## Summary and Rationale

### Target Audience(s)

The target audience is the same as the current target audience.

### Evidence of long-term need

The long-term need for teachers continues to increase across the country.

### Anticipated Enrollment

The anticipated enrollment is the same as the current enrollment.

### Alignment with university mission

The major aligns with the university mission.

### Statement of benefits to students

Students will continue to benefit from instruction by exemplary faculty and staff.  
Students will continue to prepare to be future teachers who are collaborative leaders.

### Department(s), program(s), college(s), and university predecessor programs

The previous French Teaching major was an emphasis of the French major. We are elevating this current emphasis to a major with its own entitlement to be more transparent to the public and prospective students who are looking to teach French and want to attend UWEC to pursue this major.

### Relationship to existing programs

This new major will still have an administrative home in the Languages Department.  
This major will be a stand-alone, entitled major versus an emphasis of the current French major.  
We are requesting a redirection of an academic degree program through the UW System so that prospective students and their families will see that UWEC offers teaching majors in various disciplines. As per the requirements of redirecting an academic program, the curricular changes do not exceed 50%. The requirements for the currently approved emphasis will not change; and the redirection of the current French teaching emphasis to an entitled major will allow prospective students to clearly see we offer a French teaching major.

## Resources

### Does the department have the necessary staffing to offer this program?

Yes

### Explain need for student support, library resources, etc.:

There is no additional need for student support, library resources, etc. Students will continue to be supported by the university.

### Describe funding needs to initiate and maintain the program, including source(s) of funding and any needed resource reallocation:

No additional funding is required to initiate and maintain this program. The program will continue to be funded as it is now.

### Proposed frequency of offering for courses included in the program:

Courses required for this major will continue to be offered on a regular basis so that students can complete their degree in a timely manner.

### Proposed arrangements for ongoing faculty advising for students in the program

Academic advising and faculty advising for students in this program will remain the same.

### Provide justification that this program is not a duplication of another program that is currently being offered

This program is not a duplication of another program. The proposed program is a redirection of the current French, Major Teaching Emphasis (360-203) to an entitled major.
