

PROPOSAL TO CLOSE STUDY ABROAD PROGRAM
With the AMERICAN COLLEGE OF THESSALONIKI (ACT) GREECE
(INTA 362-Summer AND 363-Semester/Year)

RATIONALE: The ACT program was added beginning in Fall 2008 at the request of the UWEC College of Business to offer another opportunity for business students in Europe. Now that the College of Business is only accepting upper division business credit from AACSB-accredited institutions, it is no longer a viable site for business students.

While ACT does offer some courses in the humanities and social sciences, their business curriculum, taught in English, was the primary draw. Thirteen of the 29 students who participated in the five years pre-pandemic were business majors or minors. No more than 2 students from any other major participated.

No students have applied for the program since Spring 2020. Given this situation, we propose to close the program and remove the above course numbers from the catalog.
