course options. Students should work with a Geology faculty advisor to select the most suitable course combination.

**Note:** All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

### RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPS)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPS might be most beneficial to students, and any recommendations about when those HIPS best fit into the degree plan. Students should also consult their faculty advisor for information on HIPS. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPS like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.
Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning; 30 hours

Additional LE Core Information

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/...
EAU SS CUSTOM.EAU_TRNCRDWZ.GBL or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

**USAFI Credit.** UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

**Activity Credit (band, chorus, drama, KINS 100-184 courses)** Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

**Other Restricted Credits.** For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

### Liberal Education Core

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.
College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major–Minor and Major–Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 160-010)

The objective of the comprehensive major in geology is to prepare students for graduate programs in geological sciences or for careers as professional geologists, hydrogeologists, or geological engineers. The liberal arts comprehensive major requires completion of the Core and one of the four Emphases.

NOTE: Communication classes, both written and oral, are strongly recommended to fulfill liberal education requirements in any of the emphases.

Core Requirements for all Liberal Arts Emphases in the Comprehensive Geology Major

<table>

<td>6</td>
</tr>
</tbody>
</table>

For liberal arts majors, the capstone options may include: GEOL 395 (for a minimum of two credits) or GEOL 471. The capstone will consist of student selection of one of the following options: faculty/student collaborative research, preparation and presentation of a department seminar, internship, field experiences, or other approved experiences. Students working with their adviser will submit a proposal to the department faculty outlining their choice of the capstone experience and explicitly stating how the capstone fits into their personal career goals. The proposal for a capstone experience must be submitted to the chair of the department no later than the second week of the first semester of the senior year.

General Geology Emphasis

Recommended for students planning careers in geology, especially those planning to attend graduate school in geology or engineering.

This emphasis requires completion of the Comprehensive Geology Major Core plus the required and elective credits as listed below.

<table>
<thead>

</tbody>
</table>
Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Explain Earth processes.
- Use mathematics and computational methods to analyze scientific and geological data.

Electives

At least two courses selected from:

- GEOL 336: Introduction to Geochemistry
- GEOL 345: Geomorphology and Aerial Photography Interpretation
- or GEOL 420: Glacial Geology
- GEOL 365: Economic Mineral Deposits
- GEOL 416: Hydrogeology II
- GEOL 445: Engineering Geology and Geophysics

Select additional electives to total at least 60 credits from the following:

- BIOL 308: Evolution
- BIOL 338: Vegetation Ecology
- BIOL 345: Invertebrate Zoology
- BIOL 356: Wisconsin Wildlife
- CHEM 213: Quantitative Analysis
- CHEM 218: Introduction to Inorganic Chemistry
- CHEM 433: Physical Chemistry I
- CHEM 434: Physical Chemistry II
- GEOG 338: Remote Sensing of the Environment
- GEOG 345: Quaternary Environments
- GEOG 350: Soils and the Environment
- GEOG 363: Watershed Analysis
- GEOG 364: Fluvial Processes and Landforms
- GEOG 435: Geographic Information Systems III
- MSE 315: Materials Characterization
- Any Geology course numbered 300 or above
- MATH 216: Calculus III
- MATH 246: Elementary Statistics
- MATH 311: Differential Equations
- MATH 324: Linear Algebra
- PHYS 212: General Physics
- or PHYS 232: University Physics II
- PHYS 226: Astronomy-Solar System
- PHYS 229: Astronomy-Stars and Galaxies
- PHYS 350: Electric and Electronic Circuits
- PHYS 375: Electromagnetic Fields

NOTE 1: No degree credit may be earned under the Satisfactory/Unsatisfactory option in any required courses in a geology major or minor.

NOTE 2: Students should be advised that a second semester of physics is usually required for entrance to graduate school.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Read, write, and critically evaluate geological papers.
- Construct an internally consistent geological map utilizing field data, topographic maps, geological maps, air photos, geographic information systems (GIS) data, and geological cross sections.
- Describe and identify common rocks, minerals, and fossils.

Sample Degree Plan

Geology, General Geology Emphasis, Comprehensive Major, B.S.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog.uwec.edu/undergraduate/graduation-requirements/) here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

Elective Courses in writing, public speaking, GIS, etc  
3

Elective - Additional PHYS, CHEM, MATH (246) and Ecology  
3-4

LE Options of Interest  
7-9

**TOTAL**  
30

**Minimum total for the baccalaureate degree = 120 credits**

1. Many geological issues involve working with people from other cultures. Liberal education electives can help broaden students’ perspectives.

2. A second Geology course might be desired by a student this semester. The upper-division elective classes listed here only have a GEOL 1XX prerequisite and would be available to students.

3. GEOL 468 prepares students for GEOL 470 offered during Winterim. GEOG 335 should be taken prior to GEOL 468.

4. Two semesters of Physics are generally required for attending graduate school, so PHYS 212 or PHYS 232 is strongly recommended.

5. GEOL 115, GEOL 201, GEOL 301, and GEOL 308 carry K1 and R3 designations. If the geology student takes one of these classes during the course of their program, then the R3 learning outcome is satisfied. If GEOL 115 is taken to satisfy the introductory geology requirement, then the student might need to take another I1 class outside of the Geology department.

6. GEOL 471 meets the Geology capstone requirement and prepares student for jobs in Geology.

7. Minimum of two courses from GEOL 336, 345 or GEOL 420, GEOL 365, GEOL 416, GEOL 461; additional credits needed from BIOL 308, BIOL 345, BIOL 356, CHEM 213, CHEM 218, CHEM 433, CHEM 434, GEOG 337, GEOG 338, GEOG 345, GEOG 350, GEOG 363, GEOG 364, GEOG 435, GEOG 300-level and higher, MATH 216, MATH 246, MATH 311, MATH 324, MSE 315, PHYS 212 or PHYS 232, PHYS 226, PHYS 229, PHYS 350, PHYS 375. GEOG 337 meets the Geology capstone requirement and prepares student for jobs in Geology.

8. Electives must be selected to ensure that a student’s degree comprises at least 39 credits of upper-division courses (300-400 level). Students are encouraged to take additional courses in chemistry, ecology, physics, math, GIS, and written and oral communication, but electives can be selected from any discipline as long as the course prerequisites are met. The degree also must have 120 credits.

**Note:** All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

**RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)**

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad ([https://studyabroad.apps.uwec.edu/](https://studyabroad.apps.uwec.edu/)), Intercultural Immersion ([https://www.uwec.edu/immersion/](https://www.uwec.edu/immersion/)), Internship ([https://www.uwec.edu/career-services/info-students/internships/](https://www.uwec.edu/career-services/info-students/internships/)), and/or Student/Faculty Collaborative Research ([https://studyabroad.apps.uwec.edu/](https://studyabroad.apps.uwec.edu/)).
Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning: 30 hours

Additional LE Core Information

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.

Procedures Required for Graduation

1. Obtain admission to the degree program and/or the College offering it.
2. Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the
quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

Liberal Education Core

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

LIBERAL EDUCATION CORE REQUIREMENTS

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/graduate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/graduate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 160-013)

The objective of the comprehensive major in geology is to prepare students for graduate programs in geological sciences or geological engineering, or for careers as professional hydrogeologists or geologists. The liberal arts comprehensive major requires completion of the Core and one of the four Emphases.

NOTE: Communication classes, both written and oral, are strongly recommended to fulfill liberal education requirements in any of the emphases.

Core Requirements for all Liberal Arts Emphases in the Comprehensive Geology Major

<table>

Capstone Experience (required for all majors) 0-2

For liberal arts majors, the capstone options may include: GEOL 395 (for a minimum of two credits) or GEOL 471. The capstone will consist of student selection of one of the following options: faculty/student collaborative research, preparation and presentation of a department seminar, internship, field experiences, or other approved experiences. Students working with their adviser will submit a proposal to the department faculty outlining their choice of the capstone experience and explicitly stating how the capstone fits into their personal career goals. The proposal for a capstone experience must be submitted to the chair of the department no later than the second week of the first semester of the senior year.

Hydrogeology and Water Chemistry Emphasis

Recommended for students planning careers in geology such as hydrogeology, geochemistry, and environmental geology. This program is designed to fulfill requirements for admission to graduate programs in hydrogeology, geochemistry, and environmental geology. This program also meets 1998 Wisconsin Department of Natural Resources’ academic requirements for classification as a hydrogeologist.

This emphasis requires completion of the Comprehensive Geology Major Core plus the required and elective credits as listed below.

<table>
<thead>

</tbody>
</table>
Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Explain Earth processes.
- Use mathematics and computational methods to analyze scientific and geological data.
- Read, write, and critically evaluate geological papers.
- Construct an internally consistent geological map utilizing field data, topographic maps, geological maps, air photos, geographic information systems (GIS) data, and geological cross sections.
- Develop geologic models and effectively communicate a hydrogeologic interpretation based on observations.

Sample Degree Plan

**Geology, Hydrogeology and Water Chemistry Emphasis, Comprehensive Major, B.S.**

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [here](https://catalog.uwec.edu/undergraduate/graduation-requirements/) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

<tr>
<td>Elective - GEOG 337 not required, but very useful for graduates</td>
<td>3</td>
<td></td>
</tr>
</tbody>
</table>

**Note:** In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.
Minimum total for the baccalaureate degree = 120 credits

1 Many geological issues involve working with people from other cultures. Liberal education electives can help broaden students’ perspectives. Potential courses that would count toward this requirement and R1 and Design for Diversity (DD) include AIS 101, AIS 243, and AIS 322/GEOG 322. Many other courses such as HIST 114 and HIST 115 also fulfill the same requirements.

2 GEOL 468 prepares students for GEOL 470 offered during Winterim. GEOG 335 should be taken prior to GEOL 468.

3 Two semesters of Physics are generally required for attending graduate school, so PHYS 212 or PHYS 232 is strongly recommended.

4 Students must take either GEOL 418 (Earth History, offered Fall sem.) or GEOL 330 (Structural Geology, offered Spring sem.)

5 GEOL 471 meets the Geology capstone requirement and prepares student for jobs in Geology. Students not taking GEOL 471 must submit a capstone proposal to the chair. Another possible capstone experience is GEOL 395. Please consult with your Geology faculty advisor.

6 GEOL 350 or GEOL 461 is required in the major, but currently these classes are not offered on a regular basis. It might be necessary for students to substitute another appropriate class such as PHYS 232, GEOG 337, a 300-level ecology class in Biology, or another 300-level Geology course to fulfill this requirement. If so, please see the Geology Dept. Chair.

7 Plus electives to total at least 60 credits selected from the following: CHEM 213, CHEM 218, CHEM 325, CHEM 401, CHEM 426, CHEM 433; GEOG 337, GEOL 350, GEOL 363, GEOL 364, GEOL 435; or any GEOL course numbered 300 or higher.

8 Electives must be selected to ensure that a student’s degree comprises at least 39 credits of upper-division courses (300-400 level). Students are encouraged to take additional courses in chemistry, ecology, physics, math, GIS, and written and oral communication, but electives can be selected from any discipline as long as the course prerequisites are met. The degree also must have 120 credits.

Note: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://stud yabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/ internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)
The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

• K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).

• K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).

• K3 – Humanities; two experiences.

• K4 – Fine Arts; one experience.
• S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).

• S2 – Mathematics; one experience (must satisfy the University math competency requirement).

• S3 – Creativity; one experience (can be fulfilled in a student’s major).

• R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).

• R2 – Global Perspectives; one experience.

• R3 – Civic and Environmental Issues; one experience.

• I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).

• SL—Service Learning; 30 hours

Additional LE Core Information

• Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).

• Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).

• S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.

• S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.

• S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.

• S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.

• S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.

• I1 – Any semester long study abroad program can fulfill one I1 experience.

Geology, Major
Liberal Arts (Code 160-204)

University Requirements

Graduation Requirements for Baccalaureate Degree

Credit Requirements

| Minimum total for graduation | 120 |
| Upper division credits (courses numbered 300 and higher) | 39 |
| Liberal Education Core | 36 |

Academic Concentrations

| Grade Point Requirements | 2.00 average |

Total | 2.00 average |
Resident | 2.00 average |

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

Applicability of Credits Toward Graduation

Major | 2.00 average |
Minor | 2.00 average |
Certificate | 2.00 average |

University Residency Requirements

| Minimum total | 30 |
| Senior year | 23 |
| Major, Standard, upper division in residence | 12 |
| Major, Comprehensive, upper division in residence | 21 |

Certificate | 25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.
The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

- **Integration Goal**
  - Integration Outcome 1 (I1): Integration (http://catalog.uwec.edu/undergraduate/attribute-i1/)
    - Two (2) learning experiences
  - Integration Outcome 2 (I2): Design for Diversity (http://catalog.uwec.edu/undergraduate/attribute-ddiv/)
    - One (1) learning experience

- **Service-Learning Goal**
  - Service-Learning (http://catalog.uwec.edu/undergraduate/attribute-sl/)
    - 30 hours

**College Degree Requirements**

**Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)**

**University Graduation Requirements.** All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

**College Graduation Requirements: Grade Point Averages.** All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

**Major-Minor and Major-Certificate Requirements.** A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.
Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

**College Credits.** Earn at least 90 credits in courses offered by the College of Arts and Sciences.

**Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)**

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

**Bachelor of Science Degree in the College of Arts and Sciences (B.S.)**

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

**Major Requirements**

**Liberal Arts (Code 160-204)**

The Liberal Arts major in geology emphasizes broad training in general science; the relationship between earth science and other sciences; and the flexibility and creativity in program design for meeting an individual student’s interest and employment needs. This major requires completion of the Core liberal arts program plus elective credits. This non-comprehensive major also requires completion of a minor or a second major in another department.

**Core Requirements for the Geology Major**

**Chem 115** Chemical Principles (or equivalent) 6

Capstone experience 0-2

Plus electives to total at least 36 credits selected from any geology course numbered 300 or higher.

1 Each major is required to complete a capstone experience which may include: GEOL 395 (for a minimum of two credits) or GEOL 471. The capstone will consist of student selection of one of the following options: faculty/student collaborative research, preparation and presentation of a department seminar, internship, field experiences, or other approved experiences. Students working with their advisor will submit a proposal to the department faculty outlining their choice of the capstone experience and explicitly stating how the capstone fits into their personal career goals. The proposal for a capstone experience must be submitted to the Chair of the Department no later than the second week of the first semester of the senior year.

**NOTE 1:** No degree credit may be earned under the Satisfactory/Unsatisfactory option in any required courses in a geology major or minor.

**NOTE 2:** Communication classes, both written and oral, are strongly recommended to fulfill liberal education requirements in any of the emphases.

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

- Explain Earth processes.
- Use mathematics and computational methods to analyze scientific and geological data.
- Read, write, and critically evaluate geological papers.
- Construct an internally consistent geological map utilizing field data, topographic maps, geological maps, air photos, geographic information systems (GIS) data, and geological cross sections.
- Evaluate a geological field site and produce a professional report.

**Sample Degree Plan**

**Geology, Major, B.S.**

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. **Note:** In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [here](https://catalog.uwec.edu/undergraduate/graduation-requirements/) for a description of the Liberal
Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

</thead>
<tbody>
<tr>
<td>120</td>
</tr>
</tbody>
</table>

Minimum total for the baccalaureate degree = 120 credits

1 Many geological issues involve working with people from other cultures. Liberal education electives can help broaden students’ perspectives. Potential courses that would count toward this requirement and R1 and Design for Diversity (DD) include AIS 101, AIS 243, and AIS 322/GEOG 322. Many other courses such as HIST 114 and HIST 115 also fulfill the same requirements.

2 Electives to total at least 36 credits selected from any geology course numbered 300 or higher.

3 This major either requires a minor (24 credits) or a certificate with at least 12 unique credits. Consult with your advisor to select appropriate classes.

4 GEOL 468 prepares students for GEOL 470 offered during Winterim.

5 Electives must be selected to ensure that a student’s degree comprises at least 39 credits of upper-division courses (300-400 level). Students are encouraged to take additional courses in chemistry, ecology, physics, math, GIS, and written and oral communication, but electives can be selected from any discipline as long as the core prerequisites are met. The degree also must have 120 credits.

6 GEOL 471 meets the Geology capstone requirement, but GEOL 470 does not. Students not taking GEOL 471 (which has GEOL 330 as a prerequisite) must submit a capstone proposal to the chair. Another possible capstone experience is GEOL 395. Please consult with your Geology faculty advisor.

7 GEOL 470 (required) provides one out of two required I1 experiences. A geology major might have satisfied the entire I1 requirement by also taking GEOL 102, GEOL 106, GEOL 118, or GEOL 122.

**Note:** All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

**RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)**

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional
high impact opportunities available. Talk to your academic advisor for more information about incorporating HiPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)
The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning; 30 hours

Additional LE Core Information

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.

Minimum 24 semester credits in geology, including:

Select one of the following:

- GEOL 106 Earth Science
- GEOL 110 Physical Geology
- GEOL 115 Environmental Geology
- GEOL 118 Societal Issues in Earth Science

Required:

- GEOL 312 Mineralogy and Petrology I

Select a minimum of six semester credits from the following:

- GEOL 291 Special Topics
- GEOL 301 Earth Resources and Sustainability
- GEOL 303 Rocky Mountain Field Studies
- GEOL 304 Global Environmental Change
- GEOL 308 Water Resources
- GEOL 313 Mineralogy and Petrology II
- GEOL 315 Hydrogeology I
- GEOL 320 Sedimentology and Stratigraphy
- GEOL 330 Structural Geology
- GEOL 336 Introduction to Geochemistry
- GEOL 337 Analytical Geochemistry Laboratory
- GEOL 343 Geological Field Excursion
- GEOL 345 Geomorphology and Aerial Photography Interpretation
- GEOL 365 Economic Mineral Deposits
- GEOL 390 Geologic Immersion Experience
- GEOL 395 Directed Studies
- GEOL 416 Hydrogeology II
- GEOL 418 Earth History
- GEOL 420 Glacial Geology
- GEOL 445 Engineering Geology and Geophysics
- GEOL 468 Computers in Geology
- GEOL 470 Field Geology I
- GEOL 471 Field Geology II
- GEOL 491 Advanced Special Topics

NOTE 1: No degree credit may be earned under the Satisfactory/Unsatisfactory option in any required courses in a geology major or minor.

NOTE 2: Recommended electives: GEOL 470 and GEOL 471.
Program Learning Outcomes
Students completing this program will be expected to meet the following learning outcomes:

- Explain Earth processes.
- Use mathematics and computational methods to analyze scientific and geological data.
- Read, write, and critically evaluate geological papers.
- Construct an internally consistent geological map utilizing field data, topographic maps, geological maps, air photos, geographic information systems (GIS) data, and geological cross sections.
- Evaluate a geological field site and produce a professional report.

History
Hibbard Humanities Hall 701
715-836-5501
Department Website (https://www.uwec.edu/academics/college-arts-sciences/departments-programs/history/)

The study of history examines how men and women throughout the world have lived in the past. It pays special attention to continuities and changes in human communities over time and to interactions among people from different cultures. The study of history enhances critical thinking and effective communication by teaching students how to evaluate different interpretations of the past. It teaches them to use evidence effectively to understand the meaning and impact of events and processes. Studying history increases students’ social responsibility as they come to understand their own life experiences as part of an historical process. History students master the essential skills of a liberal education by learning to read critically, to manage and analyze information, to build logical arguments, and to write persuasively.

Students can major, minor, or pursue certificates in history through the College of Arts and Sciences. Those wishing to teach history in secondary schools can major in Social Studies Teaching, History emphasis, a degree program offered through the College of Education and Human Sciences. History majors in the College of Arts and Sciences often pursue careers in fields such as law, government, journalism, business, and information management. The department also offers a public history emphasis within the major for students interested in working in museums, archives, historic preservation, and other public history career fields. Some students continue academic study and obtain graduate degrees, so that they can further their public history careers or teach at the post-secondary level.

Department Honors in History

GPA
3.5 GPA in Major; 3.5 overall GPA – All Tracks

TRACK A – Liberal Arts and Public History Emphasis
- 3.75 average or better in History 288 and 489 (capstone sequence)
- 1 honors credit (taken as HIST496) attached to History 489 OR History 486
- Public presentation of capstone project (on or off-campus)
- Successful completion of ONE of the following (portfolio reflection required)
  - Faculty-student research project
  - Independent studies
  - Student teaching apprenticeship (HIST397)
  - History-related service learning
- Immersion experience
- National History Day

TRACK B – Social Studies Teaching, History Emphasis
- 3.75 average or better in History 288
- 1 honors credit (taken as HIST396) attached to History 288
- Successful completion of TWO of the following experiences (portfolio reflection required for each completed experience):
  - History 494
  - Faculty-student research project
  - Independent studies
  - Student teaching apprenticeship (HIST397)
  - History-related secondary school service
  - Immersion experience
  - National History Day

For information regarding Department Honors, see Professor Patricia Turner (HHH-721)

Information for Majors and Minors

NOTE 1: Majors who plan to prepare for college teaching are urged to attain a reading competency in at least one foreign language and preferably two.

NOTE 2: Majors or minors in history seeking licensure to teach are required by Wisconsin law to complete instruction in the conservation of natural resources and in consumer cooperatives/cooperative marketing. Take ECON 103 and either GEOG 178 or BIOL 180 to meet these requirements.

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.
Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupationalal and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

Liberal Education Core

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

LIBERAL EDUCATION CORE REQUIREMENTS a minimum of 36 credits

Knowledge Goal

Knowledge Outcome 1 (K1): Natural Sciences (http://catalog.uwec.edu/undergraduate/attribute-k1/) Two (2) learning experiences
One experience in laboratory science must be selected from either K1 or K2.

Knowledge Outcome 2 (K2): Social Sciences (http://catalog.uwec.edu/undergraduate/attribute-k2/)
Two (2) learning experiences

Knowledge Outcome 3 (K3): Humanities (http://catalog.uwec.edu/undergraduate/attribute-k3/)
Two (2) learning experiences

Knowledge Outcome 4 (K4): Fine Arts (http://catalog.uwec.edu/undergraduate/attribute-k4/)
One (1) learning experience

Skills Goal
Skills Outcome 1 (S1): Written and Oral Communication (http://catalog.uwec.edu/undergraduate/attribute-s1/)
Two (2) learning experiences

Skills Outcome 2 (S2): Mathematics (http://catalog.uwec.edu/undergraduate/attribute-s2/)
One (1) learning experience

Skills Outcome 3 (S3): Creativity (http://catalog.uwec.edu/undergraduate/attribute-s3/)
One (1) learning experience

Responsibility Goal
Responsibility Outcome 1 (R1): Equity, Diversity, and Inclusivity (http://catalog.uwec.edu/undergraduate/attribute-ddiv/)
Two (2) learning experiences

Responsibility Outcome 2 (R2): Global Perspectives (http://catalog.uwec.edu/undergraduate/attribute-r2/)
One (1) learning experience

Responsibility Outcome 3 (R3): Civic and Environmental Issues (http://catalog.uwec.edu/undergraduate/attribute-r3/)
One (1) learning experience

Integration Goal
Integration Outcome 1 (I1): Integration (http://catalog.uwec.edu/undergraduate/attribute-i1/)
Two (2) learning experiences

Service-Learning Goal
Service-Learning (http://catalog.uwec.edu/undergraduate/attribute-sl/)
30 hours

College Degree Requirements
Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter the 211-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than twice.

**HIST 401** Public History in Great Britain

**Notes:**

1. The same course may be taken to satisfy more than one requirement, when relevant.
2. Relevant history courses other than those listed above may be counted toward fulfilling requirements with department approval.
3. HIST 288 should be taken before any 300-level or 400-level course, if possible.

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

- Analyze diverse experiences of or viewpoints on past events or historical developments.
- Recognize both continuity and change over time and describe their consequences.
- Identify and interpret primary and secondary sources in order to effectively construct historical narratives orally and in writing.
- Construct arguments that explain how history can inform the present.
- Evaluate credibility, position, or perspective of various forms of historical evidence.
- Compare and connect local and global histories.
Sample Degree Plan

History, Major - Liberal Arts, B.A.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [https://catalog.uwec.edu/undergraduate/graduation-requirements/] here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

TOTAL FOURTH YEAR 30

Minimum total for the baccalaureate degree = 120 credits

Note: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

We highly recommend Study Abroad or an Intercultural Immersion program, especially those that are tied to the history department, such as CETs: Central European Travel Seminar (HIST 327 and IDS 340) or Public History in Great Britain (HIST 401).

History majors pursue student-faculty collaborative research in HIST 489: Research Seminar. However, we encourage students to see their faculty advisors about research opportunities available earlier in the program.
Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning; 30 hours

Additional LE Core Information

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).

- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

1 Certain programs exceed this minimum.

2 See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/
EAU SS_CUSTOM.EAU_TRNCRDWZ.GBL or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

**USAFI Credit.** UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

**Activity Credit (band, chorus, drama, KINS 100-184 courses)** Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

**Liberal Education Core**

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.
College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

</table>

Notes:

1. The same course may be taken to satisfy more than one requirement, when relevant.
2. Relevant history courses other than those listed above may be counted toward fulfilling requirements with department approval.
3. HIST 288 should be taken before any 300-level or 400-level course, if possible.

4. “Diversity Requirement” here refers to the courses that address history of race and ethnicity in the United States, or history of gender and sexuality in any world region.

Program Learning Outcomes
Students completing this program will be expected to meet the following learning outcomes:

- Analyze diverse experiences of or viewpoints on past events or historical developments.
- Recognize both continuity and change over time and describe their consequences.
- Identify and interpret primary and secondary sources in order to effectively construct historical narratives orally and in writing.
- Construct arguments that explain how history can inform the present.
- Evaluate credibility, position, or perspective of various forms of historical evidence.
- Compare and connect local and global histories.
- Create complex interpretations of the past collaboratively with public audiences.

Sample Degree Plan
History, Public History Emphasis, Major, B.A.
The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all Undergraduate Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog.uwec.edu/undergraduate/graduation-requirements/) here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

Minimum total for the baccalaureate degree = 120 credits

**Note:** All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

**RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)**

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

We highly recommend Study Abroad or an Intercultural Immersion program, especially those that are tied to the history department, such as CETS: Central European Travel Seminar (HIST 327 and IDS 340) or Public History in Great Britain (HIST 401). Public History majors pursue student-faculty collaborative research in HIST 489: Research Seminar and HIST 486: Public History Seminar, which always involved interpreting history for a community partner. However, we encourage students to see their faculty advisors about research opportunities available earlier in the program.

All Public History majors are required to complete an internship. Students work with faculty to identify opportunities. Please contact Dr. John Mann john.j.mann@uwec.edu if you have questions about this process.

### Liberal Education (LE) Core Guidance

**Liberal Education Core (LE Core)**

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
• SL—Service Learning; 30 hours

Additional LE Core Information

• Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).

• Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).

• S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.

• S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.

• S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.

• S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.

• S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.

• I1 – Any semester long study abroad program can fulfill one I1 experience.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

• Analyze diverse experiences of or viewpoints on past events or historical developments.

• Recognize both continuity and change over time and describe their consequences.

• Identify and interpret primary and secondary sources in order to effectively construct historical narratives orally and in writing.

• Evaluate credibility, position, or perspective of various forms of historical evidence.

Global and Comparative History, Certificate

(Code 380-627)

This certificate is designed for undergraduate students with an interest in history who have chosen a major other than History. It is particularly geared toward students for whom a deeper understanding of the history of global interactions will complement and enhance their major area of study and/or future careers (for example: the World Politics emphasis in Political Science, Business, Geography, Religion, Economics, Languages and Women's, Gender, and Sexuality Studies).

This certificate is designed for undergraduate students with an interest in

(Southeast Asian and South Korea) (Code 380-628)

Program Learning Outcomes

Students completing this program will be expected to meet the following

• Analyze diverse experiences of or viewpoints on past events or historical

developments.

• Recognize both continuity and change over time and describe their

consequences.

• Compare and connect local and global histories.

History of Race, Gender, and

Society, Certificate

(Code 380-628)

This certificate is designed for undergraduate students with an interest in

history that have chosen a major other than History. It is particularly geared toward students for whom a deeper understanding of the history of race, gender and society will complement and enhance their major area of study and/or future careers (for example, Sociology, Women's, Gender, and Sexuality Studies, Social Work, Education, and Criminal Justice).

</table>

Note: Courses cannot be counted in both the major and the certificate program. Students cannot pursue the History Major or the History, Public History Emphasis Major and the Global and Comparative History Certificate to meet graduation requirements for completing a first and second degree program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

• Analyze diverse experiences of or viewpoints on past events or historical developments.

• Recognize both continuity and change over time and describe their consequences.

• Compare and connect local and global histories.

Note: Courses cannot be counted in both the major and the certificate program. Students cannot pursue the History Major or the History, Public History Emphasis Major and the History of Race, Gender, and Society Certificate to meet graduation requirements for completing a first and second degree program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

• Analyze diverse experiences of or viewpoints on past events or historical developments.

• Recognize both continuity and change over time and describe their consequences.

• Construct arguments that explain how history can inform the present.

Languages

Centennial Hall 4508
715-836-4287
Department Website (https://www.uwec.edu/academics/college-arts-sciences/departments-programs/languages/)

The Department of Languages provides a vital component in the undergraduate liberal arts education offered at the University of Wisconsin-Eau Claire. The department promotes multilingualism as the key to intercultural understanding. It does so through courses in foreign language, culture, and literature, including English language for native speakers of other languages; major and minor programs in a number of world languages; study abroad opportunities and internships in many countries; and student/faculty collaborative research. Graduates from the Department of Languages serve at home and abroad as ambassadors for a diverse, peacefully interacting global society.

Major, Minor, and Certificate Programs

The Department of Languages offers Liberal Arts and Teaching majors and minors in French and Spanish, and a Liberal Arts minor in German and Japanese. In addition, a Spanish for Health Professions minor is available as well as certificate programs in Chinese, French Proficiency, German Proficiency, and Ojibwe Language. Language students may also be interested in the minor in Teaching of English to Speakers of Other Languages (TESOL, housed in Education for Equity and Justice), the certificate in Teaching English as a Foreign Language (TEFL), or the minor or certificate in Ancient Studies.
Students of Spanish have the opportunity to pursue a major or minor in Latin American and Latinx Studies (LAS).

**Other Languages Offered**

In addition to the major, minor, and certificate programs, the Department of Languages provides, as resources permit, at least one year of instruction in Chinese, Classical Greek, Hmong, Japanese, Latin, and Ojibwe. One year of any of the languages taught in the department fulfills the one-year foreign language requirement for a Bachelor of Arts Degree in the College of Arts and Sciences. To meet this requirement, however, the student must earn a grade of at least C or a mark of S in a Foreign Language course numbered 102 or higher. The department is also the academic home for the Intensive English Program (English as a Second Language), see below.

**Spanish Honors Program**

The Honors Program in Spanish is intended for Spanish majors—including Spanish education and liberal arts majors—who have demonstrated excellence in their coursework, and who want to experience the study of languages outside the classroom. The high impact practices required for department honors in Spanish align with such experiences.

Spanish Departmental Honors is not the same program as University Honors. Because these honors programs are distinct, students should review the requirements of each with care.

Students who pursue the Spanish Honors Program do not have to be part of the University Honors Program.

Students in the University Honors Program can also apply to be part of the Spanish Honors program.

**Eligibility:** Spanish majors who have resident, overall, and major GPAs of 3.50 or higher. Completion of Spanish 302 is required before applying to the Honors Program in Spanish.

**Application:** An application must be submitted to the Spanish section via an e-form. The form may be accessed via the Languages Department (https://www.uwec.edu/academics/college-arts-sciences/departments-programs/languages/) web page, Honors Program tab under Explore Opportunities. The e-form will ask that you identify a Spanish faculty member to serve as a reference. The application must be submitted prior to the student's last two semesters of study. That being said, students are encouraged to apply after completing SPAN 302, a course typically taken sophomore year, but no later than their final two semesters.

**Requirements:** At graduation, the student must have a resident, overall, and major GPAs of 3.50 or higher. In addition, the student must submit evidence that two of the options from the list below have been satisfactorily completed at a standard of excellence deserving of a recognition in Spanish Honors. With the exception of the OPI proficiency test, students may do two of any of the other given options to meet the Spanish Honors Program requirements if their projects are distinct. For example, a student could conduct two separate faculty/student collaborative research projects with the same or different Spanish faculty member(s) or, with approval from the Spanish section, with faculty from departments or programs outside of Spanish. Students that select OPI proficiency as one of the options to fulfill one of their requirements must complete work in a different category for the second option.

1. A faculty/student collaborative research project with a Spanish faculty member
2. Advanced Low or higher on an official ACTFL Oral Proficiency Interview
3. An off-campus presentation at a conference on a topic related to the major
4. Completion of a language related internship approved by a faculty member
5. Submission of a publication-worthy manuscript to a journal related to the major
6. Completion of application to the U.S. Fulbright program
7. Certification as an interpreter by the State of Wisconsin

**Residency Requirement for Prospective Language Teachers**

All majors and minors who wish to be certified to teach a foreign language must complete an appropriate period of language immersion in residence in a country in which the language is spoken, or provide an alternative language immersion experience that must be approved by the Department. The minimum time period for meeting the residence/immersion requirement is six weeks. However, the Department of Languages recommends that students spend at least one semester abroad.

**Oral Proficiency Requirement for Prospective Language Teachers**

Wisconsin Department of Public Instruction content guidelines require that foreign language teachers demonstrate minimal oral proficiency at a level equivalent to Intermediate High according to the ACTFL Proficiency Guidelines. Prospective teachers at UW-Eau Claire must demonstrate such proficiency through an official ACTFL Oral Proficiency Interview (OPI). Information on the Oral Proficiency Interview and the ACTFL Proficiency Guidelines (Speaking) is available in the Department of Languages.

**Placement Test in Foreign Languages**

Students whose records indicate at least two units of French, German, Spanish, or Japanese study in Junior/Senior High School and who do not have college credit in the language are required to take a placement test in that language prior to registration in order to determine the level at which they should continue their foreign language instruction. At the time of the test, students will be advised as to the language course in which they should enroll.

Students who place into a 102-level foreign language class will be considered to have met the 101-level competency requirement and may not enroll in a 101-level class in the same language for credit without the permission of the Chair of the Department of Languages. Additionally, a student who places into a 201-level class or above will be considered to have met the 101- and 102-level requirements and may not enroll for credit in any course that is at a lower level than the one into which the student has placed without the permission of the Chair of the Department of Languages.

Placement tests in French, German, and Spanish are offered as part of Regional Placement Testing in March and April, during Summer Orientation, and during spring/fall registration. If you studied Japanese or Chinese in high school, UW-Eau Claire has a locally developed placement test which is administered by appointment. For information about these tests, consult Academic Testing (Vicki Lord Larson Hall 2100).
Roma Hoff Instructional Resource Center

Practice in the Roma Hoff Instructional Resource Center (RHIRC) is a required part of elementary, intermediate, conversation, and phonetics courses in modern foreign languages. The center provides access to foreign language sound and video programs, to foreign films, and to computer-assisted foreign language instruction. Four-credit courses at the beginning and intermediate levels include four hours of classroom instruction and at least one laboratory hour per week.

Credit for High School Work or Other Foreign Language Experience

Students with high school courses or other learning experiences in a foreign language may obtain college credit for their previous work by taking a confirming course under the following conditions:

1. The confirming course must be the first college-level course completed in the language and must be taken by a regularly enrolled student at UW-Eau Claire. (However, students who have taken a college-level course while in high school are also eligible for credit for previous work by taking a confirming course.)
2. The confirming course must be 102, 201, 202, or in French, FREN 315; in German, GERM 313, GERM 314 or GERM 315; in Spanish, SPAN 301.
3. The course must be passed with a letter grade of B (not B-) or above and may not be repeated for the purpose of requesting credits under this policy.
4. A maximum of 16 credits may be granted in any one language for previous work at a level lower than the confirming course.

Further information is available from the Chair of the Department.

Study Abroad

The department encourages study abroad in any of the programs sponsored by the Department of Languages, such as the semester programs in Costa Rica, Chile, Pau in France, Marburg in Germany, Japan, and Valladolid in Spain; the semester or year exchange programs in Graz (Austria) and year programs in different sites in the state of Hessen (Germany); summer program in Mexico or Costa Rica—nursing and health care professionals; and exchange semester or year-long programs at one of three ITESM campuses in Mexico. Credits for the major and minor can be earned in any of these programs. Participation in other university-sponsored study abroad programs in Australia, China, England, Greece, Ireland, Latvia, Scotland, South Africa, South Korea, Sweden, and Thailand is also recommended. A resident GPA requirement exists for acceptance in study abroad programs. For details, see the Center for International Education.

International Employment

Students interested in a career in international business should consider a major in French, German, or Spanish combined with the major, minor or certificate in International Business available to students in the College of Business. For information about opportunities for international employment, consult Dr. Kristy Lauver, the advisor for students seeking the International Business major, minor or certificate in the College of Business.

Intensive English Program

(English for Speakers of Other Languages)

Another important offering in the Department of Languages is English for the ever-growing number of non-native speakers of English on campus. The Intensive English Program (IEP) offers English Language Learners instruction during the regular academic year. All IEP courses are offered for credit and count towards resident GPA and credits for graduation. Successful completion of the advanced level of the IEP is one way to demonstrate English proficiency for degree programs at UWEC.

International students seeking a degree or on exchange from their home institutions, immigrants/refugees, and/or non-native speakers of English who are residents of the United States are welcome to take IEP coursework to further develop their English speaking, listening, reading, writing, grammar, vocabulary, and pronunciation.

International students who have not demonstrated English proficiency may take the English Placement Exam at UWEC. The English Placement Exam is conducted the week prior to the beginning of courses. The purpose of the English Placement Exam is to determine whether each non-native speaking student’s English language proficiency is sufficient for active involvement in UWEC coursework. A non-native speaker of English must be linguistically prepared for the rigorous academic challenges at UW-Eau Claire in terms of in-class oral and aural interaction and out-of-class reading and writing.

For more information on admissions requirements for the IEP, undergraduate studies, or graduate studies, please contact the office of Admissions at admissions@uwec.edu.

Majors

- Major: French, Liberal Arts - B.A./B.S.
- Major: French Teaching - B.A. (College of Education and Human Sciences Secondary Education Program)
- Major: Spanish, Liberal Arts - B.A./B.S.
- Major: Spanish Teaching - B.A. (College of Education and Human Sciences Secondary Education Program)
• Comprehensive Major: Spanish Teaching, TESOL Emphasis - B.A. (College of Education and Human Sciences Secondary Education Program)

Minors

• Minor: Ancient Studies
• Minor: French, Liberal Arts
• Minor: French, Early Childhood/Adolescence Teaching
• Minor: German, Liberal Arts
• Minor: Japanese, Liberal Arts
• Minor: Spanish, Liberal Arts
• Minor: Spanish for Health Professions, Liberal Arts
• Minor: Spanish, Early Childhood/Adolescence Teaching

Certificates

• Certificate: Ancient Studies
• Certificate: Chinese
• Certificate: French Proficiency
• Certificate: German Proficiency
• Certificate: Ojibwe Language

Chinese, Certificate

(Code 291-601)

The Chinese Certificate aims to deepen students’ Chinese language proficiency and cultural knowledge of China and Chinese-speaking regions in the world. Upon completion, students are expected to reach novice-high or intermediate-low proficiency in Chinese. This certificate will be a beneficial credential to reflect students’ investment in and knowledge of Chinese.

Minimum of fifteen semester credits, including:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHIN 101</td>
<td>Beginning Chinese</td>
<td>4</td>
</tr>
<tr>
<td>CHIN 102</td>
<td>Beginning Chinese</td>
<td>4</td>
</tr>
<tr>
<td>CHIN 201</td>
<td>Intermediate Chinese</td>
<td>4</td>
</tr>
</tbody>
</table>

At least 3 credits selected from:

1. CHIN 202 Intermediate Chinese
2. FLG 150 Foreign Civilization and Culture (when focused on China)
3. FLTR 392 Foreign Film as Cultural Expression (when focused on China)
   or FLTR 330 Chinese Culture through Films
4. LANG 170 Language and Intercultural Competence
5. HIST 152 Modern East and Southeast Asia
6. HIST 388 History of China
7. INTB 362 International Experience in China

Other courses with a focus on China may count toward the certificate electives in consultation with the advisor, Dr. Kaishan Kong.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

• Engage in interpersonal communication on familiar or everyday topics.
• Present information to an audience of listeners on topics of a personal nature.
• Describe Chinese cultural practices and compare them with their own culture.

French Proficiency, Certificate

(Code 260-601)

The Department of Languages offers a certificate program in French Proficiency for students in any major or minor other than French who would like to add proficiency in French to their skill set. The program provides students with practical written and oral language skills in French, thereby complementing majors in all other disciplines across the university and strengthening the prospects of students who intend to pursue careers or graduate study in the many areas in which proficiency in French is useful.

To complete the certificate, 13 credits beyond FREN 201 are required, including:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>FREN 202</td>
<td>Intermediate French</td>

</tr>
<tr>
<td>FREN 315</td>
<td>Grammar</td>
<td>4</td>
</tr>
<tr>
<td>FREN 325</td>
<td>Pronunciation</td>
<td>3</td>
</tr>
</tbody>
</table>

Students may earn their remaining credits from any other FREN upper division courses.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

• Engage in interpersonal communication on a variety of topics of a personal, public, and professional nature.
• Interpret written and spoken language and visual images on a variety of topics of a personal, public, and professional nature.
• Present information, concepts, and ideas to an audience of listeners or readers on a variety of topics of a personal, public, and professional nature.
• Demonstrate an awareness of practices, products and perspectives related to the target culture(s) in spoken, written, and visual forms.

The desired benchmark for language proficiency is in the Intermediate range (Intermediate Low or above).

French, Major - Liberal Arts

Liberal Arts (Code 260-201)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements

| Minimum total for graduation | 120 |
| Upper division credits (courses numbered 300 and higher) | 39 |
| Liberal Education Core | 36 |

Academic Concentrations

| Total | 2.00 average |
| Resident | 2.00 average |
| Major | 2.00 average |
Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on Campus.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

Liberal Education Core

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

 Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 260-201)

<table>
<thead>
<tr>
<th>Code</th>

<td>3</td>
</tr>
</tbody>
</table>

Students may earn their remaining credits from any other FREN upper division courses, but must take a minimum of six credits at the 400 level.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Engage in interpersonal communication on a variety of topics of a personal, public, and professional nature.
- Interpret written and spoken language and visual images on a variety of topics of a personal, public, and professional nature.
- Present information, concepts, and ideas to an audience of listeners or readers on a variety of topics of a personal, public, and professional nature.
- Demonstrate an awareness of practices, products and perspectives related to the target culture(s) in spoken, written, and visual forms.
- Connect their language study with other disciplines and communities for academic and social purposes.
• Use critical thinking to evaluate and address issues in local and global contexts.

The desired benchmark for language proficiency is in the advanced range (intermediate high or above).

**Sample Degree Plans**

**French, Major - Liberal Arts, B.A. (without study abroad requirement)**

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan.  

Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [here](https://catalog.uwec.edu/undergraduate/graduation-requirements/) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

**TOTAL** 15

**Minimum total for the baccalaureate degree = 120 credits**

i Electives need to be carefully selected to ensure that a student’s degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in French, electives can be selected from any discipline as long as the student meets the course prerequisites.
Studying abroad for one semester is highly encouraged to increase proficiency and cultural competence.

**Note:** All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see Undergraduate Graduation Requirements).

**RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)**

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

**French, Major - Liberal Arts, B.A. (includes study abroad requirement)**

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [here](https://catalog.uwec.edu/undergraduate/graduation-requirements/) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning: 30 hours

Additional LE Core Information

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.

French, Minor - Liberal Arts

Liberal Arts (Code 260-401)

<td>4</td>
</tr>
<tr>
<td>FREN 325</td>
<td>Pronunciation</td>
<td>3</td>
</tr>
</tbody>
</table>

Students may earn their remaining credits from any other FREN upper division courses.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Engage in interpersonal communication on a variety of topics of a personal, public, and professional nature.
- Interpret written and spoken language and visual images on a variety of topics of a personal, public, and professional nature.
- Present information, concepts, and ideas to an audience of listeners or readers on a variety of topics of a personal, public, and professional nature.
- Demonstrate an awareness of practices, products and perspectives related to the target culture(s) in spoken, written, and visual forms.
- Connect their language study with other disciplines and communities for academic and social purposes.

The desired benchmark for language proficiency is in the Advanced range (Intermediate High or above).

**German Proficiency, Certificate**  
(Code 280-601)

The Department of Languages offers a certificate program in **German Proficiency** for students in any major or minor other than German who would like to add proficiency in German to their skill set. The program provides students with practical and professional language skills in German, thereby complementing majors in all other disciplines across the university and strengthening the prospects of students who intend to pursue careers or graduate study in the many areas in which proficiency in German is useful.

To complete the certificate, 13 credits beyond GERM 201 are required, including:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GERM 202</td>
<td>Intermediate German II</td>
<td>4</td>
</tr>
<tr>
<td>GERM 313</td>
<td>Grammar Review and Composition</td>
<td>3</td>
</tr>
<tr>
<td>GERM 314</td>
<td>Oral Proficiency</td>
<td>3</td>
</tr>
</tbody>
</table>

Students may earn their remaining credits from any GERM upper division courses.

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

- Engage in interpersonal communication on a variety of topics of a personal, public, and professional nature.
- Understand and interpret written and spoken language and visual images on a variety of topics of a personal, public, and professional nature.
- Present information, concepts, and ideas to an audience of listeners or readers on a variety of topics of a personal, public, and professional nature.
- Demonstrate an awareness and knowledge of practices, products and perspectives related to the target culture(s) in spoken, written, and visual forms.
- Connect and integrate their language study with other disciplines and communities for academic and social purposes.

**Japanese, Minor**  
(Liberal Arts (Code 270-401))

A minimum of 24 semester credits, including 16 credits in core courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>JAPN 101</td>
<td>Beginning Japanese I</td>
<td>4</td>
</tr>
<tr>

<td>Beginning Japanese II</td>
<td>4</td>
</tr>
<tr>
<td>JAPN 201</td>
<td>Intermediate Japanese I</td>
<td>4</td>
</tr>
<tr>
<td>JAPN 202</td>
<td>Intermediate Japanese II</td>
<td>4</td>
</tr>
</tbody>
</table>

Eight credits from the following, of which a minimum of six credits must be at the 300 or 400 level:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 353</td>
<td>Economics of Pacific Asia</td>
<td>8</td>
</tr>
<tr>
<td>FLG 150</td>
<td>Foreign Civilization and Culture (when focusing on Japan)</td>
<td></td>
</tr>
<tr>
<td>HIST 152</td>
<td>Modern East and Southeast Asia</td>
<td></td>
</tr>
<tr>
<td>HIST 389</td>
<td>History of Japan</td>
<td></td>
</tr>
<tr>
<td>JAPN 301</td>
<td>Advanced Japanese Language and Culture I</td>
<td></td>
</tr>
<tr>
<td>JAPN 302</td>
<td>Advanced Japanese Language and Culture II</td>
<td></td>
</tr>
<tr>
<td>RELS 312</td>
<td>Buddhism: Past and Present</td>
<td></td>
</tr>
<tr>
<td>RELS 323</td>
<td>Chinese and Japanese Religions</td>
<td></td>
</tr>
<tr>
<td>RELS 326</td>
<td>Asian Religious Philosophies</td>
<td></td>
</tr>
</tbody>
</table>

Up to three credits of Directed Studies or Independent Study for projects focusing on Japan may be applied to the minor with approval from the minor advisor.

Other Special Topics courses focusing on Japan may be considered as elective courses with consultation and approval of the minor advisor.

Students are strongly encouraged to participate in the study abroad program in Japan. Course credit gained at the study abroad site may be used to fulfill part of the Japanese minor with approval of the minor advisor.

**German, Minor - Liberal Arts**  
(Liberal Arts (Code 280-401))

A minimum of 24 semester credits in German beyond GERM 102, or 16 semester credits beyond GERM 202, including:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GERM 313</td>
<td>Grammar Review and Composition</td>
<td>3</td>
</tr>
<tr>
<td>GERM 314</td>
<td>Oral Proficiency</td>
<td>3</td>
</tr>
</tbody>
</table>

Students may earn their remaining credits from any GERM upper division courses.

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

- Engage in interpersonal communication on topics of a personal nature.
- Understand and interpret spoken language on familiar or everyday topics.
• Understand and interpret written language on familiar topics conveyed in non-complex and predictable pattern of presentation.
• Write simple messages and letters, requests for information and notes.
• Present information to an audience of listeners on topics of a personal nature.

Ojibwe Language, Certificate  
(Code 290-601)

The Ojibwe Language Certificate provides students with the opportunity to become part of the global movement to revitalize endangered Indigenous languages. Upon completion of this certificate students will be able to: converse in Ojibwe at an intermediate level, have the linguistic and cultural competency to function effectively and appropriately in an Ojibwe cultural setting, be able to conduct future Ojibwe language research, and learn oral presentations skills which can be applied to any language.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>LANG/AIS 121</td>
<td>Beginning Ojibwe I ¹</td>
<td>4</td>

<td>Beginning Ojibwe II ²</td>
<td>4</td>
</tr>
<tr>
<td>LANG/AIS 222</td>
<td>Intermediate Ojibwe I</td>
<td>4</td>
</tr>
</tbody>
</table>

Remaining credits may be selected from the following elective courses: 3-4 credits

- LANG 160 Ojibwe Culture and History
- LANG/AIS 222 Intermediate Ojibwe II

1 AIS 111 may be substituted for LANG 121/AIS 121 if the topic is focused on Ojibwe language.
2 AIS 112 may be substituted for LANG 122/AIS 122 if the topic is focused on Ojibwe language.

Note: For students pursuing the American Indian Studies Major and Ojibwe Language Certificate as their first and second degree programs to meet graduation requirements, at least 48 unique credits between the major and certificate is required.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

• Converse at an intermediate level in the Ojibwe language.
• Increase their own language fluency.
• Function effectively and appropriately in an Ojibwe cultural setting (have linguistic and cultural competency).
• Have the skills to conduct future Ojibwe language research.
• Have oral presentation skills which they can apply to giving presentations in any language.

Spanish for Health Professions, Minor

Liberal Arts (Code 320-408)

Information for all Spanish Majors and Minors

All Spanish majors and minors in any of the emphases offered must complete an appropriate period of language immersion in residence in a country in which the language is spoken, or participate in an alternative language immersion experience that must be approved by the Spanish section. The minimum time period for meeting the residence/immersion requirement is six weeks; however, the Spanish section recommends that students spend at least one semester abroad.

Students who pursue Spanish and Latin American and Latinx Studies liberal arts program combinations will need to earn at least 48 unique credits between any major-minor or major-certificate program combinations and 54 unique credits between any major-major program combinations for purposes of meeting graduation requirements for first and second degree programs.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Choose one course from the following: 1-3 credits

- SPAN 325 Phonetics and Pronunciation 3
- SPAN 405 Advanced Conversation 3
- SPAN 409 The Craft of Translation 3

Choose one 300-level Spanish elective course (1, 2, or 3 credits) or LAS 222 or LAS 324 (if not used for core requirements). ¹

1 SPAN 352/LAS 352 is highly recommended.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

• Engage in interpersonal communication on a variety of topics of a personal, public, and professional nature.
• Understand and interpret written and spoken language and visual images on a variety of topics of a personal, public, and professional nature.
• Present information, concepts, and ideas to an audience of listeners or readers on a variety of topics of a personal, public, and professional nature.
• Demonstrate an awareness and knowledge of practices, products and perspectives related to the target culture(s) in spoken, written, and visual forms.
• Connect and integrate their language study with other disciplines and communities for academic and social purposes.

Certificate 25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

Liberal Education Core

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

Liberal Education Core Requirements

Knowledge Goal

<table>
<thead>
<tr>
<th>Knowledge Outcome 1 (K1): Natural Sciences (<a href="http://catalog.uwec.edu/undergraduate/attribute-k1/">http://catalog.uwec.edu/undergraduate/attribute-k1/</a>)</th>
<th>Two (2) learning experiences</th>
</tr>
</thead>
<tbody>
<tr>
<td>Knowledge Outcome 2 (K2): Social Sciences (<a href="http://catalog.uwec.edu/undergraduate/attribute-k2/">http://catalog.uwec.edu/undergraduate/attribute-k2/</a>)</td>
<td>Two (2) learning experiences</td>
</tr>
</tbody>
</table>

One experience in laboratory science must be selected from either K1 or K2.
Knowledge Outcome 3 (K3): Humanities (http://catalog.uwec.edu/undergraduate/attribute-k3/)

Knowledge Outcome 4 (K4): Fine Arts (http://catalog.uwec.edu/undergraduate/attribute-k4/)

Skills Goal

Skills Outcome 1 (S1): Written and Oral Communication (http://catalog.uwec.edu/undergraduate/attribute-s1/)

Skills Outcome 2 (S2): Mathematics (http://catalog.uwec.edu/undergraduate/attribute-s2/)

Skills Outcome 3 (S3): Creativity (http://catalog.uwec.edu/undergraduate/attribute-s3/)

Responsibility Goal

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 320-201)

Information for all Spanish Majors and Minors

All Spanish majors and minors in any of the emphases offered must complete an appropriate period of language immersion in residence in a country in which the language is spoken, or participate in an alternative language immersion experience that must be approved by the Spanish section. The minimum time period for completing the residence/immersion requirement is six weeks; however, the Spanish section recommends that students spend at least one semester abroad.

Students who pursue Spanish and Latin American and Latinx Studies liberal arts program combinations will need to earn at least 48 unique credits between any major-minor or major-certificate program combinations and 54 unique credits between any major-major program combinations for purposes of meeting graduation requirements for first and second degree programs.

</table>

The flexibility to choose from a variety of courses after those required in the core provides interested students with the opportunity to focus on Spanish for the professions, or Spanish linguistics if they so desire.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Engage in interpersonal communication on a variety of topics of a personal, public, and professional nature.
- Understand and interpret written and spoken language and visual images on a variety of topics of a personal, public, and professional nature.
- Present information, concepts, and ideas to an audience of listeners or readers on a variety of topics of a personal, public, and professional nature.
- Demonstrate an awareness and knowledge of practices, products and perspectives related to the target culture(s) in spoken, written, and visual forms.
- Connect and integrate their language study with other disciplines and communities for academic and social purposes.
- Use critical and creative thinking to evaluate and address issues in local and global contexts.

Sample Degree Plan

Spanish, Major - Liberal Arts, B.A.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree
in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog.uwec.edu/undergraduate/graduation-requirements/) here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

Minimum total for the baccalaureate degree = 120 credits

- a Suggested LAS Elective: MATH 107 Mathematics in Latin American Cultures (offered in Spring).
- b LAS 222 is suggested as it fulfills K3, R1 and DD.
- c In addition, the student must take one course from the following list: ARTH 335/AIS 335, ARTH 337/AIS 337, AIS 161/ANTH 161, CSD 311, ECON 356/LAS 356, ENGL 321, ENGL 397, GEOG 321/LAS 321, HIST 309/LAS 309, HIST 311/LAS 311, LAS 150, LAS 222, LAS 314, MATH 107, NRSG 389, PHIL 322, POLS 319/LAS 319, RELS 330/AIS 330, or WGSS 422 (when offered as Women in Nicaragua).
- d Suggested Fine Arts electives: ARTH 335/AIS 335 or ARTH 337/AIS 337.
- e Study abroad experience can count for IL experience if student chooses to do so. Students must opt in prior to study abroad. LE designation cannot be applied retroactively.
- f Electives need to be carefully selected to ensure that a student’s degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in Spanish, electives can be selected from any discipline as long as the student meets the course prerequisites.

Note: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

**PROGRAM INFORMATION**

Students who pursue Spanish and Latin American Studies liberal arts program combinations will need to earn at least 48 unique credits between any major-
minor or major-certificate program combinations and S4 unique credits between any major-major program combinations for purposes of meeting graduation requirements for first and second degree programs.

The flexibility in the Spanish Major to choose from a variety of courses after those required in the core provides interested students with the opportunity to focus on Spanish for the professions, or Spanish linguistics if they so desire. All Spanish majors and minors in any of the emphases offered must complete an appropriate period of language immersion in residence in a country in which the language is spoken, or participate in an alternative language immersion experience that must be approved by the Spanish section. The minimum time period for meeting the residence/immersion requirement is six weeks; however, the Spanish section recommends that students spend at least one semester abroad.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire. For language-specific study abroad opportunities, see above and also faculty advisor, ARCC advisor, and the Center for International Education.

Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.

Additional LE Core Information

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).

- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.

Spanish, Minor - Liberal Arts

Liberal Arts (Code 320-401)

Information for all Spanish Majors and Minors

All Spanish majors and minors in any of the emphases offered must complete an appropriate period of language immersion in residence in a country in which the language is spoken, or participate in an alternative language immersion experience that must be approved by the Spanish section. The minimum time period for meeting the residence/immersion requirement is six weeks; however, the Spanish section recommends that students spend at least one semester abroad.

Students who pursue Spanish and Latin American and Latinx Studies liberal arts program combinations will need to earn at least 48 unique credits between any major-minor or major-certificate program combinations and 54 unique credits between any major-major program combinations for purposes of meeting graduation requirements for first and second degree programs.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Engage in interpersonal communication on a variety of topics of a personal, public, and professional nature.
- Understand and interpret written and spoken language and visual images on a variety of topics of a personal, public, and professional nature.
- Present information, concepts, and ideas to an audience of listeners or readers on a variety of topics of a personal, public, and professional nature.
- Demonstrate an awareness and knowledge of practices, products and perspectives related to the target culture(s) in spoken, written, and visual forms.
- Connect and integrate their language study with other disciplines and communities for academic and social purposes.

Latin American and Latinx Studies

Hibbard Humanities Hall 384
715-836-3212
Program Website (https://www.uwec.edu/academics/college-arts-sciences/departments-programs/latin-american-latinx-studies/)

The globally interdependent nature of today’s world makes second language proficiency and cross-cultural understanding valuable assets for students in any field. Students in the Latin American and Latinx Studies (LAS) Program can choose between two majors. The language emphasis major provides students the opportunity to develop a high proficiency in Spanish through the LAS core language courses and (typically) a six week minimum language immersion requirement in a Spanish speaking country of Latin America, though other possibilities exist which you can discuss with an LAS advisor. The culture and society emphasis major – which requires Spanish courses only through SPAN 202 and an immersion of only three weeks in a number of countries of the Americas, including some non-Spanish speaking ones – is geared towards students who are less interested in developing a high proficiency in Spanish or who already have that proficiency but still want to learn more about Latin America and its people, including Latinx/Hispanic people in the US.

Both majors allow students to gain in-depth knowledge and understanding of Latin American and the Latinx/Hispanic communities in the United States through an array of courses from multiple disciplines including geography, art history, religion, history, anthropology, public and environmental health, environmental studies, sociology, nursing, and women’s, gender, and sexuality studies.

The significant Latinx/Hispanic population in the United States and the increasing social, cultural, and economic interconnectedness between the countries and peoples of the hemisphere will increase the demand for professionals who can communicate in the Spanish language and are prepared to work with the Latinx/Hispanic communities in the US and the people of Latin America. To mention just a few options, the Latin American and Latinx Studies majors, minor, and certificate are well suited for students who plan to:

1. pursue careers which require residence in or knowledge of Latin America (e.g., in business, journalism, government, NGOs, and others);
2. teach Spanish in Early Childhood through Adolescence classrooms (combining a Spanish Teaching major with an LAS major); and/or
3. pursue graduate work in Latin American and/or Latinx studies, or other disciplines where a Latin American and/or Latinx specialization would be helpful (e.g., Latin American and Latinx/Hispanic literature, political science, economics, history, art history, to name just a few).

Note: Students who pursue Latin American and Latinx Studies and Spanish liberal arts program combinations will need to earn at least 48 unique credits between any major-minor or major-certificate program combinations and 54 unique credits between any major-major program combinations for purposes of meeting graduation requirements for first and second degree programs.

Application for Admission to Latin American and Latinx Studies Internships

Applying for Admission to the Internship: Visit the Latin American and Latinx Studies Program’s (https://www.uwec.edu/academics/college-arts-sciences/departments-programs/latin-american-latinx-studies/explore-opportunities/internships/) internships web page or talk to your advisor or the LAS Program Director to learn about the application requirements and procedures for internships. Students planning to enroll in LAS 488/LAS 688: Internship, or LAS 498/LAS 698: Internship with Language Immersion, in the summer or fall should apply by the priority deadline of February 1 of the year of internship for summer or fall enrollment. October 1 is the priority deadline for winterim or spring enrollment.

Latin American and Latinx Honors Program

The Latin American and Latinx Studies (LAS) Honors Program is intended for students pursuing either the LAS Language emphasis or the LAS Culture and Society major – including majors under various different names prior to the 2020-21 UW - Eau Claire catalog – who have demonstrated excellence in their coursework, and who want to experience the study of topics relevant to the major outside the classroom. The high impact practices required for honors in the LAS program align with such experiences.

The LAS Honors Program is not equivalent to the University Honors Program. They are two different programs and, because they are distinct, students should review the requirements of each with care.

Students who pursue the LAS Honors Program do not have to be part of the University Honors Program.

Students in the University Honors Program can also apply to be part of the LAS Honors Program.

Eligibility: LAS majors who have resident, overall, and major GPAs of 3.50 or higher. Completion of LAS 150 and LAS 222 is required before applying to the Honors program, whether doing the LAS Language emphasis major or the LAS Culture and Society emphasis major.

Application: An application must be submitted to the LAS program via an e-form. The e-form may be accessed by going to the main Latin American and Latinx Studies web page (https://www.uwec.edu/academics/college-arts-sciences/departments-programs/latin-american-latinx-studies/academic-offerings/latin-american-latinx-honors-program/), clicking on the “Explore Opportunities” tab in the column at the left of the page, and then selecting Honors Program from the drop down menu. The e-form will ask that you visit the Latin American and Latinx Studies Program’s (https://www.uwec.edu/academics/college-arts-sciences/departments-programs/latin-american-latinx-studies/explore-opportunities/internships/) internships web page or talk to your advisor or the LAS Program Director to learn about the application requirements and procedures for internships. Students planning to enroll in LAS 488/LAS 688: Internship, or LAS 498/LAS 698: Internship with Language Immersion, in the summer or fall should apply by the priority deadline of February 1 of the year of internship for summer or fall enrollment. October 1 is the priority deadline for winterim or spring enrollment.
identify an LAS faculty or affiliate faculty/IAS member to serve as a reference. The application must be submitted prior to the student’s last two semesters of study. That being said, students are encouraged to apply after completing LAS 150 and LAS 222, but no later than their final two semesters.

**Requirements:** At graduation, the student must have a resident, overall, and major GPAs of 3.50 or higher. In addition, the student must submit evidence that two of the options from the list below have been satisfactorily completed at a standard of excellence deserving of a recognition in LAS Honors.

With the exception of the OPI proficiency test, students may do two of any of the other given options to meet the LAS Honors Program requirements if their projects are distinct. For example, a student could conduct two separate faculty/student collaborative research projects with the same or different LAS faculty or affiliate faculty/IAS member(s) or, with approval from the LAS Program Director, with faculty from departments or programs outside of and not formally affiliated with the LAS program.

Students that select OPI proficiency as one of the options to fulfill one of their requirements must complete work in a different category for the second option.

Students pursuing Honors in both Spanish and LAS can do so, but must complete different projects for each one (completing four different projects overall).

1. A faculty/student collaborative research project with an LAS faculty or affiliate faculty/IAS member(s) or, with approval from the LAS Program Director, with faculty or affiliate faculty/IAS member(s) from departments or programs outside of and not formally affiliated with the LAS program. In special circumstances approved by the LAS Director, certain independent studies can be counted for this requirement.

2. Advanced Low or higher on an official ACTFL Oral Proficiency Interview. This applies to both LAS Language emphasis and LAS Culture and Society majors.

3. An off-campus presentation at a conference on a topic related to the major.

4. Completion of an LAS related internship approved by an LAS faculty or affiliate faculty/IAS member(s).

5. Submission of a publication-worthy manuscript to a journal related to the major.

6. Completion of application to the U.S. Fulbright program (or other similar prestigious grants or awards with approval from the LAS Director). Similar prestigious grants or awards would have to have some relation to the major, take place in a Latin American country, or have to deal with an issue related to Latinx populations in the US or elsewhere.

7. Certification as an interpreter by the State of Wisconsin. This applies to both LAS Language emphasis and LAS Culture and Society majors. This requirement can be extended to other bodies providing other kinds of certifications for other types of interpreting (medical, etc.).

8. Completion of the UW - Eau Claire Peace Corps Certificate requirements.

**Optional Concentrations**

Students interested in developing an expertise in a particular substantive area can choose to take courses in the following areas of expertise. Optional concentrations should consist of a minimum of 12 credits.

**First Nations**

**Certificates**

- Certificate: Latin American and Latinx Studies

---

**Latin American and Latinx Studies, Certificate**

**Liberal Arts (Code 341-601)**

For advising, contact the Latin American and Latinx Studies Program.

The **Latin American and Latinx Studies Certificate** is intended to provide students in any field of study with the opportunity to learn more about Latin America and its peoples without requiring either knowledge of the language nor immersion time in a Latin American country. The certificate can be particularly useful for students in fields which may bring them into contact with people of Latin American origin or descent living in the US, such as education, nursing, and social work, among others. The Certificate may also interest Spanish majors and minors who have studied in Spain and don't have the ability to do an immersion in a Latin American country, but would nonetheless benefit from learning more about Latin America and Latinx/Hispanic communities in the U.S., their history, and their culture, as well as heritage speakers of Spanish who might not be interested in formally pursuing the study of the Spanish language, but do want to learn more about Latin America and Latin American communities in the U.S.

1 or equivalent courses offered in the study abroad programs

Note 1: Courses cannot be counted in both the major and the certificate program for purposes of meeting graduation requirements for first and second degree programs.

Note 2: Students who pursue Latin American and Latinx Studies and Spanish liberal arts program combinations will need to earn at least 48 unique credits between any major-minor or major-certificate program combinations and 54 unique credits between any major-major program combinations for purposes of meeting graduation requirements for first and second degree programs.

Program Learning Outcomes
Students completing this program will be expected to meet the following learning outcomes:

• Describe the diverse cultures, modes of communication, environments, and/or systems of knowledge and values as they pertain to Latin America, the Caribbean, and/or Latinos/Hispanics in the United States.

• Explain global relationships of power, acknowledging multiple perspectives as they pertain to Latin America, the Caribbean, and/or Latinos/Hispanics in the United States.

• Articulate how individual and/or collective decisions have global implications and appraise the need for personal and/or collective responsibility in creating more just global practices.

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.
Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical
College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/pasp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

**USAFI Credit.** UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

**Activity Credit (band, chorus, drama, KINS 100-184 courses)** Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

**Other Restricted Credits.** For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

### Liberal Education Core

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

#### Liberal Education Core Requirements

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

SPAN 491 Special Topics (Latin American or Linguistics topics only)

Language Immersion Requirement 3

1 or equivalent courses offered in the study abroad programs
2 Students may earn a total of six credits from LAS 488 and LAS 498, but only three credits can count for the major.
3 Language Immersion Requirement: The Latin American and Latinx Studies, Culture and Society Emphasis, Major requires an immersion experience in a country of Latin America or participation in a faculty-led immersion experience focused on Latinx communities in the US. There are a variety of options for fulfilling the immersion requirement, including semester and summer programs abroad of a minimum three weeks’ duration, Faculty-Led International Immersion Experiences (FLIIEx) and Domestic Intercultural Immersions (DIIIs) of any duration that have been approved by the Latin American and Latinx Studies Program, National Student Exchange, internships, and volunteer work. No home stay during immersion is required for this major. Please consult with your advisor early on in your studies to choose the immersion experience that will work best for you. Because course offerings in study abroad programs vary, please consult with the Center for International Education and your Latin American and Latinx Studies advisor early on in your studies to choose the time, program, and courses that will work best if you plan to fulfill your immersion experience through study abroad. Courses taken during study abroad may satisfy some of the requirements for the major or Liberal Education (LE) experiences and reduce time to graduation.

Note: Students who pursue Latin American and Latinx Studies and Spanish liberal arts program combinations will need to earn at least 48 unique credits between any major-minor or major-certificate program combinations and 54 unique credits between any major-major program combinations for purposes of meeting graduation requirements for first and second degree programs. For other program combinations involving Latin American and Latinx Studies programs, students must earn a minimum of 48 unique credits for purposes of meeting graduation requirements for first and second degree programs.

Program Learning Outcomes
Students completing this program will be expected to meet the following learning outcomes:

• Describe the diverse cultures, modes of communication, environments, and/or systems of knowledge and values as they pertain to Latin America, the Caribbean, and/or Latinos/Hispanics in the United States.
• Explain global relationships of power, acknowledging multiple perspectives as they pertain to Latin America, the Caribbean, and/or Latinos/Hispanics in the United States.
• Articulate how individual and/or collective decisions have global implications and appraise the need for personal and/or collective responsibility in creating more just global practices.
• Communicate with proficiency in a non-English target language of Latin America, the Caribbean, or Latinos/Hispanics in the United States. 1

1 The desired benchmark for linguistic proficiency in the target language for the LAS Culture and Society Emphasis major is the Intermediate Mid level or above according to the ACTFL proficiency guidelines (https://www.actfl.org/resources/actfl-proficiency-guidelines-2012/). Presently the target language in Latin American and Latinx Studies is Spanish. With the consent of the LAS Steering Committee students may work to develop proficiency in other languages spoken in Latin America and the Caribbean.

Sample Degree Plan
Latin American and Latinx Studies, Culture and Society Emphasis, Major, B.A. 3

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending
on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog uwec.edu/undergraduate/graduation-requirements/) here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

(Plan assumes language placement into SPAN 201 level.)

**FIRST YEAR**

**FIRST SEMESTER**

SPAN 201  Intermediate Spanish I (LE-S1 through placement; LE-R2) 4

**SECOND SEMESTER**

SPAN 202  Intermediate Spanish II (LE-S1 through placement; LE-R2) 4

**SOME TIME IN THE FIRST YEAR**

LAS 150  Introduction to Latin American and Latinx Studies (LE-R2, LE-I1) 3

WRIT 114  Intensive Blugold Seminar in Critical Reading and Writing (LE-S1) 5

OR

WRIT 116  Blugold Seminar in Critical Reading and Writing (LE-S1) 3

LE Option as needed 3

LAS 222  Introduction to U.S. Latino History and Culture (LE-K3, LE-R1, DDIV) 3

LE Option: Skills 2 (LE-S2) Mathematics b, c 4

LE Option: Knowledge 2 (LE-K2) Social Sciences, w/lab d 4

**TOTAL FIRST YEAR**

30

**SOME TIME IN THE SECOND OR THIRD YEAR (SUGGESTED TIMING)**

Complete immersion experience. See major requirements and consult with LAS advisor.

**SOME TIME IN THE THIRD YEAR**

Second program or LAS Elective e 9

LE Option - select as needed 3

---

**SECOND YEAR**

LE Option: Integration (LE-I1) b, g 3

LE Option: Knowledge 2 (LE-K2) Social Sciences 3

LE Option: Skills 3 (LE-S3) Creativity 3

LE Option: Knowledge 4 (LE-K4) Fine Arts b, h 3

LE Option: Responsibility 1 (LE-R1, DDIV) Equity, Diversity, and Inclusivity with Design for Diversity b, i 3

LE Option: Responsibility 3 (LE-R3) Civic and Environmental Issues i 3

**TOTAL THIRD YEAR**

30

**FOURTH YEAR**

**FIRST SEMESTER**

LAS 450  Capstone for Latin American and Latinx Studies* 1-3

**SOME TIME IN THE FOURTH YEAR**

Second program or LAS Elective e 12

Second program or LAS Elective e 15

**TOTAL FOURTH YEAR**

28-30

**Minimum total for the baccalaureate degree = 120 credits**

*This course can be taken for variable credit (1-3 credits)

The "SECOND PROGRAM or LAS ELECTIVE" courses above are placeholders. Students with a standard major are required to have a second program (second major, a minor, or a certificate). Each major, minor or certificate has its own requirements beyond the number of credits, and it is the student’s responsibility to investigate those and to be sure to have fulfilled those requirements. The total number of credits in this plan sums up to 121-123. Please take care to keep track of your overall credit total. You need a total of 120 credits to graduate; remedial level courses such as MATH 10, and MATH 20 do not count towards the overall credit count. Electives need to be carefully selected to ensure that a student’s degree comprises at least 39 credits of upper division courses (300-400 level). Taking some courses during the summer or winterim will help you to spread out your course load, which may help you do better in classes while still graduating within four years.

a Students who pursue Latin American and Latinx Studies and Spanish liberal arts program combinations will need to earn at least 48 unique credits between any major-minor or major-certificate program combinations and 54 unique credits between any major-major program combinations being used for the purpose of meeting graduation requirements for first and second degree programs.

b A number of specific LE core elective courses are suggested throughout this plan because they are courses from the English language LAS electives (of which you have to take at least 12 credits for the LAS Culture and Society Emphasis Major) that also help you meet your LE learning outcomes; choosing these courses will help you graduate sooner. However, you are free to choose any other course to meet these LE learning outcomes.

c Suggested LAS elective for this LE outcome (S2): MATH 107 Mathematics in Latin American Cultures (S2).

d Suggested LAS elective for this LE outcome (K2L): ENV 101 Sustainability Basics and Beyond (K2, K2L; R3).

e The LAS Culture and Society Emphasis Major is a standard, 36 credit major which consists of 15-17 credits of required courses and at least 19 credits of elective courses, which can be fulfilled completely from a list of LAS Humanities and Social Sciences electives offered in English in other departments and programs but can include an optional maximum of 9 credits from a selected list of courses in Spanish. The courses mentioned in these notes to fulfill the LE requirements add up to more than the the required 19 elective credits. You should therefore prioritize this
placeholder elective space to take courses that satisfy the requirements of your second program (second major, minor, or certificate). Please consult the latest catalog for the most complete lists of courses from which to choose. While students are encouraged to take additional courses in LAS, electives beyond program requirements can be selected from any discipline as long as the student meets the course prerequisites.

The following courses have no prerequisites and fulfill both the K3 and R3 learning outcomes: LAS 324 Latinx Health and Migration to the U.S., CJ 207 Rhetoric and Society, PHIL 120 Ethical Reasoning, and WGS 310 Culture of Third Wave Feminism. PHIL 320 Environmental Ethics also fulfills both K3 and R3 but has some restrictions (see catalog for details). If a course is taken that meets only K3 or R3, the other learning outcome must be met through another course or experience. Inquire with the respective departments as to when each course is offered. Of the courses above, only LAS 324 and PHIL 320 count as LAS Humanities and Social Sciences electives.

g Suggested LAS electives for this LE outcome (I1): PH 225/NRS 225 Introduction to Public Health (I1; R1 + DD) or GEOG 178 Conservation of the Environment (I1; K1); the latter has a prerequisite.

h Suggested LAS electives for this LE outcome (K4): ARTH 335/AIS 335 Ancient Art and Architecture of Mexico and Central America (K4) or ARTH 337/AIS 337 Art of Tawantinsuyo (K4).

i Suggested LAS electives for this LE outcome (R1 + DD): ANTH 315 Language in Culture and Society, PH 225/NRS 225 Introduction to Public Health (I1; R1 + DD); ES 385 Social Foundations: Human Relations (R1 + DD); SOC 312 Race and Ethnicity in the US (R1 + DD) or SOC 314 Social Class and Inequality (R1 + DD); WGS 310 Introduction to Women’s, Gender, and Sexuality Studies, or WGS 315 Women of Color Feminisms. SOC 312, SOC 314 and WGS 315 all have prerequisites. NRS 389 also has an R1 + DD designation and counts as one of the English language LAS electives; it is typically offered online in Summer and Winterim. HNRS 132 and ENGL 268 carry R1 + DD and when focused on Latinx/Hispanic related topics can be petitioned to count as LAS Humanities and Social Sciences elective.

j Suggested LAS electives for this LE outcome (R3): ENV 101 Sustainability Basics and Beyond (K2, K2L, R3), ENV 140 Water Problems, Water Solutions (K2, R3), ENV 378/GEOG 178 International Environmental Problems and Policy (I1; R3), LAS 324 Latinx Health and Migration to the U.S. (K3; R3), or PHIL 320 Environmental Ethics (K3; R3). See footnote G above for courses that do not count as LAS Humanities and Social Sciences electives but which satisfy both the K3 and R3 learning outcomes. If a course is taken that meets only K3 or R3, the other learning outcome must be met through another course or experience. HNRS 187 carries R3 and when focused on Latin American related topics can be petitioned to count as an LAS Humanities and Social Sciences elective.

Note: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

**RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)**

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orhp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

**Liberal Education (LE) Core Guidance**

**Liberal Education Core (LE Core)**

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- K3 – Humanities; two experiences.
- K4 – Fine Arts; one experience.
- S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning; 30 hours

**Additional LE Core Information**

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).

- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.

**Language Immersion Requirement**

1 or equivalent courses offered in the study abroad programs

2 Students may earn a total of six credits from LAS 488 and LAS 498, but only three credits can count for the minor.

3 **Language Immersion Requirement:** The Latin American and Latinx Studies Minor requires an immersion experience in a country of Latin America or participation in a faculty-led immersion experience focused on Latinx communities in the US. There are a variety of options for fulfilling the immersion requirement, including semester and summer programs abroad of a minimum three weeks’ duration, Faculty-Led International Immersion Experiences (FLIEs) and Domestic Intercultural Immersions (DIs) of any duration that have been approved by the Latin American and Latinx Studies Program, National Student Exchange, internships, and volunteer work. No home stay during immersion is required for this minor. Please consult with your advisor early on in your studies to choose the immersion experience that will work best for you. Because course offerings in study abroad programs vary, please consult with the Center for International Education and your Latin American and Latinx Studies advisor early on in your studies to choose the time, program, and courses that will work best if you plan to fulfill your immersion experience through study abroad. Courses taken during study abroad may satisfy some of the requirements for the minor or Liberal Education (LE) experiences and reduce time to graduation.

Note: Students who pursue Latin American and Latinx Studies and Spanish liberal arts program combinations will need to earn at least 48 unique credits between any major-minor or major-certificate program combinations and 54 unique credits between any major-major program combinations for purposes of meeting graduation requirements for first and second degree programs. For other program combinations involving Latin American and Latinx Studies programs, students must earn a minimum of 48 unique credits for purposes of meeting graduation requirements for first and second degree programs.

## Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:
• Describe the diverse cultures, modes of communication, environments, and/or systems of knowledge and values as they pertain to Latin America, the Caribbean, and/or Latinos/Hispanics in the United States.
• Explain global relationships of power, acknowledging multiple perspectives as they pertain to Latin America, the Caribbean, and/or Latinos/Hispanics in the United States.
• Articulate how individual and/or collective decisions have global implications and appraise the need for personal and/or collective responsibility in creating more just global practices.
• Communicate with proficiency in a non-English target language of Latin America, the Caribbean, or Latinos/Hispanics in the United States.  

The desired benchmark for linguistic proficiency in the target language for the Latin American and Latinx Studies minor is the Intermediate Mid level or above according to the ACTFL proficiency guidelines (https://www.actfl.org/publications/guidelines-and-manuals/actfl-proficiency-guidelines-2012/english/). Presently the target language in Latin American and Latinx Studies is Spanish. With the consent of the LAS Steering Committee students may work to develop proficiency in other languages spoken in Latin America and the Caribbean.

Procedure for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS生机/EAU_S5_CUSTOM.EAU_TRNSCDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfilment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).
Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

1. Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114.
2. Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113.
3. Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

wgss 422 women’s, gender, and sexuality studies advanced travel seminar (when offered as women in nicaragua)

language immersion requirement

1 or equivalent courses offered in the study abroad programs

2 students may earn a total of six credits from las 488 and las 498, but only three credits can count for the major.

3 language immersion requirement: the las language emphasis major can be fulfilled through a minimum six-week immersion in a latin american country. students who have completed an immersion requirement for a spanish major or minor in spain can fulfill the immersion requirement for the latin american and latinx studies language emphasis, major with a three-week immersion in a latin american country. however, the latin american and latinx studies program recommends that students spend at least one semester in latin america. students facing extenuating circumstances may participate in an alternative domestic language immersion experience pre-approved and determined in conjunction with the las committee from the following options: national student exchange, internship, or volunteer work.

note: students who pursue latin american and latinx studies and spanish liberal arts program combinations will need to earn at least 48 unique credits between any major-minor or major-certificate program combinations and 54 unique credits between any major-major program combinations for purposes of meeting graduation requirements for first and second degree programs. for other program combinations involving latin american and latinx studies programs, students must earn a minimum of 48 unique credits for purposes of meeting graduation requirements for first and second degree programs.

program learning outcomes

students completing this program will be expected to meet the following learning outcomes:

- describe the diverse cultures, modes of communication, environments, and/or systems of knowledge and values as they pertain to latin america, the caribbean, and/or latinos/hispanics in the united states.
- explain global relationships of power, acknowledging multiple perspectives as they pertain to latin america, the caribbean, and/or latinos/hispanics in the united states.
- articulate how individual and/or collective decisions have global implications and appraise the need for personal and/or collective responsibility in creating more just global practices.
- communicate with proficiency in a non-english target language of latin america, the caribbean, or latinos/hispanics in the united states. 1

1 the desired benchmark for linguistic proficiency in the target language for the las language emphasis major is the intermediate high level or above according to the actfl proficiency guidelines (https://www.actfl.org/resources/actfl-proficiency-guidelines-2017/). presently the target language in latin american and latinx studies is spanish. with the consent of the las steering committee students may work to develop proficiency in other languages spoken in latin america and the caribbean.

sample degree plan

latin american and latinx studies, language emphasis, major, b.a. 2

the following is a sample degree plan, based on the 2023-2024 catalog. it is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. this sample degree plan is intended for first-year students entering uw-eau claire in the fall semester. your own degree plan may differ depending on the course of study selected (second major, minor, etc.). uw-eau claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. this sample degree plan is just a guide. please consult your advisor, your degree audit, and the catalog to create your own degree plan. note: in order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

to earn a degree, students must fulfill all university graduation requirements, including the liberal education (le) core. le core course work in the following sample degree plan uses abbreviations such as le-k1, le-s2, le-r3, and le-i1 to represent the learning outcomes students will meet via completion of their liberal education course work. please click (https://catalog.uwec.edu/undergraduate/graduation-requirements/) here for a description of the liberal education core outcomes and requirements. note that the le core may be completed through both course and non-course experiences.

students in this major have the option to pursue either a bachelor of arts (b.a.) or a bachelor of science (b.s.) degree. the degrees are distinguished by foreign language competency for the b.a. and a higher level of mathematics competency for the b.s.

(plant assumes language placement into span 202 level.)

SOME TIME IN THE FOURTH YEAR

Second program course or LAS Electives (5)  9

TOTAL FOURTH YEAR                      31-33

Minimum total for the baccalaureate degree = 120 credits

The “SECOND PROGRAM or LAS ELECTIVE” courses above are placeholders. Students with a standard major are required to have a second program (second major, a minor, or a certificate). Each major, minor or certificate has its own requirements beyond the number of credits, and it is the student’s responsibility to investigate those and to be sure to have fulfilled those requirements. The total number of credits in this plan sums up to 120-122.

Please take care to keep track of your overall credit total. You need a total of 120 credits to graduate; remedial level courses such as MATH 10, and MATH 20 do not count towards the overall credit count. Electives need to be carefully selected to ensure that a student’s degree comprises at least 39 credits of upper division courses (300-400 level). Taking some courses during the summer or winterim will help you to spread out your course load, which may help you do better in classes while still graduating within four years.

Students who pursue Latin American and Latinx Studies and Spanish liberal arts program combinations will need to earn at least 48 unique credits between any major-minor or major-certificate program combinations and 54 unique credits between any major-major program combinations being used for the purpose of meeting graduation requirements for first and second degree programs.

A number of specific LE core elective courses are suggested throughout this plan because they are courses from the English language LAS electives (of which you have to take at least 9 credits for the LAS Language Emphasis Major) that also help you meet your LE learning outcomes; choosing these courses will help you graduate sooner. However, you are free to choose any other course to meet these LE learning outcomes.

c Suggested LAS elective for this LE outcome (S2): MATH 107 Mathematics in Latin American Cultures (S2).
d Suggested LAS elective for this LE outcome (K2L): ENV 101 Sustainability Basics and Beyond (K2, K2L; R3).
e The POLS 319 Politics of Latin America course counts as one of the LAS Humanities and Social Sciences electives. It is, however, only one of many courses offered in the Spring semester program in Heredia which counts as an elective for LAS. Course offerings in study abroad programs vary; consult with the Center for International Education and your Latin American and Latinx Studies advisor to choose the courses that will work best for you.

Suggested LAS electives for this LE outcome (K2): PH 115 Global Environmental and Public Health (K2; R2) and ENV 140 Water Problems, Water Solutions (K2; R3).

The following courses have no prerequisites and fulfill both the K3 and R3 learning outcomes: LAS 324 Latinx Health and Migration to the U.S., CJ 207 Rhetoric and Society, PHIL 120 Ethical Reasoning, and W G S S 210 Culture of Third Wave Feminism. PHIL 320 Environmental Ethics also fulfills both K3 and R3 but has some restrictions (see catalog for details). If a course is taken that meets only K3 or R3, the other learning outcome must be met through another course or experience. Inquire with the respective departments as to when each course is offered. Of the courses above, only LAS 324 and PHIL 320 count as LAS Humanities and Social Sciences electives.

h Suggested LAS electives for this LE outcome (K1): PH 225/NRSG 225 Introduction to Public Health (K1; R1 + DD) or GEOG 178 Conservation of the Environment (K1; K1); the latter has a prerequisite.

i The LAS Language Major is a standard, 36 credit major which consists of 16-18 credits of required courses, a minimum of 9 credits from a selected list of courses in Spanish (or any other language suitable to Latin American and Latinx Studies in which proficiency is being sought), and a minimum of 9 credits from a list of LAS Humanities and Social Sciences electives offered in English in other departments and programs. If you do the Spring semester in Costa Rica after having taken SPAN 302 as this plan assumes, you will have to take SPAN 405 and 410 in Costa Rica and will need only one more course from the list of LAS Spanish electives to reach the 9 credit minimum. However, please keep in mind that programs change and that there are many ways to fulfill your immersion experience: please consult with an LAS advisor to find what works best in your case.

j The LAS Language Major is a standard, 36 credit major which consists of 16-18 credits of required courses, a minimum of 9 credits from a selected list of courses in Spanish, and a minimum of 9 credits from a list of LAS Humanities and Social Sciences electives offered in English in other departments and programs. By taking the courses mentioned in these notes to fulfill the LE requirements you’ve already taken more than the required number of elective credits needed from the LAS Humanities and Social Sciences electives; you should therefore prioritize this placeholder elective space to take courses that satisfy the requirements of your second program (second major, minor, or certificate). Once those requirements are satisfied, you are encouraged to take more courses in LAS or Spanish. In order to maintain your fluency in Spanish, it is wise to continue taking courses in that language when possible. Please consult the latest catalog for the most complete lists of courses from which to choose. While students are encouraged to take additional courses in LAS, Spanish, or other languages in which proficiency is being sought, electives beyond program requirements can be selected from any discipline as long as the student meets the course prerequisites.

k Suggested LAS electives for this LE outcome (K4): ARTH 335/AIS 335 Ancient Art and Architecture of Mexico and Central America (K4) or ARTH 337/AIS 337 Art of Tawantinsuyo (K4).

l Suggested LAS electives for this LE outcome (R1 + DD): ANTH 315 Language in Culture and Society, PH 225/NRSG 225 Introduction to Public Health (R1; R1 + DD); ES 385 Social Foundations: Human Relations (R1 + DD); SOC 312 Race and Ethnicity in the US (R1 + DD), SOC 314.
Social Class and Inequality (R1 + DD), WGSS 100 Introduction to Women’s, Gender and Sexuality Studies, or WGSS 315 Women of Color Feminisms. SOC 312, SOC 314 and WGSS 315 all have prerequisites. NRSG 389 also has an R1 + DD designation and counts as one of the English language LAS electives; it is offered online in Summer and Winterim. HNRS 132 and ENGL 268 carry R1 + DD and when focused on Latinx/Hispanic related topics can be petitioned to count as LAS Humanities and Social Sciences electives.

Suggested LAS electives for this LE outcome (R3): ENV 101 Sustainability Basics and Beyond (K2, K2L; R3), ENV 140 Water Problems, Water Solutions (K2, R3), ENV 378/GEOG 178 International Environmental Problems and Policy (I1; R3), LAS 324 Latinx Health and Migration to the U.S. (K3; R3), or PHIL 320 Environmental Ethics (K3;R3). See footnote G above for courses that do not count as LAS Humanities and Social Sciences electives but which satisfy both the K3 and R3 learning outcomes. If a course is taken that meets only K3 or R3, the other learning outcome must be met through another course or experience. HNRS 187 carries R3 and when focused on Latin American related topics can be petitioned to count as an LAS Humanities and Social Sciences electives.

Note: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Required: The Latin American and Latinx Studies, Language Emphasis major requires a minimum six week immersion experience in a Latin American country suited to the language in which the student seeks proficiency. There are a variety of options for fulfilling the immersion requirement, including semester and summer programs abroad, Faculty Led International Immersion Experiences that have been approved by the Latin American and Latinx Studies program which on their own or in combination with other experiences total six weeks of immersion, National Student Exchange, internships, and volunteer work. Please consult with your advisor early on in your studies to choose the immersion experience that will work best for you. Because course offerings in study abroad programs vary, please consult with the Center for International Education and your Latin American and Latinx Studies advisor early on in your studies to choose the time, program, and courses that will work best if you plan to fulfill your immersion experience through study abroad. Courses taken during study abroad may satisfy some of the requirements for the major or Liberal Education (LE) experiences and reduce the time to graduation.

Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)
The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

• K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).

• K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).

• K3 – Humanities; two experiences.

• K4 – Fine Arts; one experience.

• R1 – Equity, Diversity, and Inclusivity; two experiences.

• R2 – Global Perspectives; one experience.

• R3 – Civic and Environmental Issues; one experience.

• I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).

• SL—Service Learning; 30 hours

Additional LE Core Information

• Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).

• Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).

• S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.

• S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.

• S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.

• S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.

• S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.

• I1 – Any semester long study abroad program can fulfill one I1 experience.

Materials Science and Biomedical Engineering

Phillips 177
715-836-5504
Department Website (https://www.uwec.edu/academics/college-arts-sciences/departments-programs/materials-science-biomedical-engineering/)
The Materials Science & Biomedical Engineering Department offers comprehensive majors in Materials Science, Materials Science & Engineering,
and Biomedical Engineering. All three degree programs are designed to give students a strong foundation in fundamental sciences and mathematics.

The field of materials science and engineering is the study of “condensed matter” (that is, solids and liquids), and how an understanding of materials can be applied to fabricating devices and structures of utility. A relatively young discipline, materials science is an outgrowth of two traditional areas: the study of matter (and its structure-property relationship) that originated in chemistry and physics, and developments in various “materials” engineering fields (notably, microelectronics, metallurgy, ceramics, and plastics). More generally, materials scientists and materials engineers explore the interdependence of how a material is processed, its structure, and its properties, and how these impact material performance.

Biomedical engineering is also a relatively new area that explores the integration of engineering, technology and computation with the medical field. BME is a diverse discipline that covers specialties such as medical imaging, medical devices and instrumentation, cell and tissue engineering, 3D printing and biomaterials. The focus of this degree is designing and implementing new approaches that can help enhance disease diagnosis, improve disease management and lead to better treatments.

Department Honors in Materials Science & Biomedical Engineering

Eligibility – All students majoring in Materials Science, Materials Science and Engineering, or Biomedical Engineering are invited to apply. Students should have a resident GPA and an overall GPA of 3.50 or higher. Student should also have a GPA of 3.50 or higher in their Materials Science, MS&E, or BME major, and meet the Department’s “High Impact” experience requirements (described below).

Application Procedure and Requirements – Submit an application form (available in the Department office) after completing four semesters at UW-EC, but no later than the student’s graduation semester (e.g., during the Spring semester for a May graduate). A departmental faculty member familiar with the student’s work (i.e., the student’s faculty advisor, research advisor, etc.) must endorse the application. In addition to the GPA requirements listed above, the student submits evidence to the supporting faculty member that at least two High Impact experiences (of the seven) listed below have been completed; completing one of the seven experiences twice is not sufficient for Department Honors.

1. a summer research experience off campus as part of a federal program (NSF, NIST, DoD, DoE, etc.)
2. an appropriate internship related related to the student’s major
3. a Study Abroad experience or Domestic Intercultural Immersion experience
4. an appropriate “professional” presentation, which can be met by either:
   a. any presentation at an off-campus conference
   b. an oral presentation at CERCA, the Provost’s Honors Symposium, the WiSys Quick Pitch, or an accepted talk at the departmental seminar series
5. a faculty/student collaborative research project (that includes a poster presentation at CERCA)
6. a publication in a peer-reviewed journal
7. other immersive experience that is approved by the Materials Science & Biomedical Engineering faculty for departmental honors

Faculty

| Certificate   | 25 percent of credits |

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it. Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.
Applicability of Credits Toward Graduation

### Junior College or Two-Year College Credits
A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

### Extension Credits
Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

### WTCS Credits
A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

### USAFI Credit
UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

### Activity Credit (band, chorus, drama, KINS 100-184 courses)
Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

### Other Restricted Credits
For other University restrictions, see the following:
- Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

### Liberal Education Core
The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

College Degree Requirements
Bachelor of Science Degree (B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs which include Comprehensive Majors may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

We are currently not taking new students and do not have major or minor designations.

Courses
### Technical Elective Courses

- PHYS 231: University Physics I
- PHYS 232: University Physics II

### Engineering Elective Courses

- PHYS 240: Computational Physics
- PHYS 255: Statics
- PHYS 350: Electric and Electronic Circuits
- PHYS 360: Electronics

### Technical Elective Courses, Choose from:

- Any BME course 200 or above
- CHEM 213: Quantitative Analysis
- CHEM 326: Organic Chemistry II with Laboratory
- CHEM 352: Fundamentals of Biochemistry
- CS 145: Programming for New Programmers
- or CS 148: Programming for Experienced Programmers
- CS 163: Introduction to Programming in C++
- CS 170: Computing for the Sciences and Mathematics
- CS 245: Advanced Programming and Data Structures
- CS 252: Computer Systems
- CS 330: Programming Languages
- MATH 216: Calculus III
- MATH 313: Digital Signal Processing
- MATH 314: Discrete Mathematics
- MATH 315: Advanced Calculus I
- MATH 316: Introduction to Real Analysis
- MATH 317: Introduction to Real Analysis II
- MATH 318: Introduction to Complex Variables
- MATH 324: Linear Algebra
- MATH 351: Numerical Analysis I
- MATH 354: Introduction to Mathematical Modeling
- MATH 440: Digital Image Processing
- MATH 441: Linear Regression Analysis, with Time Series
- MATH 443: Experimental Design and Analysis
- MSCI 395: Directed Studies
- MSCI 399: Independent Study - Juniors
- MSCI 499: Independent Study - Seniors
- MSE 363: Microelectronic Materials Processing Lab
- MSE 493: Collaborative Internship
- MSE 494: Off-campus Materials Science Internship
- PHYS 240: Computational Physics
- PHYS 255: Statics
- PHYS 340: Optics
- PHYS 350: Electric and Electronic Circuits
- PHYS 356: Dynamics

### Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- Communicate effectively with a range of audiences.
- Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- Acquire and apply new knowledge as needed, using appropriate learning strategies.

### Sample Degree Plan

**Materials Science and Engineering, Comprehensive Major, B.S.**

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. **Note:** In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [here](https://catalog.uwec.edu/undergraduate/graduation-requirements/) for a description of the Liberal...
Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

**FIRST YEAR**

**FIRST SEMESTER**

- **CHEM 105**: General Chemistry I Lecture 3
- **CHEM 106**: General Chemistry I Laboratory (LE-K1) 2
- **WRIT 114**: Intensive Blugold Seminar in Critical Reading and Writing (LE-S1) 5

**OR**

- **WRIT 116**: Blugold Seminar in Critical Reading and Writing (LE-S1) 5
- **MATH 114**: Calculus I (LE-S2) 4
- **MSE 120**: Introduction to Engineering (LE-S3) 2

**TOTAL**: 16

**SECOND SEMESTER**

- **CHEM 109**: General Chemistry II with Lab 4
- **MSE 221**: Living in a Materials World 3
- **MATH 215**: Calculus II 4
- **PHYS 231**: University Physics I (LE-K1) 5

**TOTAL**: 16

**SECOND YEAR**

**FIRST SEMESTER**

- **PHYS 232**: University Physics II (LE-K1) 5
- **MSE 286**: Engineering Sophomore Seminar 1
- **MSE 315**: Materials Characterization (LE-S3) 4
- **LE Option: Skills 1 (LE-S1)**: Written and Oral Communication 3
- **SOC 101**: Introduction to Sociology (LE-K2, LE-R1) 3

**TOTAL**: 16

**SECOND SEMESTER**

- **CHEM 325**: Organic Chemistry I with Laboratory 4
- **MSE 307**: Engineering Statistics 4
- **MATH 312**: Differential Equations and Linear Algebra 4
- **MSE 256**: Introduction to Computer Aided Design 1
- **LE Option: Responsibility 2 (LE-R2)**: Global Perspectives 3

**TOTAL**: 16

**THIRD YEAR**

**FIRST SEMESTER - Apply for Admission to Major**

- **MSE 386**: Engineering Junior Seminar 1
- **MSE 350**: Thermodynamics of Materials 4
- **MSE 357**: Phase Transformation & Kinetics 3
- **MSE 334**: Soft Materials 4
- **PHIL 120**: Ethical Reasoning (LE-K3, LE-R3) 3

**TOTAL**: 15

**SECOND SEMESTER**

- **MSE 367**: Macroprocessing of Materials 3
- **MSE 368**: Macroprocessing Materials Lab 2
- **Engineering Elective d**: 3
- **MSE 372**: Transport Phenomena 3
- **LE Option: Knowledge 2 (LE-K2)**: Social Sciences 3
- **LE Option: Integration (LE-I1)** 3

**TOTAL**: 17

**FOURTH YEAR**

**FIRST SEMESTER**

- **MSE 362**: Microelectronic Materials Processing 2
- **MSE 486**: MS&E Capstone I 2
- **MSE 374**: Electrical, Optical and Magnetic Properties of Materials 4
- **Technical Elective d**: 3
- **LE Option: Responsibility 1 (LE-R1, DDIV)**: Equity, Diversity, and Inclusivity with Design for Diversity 3
- **LE Option: Knowledge 4 (LE-K4)**: Fine Arts 3

**TOTAL**: 17

**SECOND SEMESTER**

- **MSE 487**: MS&E Capstone II (LE-I1) 2
- **MSE 475**: Nanomaterials 3
- **MSE 451**: Computational Materials Science 3
- **Technical Elective d**: 3
- **LE Option: Knowledge 3 (LE-K3)**: Humanities 3
- **Elective**: 1-3

**TOTAL**: 15-17

Minimum total for the baccalaureate degree = 128 credits

a. Or other course that satisfies 2 Liberal Education outcomes.
b. Students must be admitted to the MS&E major to take these courses.
c. Engineering Elective – Courses used to satisfy the engineering elective may not also be used as a technical elective. 3 credits are required from the following courses: Any BME course 200 or above, PHYS 240, PHYS 255, PHYS 350, PHYS 360.
d. Technical Elective – 6 credits are required from the following courses: Any BME 200 or above, CHEM 213, CHEM 326, CHEM 352, CS 145, CS 163, CS 170, CS 245, CS 252, CS 330, MATH 216, MATH 313, MATH 314, MATH 315, MATH 316, MATH 317, MATH 318, MATH 324, MATH 351, MATH 354, MATH 440, MATH 441, MATH 443, MSCI 395, MSCI 399, MSCI 499, MSE 363, MSE 493, MSE 494, PHYS 240, PHYS 255, PHYS 340, PHYS 350, PHYS 356, PHYS 360, PHYS 361, PHYS 362. A maximum of three credits from MSCI 395, MSCI 399, MSCI 499, MSE 493, and MSE 494 toward the technical electives.

Note: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see Undergraduate Graduation Requirements).

**RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)**

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

Students are especially encouraged to explore immersion experiences including faculty/student collaborative research, off-campus summer research,
off-campus internship, Study Abroad, Domestic Intercultural Immersion, or other HIP experience.

**Liberal Education (LE) Core Guidance**

**Liberal Education Core (LE Core)**

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- **K1** – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K2** – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K3** – Humanities; two experiences.
- **K4** – Fine Arts; one experience.
- **S1** – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- **S2** – Mathematics; one experience (must satisfy the University math competency requirement).
- **S3** – Creativity; one experience (can be fulfilled in a student’s major).
- **R1** – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- **R2** – Global Perspectives; one experience.
- **R3** – Civic and Environmental Issues; one experience.
- **I1** – Integration; two experiences (one experience can be fulfilled in a student’s major).
- **SL** – Service Learning; 30 hours

**Additional LE Core Information**

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).

- **S1** – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- **S1** – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- **S1, R2** – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- **S2** – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- **S3** – Completion of two credits from any approved music ensemble fulfills the S3 experience.

College Degree Requirements
Bachelor of Science Degree (B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs which include Comprehensive Majors may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements
(Code 252-001)

The Bachelor’s of Science in Biomedical Engineering is a traditional engineering major that uses engineering principles and design concepts applied to medicine with a focus on health care. Biomedical Engineering consists of a diverse range of disciplines that are broadly focused on improving diagnosis, care and treatment of patients.

A minimum of 92 credits is required for the major and a minimum of 128 credits for the degree. In addition to core courses, students must complete 3 credits of engineering electives and 3 credits of technical electives.

</table>
Only 6 credits from the CHEM 105, CHEM 106 and CHEM 109 sequence can count toward the major.

Cannot count a course in both engineering electives and technical electives categories.

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

- Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- Communicate effectively with a range of audiences.
- Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- Acquire and apply new knowledge as needed, using appropriate learning strategies.

**Sample Degree Plan**

**Biomedical Engineering, Comprehensive Major, B.S.**

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [https://catalog.uwec.edu/undergraduate/graduation-requirements/] for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Minimum total for the baccalaureate degree = 128 credits

- a. Enrolling in this course initiates the Engineering Tuition.
- b. Or other course that satisfies 2 Liberal Education outcomes.
- c. Technical Elective – 6 credits are required from the following courses: BIOL 250, BME 291, BME 395, BME 399, BME 493, BME 494, BME 499, CHEM 213, CHEM 326, CHEM 352, CS 145 or CS 148, CS 163, CS 170, CS 245, CS 252, CS 330, MATH 216, MATH 313, MATH 314, MATH 315, MATH 316, MATH 317, MATH 318, MATH 324, MATH 351, MATH 354, MATH 440, MATH 441, MATH 443, MSE 363, MSE 493, MSE 494, PHYS 240, PHYS 255, PHYS 340, PHYS 350, PHYS 356, PHYS 360, PHYS 361, PHYS 362.
- d. A maximum of three credits from BME 395, BME 399, BME 499, BME 493, and BME 494 toward the technical electives.

Note: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPS)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

Students are especially encouraged to explore immersion experiences including faculty/student collaborative research, off-campus summer research, off-campus internship, Study Abroad, Domestic Intercultural Immersion, or other HIP experience.

Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- K1 – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
• K2 – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
• K3 – Humanities; two experiences.
• K4 – Fine Arts; one experience.
• S1 – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
• S2 – Mathematics; one experience (must satisfy the University math competency requirement).
• S3 – Creativity; one experience (can be fulfilled in a student’s major).
• R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
• R2 – Global Perspectives; one experience.
• R3 – Civic and Environmental Issues; one experience.
• I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
• SL—Service Learning; 30 hours

Additional LE Core Information

• Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
• Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).

• S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
• S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
• S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one S1 experience.
• S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
• S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
• I1 – Any semester long study abroad program can fulfill one I1 experience.

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).
Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

**Liberal Education Core**

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

**College Degree Requirements**

**Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)**

**University Graduation Requirements.** All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

**College Graduation Requirements: Grade Point Averages.** All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.
Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 250-010)

The structure of the major is unique: it integrates an engineering-oriented field into a liberal arts and sciences degree, and is thus deliberately interdisciplinary and broadly defined, consistent with a liberal education approach. Students specialize through a chosen emphasis. The major serves students who plan to enter the workforce after graduation as well as students interested in graduate education in areas such as Materials Science, Engineering, Chemistry, and Physics.

The major is comprised of a minimum of 63 credits, including completion of core courses, at least six credits from courses in the Materials Science electives, and at least six credits in a chosen emphasis. Credits applied toward the electives and emphasis must be unique credits.

1 Only six credits apply to major.

NOTES:

1. A maximum of three credits total from MSCI 395, MSCI 399, and MSCI 499 and MSE 493 and MSE 494 may be applied toward the Electives category.
2. MATH 312 is recommended for students planning to attend graduate school.
Six credits in an Emphasis required. All six emphasis credits must meet the requirements described in either A or B below.

A. Defined emphasis

- Be from the same prefix
- Be from the following prefixes: BIOL, BME, CHEM, CS, GEOL, MATH, MGMT, PHYS
- Be from UWEC courses numbered 300 or above, or from courses appropriate for a major, such as: BIOL 221, BIOL 222, BIOL 223, BME courses 200 level and above, CHEM 213, CHEM 218, CS 145, CS 148, CS 163, CS 170, CS 245, CS 252, GEOL 106, GEOL 110, GEOL 115, GEOL 118, and MATH 216

B. Distributed emphasis

The student may pursue an emphasis that reflects a thematic area of concentration and intentional connections. Such an emphasis, with approval of the faculty advisor, must draw from courses appropriate for a major in another area distinct from Materials Science or Materials Science and Engineering.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- Communicate effectively with a range of audiences.
- Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- Acquire and apply new knowledge as needed, using appropriate learning strategies.

Sample Degree Plan

Materials Science, Comprehensive Major, B.S.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog.uwec.edu/undergraduate/graduation-requirements/) here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

The student may pursue an emphasis that reflects a thematic area of concentration and intentional connections. Such an emphasis, with approval of the faculty advisor, must draw from courses appropriate for a major in another area distinct from Materials Science and Engineering or its cognate subjects.

Note: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see Undergraduate Graduation Requirements).

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

Students are especially encouraged to explore immersion experiences including faculty/student collaborative research, off-campus summer research, off-campus internship, Study Abroad, Domestic Intercultural Immersion, or other HIP experience.

### Liberal Education (LE) Core Guidance

**Liberal Education Core (LE Core)**

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- **K1** – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K2** – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K3** – Humanities; two experiences.
- **K4** – Fine Arts; one experience.
- **S1** – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- **S2** – Mathematics; one experience (must satisfy the University math competency requirement).
- **S3** – Creativity; one experience (can be fulfilled in a student’s major).
- **R1** – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- **R2** – Global Perspectives; one experience.
- **R3** – Civic and Environmental Issues; one experience.

<td>5-7</td>
</tr>
<tr>
<td>TOTAL</td>
<td>12-16</td>
</tr>
</tbody>
</table>

**Minimum total for the baccalaureate degree = 120 credits**

- **a** General Electives – should be chosen to ensure that 120 credits total and at least 39 credits of upper division courses (300 & 400 level) are included; the major includes at least 27 such credits (counting the Mat. Sci. Elective). Electives can be selected from any discipline as long as the student meets the course prerequisites; courses outside of science and engineering are especially recommended. Study Abroad and Domestic Intercultural Immersion also meet some Electives; please consult an advisor.

- **b** Mat. Sci Elective – 6 credits are required from courses with MSCI or MSE prefix (beyond those required for the core). Choose from MSE 256, MSE 362, MSE 363, MSE 367, MSE 368, MSE 372, MSE 374, MSE 451, MSE 475, MSE 493, MSE 494 or MSCI 395, MSCI 399, or MSCI 499. Up to 3 credits total from independent study, research, or internship (MSE 493, MSE 494 or MSCI 395, MSCI 399, or MSCI 499) may be applied towards the requirement.

- **c** Mat Sci Emphasis – For either emphasis, 6 credits total are required. The emphasis may be met in one of two ways:

  A. Defined emphasis

  - Be from the same prefix

  - Be from the following prefixes: BIOL, BME, CHEM, CS, GEOL, MATH, MGMT, PHYS

  - Be from UWEC courses numbered 300 or above, or from courses appropriate for a major, such as: BIOL 221, BIOL 222, BIOL 223; BME courses 200 level and above; CHEM 213, CHEM 218; CS 145, CS 148, CS 163, CS 170, CS 245, CS 252; GEOL 106, GEOL 110, GEOL 115, GEOL 118; and MATH 216

  - Be approved by the faculty advisor

  B. Distributed emphasis

Liberal Education Core (LE Core) Guidance

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- **K1** – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K2** – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K3** – Humanities; two experiences.
- **K4** – Fine Arts; one experience.
- **S1** – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- **S2** – Mathematics; one experience (must satisfy the University math competency requirement).
- **S3** – Creativity; one experience (can be fulfilled in a student’s major).
- **R1** – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- **R2** – Global Perspectives; one experience.
- **R3** – Civic and Environmental Issues; one experience.
• I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
• SL—Service Learning; 30 hours

Additional LE Core Information

• Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
• Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).

S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.

S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.

S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.

S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.

S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.

I1 – Any semester long study abroad program can fulfill one I1 experience.

Materials Science, Certificate
(Code 250-601)

The Certificate in Materials Science is designed to give students and professionals core technical knowledge and lab skills in materials science to enhance another degree.

<table>

</table>

Note: Students pursuing the Materials Science certificate and any of the Physics liberal arts standard major emphases to meet graduation requirements for completing a first and second degree program must earn a minimum of 48 unique credits between the certificate and the major.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcome:

• Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.

Mathematics

Hibbard Humanities Hall 508
715-836-3301
Department Website (https://www.uwec.edu/academics/college-arts-sciences/departments-programs/mathematics/)

Mathematics has formed an important part of our intellectual heritage for centuries. In addition to having its own aesthetic value, it pervades a growing number of human endeavors. Mathematics is applied in fields as diverse as business, engineering, the physical and life sciences, the social sciences, computer science, and the fine arts. Society therefore expects of its members ever increasing mathematical knowledge and skill.

The mathematics curriculum is designed to address these needs. It provides a core of fundamental mathematics as well as a variety of electives for individuals with specific interests. Students may select programs to prepare for careers in applied mathematics, science, actuarial science, research, mathematics education, or for graduate study. Regardless of emphasis, the programs prepare students for their immediate career objectives and provide a background that will enable them to cope with changing career needs and goals.

Information for All Students

1. All entering freshmen and transfer students must take the mathematics placement test.
2. A student may not register for credit in a course which is a prerequisite for any other course in which the student has credit.
3. It is strongly recommended that a grade of C or above is achieved in any mathematics course that is to be used as a prerequisite to another course.

Department Honors in Mathematics

The Honors Program in mathematics is intended for mathematics majors—including actuarial science, mathematics education, and liberal arts majors—who have demonstrated excellence in their coursework, and who want to experience the mathematical community outside the classroom. The high impact practices required for department honors in mathematics align with such experiences.

• Eligibility: Mathematics majors who have a resident and total GPA of 3.50 or higher, and have completed at least 12 hours of mathematics courses with a GPA of 3.50 or higher.
• Application: An application (which is available in the mathematics department office) must be submitted to the department chair with a letter of support from a mathematics faculty member. The department recommends submitting the application during the junior year.
• Requirements: Graduate with a 3.50 GPA or higher in the major, and submit evidence to the department chair that two of the following have been satisfactorily completed:

1. A faculty/student collaborative mathematics research project
2. Score of 176 or above on the ETS Mathematics Content Knowledge assessment (Praxis II)
3. An off-campus mathematics presentation at a conference
4. Participation in a state, regional or national competition in Actuarial Science
5. Passing grade on two professional exams given by the Society of Actuaries or Casualty Actuarial Society
6. A mathematics related internship
7. Acceptance of a mathematics publication in a peer-reviewed journal.

Certificate 25 percent of credits

Procedures Required for Graduation
Obtain admission to the degree program and/or the College offering it.
Apply for graduation on CampS

1 Certain programs exceed this minimum.
2 See special requirements in each College.

Applicability of Credits Toward Graduation
Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).
Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

**Liberal Education Core**
The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

**Liberal Education Core Requirements**

<table>

**College Degree Requirements**

**Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)**

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.
Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 182-001)

This major prepares students for actuarial careers. Actuaries are business professionals who use mathematical models to evaluate the current financial impact of future contingent events. Actuaries work in a variety of settings including insurance companies, public accounting firms, government agencies, banks, and consulting firms.

Entry Requirements: To be admitted to this major students must:

1. Complete at least 15 credits of courses required for the major with a GPA in those courses of at least 3.0.

2. Complete MATH 346 and MATH 350 with a grade of B- or better, or earn a passing grade on the corresponding actuarial professional exam(s)

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Apply a broad range of perspectives, including numerical, graphical, algebraic, analytical and verbal, to effectively connect and communicate mathematical ideas.
- Use mathematics to model and solve appropriate problems.
- Write mathematical proofs.
- Work independently and collaboratively on mathematical problems.
- Apply probability methods to describe random behavior.
- Use interest theory techniques to value deterministic cash flows.
- Apply both probability and theory of interest concepts to model and solve actuarial problems involving contingent cash flows.

Sample Degree Plan

Actuarial Science, Comprehensive Major, B.S.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering
UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog.uwec.edu/undergraduate/graduation-requirements/) here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

| TOTAL FOURTH YEAR | 29 |

Minimum total for the baccalaureate degree = 120 credits

- **a** Spring Only
- **b** It is highly recommended that you use electives to complete a certificate or minor. Recommended certificates are Information Systems (IS), Advanced Business Communication, or Computer Programmer.

Advanced Business Communication Certificate requires 12 credits from BCOM, to be selected from the following: BCOM 206, BCOM 207, BCOM 306, BCOM 307, BCOM 309, BCOM 310, BCOM 401, BCOM 405, BCOM 490, BCOM 491, BCOM 495, BCOM 499.

c One of BCOM 206, Business Writing or BCOM 207, Business Presentations is required. It is highly recommended that you take both.
d It is highly recommended that you take both BCOM 206, Business Writing, and BCOM 207, Business Presentations.
e Fall Only
f One of MATH 441, Regression and Time Series Analysis, or ECON 316, Econometrics, is required.
g One of MATH 312, Differential Equations and Linear Algebra, or MATH 324, Linear Algebra, is required.

Application to Major
Entry Requirements: To be admitted to this program students must:

1. Complete at least 15 credits of courses required for the major with a GPA in those courses of at least 3.0.
2. Complete MATH 346 and MATH 350 with a grade of B- or better, or earn a passing grade on the corresponding actuarial professional exam(s).

Note: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see University Graduation Requirements).

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://www.uwec.edu/studyabroad/apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

It is recommended that students participate in one or more summer internships. Participating in the Career Conference in fall semester starting in the first year is highly recommended. Study Abroad is also an available opportunity but should be completed very early in your college career.

Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)
The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- S2 – Mathematics; one experience (must satisfy the University math competency requirement).
- S3 – Creativity; one experience (can be fulfilled in a student’s major).
- R1 – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- R2 – Global Perspectives; one experience.
- R3 – Civic and Environmental Issues; one experience.
- I1 – Integration; two experiences (one experience can be fulfilled in a student’s major).
- SL—Service Learning; 30 hours

Additional LE Core Information

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 202 level satisfies one S1 experience.
- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.

Mathematical Problem Solving, Minor-Liberal Arts

Liberal Arts (Code 180-409)
A minimum of 24 credits from mathematics courses must be earned as described below.

<table>
<thead>
<tr>
<th>Code</th>

<td>Number and Operations I</td>
<td></td>
</tr>
</tbody>
</table>
MATH 202  Number and Operations II
MATH 246  Elementary Statistics
MATH 297  Developmental Tutoring Techniques
At most two credits count for minor
MATH 302  Algebraic Thinking
MATH 303  Probability and Statistical Thinking
MATH 304  Geometric Thinking
MATH 307  Mathematics and Music
MATH 330  Modern Geometry
MATH 341  Classical Number Theory
MATH 441  Linear Regression Analysis, with Time Series
MATH 451  Teaching Mathematics with Technology
MATH 462  History of Mathematics

Or other mathematics courses numbered above 305

Note: Students cannot pursue a major in Mathematics and this minor to meet graduation requirements for completing a first and second degree program.

Program Learning Outcome
Students completing this program will be expected to meet the following learning outcomes:

- Make sense of problems and persevere in solving them.
- Construct viable arguments and critique the reasoning of others utilizing precise language and multiple representations.
- Use appropriate tools strategically.
- Look for and make use of structure.

Mathematics, Actuarial Science, Minor
(Code 180-406)

This minor is intended to provide students with actuarial skills useful in business areas such as insurance and financial services. The coursework will prepare the student for at least two actuarial professional examinations.

<table>
<thead>

Procedures Required for Graduation
Obtain admission to the degree program and/or the College offering it.
Apply for graduation on CampS.

Applicability of Credits Toward Graduation
Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical
College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

### Liberal Education Core

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

#### LIBERAL EDUCATION CORE REQUIREMENTS a minimum of 36 credits

**Service-Learning Goal**

- Service-Learning Goal (http://catalog.uwec.edu/undergraduate/attribute-slv/)
Major Requirements

Liberal Arts (Code 180-201)

The liberal arts emphasis is the traditional mathematics major, providing preparation for graduate school as well as a broad range of careers in business, government, and industry. Because of the variety of courses available, students are strongly encouraged to consult a mathematics advisor early and frequently while pursuing this emphasis.

A minimum of 36 credits from mathematics courses must be earned as described below.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 114</td>
<td>Calculus I</td>
<td>4</td>
</tr>
<tr>
<td>MATH 215</td>
<td>Calculus II</td>
<td>4</td>
</tr>
<tr>
<td>MATH 216</td>
<td>Calculus III</td>
<td>4</td>
</tr>
<tr>
<td>MATH 316</td>
<td>Introduction to Real Analysis</td>
<td>3</td>
</tr>
<tr>
<td>MATH 324</td>
<td>Linear Algebra</td>
<td>4</td>
</tr>
<tr>
<td>MATH 425</td>
<td>Abstract Algebra I</td>
<td>3</td>
</tr>
<tr>
<td>MATH 317</td>
<td>Introduction to Real Analysis II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 426</td>
<td>Abstract Algebra II</td>
<td>3</td>
</tr>
</tbody>
</table>

Additional mathematics courses numbered above MATH 305 11

Three credits required, not counted toward credits in major, from the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHIL 250</td>
<td>Symbolic Logic</td>
<td></td>

<tr>
<td>CS 163</td>
<td>Introduction to Programming in C++</td>
<td></td>
</tr>
<tr>
<td>DS 150</td>
<td>Computing in Python: Fundamentals and Procedural Programming</td>
<td></td>
</tr>
</tbody>
</table>

Another computer science course approved by the Mathematics Department

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Apply a broad range of perspectives, including numerical, graphical, algebraic, analytical and verbal, to effectively connect and communicate mathematical ideas.
- Use mathematics to model and solve appropriate problems.
- Write mathematical proofs.
- Work independently and collaboratively on mathematical problems.
- Read and synthesize mathematical literature.
- Combine multiple techniques of proof to establish the truth of a mathematical statement.

Sample Degree Plan

Mathematics, Liberal Arts Emphasis, Major, B.S.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering
UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog.uwec.edu/undergraduate/graduation-requirements/) here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

**TOTAL FOURTH YEAR**

30

Minimum total for the baccalaureate degree = 120 credits
One of the two experiences required for Integrative Learning (I1) may be fulfilled with a math course with the I1 designation such as MATH 307 or MATH 462.

** The Creativity (S3) experience can be fulfilled with a math course with the S3 designation such as MATH 307 or MATH 380.

*** In this 4-year plan, the experiences for (K2), (K3), and (K4) are listed together. The appropriate number of experiences from each learning outcome will be required.

+ We recommend satisfying the lab requirement in the K1 category.

a Additional Math credits from courses numbered above 305; these courses are 3 or 4 credits.

b Students must complete at least three credits to be selected from PHIL 250, CS 145, CS 163, DS 150, or another computer science course approved by the Math Department.

c Liberal Arts Emphasis: at least one of MATH 317 or MATH 426. MATH 317 is offered fall only while MATH 426 is offered spring only. The other semester one may take any math elective.

Note: All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see Undergraduate Graduation Requirements).

**RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPS)**

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPS might be most beneficial to students, and any recommendations about when those HIPS best fit into the degree plan. Students should also consult their faculty advisor for information on HIPS. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPS like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Student/faculty research – encouraged. Talk to your advisor or any faculty member about getting involved.

Study Abroad – Upper level math courses can be taken at University of Glasgow and University of Aberdeen. MATH 312 and MATH 324 can be taken during the summer at University of Glasgow. Immersion programs offer at least R2. LE requirements can be fulfilled in numerous programs.

Liberal Education (LE) Core Guidance

Liberal Education Core (LE Core)

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- **K1** – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K2** – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K3** – Humanities; two experiences.
- **K4** – Fine Arts; one experience.
- **S1** – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- **S2** – Mathematics; one experience (must satisfy the University math competency requirement).
- **S3** – Creativity; one experience (can be fulfilled in a student’s major).
- **R1** – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- **R2** – Global Perspectives; one experience.
- **R3** – Civic and Environmental Issues; one experience.
- **I1** – Integration; two experiences (one experience can be fulfilled in a student’s major).
- **SL**—Service Learning: 30 hours

Additional LE Core Information

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).

- **S1** – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- **S1** – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- **S1, R2** – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- **S2** – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- **S3** – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- **I1** – Any semester long study abroad program can fulfill one I1 experience.

Mathematics, Minor - Liberal Arts

| Certificate                   | 25 percent of credits |

Procedures Required for Graduation

- Obtain admission to the degree program and/or the College offering it.
- Apply for graduation on CampS.

1. Certain programs exceed this minimum.
2. See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits.

A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits.

Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits.

A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit.

UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).
Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and
total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

**Major-Minor and Major-Certificate Requirements.** A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

**College Credits.** Earn at least 90 credits in courses offered by the College of Arts and Sciences.

### Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

### Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

### Major Requirements

The research emphasis prepares students in mathematics both deeply and broadly, and is especially well-suited for students who plan to attend graduate school in math, applied math, or a related field. Students in this major participate in at least two math research experiences for credit. Because of the variety of research topics available, students are strongly encouraged to consult a mathematics advisor early and frequently while pursuing this emphasis.

**Liberal Arts (Code 180-003)**

<table>

**Program Learning Outcomes**

Students completing this program will be expected to meet the following learning outcomes:

- Apply a broad range of perspectives, including numerical, graphical, algebraic, analytical and verbal, to effectively connect and communicate mathematical ideas.
- Use mathematics to model and solve appropriate problems.
- Write mathematical proofs.
• Work independently and collaboratively on mathematical problems.
• Communicate mathematical concepts effectively with speech and writing skills.
• Identify and formulate open research problems and implement proper proof techniques to answer open problems.

Sample Degree Plan
Mathematics, Research Emphasis, Comprehensive Major, B.S.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click (https://catalog.uwec.edu/undergraduate/graduation-requirements/) here for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

**Liberal Education (LE) Core Guidance**

**Liberal Education Core (LE Core)**

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- **K1** – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K2** – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K3** – Humanities; two experiences.
- **K4** – Fine Arts; one experience.
- **S1** – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- **S2** – Mathematics; one experience (must satisfy the University math competency requirement).
- **S3** – Creativity; one experience (can be fulfilled in a student’s major).
- **R1** – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- **R2** – Global Perspectives; one experience.
- **R3** – Civic and Environmental Issues; one experience.
- **I1** – Integration; two experiences (one experience can be fulfilled in a student’s major).
- **SL** — Service Learning; 30 hours

**Additional LE Core Information**

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- **S1** – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- **S1** – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- **S1**, **R2** – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- **S2** – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- **S3** – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- **I1** – Any semester long study abroad program can fulfill one I1 experience.

**RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)**

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Student/Faculty Research - Students in the Research Emphasis are required to participate in student/faculty research. We recommended this during the semesters the student takes MATH 480: Research Seminar. During MATH 324, students will be introduced to the research interests of the faculty and are encouraged to contact the faculty member they are interested in working with. Recruitment for research projects also occurs during the year by email and announcements.

Study Abroad - Upper level math courses can be taken at the University of Glasgow and the University of Aberdeen. MATH 312 and MATH 324 can be taken during the summer at the University of Glasgow. Immersion programs offer at least R2 and LE requirements can be fulfilled in numerous programs.

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on Campus.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

Liberal Education Core

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the five learning goals of our liberal education core and the 12 learning outcomes they comprise.

### College Degree Requirements

#### Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

**University Graduation Requirements.** All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

**College Graduation Requirements: Grade Point Averages.** All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

**Major-Minor and Major-Certificate Requirements.** A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

**College Credits.** Earn at least 90 credits in courses offered by the College of Arts and Sciences.

#### Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

#### Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.
Major Requirements

Liberal Arts (Code 180-209)

The statistics and applied mathematics emphasis is appropriate for students interested in either scientific or engineering applications of mathematics, careers in business, industry or statistics, data science, or graduate work in areas such as engineering, operations research, optimization, or statistics. Because of the variety of courses available, students are encouraged to consult a mathematics advisor early and frequently while pursuing this emphasis.

For those students focusing on applied mathematics, MATH 312 is strongly recommended. For those students focusing on statistics, MATH 347 is strongly recommended.

A minimum of 36 credits from mathematics courses must be earned as described below.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Apply a broad range of perspectives, including numerical, graphical, algebraic, analytical and verbal, to effectively connect and communicate mathematical ideas.
- Use mathematics to model and solve appropriate problems.
- Write mathematical proofs.
- Work independently and collaboratively on mathematical problems.
- Use mathematics to solve problems for the natural, social, or actuarial sciences.
- Select appropriate methods and apply them using technology to solve problems.

Sample Degree Plan

Mathematics, Statistics and Applied Mathematics Emphasis, Major, B.S.

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [here](https://catalog.uwec.edu/undergraduate/graduation-requirements/) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by foreign language competency for the B.A. and a higher level of mathematics competency for the B.S.

### Total First Year
- **31 credits**

### Second Year

#### First Semester
- MATH 316: Calculus III (prereq for MATH 316)
- MATH 324: Linear Algebra (prereq for MATH 316, 425)

#### Second Semester
- MATH 312: Differential Equations and Linear Algebra a
- MATH 346: Introduction to Probability a

### Total Second Year
- **29 credits**

### Third Year

#### First Semester
- MATH 316: Introduction to Real Analysis
- MATH 347: Mathematical Statistics
  - Applied/Stats elective c

#### Second Semester
- MATH 425: Abstract Algebra I
- MATH Applied/Stats Elective c

### Some Time in the Third Year
- CS 145, CS 163, DS 150, PHIL 250 e
- MATH 346
- MATH 312

### Total Third Year
- **30 credits**

### Fourth Year

#### First Semester
- MATH 425: Abstract Algebra I
- MATH 346
- MATH 312

#### Second Semester
- MATH elective d
- MATH Applied/Stats Elective c

### Total Fourth Year
- **31 credits**

---

**Minimum total for the baccalaureate degree = 120 credits**

* One of the two experiences required for Integrative Learning (I3) may be fulfilled with a math course with the I3 designation such as MATH 307 or MATH 462.

** The Creativity (S3) experience can be fulfilled with a math course with the S3 designation such as MATH 307 or MATH 380.

*** In this 4-year plan, the experiences for (K2), (K3), and (K4) are listed together. The appropriate number of experiences from each learning outcome will be required. See LE Core.

a For students interested in focusing on applied math, MATH 312 is recommended. For students interested in focusing on statistics, MATH 346 is recommended.

b For students interested in focusing on statistics, MATH 347 is recommended. It is a prerequisite to the courses listed as statistics electives c.

c The Applied/Statistics emphasis allows students to choose courses that emphasize either applied math or statistics.

- Students interested in focusing on applied math are recommended to choose electives from the following list of applied electives: MATH 307, MATH 313, MATH 318, MATH 345, MATH 351, MATH 354, MATH 440 (PHYS 440).

- Students interested in focusing on statistics are recommended to choose electives from the following list of statistics electives: MATH 441, MATH 443, MATH 445, MATH 447.

---

d At least 10 credits are required from the following list: MATH 307, MATH 312, MATH 313, MATH 318, MATH 345, MATH 346, MATH 347, MATH 351, MATH 354, MATH 440 (PHYS 440), MATH 441, MATH 443, MATH 445, MATH 447. Students who have fulfilled this requirement may take an additional course from this list, or another MATH elective numbered above MATH 305, to achieve at least 36 credits of courses that count toward the major.
Students must complete at least three credits to be selected from PHIL 250, CS 145, CS 163, DS 150, or another computer science course approved by the Math Department.

**Note:** All students must complete the 30-hour Service-Learning Requirement via a non-credit or credit option (see Undergraduate Graduation Requirements).

**RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)**

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (https://studyabroad.apps.uwec.edu/), Intercultural Immersion (https://www.uwec.edu/immersion/), Internship (https://www.uwec.edu/career-services/info-students/internships/), and/or Student/Faculty Collaborative Research (https://www.uwec.edu/orsp/students/student-faculty-collaborative-research-guide/) into your time at UW-Eau Claire.

Students in the Applied/Stats emphasis are strongly encouraged to participate in student/faculty research. Watch for announcements of potential research projects and meet with potential research advisors in the spring preceding the year in which student/faculty research will begin (for example, spring of the first year for a research project during sophomore year).

**Liberal Education (LE) Core Guidance**

**Liberal Education Core (LE Core)**

The LE Core comprises 17 learning experiences across 11 learning outcomes. Students must complete a minimum of 36 credits in courses approved for the LE Core.

- **K1** – Natural Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K2** – Social Sciences; two experiences (one lab science experience is required in K1 or K2).
- **K3** – Humanities; two experiences.
- **K4** – Fine Arts; one experience.
- **S1** – Written and Oral Communication; two experiences (one experience must satisfy the University writing requirement).
- **S2** – Mathematics; one experience (must satisfy the University math competency requirement).
- **S3** – Creativity; one experience (can be fulfilled in a student’s major).
- **R1** – Equity, Diversity, and Inclusivity; two experiences (one experience must meet the UW System Design for Diversity (DD) requirement).
- **R2** – Global Perspectives; one experience.
- **R3** – Civic and Environmental Issues; one experience.
- **I1** – Integration; two experiences (one experience can be fulfilled in a student’s major).

- **SL**—Service Learning; 30 hours

**Additional LE Core Information**

- Most LE Core learning experiences are course based, and many courses meet more than one learning outcome (e.g., K3 and R2 or K1 and R3).
- Some learning experiences can also be met outside of a traditional course (e.g., undergraduate research (S3), study abroad (I1)).
- S1 – An English placement score that fulfills the University writing requirement fulfills one S1 experience.
- S1 – A foreign Language placement score that qualifies the student to enter the 102 level satisfies one S1 experience.
- S1, R2 – A foreign language placement score that qualifies the student to enter the 202 level satisfies one experience in S1 and the R2 experience.
- S2 – A math placement score that qualifies the student to enter Math 111, 112, 113 or 114 fulfills the S2 experience.
- S3 – Completion of two credits from any approved music ensemble fulfills the S3 experience.
- I1 – Any semester long study abroad program can fulfill one I1 experience.

**Music and Theatre Arts**

Haas Fine Arts 156
715-836-4954
Department Website (https://www.uwec.edu/academics/college-arts-sciences/departments-programs/music-theatre-arts/)

**Honor Societies and Student Organizations**

There are eight nationally-affiliated music student organizations at UW-Eau Claire, including student chapters of National Association for Music Education, American Choral Directors Association, American String Teachers Association, National Association of Teachers of Singing, National Band Association Collegiate Chapter, United States Institute for Technical Theatre, and American Music Therapy Association for Students; the professional fraternities Phi Mu Alpha-Sinfonia and Sigma Alpha Iota; and the honor society Pi Kappa Lambda.

The performing arts enjoy an enviable reputation at UW-Eau Claire. Outstanding student and faculty performances in music, theatre, and dance; innovative classroom experiences; and active outreach are hallmarks of the Department of Music and Theatre Arts.

**Music**

Throughout history the study of music has been held to be one of the noblest pursuits of humanity. Music integrates and develops an understanding of our intellect, our emotions, and our senses. As such, it is both a personal and universal art.

All baccalaureate degrees in music emphasize the development of skills, concepts, and sensitivity essential to the professional life of the musician. Whether a professional performer, teacher, or composer, the musician must function as one who exhibits not only technical competence but also a broad knowledge of music and music literature, sensitivity in musical style,
and an insight into the role and effect of music in society. Courses for the general university student provide an environment which promotes a broad intellectual and cultural appreciation of music.

The Department offers the Bachelor of Arts or Science degree in liberal arts—music; liberal arts—theatre arts, including a musical theatre emphasis; Bachelor of Music Education degrees leading to teacher licensure; and Bachelor of Music degrees in applied music and composition. A liberal arts minor is offered in music and theatre arts. The department also offers five certificates: Arts Administration, Dance Activities, Recording Arts, Songwriting, and Theatre Arts.

The University of Wisconsin-Eau Claire is an accredited institutional member of the National Association of Schools of Music.

General Requirements—Music Majors and Minors

Academic Preparation

Students planning to major in music should have experience playing an instrument in their high school band or orchestra, singing in a high school choral ensemble, or should have studied an instrument (e.g., piano or guitar) privately for a significant period of time. It is expected that prospective music majors be able to read music and sight-sing in at least one clef. Although not mandatory, private study in voice or an instrument will be very beneficial in preparation for college study in music; it offers significant advantages in terms of enhancing individual performance technique and provides exposure to standard music literature. Ability to play piano—even at a rudimentary level—and read both treble and bass clefs is a desirable attribute for any music major. In addition, it is helpful for students to have taken high school theory and/or music appreciation courses.

Admission

Applicants must apply to the University before completing audition requirements.

All applicants for admission to degree programs in music must satisfactorily complete an audition in a performance area. Students with any piano playing experience are asked to take a placement examination in piano (when piano is not a major instrument). Applicants to the B.M. degree must audition in wind, string, percussion, piano, or voice. Minimum repertoire standards for all performance areas are available from the department’s Web site at www.uwec.edu/mus-the (http://uwec.edu/mus-the/).

Scholarships are available to a limited number of applicants who demonstrate superior musical ability. An application for the audition and placement constitutes an application for a department scholarship, and no separate form is required. Applicants recommended for scholarship assistance will be notified after the audition.

The Department of Music and Theatre Arts adheres to the code of ethics of the National Association of Schools of Music (NASM). The acceptance of financial aid by an applicant is considered a declaration of intent to attend the institution; after May 1, the applicant may not consider any other offer from an NASM member institution without the written consent of the first institution. Similarly, a transfer applicant from a senior college or university cannot be considered for a scholarship without the recommendation of the institution from which the transfer is being made.

Graduation Requirements

Keyboard Placements. All entering freshmen and transfer students with piano experience who do not have piano as a major instrument take a piano placement examination which determines the level of class piano (MUSI 106 or MUSI 108) in which they will be enrolled to prepare for the piano proficiency examination. If the placement test indicates a sufficiently high level of ability, the student may be directed to applied piano (MUSI 151). A keyboard placement resulting in a higher-numbered keyboard course, i.e., MUSI 108 or MUSI 151, does not constitute credit by examination for a lower-numbered course. Credit by examination is not available for MUSI 104, MUSI 106, MUSI 108, MUSI 278, or MUSI 378.

The Piano Proficiency Examination must be passed

1. prior to enrollment in MUSI 350 for all music majors or MUED 310 if student is a Music Education major and/or
2. one year prior to admission to the professional semester for students working toward teaching licensure (B.M.E. programs) and/or
3. prior to graduation in any music major/minor program. It is offered only during the Fall and Spring Semester final examination periods. The Piano Proficiency Examination tests performance in major and minor scales, arpeggios, sight-reading, harmonization, transposition, and memorization.

Satisfactory/Unsatisfactory Policy. No music course may be taken under the Satisfactory/Unsatisfactory option.

Audit Policy. Applied lessons may not be taken for audit.

Special Student Status. High school students may enroll with permission of the instructor for courses in the Department of Music and Theatre Arts during the Special Student Registration. Because of demand for some courses and limitations on enrollment, degree students will be given priority. Credits earned as high school special students will be reviewed for acceptance into degree programs after official admission to the university and department. Credit review procedure is the same as that for transfer students. Enrollment in graduate music courses under the special student admission status is not allowed except in workshops or by consent of the instructor.

NOTE: A student may not register for credit in a course which is a prerequisite for any other course in which the student has credit.

Bachelor of Music

Major applied lessons carry credits as follows: one 30-minute private lesson per week for one credit; one hour lesson per week for two, three, or four credits. The number of applied credits per semester indicates the minimum number of practice hours per day.

All applied B.M. students may present a half recital in the junior year and must present a full recital in the senior year. Recital requirements apply to the following comprehensive music majors:

- Applied Instrumental (Code 060-041)
- Applied Voice (Code 060-042)
- Composition (Code 060-048)

Theatre Arts and Dance

The arts of theatre—acting, directing, playwriting, design, literature, and costume—enable us to explore the experiences of humans and the universe. Theatre Artists study human ideas, values, relationships, obsessions, and accomplishments. Practical experimentation and practice of the arts of the theatre increases our ability to present human experiences to audiences for both entertainment and enlightenment.

Theatre Arts programs offer students training in various aspects of theatre including technical theatre, acting, directing, dance, dramatic literature, playwriting, and arts management.
Departmental Honors in Music and Theatre Arts

Eligibility
Upper-class music and theatre arts majors with resident and transfer GPAs of 3.50 or higher and a 3.50 or higher in the major are eligible for participation in the departmental honors program. Participants whose cumulative and/or major GPA falls below 3.50 can still graduate with honors as long as their GPA increases to 3.50 before graduation.

Requirements for Graduation with Departmental Honors
1. Following invitation, submit application to the honors committee for entry into the departmental honors program. Among other requirements, your application will detail plans for areas of research as well as the different departmental courses and the projects you propose to complete within them as part of the honors program.
2. Complete all requirements for major in the department with a cumulative GPA of 3.5 or better.
3. Earn 3 honors credits prior to graduation by completing honors projects proposed to and approved by the honors committee. Different projects may be designed to vary in credit value by intersecting with multiple research areas. For example, a single approved project could blend or "crossover" from the distinct areas of music history and performance in order to gain credit for 2 of the 3 required honors credits.

 Majors
- Comprehensive Major: Music Teaching – Instrumental Emphasis - B.M.E. (College of Education and Human Sciences Secondary Education Program)
- Comprehensive Major: Music Teaching – Choral Emphasis - B.M.E. (College of Education and Human Sciences Secondary Education Program)
- Comprehensive Major: Music, Applied Instrumental - B.M
- Comprehensive Major: Music, Applied Voice - B.M.
- Comprehensive Major: Music, Composition - B.M.
- Major, Music, Liberal Arts - B.A./B.S.
- Comprehensive Major: Theatre Arts, Liberal Arts - B.A./B.S.
- Comprehensive Major: Theatre Arts, Musical Theatre - B.A./B.S.
- Major: Theatre Arts, Liberal Arts - B.A./B.S.

Minors
- Minor: Music, Liberal Arts
- Minor: Theatre Arts, Liberal Arts

Certificates
- Certificate: Arts Administration
- Certificate: Dance Activities
- Certificate: Recording Arts
- Certificate: Songwriting
- Certificate: Theatre Arts

Arts Administration, Certificate
(Code 060-602)
The Certificate in Arts Administration provides students with a core body of knowledge and skills to effectively manage community or institutionally based arts organizations and provides a foundation for continued study in arts administration. Emphasis is placed on management and communication skills useful to administrators of arts enterprises. The 18-credit program includes an arts management seminar, an immersive arts leadership course, three (3) credits of internship experience, and elective courses.

</tr>
</tbody>
</table>

Three credits from one of the following internship courses: 1 3
MUSI 498 Music Internship
THEA 498 Theatre Arts Internship

Nine credits from at least two different department areas (see stipulations below)

Total Credits 18

1 The internship must be in arts administration with clear learning outcomes appropriate to the discipline. It may consist of a single 3-credit internship experience or multiple experiences that add up to 3 credits. Although the course listing is a THEA or MUSI course, the internship experience itself may be from any arts discipline with department permission.

A combined total of at least 9 credits from the listings below, with the following stipulations:

1) Courses used to complete major requirements do not count toward completion of the certificate.

2) Students must take at least three (3) credits from Group A (ART, ARTH, DNCE, HIST, IDIS 303, MUSI, THEA) and at least three (3) credits from Group B (ACCT, BSAD, BCOM, CJ, ENGL, IDIS 190, MGMT, MKTG). The remaining three (3) elective credits may come from either group.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Understand the arts and their relevance in society today.
- Understand the managerial issues and techniques for arts organizations today.
- Demonstrate critical-thinking skills and communicate clearly when analyzing issues facing arts organizations today.

Dance Activities, Certificate

(Code 605-601)

The Dance Activities Certificate Program is open to any student with a passion for dance and looking to gain knowledge of common forms of dance, including ballet, tap, jazz, and modern. This program focuses on studio dance experiences that will prepare graduates for a variety of careers in dance and performing arts.

Program Learning Options

Students completing this program will be expected to meet the following learning outcomes:

- Understanding dance as a creative art form within its cultural, historical, and theoretical context.
- Increase movement ability, musicality, and accuracy through practice of the basic elements of dance: space time and energy.
- Demonstrate basic dance technique in more than one genre of dance.
- Create original work, perform original work, or interpret work of others.
- Develop a vocabulary for discussing dance history, dance performances, and choreograph.

Music, Applied Instrumental, Comprehensive Major

(Code 060-041)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements

Minimum total for graduation | 120
Upper division credits (courses numbered 300 and higher) | 39
Liberal Education Core | 36

Academic Concentrations

Grade Point Requirements

 Total | 2.00 average
Resident | 2.00 average
Major | 2.00 average
Minor | 2.00 average
Certificate | 2.00 average

University Residency Requirements

Minimum total | 30
Senior year | 23
Major, Standard, upper division in residence | 12
Major, Comprehensive, upper division in residence | 21
Certificate | 25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

1 Certain programs exceed this minimum.
2 See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/
EUAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

Integration Outcome 1 (I1): Integration (http://catalog.uwec.edu/undergraduate/attribute-i1/) Two (2) learning experiences

**Service-Learning Goal**

Service-Learning (http://catalog.uwec.edu/undergraduate/attribute-sl/#header13) 30 hours

**College Degree Requirements**

**Bachelor of Music**

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency...
as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Music Degree in the College of Arts and Sciences (B.M.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency can be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Three credits of elective ensembles from:

- MUSI 184/384 | University Orchestra |
- MUSI 253/453 | University Chamber Orchestra |
- MUSI 255/455 | String Ensemble |
### Electives in Music

**Select from the following:**

- MUSI 150: Beginning Composition  
- MUSI 170: Applied Music-Composition  
- MUSI 276: Keyboard Accompanying  
- MUSI 325: Orchestration  
- MUSI 335: Counterpoint  
- MUSI 407: Music Theory Seminar

**Second Applied Instrument**

**Piano Proficiency - passed prior to graduation**

**Total Credits**

1. A minimum of one semester in orchestra is required for those who play orchestral instruments.

**NOTES:**

1. MUSI 404 (3 crs) may be used as an elective with advisor approval when topic differs from initial enrollment.

2. No music course may be taken under the Satisfactory/Unsatisfactory option.

### Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate artistic expression through musicianship, technical expertise and skill as appropriate to discipline.
- Create historically and culturally appropriate interpretations through the performance of varied repertoire in collaborative and solo performances as appropriate to discipline.
- Apply culturally specific analytical techniques and approaches to musical compositions.
- Make comparative written statements about aesthetics and function for multiple compositional styles.
- Demonstrate a diverse and inclusive perspective of music, as well as identify systems of privilege in music.
- Demonstrate knowledge of diverse pedagogical techniques for their applicable performance medium.

---

### Sample Degree Plans

**Music, Applied Instrumental, Comprehensive Major, B.M. (Piano)**

The following is a sample degree plan, based on the 2023-2024 catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan.

To earn a degree, students must fulfill all University Graduation Requirements, including the Liberal Education (LE) Core. LE Core course work in the following sample degree plan uses abbreviations such as LE-K1, LE-S2, LE-R3, and LE-I1 to represent the learning outcomes students will meet via completion of their liberal education course work. Please click [here](https://catalog.uwec.edu/undergraduate/graduation-requirements/) for a description of the Liberal Education Core outcomes and requirements. Note that the LE Core may be completed through both course and non-course experiences.
