

Why Be A Cooperating Teacher?

UW - Eau Claire Field Experience

Reflect | *Connect* | *Discover*

**SEE YOUR CLASSROOM
FROM A DIFFERENT
PERSPECTIVE**

Whether you have been teaching for five months, five years, or five decades, you have a way of teaching that is unique to you. Reflecting on your teaching style can give insight to new, upcoming teachers as they prepare to launch their career.

**RE-ENERGIZE THE
CLASSROOM**

Education is a dynamic field. Seeing new techniques in practice in your own classroom can reveal better ways to connect with your students. Sharing control of your classroom with a student can give you that opportunity.

**GET A FRESH LOOK ON
EDUCATION AND
TEACHING METHODS**

Students in the UWEC Teacher Education Program learn the newest techniques and methods and will bring another innovative perspective to your classroom. Student Teachers can be inspiring to watch as they engage students on a different level. Their excitement can bring new life to your classroom.

**MENTOR AN UP AND
COMING
PROFESSIONAL**

All Cooperating Teachers receive an adjunct card for on-campus programs and services. Those who host a Student Teacher can apply for a \$250 grant to provide innovative techniques in their classroom.

**SHARE WHY YOU LOVE
TO TEACH**
