Stop by anytime between 1-4 if you would like to speak to Krystyna!
Attached is a flyer for an in-person event hosted at Marquette's Dental School on November 14th.

Link to register: MUSoD Wax & Relax (google.com)

Sign-up closes on Monday, November 7th.
Are you interested in becoming a doctor? Would you like support in getting into medical school? The MCW-Central Wisconsin (MCW-CW) and North Central Area Health Education Center (AHEC) pre-med pipeline, Advocates in Medicine Pathway (AMP), can help!

We are recruiting for our next AMP cohort and are accepting applications from now through November 1st. The program cohort will run from January 2023 through July 2023. We will provide the support and tools needed to develop a competitive medical school application for participants (i.e., MCAT guidance, a 1-week clinical shadowing, medical school application assistance,
mentorship from medical students and staff, a paid summer community health internship, and much more). Participants must be college juniors and seniors or those who have graduated from a bachelor’s degree program. Preferences will be given to individuals underrepresented in medicine, particularly from Hmong and rural backgrounds.

Apply now at https://bit.ly/AMP2023. For more info, visit https://bit.ly/AMPMCW. You can also reach out to Education & Outreach Coordinator, Sheng Khang, at skhang@nahec-wi.org or 715-301-3269 for more information.

Spring Course Opportunity

Spring 2023 – HIST 348

History of Public Health in the United States

3 Cr | MW | 2–3:15

Professors David Soll and Mel Kantor
****No Prerequisites****

This course will explore key concepts and developments in American public health. If you’re interested in understanding why life expectancy increased dramatically in the 20th century, why more than 1,000,000 people (and counting) in the U.S. have already died from COVID-19, and how technology is improving and degrading our health, then this course is for you. We will use resources from the McIntyre Library’s Special Collections archives to learn about the country’s public health trajectory by studying primary sources related to the Eau Claire area.

- Counts as an elective for the Public Health major, the Public Health minor, and the Environment, Society, and Culture minor.
- Also count as an upper division History elective.
- Satisfies the K3 liberal education core requirement.

Explore some of the great public health achievements of the 20th century in HIST 348/HIST 548. This 3-credit course (no prerequisites) will be of interest to pre-professional health students who will be embarking on 21st century careers. Investigate the historical roots of some contemporary problems like anti-fluoridation, vaccine hesitancy, tobacco addiction, COVID-19, and more. This class will also consider some of the great success stories, such as the eradication of smallpox, improved motor vehicle safety, and the addition of nearly 30 years to the life expectancy of someone born in 2000 compared to someone born in 1900!

The course will count as an elective for Public Health majors & minors, Environment, Society & Culture minors, and History majors, but all pre-professional health students are welcome. The course satisfies K3 of the liberal education core requirements.
INTERNSHIP IN FAMILY ASSESSMENT

The Human Development Center (HDC) announces four openings for an internship in Family Assessment. The internship involves working collaboratively with faculty and students from multiple disciplines (i.e., School Psychology, Special Education, Education and Learning, Speech Language Pathology, Nursing) within the HDC’s Interprofessional Assessment Clinic. The Interprofessional Assessment Clinic provides comprehensive evaluations to children, adolescents, and young adults in Western Wisconsin. Referral concerns typically involve behavior problems, developmental concerns, mental health issues, poor academic performance and learning issues, and social problems.

This internship is perfect for undergraduate students interested in careers in behavioral and mental health, social and human services, medicine and healthcare, and education. Preferably, students should have some coursework in child/adolescent development, communication, or counseling. Students will be asked to register for PSYC 498: Internship (3 credits), although this could be altered under certain circumstances. Students selected for this internship will need to have some evenings available across the semester for family interviews and some Thursdays (noon to about 7:00) available for client observations and clinic meetings.

Students interested in this internship opportunity should contact Dr. Axelrod at axelromi@uwec.edu to learn more.

MEDICAL OFFICE INTERN

Student Health Services is hiring a Medical Office Intern

For more information, and to apply go to Handshake.

The Medical Office Intern is a paid internship. It should be approached as and considered an opportunity to begin your professional career.

UW-Eau Claire Handshake (uweccareerservices.org)

Deadline to apply is October 30.
MAYO CLINIC HEALTH SYSTEM IN EAU CLARIE IS ACCEPTING APPLICATIONS FOR PHARMACY TECHNICIANS

Check this opportunity out, as well as other positions available: Careers in Eau Claire, Wisconsin - Mayo Clinic Health System

MAYO CLINIC HEALTH SYSTEM IN EAU CLAIRE IS ALSO ACCEPTING APPLICATIONS FOR CLINICAL HEMODIALYSIS TECHNICIANS

MCHS has previously hired biology graduates within the dialysis program who are using the Clinical Hemodialysis Technician position to gain relevant healthcare experience before applying for medical school.

What does a Clinical Hemodialysis Technician do? Clinical Hemodialysis Technicians work alongside a nurse to provide care to patients with kidney failure (end-stage renal disease). They are responsible for safe set-up of dialysis equipment, initiation and discontinuation of dialysis treatments, and monitoring of the dialysis machines and patients’ needs and responses to treatment.

Work Environment. At Mayo Clinic Health System, hemodialysis technicians generally work 12-hour day shifts. The dialysis technician role requires ability to work in a fast-paced environment, have strong organizational skills, desire to build close relationships with patients, and work within a dedicated and driven team.

Link to apply: Careers in Eau Claire, Wisconsin - Mayo Clinic Health System

Contact-Ashley Nesbit, MS, RN | Nurse Manager, nesbit.ashley@mayo.edu if you have questions.
WE ARE HIRING!

Pre-Med / Pre-PA Clinical Assistants

Roseville | Maplewood | Faribault | Monticello

**Academic Resources**
Area Health Education Centers (AHEC) has partnered with The Princeton Review to offer these prep materials at a reduced cost.

Please contact Nicole if interested. nthill@nahec-wi.org

Academic Skills Center offers Peer Academic Coaching Available

The Academic Skills Center is now offering Peer Academic Coaching. Available to all UWEC students, these hour-long meetings offer students an opportunity work with a trained peer to improve a variety of academic skills,
including time management, study skills, note-taking, and reading comprehension. For more information or to schedule a session, contact Dr. Jack Reid.

HEALTH CAREERS CENTER LENDING LIBRARY
If you are looking for study materials, or resource material, you are welcome to check out our books! Whether you are taking the DAT, MCAT, OAT, PCAT or GRE, we have a free lending library available to Pre-Health Students, you do not even need a library card! Our library also includes general reference, application, and study guides. We just ask that you sign out the book you want and return it when finished. You can use the books as long as you need!

Please email HCC@uwec.edu to reserve your book, the book will be prepared for you, and a time will be arranged to pick up the material.

View the materials available here!

ADVISING WITH DR. ANDERSON
Dr. Anderson is taking appointments for advising! She is available in-person, phone, or virtually via ZOOM.

Click here to schedule an appointment

Schedule an appointment to discuss anything from registering for the right classes to advice on internships, volunteering, and reviewing your personal statements.

PRE-HEALTH/BIOLOGY PEER ADVISING
If you need any assistance from Chloe or Blake, our peer advisors, they are available by DROP-IN, or virtually VIA EMAIL OR VIDEO CHAT during the following times:

Monday — 11-1:45 pm
Tuesday — 12-3 pm
Wednesday 10-12:15 pm & 3:30-4:30 pm
Wednesday 4:30-5:30 pm (virtual only)
Thursday — 9:20-12:20 pm & 1-3 pm

They can be reached by email at: BioPeerAdvising@uwec.edu
Or click below and book an in-person or virtual appointment with them via NAVIGATE.

**CLICK HERE TO REQUEST A ONE-ON-ONE MEETING VIA NAVIGATE.**

They will assist in Preparing 4-year plans, planning Pre-Professional health Programs, CampS, and Canvas; choice of majors, understanding your degree, registration, transcripts and more!

You can find previous editions of the newsletter, as well as, more useful information on our UWEC webpage
