
UNIVERSITY of WISCONSIN - EAU CLAIRE

DEAR GRADUATES

Congratulations! Today we celebrate an achievement for which you've worked long and hard: You've earned your UW-Eau Claire degree! It is with great pride that I join everyone gathered here to recognize all you have accomplished on your journey to today.

As I near the completion of my first full year as chancellor at UW-Eau Claire, not a day goes by that I am not amazed by your many talents and successes both in and outside the classroom. I have had the pleasure of meeting many of you, and in our conversations I have been inspired by your goals for the future — goals for success in your chosen careers and aspirations to make a difference in the communities you will call home in the years to come.

I have every confidence that each of you will make your aspirations come true. As you earned your Blugold degree, you experienced The Power of AND — the essence of what makes UW-Eau Claire so extraordinary. You acquired both the knowledge AND the skills you'll need to succeed — both as a professional in the workplace or scholar in graduate school AND as a global citizen in this increasingly interconnected world.

What's more, you can look to the future knowing there is real value in your UW-Eau Claire degree. According to the 2014 PayScale.com College ROI Report, UW-Eau Claire ranks among the top three colleges and universities in Wisconsin and Minnesota — public or private — in annual return on investment for students who pay in-state tuition and receive financial aid. That is reassuring news as you prepare to enter the employment marketplace, whether now or following graduate school.

Also know that as you leave this great university, you join the ranks of our more than 75,000 Blugold alumni making a difference the world over, carrying The Power of AND into their workplaces and communities. Just look at the shining examples provided by our alumni award recipients being honored here today. The world will be a better place because of your skills AND wisdom, entrepreneurship AND integrity of spirit, strong work ethic AND inspiring creativity — all hallmarks of your UW-Eau Claire degree.

As we say in our mission statement (proudly printed below), UW-Eau Claire provides the “transformative liberal education” that is the foundation for “active citizenship and lifelong inquiry.” I challenge you to audaciously pursue your goals, knowing that your UW-Eau Claire degree has prepared you for all you aspire to achieve. And most of all, I wish you joy on your journey.

With all best wishes for a bright Blugold future,

James C. Schmidt
Chancellor
University of Wisconsin-Eau Claire

Mission Statement of the University

CANDIDATES FOR DEGREES

Graduation with distinction is being conferred on those graduates who have an outstanding scholastic record. They are identified by gold cords and recognized in the program as follows: *cum laude (grade-point average of at least 3.2), **magna cum laude (GPA of at least 3.5) and ***summa cum laude (GPA of at least 3.8). Graduates receiving departmental honors are identified by the symbol †. The recognition of graduates receiving University Honors is noted under the student's name. Graduates receiving University Honors are identified by a gold ribbon and medal. Baccalaureate candidates who are members of scholastic honor societies are identified by silver cords. See Page 22 for the key listing UW-Eau Claire's degree interpretations.

— SENIOR CLASS GIFT —

Each year, graduating seniors have an opportunity to commemorate their graduation by making a gift to UW-Eau Claire to support current and future Blugolds. This year, 78 seniors joined our community of more than 12,000 alumni and friends who support UW-Eau Claire each year.

Seniors were encouraged to donate to any area of the university including academic departments; the Blugold Emergency Support Fund, which provides financial support to students, faculty, and staff in emergencies or crises; and the Excellence Fund to support UW-Eau Claire's overall mission; to name a few. By making a senior class gift, students are able to support current and future Blugolds even after they graduate.

The UW-Eau Claire Foundation thanks the following seniors for their generosity and for participating in the Senior Class Gift program. Senior class donors can be recognized wearing Blue and Gold Spirit Cords during the commencement ceremony. The following seniors made a gift of at least \$20.14 to commemorate their graduation year and to support UW-Eau Claire.

— HONORS PROGRAM —

The Honors Program provides an extra measure of challenge and enrichment for students who are academically distinguished by previous and current achievements and by high levels of motivation and curiosity. The program seeks to challenge exceptionally able students to perform at the highest level of which they are capable, to enhance their capacity for critical inquiry and independent learning, and to develop their potential for leadership in their future vocations. The Honors Program has two components: University Honors and Departmental Honors. Students may complete one or both components. Students graduating with University Honors have attained a grade-point average of at least 3.5 and have completed at least 24 University Honors credits. Graduates receiving University Honors are identified by a gold ribbon and medal.

In addition, 32 scholastic honor societies are recognized at the University of Wisconsin-Eau Claire. They exist primarily to recognize the attainment of scholarship of a superior quality and to confer distinction for high achievement in undergraduate, graduate and professional studies; in student leadership; and in various fields of research. Baccalaureate candidates who are members of scholastic honor societies are identified by silver cords.

— ACADEMIC APPAREL —

The academic apparel worn by the faculty and staff in the processional has its origins in the universities of the Middle Ages. Because the universities grew out of church schools, both faculty and students were regarded as part of the clergy and wore clerical clothing based on monastic dress.

The head covering developed from the skullcap worn to protect tonsured heads in cold weather. In the universities, the skullcap acquired a point on top, which gradually evolved into a tassel. In Europe the bonnet with tassel is still worn but has been replaced in America by the mortarboard cap or tam with tassel.

The style of the gown may have been borrowed from the Benedictine monk's habit. In the Middle Ages, those with bachelor's and master's degrees could be distinguished by the simplicity or elaborateness of their gowns. The master's gowns were often furred, a decoration surviving as the three velvet bars now used on the sleeves of the doctoral gown.

The hood was originally worn over the head in bad weather and otherwise dropped onto the shoulders. First worn by faculty and students, the hood is now added to the apparel of those with master's, specialist in education and doctoral degrees. The color of the velvet trim on the hood indicates the scholarly field: for example, dark blue (philosophy), golden yellow (science), light blue (education), pink (music), apricot (nursing), drab (business), white (arts). The colors of the satin lining are those approved and authorized by the college or university from which the degree was earned.

LIFETIME EXCELLENCE AWARD

The Lifetime Excellence Award is presented to alumni who have demonstrated longtime and successful commitment to their careers and communities.

DR. GEORGE ROSSMAN, a 1966 chemistry and mathematics graduate of UW-Eau Claire, earned a Ph.D. in chemistry from the California Institute of Technology, where he currently serves as the Eleanor and John R. McMillan Professor of Mineralogy in the Division of Geological and Planetary Sciences. He began his career at Caltech as an instructor in mineralogy in 1971 and continues a lifelong interest in minerals through his research in

the areas of mineral spectroscopy, water and hydroxide in nominally anhydrous solids, analytical methods for OH analysis in minerals, X-ray amorphous minerals, and the effects of exposure on minerals to background levels of natural radiation.

Rossman has written and co-authored more than 300 articles in the fields of chemistry and mineralogy, has served as an associate editor of the journal *American Mineralogist* and currently serves on the editorial review board of *Gems and Gemology*. A rare form of pink tourmaline called rossmanite is named after him in honor of his many contributions to the spectroscopy of the

tourmaline minerals. Rossman also has contributed to studies involving lunar rocks and minerals, including one that analyzed rocks returned to Earth by the Apollo program.

In addition to teaching at Caltech, Rossman serves on the Research Advisory Committee for the Geological Institute of America, is a research associate in mineral sciences at the Natural History Museum of Los Angeles County and the Department of Mineral Sciences at the American Museum of Natural History in New York City, is a Mineralogical Society of America Fellow and is vice president of the Mineralogical Society of Southern California.

Over the course of his career, Rossman has received numerous awards for his work, including the Dana Medal in 2001 and the Friedrich-Becke Medal in 2005. In 2004 he was the recipient of Caltech's most prestigious teaching honor, the Richard P. Feynman Prize for Excellence in Teaching, which recognizes "exceptional ability, creativity and innovation in both laboratory and classroom instruction."

DAVE CARLSON, a 1972 journalism graduate of UW-Eau Claire, began his journalism career as a reporter for the Eau Claire Leader-Telegram. In 1981 Carlson moved to WEAU-TV in Eau Claire as the host and producer of "Northland Journal." In 2000 Carlson moved to WQOW-TV in Eau Claire where he continued to host and produce his weekly outdoors show renamed "Northland Adventures."

Carlson produced more than 1,700 half-hour shows and traveled more than 1.2 million miles covering stories in the United States, Canada, Mexico and Central America. "Northland Adventures" was broadcast on 23 television stations in 12 states. Carlson announced his retirement in December 2013, and the farewell episode of "Northland Adventures" aired Dec. 29.

In 2013 Carlson was inducted into the Wisconsin Broadcasters Hall of Fame. He was named National Conservation Communicator of the Year by Trout Unlimited in 2008 and has dozens of other awards and citations honoring him as an outdoors journalist.

Carlson also is the author of three books: "A Fish Gift and Sketches from Northland Adventures"; "The Way the Stick Floats: Wandering Outdoor Trails with Dave Carlson"; and "Moose Don't Fly!"

Carlson enrolled at UW-Eau Claire in 1967 but left the university in 1969 for a two-year term of service in the U.S Marine Corps. Carlson and his wife, Sue, live in Eau Claire. They have two daughters and three granddaughters.

PRESIDENT'S AWARD

The President's Award recognizes outstanding professional and personal achievements and service to UW-Eau Claire.

CATHERINE FURAY, a 1974 UW-Eau Claire psychology graduate, earned her law degree from UW-Madison in 1980 and became a U.S. bankruptcy judge for the Western District of Wisconsin in 2013.

With more than 30 years dedicated to her profession, Furay represented debtors, creditors, creditors' committees, lenders, trustees and acquirers in financing transactions, corporate restructuring and reorganization, bankruptcy, commercial and transaction law, and business and commercial litigation.

Furay's areas of practice included business bankruptcies, commercial and business litigation, general corporate and business representation, negotiating financing transactions and appellate practice. Furay was the chair of the Creditors' Rights, Insolvency and Bankruptcy Practice Group and the Corporate, Business and Tax Practice Group at her former law firm in Madison. She has

written and lectured extensively on bankruptcy, creditor rights and ethics, and taught as an adjunct professor at the UW-Madison Law School for more than 18 years.

Furay served on the Special Legislative Study Committee on the Credit Aspects of Marital Property, received the 1994 Distinguished Service Award from the State Bar of Wisconsin and has received numerous awards from the American Bar Association. Her achievements have been recognized by Who's Who of American Women, Who's Who in American Law and Who's Who of Emerging Leaders. She also has been repeatedly included on lists for Wisconsin Super Lawyers and Best Lawyers in America.

Furay has been active in the State Bar of Wisconsin, the American Bar Association and the American Bankruptcy Institute. She also has served on boards and committees of various nonprofit organizations.

JAMES SWEET, a 1975 UW-Eau Claire philosophy and political science graduate, is a partner with the law firm Sweet DeMarb & Associates LLC, which is affiliated with the firm of Kerkman Dunn Sweet DeMarb in Madison. He earned his law degree from UW-Madison in 1978 and specializes in the areas of corporate renewal, restructuring and reorganization, bankruptcy, finance and newly formed companies.

In addition to practicing law, Sweet has lectured at the UW-Madison Law School, the Southwestern Bankruptcy Institute, numerous Wisconsin State Bar Bankruptcy Updates and the Iowa Bankruptcy Seminar on topics including bankruptcy, corporate reorganization, asset protection, creditors' rights, marital property aspects of creditor/debtor relations, and a variety of chapter 11 and legal ethics issues. He is a member of the American Bar Association, the American Bankruptcy Institute and the Turnaround Management Association, and he chaired numerous committees and sections of the State Bar of Wisconsin from

1988-2000. He is the former president and founding member of the Western District of the Wisconsin Bankruptcy Bar Association and was president and chairman of the American Boards of Certification. This spring Sweet was inducted as a fellow into the American College of Bankruptcy, only the eighth Wisconsinite to be so honored in the history of the college.

Sweet's achievements have been repeatedly acknowledged in the Wisconsin Super Lawyers and Best Lawyers in America publications, and he was cited by Madison Magazine as one of the top industry lawyers in Dane County and one of the top financial services/commercial lending law and bankruptcy lawyers. Sweet's community service outside the law includes having served as president of Bishops Bay Country Club for nearly eight years.

While a student at UW-Eau Claire, Sweet served as student body president. His philosophy is to provide superior client service, legal integrity and strong commitment to the community in which he lives and works.

ALUMNI DISTINGUISHED ACHIEVEMENT AWARD

The Alumni Distinguished Achievement Award recognizes distinguished service to the community, state or nation in a manner that brings credit upon the recipient and the university.

NEIL LIPINSKI, who received a degree in political science from UW-Eau Claire in 1980, subsequently moved to Washington, D.C., where he became involved in real estate as a developer and residential real estate agent. In 1984 he moved to Boston where he earned his master of business administration degree from Northeastern University.

In 1986 Lipinski moved to New York City where he began working as a commercial real estate broker. In 2002 he completed a historic real estate transaction that involved a corporate relocation to downtown Manhattan shortly after the attacks on the World Trade Center. The mayor of New York City called the transaction the beginning of downtown's recovery. Lipinski consequently was awarded the Robert T. Lawrence "Deal of the Year Award" by the Real Estate Board of New York.

In 2003 Lipinski was elected partner in the firm Colliers ABR. He remained in that role with a successor firm until 2012 when he resigned and established Lipinski Real Estate Advisors LLC.

Lipinski is a chairman of the UW-Eau Claire Foundation Real Estate Committee, was instrumental in the acquisition of The Priory by Blugold Real Estate LLC (a subsidiary of the UW-Eau Claire Foundation) and continues to be active in Blugold Real Estate and its involvement as a partner in the proposed Confluence Project in downtown Eau Claire.

Lipinski and his wife, Joanne Pappas, have been married for 25 years and live in Irvington, New York. They have two children: Alea, 19, who is a freshman at UW-Eau Claire; and Luc, 11.

DR. GREGORY MERCER, a 1985 UW-Eau Claire chemistry graduate, grew up in northern Wisconsin and graduated from Washburn High School in 1981. After high school he attended UW-Madison for one year before transferring to UW-Eau Claire and receiving his chemistry degree. He attended graduate school at Washington State University, where he received his master's and doctoral degrees in analytical chemistry.

Mercer is currently employed with the U.S. Food and Drug Administration in the Seattle, Washington, area as a mass spectrometry specialist. During his 20 years at the FDA, he has played a major role in incorporating mass spectrometry into

the agency's pesticide monitoring program. The pesticide detection procedures he has developed are currently being used at all FDA laboratories that test for pesticides in the U.S. food supply.

One of Mercer's most significant achievements at the FDA came during the pet food crisis in 2007. He helped identify the chemical complex responsible for the pet deaths that occurred and helped develop the extraction and determination procedures that were adopted internationally.

Mercer lives in the Seattle area with his wife, Lori (Gee) Mercer, a 1986 UW-Eau Claire communicative disorders graduate, and their two sons, Thomas and Cameron.

DR. JULIE HENSELER, a 1989 UW-Eau Claire biology graduate, attended the Medical College of Wisconsin and received her medical degree in 1994. She served her internal medicine residency at Abbott Northwestern (ANW) Hospital in Minneapolis from 1994-97 and as chief resident from 1997-98. She has been an

internal medicine hospitalist with ANW since 1998. She also serves as chair of new business on the executive committee for the ANW Hospitalist Service.

She and her husband, Steven Henseler, have two children: Ethan and Nicholas.

DR. STEVEN HENSELER, who received his biology degree from UW-Eau Claire in 1989, attended the University of Minnesota School of Dentistry and received his doctor of dental surgery degree, graduating with honors, in 1993. He received a master of science and certificate in orthodontics from the University of Minnesota School of Dentistry in 1995.

Henseler began a private practice in orthodontics in Woodbury, Minnesota, in 1995. He completed a graduate-level business course for dentists at Argosy University in 2010.

He served as a clinical instructor of orthodontics for the University of Minnesota School of Dentistry's graduate clinic from 1997-2001. He was named a diplomate by the American Board of Orthodontics (AAO) in 2005 and is chair of the Council on Insurance for the AAO. He is a member of the Dental Assisting Advisory Board for Century College and serves on the board of AAO Services Inc., the for-profit arm of the AAO. He served as president of the Minnesota Association of Orthodontists in 2009.

His practice was named the 2014 "Best Orthodontic Clinic" by Woodbury Magazine, and he has been named a top doctor in orthodontics by Mpls.St.Paul Magazine six times.

Steven and Julie Henseler created an opportunity fund grant program with the UW-Eau Claire Foundation in 2005. The \$1,100 Steve and Julie Henseler Biology Scholarship is presented annually to an outstanding biology student studying and conducting undergraduate research in any area of biology. Recipients must excel academically and in their research area.

The Henselers participated in track & field as UW-Eau Claire students. Julie was a four-year letter winner, and Steven was a three-year letter winner. Away from work Julie is a middle school track coach, and Steven is a middle school soccer and track coach.
