## I Plan To Stay On Campus for a Short Time Beginning of Summer, Then Leave Campus but Return to Campus Later in Summer

- On your summer contract, enter the dates for stay #1. Then put in the NOTES section the dates of stay you need for stay #2. The date section will only allow you to put one stay so add additional information for the housing staff to know about your second arrival period.
- In this scenario, you will be given an assignment for the stay #1. If your short stay means you will leave around the beginning of June, you will need to move to a temporary assignment in Murray for this stay most likely and may not remain in spring assignment. If stay #1 is later than beginning of June, you will be assigned to Chancellors or Haymarket.
- For stay #2, you will be assigned a different summer assignment most likely not the same room as stay #1.
- You may not store your personal items and must remove them after stay #1. You would only be charged for the dates of stay.
