

General Records Schedule

Human Resources and Related Records

Version 1.12.5

October 26, 2010

Fourth Edition- Approved November 15, 2010

For use by
State of Wisconsin Government Agencies

Scope

This general records schedule covers the human resource and related records of classified and unclassified employees of Wisconsin state agencies excluding faculty and academic staff positions within the University of Wisconsin System. This is the first major revision of the Personnel and Related General Records Schedule which was last approved by the Public Records Board for use by state agencies in July, 1999. Besides using the term human resource instead of personnel, this document makes changes to many record series based on changes to policies and practices in Wisconsin state government in the 11 years since the document was last released.

The broad categories within the document are:

- General Policies and Procedures related records
- Recruitment and Selection related records
- Classification and Compensation related records, including new series on Workforce Planning
- Workforce Management including new series on Workforce Reductions (layoffs and furloughs)
- Labor Relations and related records, including new series on Labor Management Cooperation Committee records
- Affirmative Action and Equal Opportunity related records, including new series on Diversity Awards
- Medical related records
- Employee Assistance (EAP) related records, including new series related to Wellness
- Training related records
- General Human Resource Administration related records

A companion document, [Introduction to General Records Schedules-Boilerplate, June 2009](http://publicrecordsboard.wi.gov/docview.asp?docid=16116&locid=165), located at the Public Records Board web site (<http://publicrecordsboard.wi.gov/docview.asp?docid=16116&locid=165>), provides more information and guidance about the use of general records schedules by Wisconsin state agencies.

Confidentiality of Records: Some record series may contain confidential or restricted access records such as social security numbers. The schedule should identify any record series containing information required by law to be kept confidential or specifically required to be protected from public access, identifying the applicable state or federal statute or administrative rule. NOTE: Some, but not all personally identifiable information (PII) is confidential. At the same time, records not containing PII may be required by law to be kept confidential. The designation of a particular record series as “confidential” relates primarily to the general schedule’s function in regulating the retention and disposition—including destruction—of the record series. In contrast, public access to records is determined by the Public Records law and not simply by the designation of confidentiality in a record schedule. If in doubt as to whether or not a specific record is confidential, check with legal counsel, either within your agency or by contacting the Attorney General’s office.

Personally Identifiable Information: Wisconsin law requires authorities to identify specifically certain record series within a general records schedule that contain personally identifiable information (PII). The statute defines PII broadly as “information that can be associated with a particular individual through one or more identifiers or other information or circumstances.” Wis. Stats. § 19.62(5). Despite this broad definition, Wis. Stats. § 16.61(3)(u), requires that record series within a schedule containing the following types of PII need not be identified as such: a) mailing lists; b) the results of certain computer matching programs; c) telephone or e-mail directories; d) record series pertaining exclusively to agency employees; and e) those relating to state agency procurement or budgeting. As to those record series identified as containing PII, the schedule should further indicate whether the PII is incidental to the primary purpose for which the record series is created. Additional information and definitions of key terms relating to PII are provided at <http://itsecurity.wi.gov/>. If in doubt as to whether a specific record series contains PII, check with agency legal counsel, either within your agency or by contacting the Attorney General’s office.

Specifically Related to Human Resource Records Access: Under the Wisconsin Open Records Law (Wis. Stats. 19.31 to 19.39), records custodians are required to provide the public with copies of public records as soon as practicable and without delay unless there is a legitimate reason for non-disclosure. Records custodians must consider the presumption of disclosure, recognized statutory or law exceptions and perform the balancing test to determine disclosure of records. Exceptions may require non-disclosure of the records in full or a redaction of PII within the record.

Superseded Record Series - were included in the July, 1999 schedule but are now either consolidated into another record series in the revised document or superseded by one of the other State of Wisconsin General Records Schedules.

Closed Record Series - were included in the July, 1999 schedule but are now closed due to the fact that the activity referenced by the records is no longer being performed.

Records related to certain functional areas that work closely with human resource functions are not included in this document since they are covered in separate General Records Schedules. These include:

- Payroll and Benefits related, [Payroll and Related Records](ftp://doafpt04.doa.state.wi.us/doadocs/PAYROLLGENSCHED1197.pdf),
ftp://doafpt04.doa.state.wi.us/doadocs/PAYROLLGENSCHED1197.pdf
- Position Management and Control related, [Budget and Related Records](http://publicrecordsboard.wi.gov/docview.asp?docid=15864&locid=165),
http://publicrecordsboard.wi.gov/docview.asp?docid=15864&locid=165
- Workers Compensation and Workplace Injuries related, [Workers Compensation and Related](http://publicrecordsboard.wi.gov/docview.asp?docid=15893&locid=165),
<http://publicrecordsboard.wi.gov/docview.asp?docid=15893&locid=165>

The current versions of these schedules are available on the [Public Records Board web site](http://publicrecordsboard.wi.gov/category.asp?linkcatid=3025&linkid=1527&locid=165):

<http://publicrecordsboard.wi.gov/category.asp?linkcatid=3025&linkid=1527&locid=165>

This retention schedule applies to records in all media. Agencies should be aware of the requirements in [Administrative Rule 12](#) if they plan to rely on the digital version of HR records as the official public record.

In particular, agencies are cautioned about destroying records at the end of the required retention time period if:

- records are required for a financial or performance audit;
- records are relevant to an existing, pending, or impending legal proceeding
- a relevant public records request has been received and not completed;
- a revised retention schedule is under development that would extend the retention time period.

Wisconsin Document Depository Program: § 35.83 Wis. Stats., as amended by 1991 Wisconsin Act 285, require Wisconsin state agencies to send copies of their publications, regardless of format, to the Wisconsin Reference and Loan Library for distribution to libraries through the [Wisconsin Document Depository Program](#). The Wisconsin Document Depository Program collects and distributes state publications in print and electronic formats to Wisconsin libraries; preserves and makes available a record of major state government programs; and assures the availability of state publications for use by the public throughout Wisconsin now and in the future. For more information, email statepublications@dpi.wi.gov.

Electronic State Publications: Many state publications are now born-digital, that is, published only on the Web. Electronic publications are collected and preserved as part of the Wisconsin Document Depository Program; URLs to state publications published electronically on Wisconsin State Agency websites should be emailed directly to statepublications@dpi.wi.gov as a way for state agencies to fulfill the statutory obligation to participate in the Wisconsin Document Depository Program.

Unless specified otherwise, each category covers official records maintained by Office of State Employment Relations (OSER) and state agency Human Resource (HR) Offices.
