

COMMENCEMENT

2024

Our Mark of Excellence

The University Seal made its entrance into the life of the University of Wisconsin-Eau Claire in 1966, and today it remains the official symbol of the university and the values it upholds. The seal prominently features the Council Oak tree and the word “Excellence.”

Council Oak

The Council Oak stands as a symbol of UW-Eau Claire’s commitment to serving as a place of meeting and exchange. The symbolism originated with the first Council Oak, a majestic tree that stood where the Ojibwe and Dakota nations as well as other nations, including the Ho-Chunk, Menominee and Potawatomi, met to share knowledge and discuss peaceful resolutions to their differences. The current Council Oak was planted and dedicated in 1990 by elders from the Ojibwe and Ho-Chunk nations after the original Council Oak, which had been damaged by lightning in 1966, fell in a windstorm in 1987.

The Council Oak remains a sacred place and is recognized by UW-Eau Claire as a symbol of the ancestral and sacred lands of Indigenous Peoples, past and present. We acknowledge that the University of Wisconsin-Eau Claire campuses occupy the sacred and ancestral lands of Indigenous Peoples. We honor the land of the Menominee, Ho-Chunk, Potawatomi, Ojibwe and Dakota Nations.

Mission Statement of the University

We foster in one another creativity, critical insight, empathy and intellectual courage, the hallmarks of a transformative liberal education and the foundation for active citizenship and lifelong inquiry.

Dear Blugold graduates,

Congratulations! Today we celebrate an achievement for which you've worked long and hard: You've earned your UW-Eau Claire degree!

Graduates,

You have persevered and shown remarkable resilience in pursuit of a world-class UW-Eau Claire education, inspiring you and your classmates to succeed both in and outside the classroom. It has been my distinct pleasure to meet many of you, and in our insightful conversations I have been inspired by your goals for the future — goals for success in your chosen careers and aspirations to make a difference in your respective communities and the world.

You can look to the future knowing there is true value in your UW-Eau Claire degree. In its 2024 Best Colleges listing, U.S. News & World Report ranks UW-Eau Claire among the best universities in the country for undergraduate research, joining elite universities such as Harvard, Yale and the Massachusetts Institute of Technology. Both U.S. News & World Report and the Wall Street Journal list UW-Eau Claire as the top-rated public regional university in Wisconsin and Minnesota in their 2024 rankings. Forbes has listed UW-Eau Claire among the top universities in the United States in its most recent rankings of America's Top Colleges for accessibility, affordability and student success. The Princeton Review lists UW-Eau Claire as an "academically outstanding" institution in its 2024 Best Regional Colleges list.

Also know that as you leave this great university, you join the ranks of more than 100,000 Blugold alumni making a difference through their contributions in their workplaces and communities. Your UW-Eau Claire experiences have equipped you with the knowledge and desire to make this world a better place. Your skills and wisdom, entrepreneurship and integrity of spirit, strong work ethic and inspiring creativity that helped you overcome challenges throughout your college career will serve you well in the future.

As we say in our mission statement (proudly printed on this page), UW-Eau Claire provides a "transformative liberal education." I challenge you to courageously pursue your goals, knowing that your UW-Eau Claire degree has prepared you for all you aspire to achieve. And most of all, I wish you joy on your journey.

With all best wishes for a bright Blugold future,

A handwritten signature in black ink, reading "James C. Schmidt". The signature is fluid and cursive, with the first name "James" and last name "Schmidt" clearly legible.

HONORARY DOCTORATES

Mayo Clinic Health System physicians Dr. Richard Helmers and Dr. Tim Nelson are being recognized as the fourth and fifth individuals to receive an honorary doctorate from UW-Eau Claire.

Dr. Richard Helmers

Helmers, regional vice president for Mayo Clinic Health System in Northwest Wisconsin, was enthusiastic in his work to initiate the research collaboration between UW-Eau Claire and the medical organization in 2017, which was just the second such agreement between Mayo Clinic Health System and an academic institution.

Dr. Tim Nelson

Nelson, a 1998 UW-Eau Claire graduate in biochemistry and molecular biology, is director of innovation for Mayo Clinic Health System in Northwest Wisconsin and manages the multi-million dollar research collaboration with the university through the engagement of undergraduate researchers, university faculty and the medical organization's physicians.

HONORS PROGRAMS

The University Honors Program cultivates a challenging and supportive learning community that encourages highly motivated, high-potential students to develop fully in their distinctive abilities, creating a foundation for sustained intellectual, professional, and personal growth. The Honors Program at the University of Wisconsin-Eau Claire offers a rigorous and evolving curriculum that assists students in the pursuit of creativity, innovation, discovery, and engagement across disciplines. Honors students often have significant responsibility for the design and execution of learning activities within their honors coursework, and many honors students engage in undergraduate research that is uniquely matched to their experiences, skills, and longer-term goals. The program offers an enhanced education, enabling students to integrate honors liberal education courses,

honors interdisciplinary seminars, honors work in their major and minor programs, and honors experiential learning opportunities into a high-value whole. The Honors Program has two components: University Honors and Departmental Honors. Students may graduate with honors by completing one component or both. Graduates receiving University Honors are identified by a gold ribbon and medal.

In addition, 32 scholastic honor societies are recognized at the University of Wisconsin-Eau Claire. They exist primarily to recognize the attainment of scholarship of a superior quality and to confer distinction for high achievement in undergraduate, graduate and professional studies; in student leadership; and in various fields of research. Baccalaureate candidates who are members of scholastic honor societies are identified by a silver cord.

ACADEMIC REGALIA

The academic apparel traditional worn by the faculty and staff in the processional has its origins in the universities of the Middle Ages. Because the universities grew out of church schools, both faculty and students were regarded as part of the clergy and wore clerical clothing based on monastic dress.

The head covering developed from the skullcap worn to protect tonsured heads in cold weather. In the universities, the skullcap acquired a point on top, which gradually evolved into a tassel. In Europe the bonnet with tassel is still worn but has been replaced in America by the mortarboard cap or tam with tassel.

The style of the gown may have been borrowed from the Benedictine monk's habit. In the Middle Ages, those with bachelor's and master's degrees could be distinguished

by the simplicity or elaborateness of their gowns. The master's gowns were often furred, a decoration surviving as the three velvet bars now used on the sleeves of the doctoral gown.

The hood was originally worn over the head in bad weather and otherwise dropped onto the shoulders. First worn by faculty and students, the hood is now added to the apparel of those with master's, specialist in education and doctoral degrees. The color of the velvet trim on the hood indicates the scholarly field: for example, dark blue (philosophy), golden yellow (science), light blue (education), pink (music), apricot (nursing), drab (business), white (arts). The colors of the satin lining are those approved and authorized by the college or university from which the degree was earned.

UNIVERSITY MACE AND STAND

The University Mace represents the proud history and community connections of the University of Wisconsin-Eau Claire. It was donated in 2016 in honor of the University's centennial by Dr. Susan Harrison, professor emerita of mathematics, who served for 15 years as chair of the University Senate and commencement marshal. The mace includes the wood from the original Council Oak tree and

Kent State Memorial trees that was saved when the trees were replaced. It was crafted by members of the Chippewa Valley Woodturners Guild. The University Medallion at the center of the mace was Dr. Harrison's, given in recognition of her university service. The mace reminds graduates of the university's history of excellence and its many contributions to the people of the region and of Wisconsin.

Senior Class Gift

Each year, graduates have an opportunity to commemorate the occasion by making a gift to the UW-Eau Claire Foundation. The university is so appreciative of the generosity of the graduates who join the community of alumni who support UW-Eau Claire each year.

Graduates were encouraged to donate to any area of the university that has had a profound impact on their time as a Blugold, including academic departments, campus programs, athletic teams, or the Excellence Fund to support UW-Eau Claire's greatest needs. By making a Senior Class gift, these graduates have supported current and future Blugolds even before becoming alumni.

Graduates who made a Senior Class Gift have received Blugold Spirit Cords to wear during the Commencement celebrations and to display proudly in recollection of their time at UW-Eau Claire. Each graduate who made a gift was also given an opportunity to celebrate a favorite faculty or staff member with a Blugold Tribute. The UW-Eau Claire Foundation will honor these faculty and staff with a certificate that includes the name of the graduate who has chosen to honor them.

The UW-Eau Claire Foundation thanks the following seniors for their generosity and for participating in the Senior Class Gift campaign with a gift of at least \$20.24 in support of UW-Eau Claire and in commemoration of their graduation year:

Alumni Awards

Four alumni and friends of the university received University of Wisconsin-Eau Claire Alumni Association awards on Friday, May 17.

HONORARY ALUMNUS AWARD

The Honorary Alumnus Award is presented to non-alumni or non-degreed alumni who have demonstrated great love of and service to UW-Eau Claire or the greater community.

John Rosenow

Rosenow is a Buffalo County dairy farmer and a “visionary leader” who has employed multiple workers from Mexico for many years, according to Dr. Kranti Dugar, assistant professor in marketing and supply chain management. Rosenow was instrumental in developing the Puentes/Bridges

project that takes Wisconsin farmers to Mexico to learn about their workers’ culture and meet their families. Rosenow is co-developing an educational domestic immersion program with UW-Eau Claire centered around his dairy facility that will affect many Blugold majors.

“John’s life-guiding philosophy is advocating for those who do not have a voice that is heard here, sharing stories with others and connecting people to one another,” according to award nominators. “He keeps an open mind; he’s quiet, soft-spoken, and a man who genuinely listens to opposing views, ponders them as needed, and ultimately is not afraid to evolve as a result if he finds worth in those viewpoints.”

Rosenow has been on multiple statewide organizations and foundation boards, working for positive changes in rural Wisconsin. He is proud of his work over the past 20 years to better understand the culture, heritage and language of his workers from Mexico.

“In a politically charged arena of immigration discussion, I try to explain to others how much we have in common with others from a different part of the world,” Rosenow says.

PRESIDENT’S AWARD

The President’s Award recognizes outstanding professional and personal achievements and service to UW-Eau Claire.

Nancy Langer ‘85

bachelor’s degree in management information systems

Langer is CEO of Transact Campus, the award-winning leader in innovative campus technology and payment solutions, serving over 1,900 universities and medical campuses, and more than 12 million

students. In her 35 years of experience in financial technology, she has been recognized as a transformative executive. Langer has driven significant transformation and growth solidifying Transact’s position as a leader in the industry. She led the first service bureau internet banking platform in the world and the second-largest electronic bill payment platform. She received the 2018 and 2019 Top 50 Women of Influence Award from Housing Wire Magazine and the 2016

and 2017 Female Executive of the Year recognition from the Stevie Awards.

“Nancy has focused on creating excellent work environments at Transact Campus, named the midsize finalist for the Phoenix Business Journal’s Best Place to Work,” according to her nominator. “Her leadership skills are well documented.”

Langer encourages Blugolds to “weave your path with threads of passion and do not settle for anything less than what sets your soul on fire.” She urges people to step out of their comfort zones and surround themselves with a mosaic of minds that challenge, teach and propel us to see things through different perspectives.

“Honor your word — integrity is your armor,” Langer says. “Accountability, coupled with empathy, constructs the foundation of lasting relationships and personal growth. Break down your goals into smaller ones — it’s a journey, not a sprint.”

ALUMNI DISTINGUISHED ACHIEVEMENT AWARD

The Alumni Distinguished Achievement Award is presented to alumni and recognizes distinguished service to the community, state or nation in a manner that brings credit upon the award recipient and UW-Eau Claire.

Gary Jacobus '83
bachelor's degree in marketing

Jacobus is president of business development for the Americas for ASM Global, the world's largest venue management company, with 400 venues under management worldwide. He has held senior leadership positions

within global sports properties, agencies, startups and large global companies, including the NFL, NBA and U.S. Tennis Association. He recently shared his expertise, wisdom and advice with current College of Business students at the Business of Sports Symposium.

"Gary is willing to help guide and connect current Blugolds who are interested in his industry and generously supports

UWEC through his time, talent and resources," according to his nominator.

Jacobus says he has been fortunate throughout his career to have tremendous mentors, colleagues, friends and family to guide and advise him. He credits his successful business career to being open to exploring new career avenues, seeking new challenges and focusing on being a lifelong learner. Jacobus urges new Blugold graduates to "be fearless, be bold, be present and make things happen."

"Always be the one to raise your hand at work and take on new projects," Jacobus says. "Be the 'go-to' person that others rely on to get things done. Keep your head down, overdeliver, produce great work, be a team player, and very quickly, leadership will notice you. Whatever your position, be the very best at it. Promotions will come your way if you deliver in your current position."

LIFETIME EXCELLENCE AWARD

The Lifetime Excellence Award is presented to alumni who have demonstrated longtime and successful commitment to their careers and communities. These individuals have made a positive and dramatic impact through their enthusiastic dedication to service and living their lives as a testimony to UW-Eau Claire's motto, "Excellence."

Jerry M. Bauer '74
bachelor's degree in business management

Bauer has worked at the family-owned, Durand-based Bauer Built Inc., for almost 58 years. Bauer Built is one of the largest independent tire dealers and retread manufacturers in North America.

Bauer became president in 1976 and added chairman of the board and CEO to his responsibilities in 1980. In 2013, as the family's third generation got more involved in the business, his son was promoted to president, while he retained the titles of chairman and CEO, positions he still holds today.

After graduating from UW-Eau Claire in May 1974, Bauer says he went fishing with his father in Canada, then returned home

to work at the family-owned business "and never looked back." He has enjoyed working with multiple generations of family members in the business, saying his time at Bauer Built has been "a life for me, not a job. When it becomes a job, I will find something else I like."

Bauer always has strived to do the basics better than the competition, and that has helped him accomplish the more difficult aspects of work and life. He recommends that people not be afraid to put both body and mind to work, and to do more than is asked of them.

"Avoid procrastination, when possible, whether it is the right decision or the wrong decision. Decide, because often, no decision is worse," Bauer says. "I have during my career subscribed to the following philosophy: 'Don't put it off; do it now .. then it's done!' Life passes by fast. Don't spend a disproportionate time thinking and not enough time doing."

A history of excellence in teaching and learning

Eau Claire State Normal School 1916–27

The school offered one-, two- and three-year preparation programs for elementary and secondary teachers and school principals. Programs would be housed in a single building, then called Old Main and later named Schofield Hall, for 35 years.

Eau Claire State Teachers College 1927–51

With this name change in 1927 came the introduction of a four-year bachelor of education degree program and accreditation by the American Association of Teachers Colleges. This was a time of academic program expansion as well as growth of the campus footprint with the acquisition of 20 acres atop the bluff overlooking campus for future expansion.

Wisconsin State College at Eau Claire 1951–64

In 1951 the school was granted authority to offer a four-year liberal arts curriculum leading to a bachelor of arts or bachelor of science degree. Major construction projects, as well as the gift of 200-acre Putnam Park from the city of Eau Claire and the acquisition of 23 additional acres for upper campus, greatly changed the face of campus during this time.

Wisconsin State University-Eau Claire 1964–71

This era of vast change under the leadership of President Leonard Haas saw the creation of the schools of Arts and Sciences, Education and Graduate Studies in 1964, followed by the School of Nursing in 1965 and School of Business in 1966. Nearly 17 new buildings were completed or under construction during this time as well.

University of Wisconsin-Eau Claire 1971–present

Over the last 45 years, UW-Eau Claire has established itself as a nationally ranked public regional university that prepares students to succeed in a connected world — a world influenced by global economic and social forces. It has a widespread reputation for its outstanding, engaged faculty and staff who are dedicated to providing students with transformative learning experiences, and for a culture in which students play an integral role in shaping the university's future.
