

UW Eau Claire grounds staff and Biology Club students teamed up with the CVTC Horticulture Club on Tuesday, October 25, 2022 to remove invasive buckthorn from the trail head at Putnam Park Prairie on upper campus. A total of 17 student volunteers and 4 staff spent the afternoon cutting and hauling buckthorn to open the trail through Putnam Park leading to the Chippewa river. This is the second year UW Eau Claire and CVTC have collaborated on a Tree Campus Higher Education Arbor Day Event.
